ALAGAPPA UNIVERSITY

(Accredited with "A+" Grade by NAAC (CGPA:3.64) in the Third Cycle & Graded as Category-I University and Granted Autonomy by MHRD-UGC)

KARAIKUDI – 630 003

Date:26.09.2018

Under "Distinguished Lecture Series", Incubation and Technology Transfer Centre of Alagappa University, Karaikudi arranged a special lecture by eminent Scientist Dr.Mylswamy Annadurai, Former Director of the Indian Space Research Organisation (ISRO – Bengaluru) on 26.09.2018 at the Science Campus.

Presiding over the programme Prof.N.Rajendran, Vice-Chancellor, Alagappa University, stated that "the innovation is a combination of Science and Technology" and also said that science is theory and technology is practice". The way to achieve innovation is to have "courage and conviction and to perform thoughtfully designed hard work", he added He highlighted the significant role played by the Scientist Thiru.Mylswamy Annadurai in India's Space Research, especially in the launching of Chandrayaan-I and Mangalyaan Satellites. History shows that inspiring speeches of distinguished personalities could transform the life of listeners. The students of Alagappa University, he said, are really fortunate to listen to the speech of a space scientist par excellence Dr.Mylswamy Annadurai, In the past, men of intelligence using their common sense and experience devised the crude wooden boat and crossed the seas and conducted trade. But today, they have built powerful submarines by using latest scientific

technology. Men could achieve this miraculous progress by innovative thoughts and experiments, he said.

Speaking on the topic "Innovation: Redefined" Dr.Mylswamy Annadurai referred to the history of innovation through the existing models by pinpointing the role of lateral thinking. He mentioned that the best way to approach a problem should include innovative thinking. As a Former Director of ISRO, he shared the challenging problems he encountered before making the Chandrayaan-I and Mangalyaan missions successful. Specifically he said that he applied his lateral thinking with his team in approaching the hurdles while launching the satellites. He said that "having crazy ideas with systematic accomplishment is an outstanding approach for the successful innovation". He exhorted the students to delve deep into the subjects of their passion for progress in life and contribute to the nation's advancement by involving themselves in researches that would draw the attention of the world. He concluded by saying that they should act with this aim in mind.

Prof.H.Gurumallesh Prabu, Registrar, welcomed the gathering and Prof.K.Balamurugan, Coordinator, Incubation and Technology Transfer Centre, Alagappa University proposed the vote of thanks.
