About the University

Alagappa University, established by the Government of Tamil Nadu under an Act of the State Legislature in 1985, and located on a sprawling expanse of about 420 acres in the business town of Karaikudi in Sivagangai District in Tamilnadu, is ideally suited for higher education. The campus is accessible from Tiruchirappalli and Madurai in about 2 hours by surface mode of transport. This seat of Higher Education has emerged from a galaxy of institutions initially founded at Karaikudi by the munificent and multifaceted personality, **Padma Bhushan Dr.RM.Alagappa Chettiar** and is groomed to prominence as yet another academic constellation in Tamil Nadu. As a member of the Commonwealth Universities and Association of Indian Universities, it has rewarding relations with other national and international academic/ research/ industrial institutions that promise a spectacular future to the learners. It has been recognised under Sec.2 (f) and 12(b) of the UGC Act. It has been awarded "A" Grade by NAAC in Reaccreditation. The University's motto is "Excellence in Action" and the University keeps before it the vision of excellence in all spheres of its action. More on the University can be browsed from its website URL: http:// www. alagappauniversity.ac.in/

About the Department

The Department of Library & Information Science has been functioning in the University since 2006 with the aim of imparting up-to-date LIS education to the students through effective teaching programmes and practical training. The department is working with a vision to educate individuals for careers such as librarians, documentalists, information professionals, archivists, information scientists and knowledge managers. The students are educated and trained in order to undertake research and service oriented programmes which require a knowledge of emerging information on technological developments and market requirements. **Presently the Department is offering M.Lib.I.Sc. (2 Years), M.Phil. and Ph. D. programmes in Library & Information Science through regular stream** and it is also offering C.L.I.Sc, B.Lib.I.Sc, M.Lib.I.Sc. and PGDLAN under distance education mode.

About the Conference:

Public Library plays a crucial role in fostering knowledge for the development of a society; they are the major role players in the threshold of information dissemination activity dealing with organization, storage, retrieval and dissemination of information thus satisfying user expectations. But the information explosion and ICT revolution has created a major challenge for the library system to deal with the changing expectations of the user in the context of enormous availability of information in several places and in several forms. To keep pace with this phenomenon ICT application into library services has arisen. In fact, the emergence of ICT and its application in Library and Information Centres has revamped library services. Digital Libraries are the outcome of extensive research and development in the field of ICT and its application into library and information centers for enhanced services because in a technology driven world the libraries have to switch themselves from traditional libraries to Next Generation Libraries based on the need of the hour.

Therefore, this conference has been planned to provide a platform to enable interaction among public library professionals, academic library professionals, digital library experts, researchers, academicians, and students to adopt, implement and utilize Digital Library and all other available latest technologies. The conference will also address future implications towards shaping information paradigm to bridge the digital divide through knowledge sharing and to provide an opportunity to identify the strengths and gaps in the library system to suggest new models, policies and mechanisms for reshaping the traditional libraries into Next Generation Libraries.

Purpose and Objectives

The conference aims to explore the topics in themes and sub themes through invited talks and presentations. Eminent researchers, academicians and practioners will be invited to deliver the talks on the themes.

The Core objectives of this conference are:

- To create an awareness and enthusiasm among the professional community for building digital libraries and implement related latest technologies for reshaping traditional libraries into Next Generation Libraries.
- To be a major forum to discuss on various digital library issues and related emerging technologies thus to provide the road map for future improvement.
- The conference will also aim at strengthening academic collaboration and strategic alliance in the development of Digital Libraries in the country.
- To provide systems and programs that facilitate collaborative approach to digital library education, training and research to bridge digital divide.

Conference Theme and Sub-themes:

Main theme of the Conference:

"Information for All: Changing Role of Public Libraries in Digital India Initiatives"

The identified broad subthemes are:

Planning, development and management of digital libraries: Digital Library Services - Web design and Interfaces – Digital Preservation – Content Organisation and knowledge management – Information Storage and Retrieval for global access – E-learning & Information Literacy.

Digital Library Development Technical Issues: Organisation of Electronic Resources: Cataloguing, metadata, XML, Dublin Core, Next Generation OPACs, etc. – Indexing and Classification in a digital Environment, Taxonomies, Information architecture, Ontology, Natural Language Processing, Intelligent Mediators, etc. – Resource Discovery Tools, Search Engines, Directories, Intelligent Retrieval, Multi and Cross Lingual Retrieval, Information audit, etc.

New Technologies and adaptability: Leveraging Social Networking media for Library Services – Library 2.0 & 3.0 – Semantic Web – Smart Mobile Applications in Library – Library Services through Cloud Computing.

Resource sharing and Networking: Consortia – Open Archives – Digital Repositories – Open Source Software for Library Management – Library and Information centres & IPR – Right To Information.

Collection Development in Digital Environment: Content Management Systems (CMS), Collection
