M.B.A. (L.M.) DEGREE EXAMINATION, MAY 2014.

First Semester

MANAGEMENT CONCEPTS

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain Henry Fayol's principles of management.

2. Explain the various merits and demerits of centralisation and decentralization

3. Describe the factors affecting span of control.

4. Point out the important decision making model and bring out the decision making process.

5. What is strategic alliances'?

6. Discuss the advantages of function-based departmentation.

7. What is meant by Man Power Planning? Explain its process or steps and the various importance of man power planning.

8. What is Bench Marking? State the types of Bench Marking Process.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. "Planning is looking ahead and controlling is looking behind". In the light of this statement, critically examine the concept of managerial control.

10. Compare and contrast the decisions made under conditions of Certainity, Risk and Uncertainity.

11. What is motivation and explain any two theories of motivation?

12. Define leadership. Discuss the different styles of leadership.

13. "Budgetary control is a tool of planning, co-ordination and control" -Discuss.

14. Discuss types and process of communication. What are the common barriers to effective communication and how can they be overcome?

15. Define TQM and state its basic concepts, essentials and principles.

First Semester

ORGANISATIONAL BEHAVIOUR

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Elaborately discuss the various OB Models.

2. How perception is formed? Differentiate perception from sensation.

3. What is political behaviour? What are techniques of managing political behaviour?

4. Discuss four management practices that help in reducing employee stress.

5. "Organisation development involves the development of the organization in the light of its future expansion plan" – Discuss.

6. Discuss the importance of organisational climate on organisational behaviour.

7. What are the background factors that determine group behaviour in an organisation?

8. Explain the process of conflict and the strategies you will adopt to encourage constructive conflict.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. "Both formal and informal groups are necessary for the group activity just as two blades are essential to make a pair of scissor workable". Comment on this statement.

10. What is group dynamics and why is it important? How can you bring cohesion in a group to the advantage of your organization?

11. Distinguish between power and politics. What are the sources and types of power and how does power differ from authority?

12. What are the sources of stress and the main measures to manage stress? Explain the consequences of stress in an organisation.

13. What is organizational culture? How does it affect the behaviour of the employees?

14. 'Change is highly important to the success of an organisation" – Discuss. What are some of the techniques developed in creating organisational change?

15. Discuss the major OD interventions. In your opinion, which OD intervention is most effective and why?

M.B.A. (LM) DEGREE EXAMINATION, MAY 2014.

First Semester

MANAGERIAL ECONOMICS

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Show the significance of economic analysis in business decisions.

2. Discuss the various determinants of demand.

3. Explain the economic method of estimating cost function. Why is this method more popular than the other methods of cost estimation?

4. What is price discrimination? What are its objectives?

5. Analyze the different forms of capital budgeting.

6. What are the methods of controlling inflation?

7. What are the reasons for Government Control over Price of a Product?

8. Distinguish between economic profits and accounting profits with suitable examples.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. "It is not the final theorems of economics that are important to management but rather the method of reasoning". Discuss.

10. Examine the concepts of price elasticity, income elasticity and cross elasticity of demand and discuss their usefulness to business unit.

11. Elucidate essential steps for the successful cost reduction programme.

12. Distinguish between various degrees of differential pricing. What conditions are needed for effective differential pricing?

13. What is profit forecasting? Explain the different methods of profit forecasting.

14. Explain the significance of national income analysis in managerial economics.

15. What are the exceptions to the law of demand?

DE–8692 **14**

DISTANCE EDUCATION

M.B.A. (LM) DEGREE EXAMINATION, MAY 2014.

First Semester

FINANCIAL AND MANAGEMENT ACCOUNTING

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain the reason for showing proprietor's capital in the liability side of the Balance Sheet with relevant accounting concept.

2. What is Depreciation? Discuss the causes and need for providing depreciation.

3. What is Trial Balance? What are the errors rectified by Trial Balance?

4. Interpret the following ratios :

   Debt equity ratio 3:5, Proprietary ratio 5:8, Capital gearing ratio : 0:75:1.

5. What do you understand by analysis and interpretation of financial statements?

6. Explain the concept of flow of funds.

7. Critically examine the advantages and disadvantages of NPV.

8. Explain the various types of budget.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Why does an accountant follow the principle 'anticipate no profit, provide for all losses'? On which accounting concept is this based? Explain its significance and discuss.

10. What are the advantages of ratio analysis?

11. What are the differences between financial accounting and management accounting?

12. From the Balance Sheet of SJK Ltd, prepare fund flow statement.

Liabilities	2002	2003	Assets	2002	2003
	Rs.	Rs.		Rs.	Rs.
Equity share	3,00,000	4,00,000	Goodwill	1,15,000	90,000
Preference capital	1,50,000	1,00,000	Land and building	2,00,000	1,70,000
General reserve	40,000	70,000	Plant	80,000	2,00,000
P and L a/c	30,000	48,000	Debtors	1,60,000	2,00,000
Proposed dividend	42,000	50,000	Stock	77,000	1,09,000
Creditors	55,000	83,000	Bills receivable	20,000	30,000
Bills payable	20,000	16,000	Cash in hand	15,000	10,000
Provision for taxation	40,000	50,000	Cash at bank	10,000	8,000
	6,77,000	8,17,000		6,77,000	8,17,000

Additional information :

(a) Depreciation of Rs. 10,000 and Rs.20,000 have been charged on plant and land and buildings respectively in 2003

(b) A dividend of Rs.20,000 was paid in 2003

(c) Income tax of Rs. 35,000 was paid in 2003.

13. Explain the method of computation of cash from operations. Explain the managerial uses of cash flow analysis.

14. Project X initially costs Rs. 25,000. It generates the following cash flows :

Year	Cash inflows (Rs.)	Present value of Re. 1 @ 10%
1	9,000	.909
2	8,000	.826
3	7,000	.751
4	6,000	.683
5	5,000	.621

Taking the cut-off rate as 10% suggest whether the project should be accepted or not.

15. For production of 10,000 units following are the budgeted expenses :

Particulars	Per units (Rs.)
Direct material	60
Direct labour	30
Variable overheads	25
Fixed overheads (Rs. 1,50,000)	15
Variable expenses	5
Selling price (10% fixed)	15
Administrative expenses (Rs. 50,000 fixed for all production levels)	5
Distribution expenses (20% fixed)	5
Total cost of sales per unit	160

Prepare a budget for 6,000 and 7,000 units showing distinctly marginal cost and total cost.

First Semester

PRINCIPLES OF LOGISTICS MANAGEMENT

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Is there a conflict between the responsibilities of logistics group and marketing group with an organization? Comment.
2. What are the suitable transport mode for small, high value shipments and large, low value shipments? Give reasons.
3. Why is it said that choice of location for a plant is one of the most neglected aspects of business?
4. Explain the relationship between logistics management and customer satisfaction.
5. What are different steps in making a warehousing strategy?
6. Which one is more important in supply chain out of inbound and out-bound logistic and why?
7. Write a short note on 'market channel structure'.
8. What do you understand by six-sigma quality in supply chain?

PART B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What do you understand by Integrated Logistics Management? Discuss the role of logistics in supply chain.

10. Explain the types of distribution strategies you would follow in logistics management.

11. What is DRP II? How does it differ from Distribution Requirements Planning?

12. Describe the role of logistics in marketing.

13. Discuss the nature and importance of warehousing and explain the types of warehouses.

14. Explain the logistics infrastructure in India and its implications for supply chain management.

15. Explain the role of e-business in a supply chain.

DISTANCE EDUCATION

M.B.A. (LM) DEGREE EXAMINATION, MAY 2014.

Second Semester

QUANTITATIVE METHODS

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

SECTION A — ($5 \times 8 = 40$ marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the different types of costs? List out the costs that are relevant to decision- making.

2. Explain graphical representation of functions and their applications.

3. Distinguish between 'feasible solution' and 'basic feasible solution'.

4. Why is simplex method a better technique than graphical method for real cases?

5. What is meant by 'traveling salesman problem'?

6. Explain Baye's theorem.

7. Explain the use of simulation in queueing system with an example.

8. Write a note on Decision Tree Analysis.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Suppose a manufacturer can sell X item per week at a price $p = 20 - 0.001$ X rupees each when it costs $y = 5X + 2000$ to produce X items. Determine the number of items he should produce per week for maximum profit.

10. Solve the following LPP using simplex method.

Maximize: $z = 3x + 9y$

Subject to the constraints

$x + 4y \leq 8$
$x + 2y \leq 4$
$x, y \geq 0.$

11. Find the optimum solution to the following transportation problem. Use least cost method to find initial basic feasible solution.

Factory	Warehouse				Capacity
	A	B	C	D	
Chennai	42	48	38	37	160
Bombay	40	49	52	51	150
Bangalore	39	38	40	43	190
Demand	80	90	110	160	

12. Solve the following assignment problem.

		Workers			
		A	B	C	D
	1	5	20	10	15
Task	2	10	30	5	10
	3	30	20	12	20
	4	10	2	4	32

13. The arrival rate of vehicles arriving at a toll gate follows Poisson distribution with a mean arrival rate of 50 vehicles per hour. Find the probability that (a) no vehicle will arrive in one hour, (b) exactly 40 vehicles will arrive in one hour, (c) at most 5 vehicles will arrive in one hour, (d) at least 6 vehicles will arrive in one hour

14. A company owns a lease on a certain property. It may sell the lease for Rs. 75,000 or may drill the said property for oil. Various possible drilling results are as under along with the probabilities of happening and rupee consequences.

Possible result	Probability	Rupee consequences
Dry well	0.10	-1,00,000
Gas well only	0.40	45,000
Oil and gas combination	0.30	98,000
Oil well	0.20	1,99,000

Draw a decision tree for the above problem and determine whether the company should drill or sell.

15. Explain the three types of approaches of probability.

Second Semester

BUSINESS ENVIRONMENT

(Upto 2012 – 13)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the government policies towards management of natural resources.

2. Why is social responsibility important for business?

3. Describe the different types of banking services.

4. Is there any impact of information technology on business? Comment.

5. Explain the relevance of environmental issues on the economic development.

6. Explain the concept of financial and technical collaborations.

7. What are the functions of WTO?

8. Discuss the merits and demerits of globalization.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Examine the interaction between economic environment and business management. How the environment and management influence each other? Explain with suitable examples.

10. Explain the various schemes and incentives available for the growth of SSI in India.

11. Describe the various functions of stock exchanges in India.

12. Discuss the role of the Government in controlling the Foreign Exchange.

13. EXIM policies in India-Critically examine.

14. Explain the importance of consumer protection and the legal framework for it.

15. Foreign capital inflow need not necessarily be regulated in India in the present scenario. Do you agree? Substantiate your argument.

BUSINESS RESEARCH

(Upto 2012–2013)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What is the necessity of defining a research problem? Explain.

2. Explain and illustrate the two group simple randomised design.

3. Point out the possible sources of errors in measurement. Describe the tests of sound measurement.

4. Distinguish between an experiment and survey method in research.

5. Why tabulation is considered essential in a research study? Narrate the characteristics of a good table.

6. Write a brief essay on statistical estimation.

7. The procedure of testing hypothesis requires a researcher to adopt several steps. Describe in brief all such step.

8. State the reasons why sampling is used in the context of research studies.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Describe fully the techniques of defining a research problem.

10. Critically examine the case study method in sociological research.

11. Write short note on

    (a) Central limit theorem

    (b) Student's t distribution

    (c) Sampling error.

12. Two random samples drawn from two normal populations are

    Sample 1 : 20 16 26 27 23 22 18 24 25 19 – –

    Sample 2 : 27 33 42 35 32 34 38 28 41 43 30 37

    Test using variance ratio at 5 per cent and 1 per cent level of significance whether the two populations have the same variances.

13. Narrate the various advantages and limitations of using non–parametric test.

14. Name the important multivariate techniques. Explain the important characteristics of each one of such techniques.

15. Explain the significance of a research report. Narrate the various steps involved in writing such a report.

GLOBAL BUSINESS AND MNCs

(Upto 2012 – 13)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the Technology Environment factors in International Business.

2. Write a note on Indian Joint Ventures Abroad.

3. What are the objectives and functions of ECGC?

4. Explain the U.N. code of conduct of MNCs.

5. What is SAARC? Discuss its role.

6. Expand NAFTA. Discuss its objectives.

7. Write short notes on SAPTA.

8. Describe the functions and role of IMF.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Describe the International Code of conduct for the transfer of technology.

10. Explain the various types of invoices used in foreign trade.

11. Discuss the factors affecting Foreign Direct Investment in India.

12. Discuss the merits and demerits of Multinational Corporation.

13. Discuss the procedures for International Commercial arbitration.

14. Discuss the Trade related aspects in Intellectual Property Rights.

15. What are the anti-dumping duties and countervailing duties of WTO?

MODERN LOGISTICS OPERATIONS

(Upto 2012–13)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. How does kanban be applied in inventory logistics?

2. What is VMI? How is it helpful in a manufacturer monitoring the distributors' inventory?

3. Explain the role and types of network terminals.

4. Explain the operational regulations related to time perishable and quality perishable logistics.

5. Explain the issues involved in life cycle logistics of products.

6. Distinguish between the customs formalities of export and import logistics.

7. What is E-logistics? Explain its applications for the effective logistics operations.

8. What are advantages of application of automatic identification technology in logistics operations?

PART B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the concept of marketing functions within the framework of logistics operations.

10. Discuss briefly the operational functions of import logistics.

11. Compare and contrast the differences in logistics operations of 3PL and 4PL services.

12. Describe the value added services of 4PL.

13. How does demand forecasting logistics help in production functions?

14. What is the need and characteristics of a logistics information system? Explain its design with a suitable illustration.

15. Discuss the salient features of UN International convention on multimodal transport of goods.

PACKING AND PACKAGING MANAGEMENT

Time : Three hours Maximum : 100 marks

PART A — ($5 \times 8 = 40$ marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Describe the Role, Importance and Principles of Packaging.

2. An optimally designed package is simply 'higher net profit package'. Do you agree or not? Substantiate.

3. How does shrink-and stretch-wrap differ in terms of logistical benefits? Are there other differences?

4. What is cost trade-offs? Explain its impact on packaging.

5. Give overview of RFID technology and its applications in a packaging industry.

6. What is BOL? What are its features?

7. What is bar coding in packaging? Explain its purpose and applications in packaging industry.

8. Explain the significance of labels and symbols in packaging, with suitable examples.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss different types of packaging.

10. Packing logistics is an approach which aims at developing packing and packing systems in order to support the logistical process and to meet customer/user demands." Explain with suitable examples.

11. Discuss how does the information technology helps in identification of packaged goods, with suitable illustrations.

12. Discuss the design issues you would consider for consumer packaging and industrial packaging in terms of marketing and logistics.

13. Discuss the applications of packing materials with suitable illustrations.

14. Write short notes on :

    (a) Eco-friendly packaging,

    (b) Recycling,

    (c) Security printing, and

    (d) Packaging standards.

15. Explain the various packaging processes and its mechanization involved in a pharmaceutical industry.

RAIL ROAD LOGISTICS

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the future prospects of logistics in terms of rail and road.

2. What is 'Scale R' or 'Scale S', etc., in the context of parcel service?

3. What is Wagon Pooling? What are non-pooled wagons and local traffic wagons?

4. In what way the national highways and toll highways contribute to the growth of roadways?

5. What is the state of intermodal transportation in India?

6. Show that technology had contributed to container movement in rail and road logistics.

7. What is freight consolidation and what are its advantages?

8. What is the role of Truckers' Bodies in road cargo movement?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Compare and contrast the processes of in-bound and out-bound logistics.

10. India's freight transport relies excessively on roads. Do you agree? Substantiate.

11. What are the popular and innovative schemes that are offered by Indian railways?

12. Discuss the principles governing the freight rate determination of road cargo.

13. Explain the factors that are responsible to the growth of road logistics.

14. Discuss the impact of energy products on road logistics.

15. Write short notes on (a) Dedicated Freight Corridor, (b) Container Rail and (c) Freight Train.

STRATEGIC LOGISTICS MANAGEMENT

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What is the role and responsibilities of a Logistics Strategist?

2. How does the conventional JIT enable logistics strategies?

3. Vendor Managed Inventory can be used as a tool in strategic logistics. Explain.

4. What is the balanced score card? What are it main perspectives?

5. Explain the strategic role of benchmarking in logistics performance.

6. What are the benefits of strategic alliances?

7. Bring out the relationship between leadership and corporate culture.

8. What is Corporate Governance? How Corporate Governance has an impact on Corporate Strategy of Corporations.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the impact of 3PL and 4PL on company's strategic relationship and competitive advantage. Out of 3PL and 4PL, which do you think has more advantage strategically?

10. Discuss the factors that are responsible for competition in logistics organization.

11. What is internal analysis? Explain the role of internal analysis in strategy formulation of a logistics firm.

12. Explain the PESTLE framework in detail.

13. Discuss the steps of Porter's value chain.

14. What are the seven strategy questions posed by Simon? Explain how posing these questions can help managers make better strategies.

15. What are the key features that impact a strategic alliance?

IT FOR LOGISTICS MANAGEMENT

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Distinguish between LAN and WAN usage in Logistics management, with an example.

2. List some of the features of power point application in Logistics management.

3. Why the high-tech industry has been leader in adopting IT systems in Logistics Management?

4. What is the role of a knowledge worker in Logistics management?

5. Write short note on mobile commerce.

6. What are the reasons of popularity of some Information and Technology (IT) based tools in Logistics? Briefly discuss a few of them.

7. Explain, how would you use the techniques of PERT and CPM in Logistics management, with an example?

8. Illustrate how funds could be transferred electronically using smart cards and plastic money, in Logistics management.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the role of computers in Logistics management.

10. Discuss the impact and benefits of IT elements in logistics management.

11. What are information requirements at the strategic, tactical and operational level of Materials Management System?

12. Explain E-commerce trade and B2B exchange.

13. What do you understand by "Bullwhip effect"? Mention some factors that contribute towards bullwhip effect. Also suggest some method by which one can reduce this effect.

14. Write notes on :

    (a) Electronic Data interchange

    (b) Data warehousing and Data Mining.

15. Explain how inter-organizational information system would support decision making in marketing, production, purchase management functions.

DE–8703 **35**

DISTANCE EDUCATION

M.B.A. (L.M.) DEGREE EXAMINATION, MAY 2014.

Third Semester

BUSINESS LAWS

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the classification of contracts according to enforceability and performance.

2. "An acceptance to be effective, it must be communicated to the offeror". Are there any exceptions to this rule?

3. What are the different kinds of agents?

4. What are the rights and privileges of the holder in due course?

5. What is Partnership deed? State its main contents.

6. Define 'Bailment'. How does a bailment differ from a pledge?

7. What do you mean by re-insurance and distinguish it from double insurance?

8. State the rights and duties of company directors.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the various modes in which a contract may be discharged.

10. Who is an unpaid seller? What are his rights against the goods and the buyer?

11. Discuss the different modes in which the authority of an agent may terminate.

12. What are the various types of negotiable instruments? Explain them in brief.

13. Discuss the salient features of Contract of Insurance.

14. What is Memorandum of Association? Discuss the contents of it.

15. Lloyds Insulations India Limited (First Company) was registered on 6th June 1977 and the Registrar of Companies had issued the necessary certificate. Two of the outgoing directors of Lloyds Insulations India Limited had registered a new company in the name of Lords Insulations India Private Ltd. (Second Company) on 10th March 2003 and the Registrar of Companies also registered the said company. The products of both the companies are the same, namely, the insulations and ancillary materials. The first company objected to the similarity of names of the second company and approached the Regional Director (RD), Department of Company Affairs to change the name of the Second

Company. The RD directed the second company to change its name under section 22 of the Companies Act. The Second Company challenged the order of the RD in the Madras High Court. The First Company won the case. Answer the following questions :

(a) Whether the Second Company is right in registering the name similar to the one of the First Company?

(b) Whether the Registrar of Companies can register a similar name of the Company?

(c) Whether the Second Company can claim its name as a matter of right?

(d) Give reasons for the First Company winning its case at Madras High Court.
