RW-6226 **811101**

M.P.Ed. DEGREE EXAMINATION, NOVEMBER 2010

Physical Education

PHILOSOPHICAL AND SCIENTIFIC BASES OF PHYSICAL EDUCATION

(CBCS–2008 onwards)

Time : 3 Hours Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

All questions carry equal marks.

1. Define Philosophy.

2. Define Idealism.

3. Explain Law of Readiness.

4. Define Motivation.

5. Explain the benefits of Sports.

6. Define Sports Sociology

7. Explain Curriculum Design.

8. Define Curriculum.

9. Explain Curriculum reform.

10. Explain Administration Standard.

Part - B (5 × 5 = 25)

Answer **all** questions.

All questions carry equal marks.

11. (a) Explain the application of pragmatism in Physical education.

(*Or*)

(b) Explain Body mechanics.

12. (a) Explain Trial and Error theory of learning.

(*Or*)

(b) Explain conditioned Response Theory of Learning.

13. (a) Explain the sociological implications of Educational sports.

(*Or*)

(b) Explain the "Group Dynamics".

14. (a) Explain the preliminary considerations for Curriculum planning.

(*Or*)

(b) Explain the role of administration in curriculum transaction.

15. (a) Explain the benefits of Physical education curriculum.

(*Or*)

(b) Explain research in Curriculum.

Part - C

(3 × 10 = 30)

Answer any **three** of the following.

All questions carry equal marks.

16. Describe the need of philosophy and explain the application of various schools of philosophy in Physical education.

17. Explain the types of learning and describe the individual difference in learning.

18. Explain how sports sociology helps in group cohesion.

19. Explain various aspects of curriculum for a college.

20. Explain various measures to improve curriculum.

M.P.Ed DEGREE EXAMINATION, NOVEMBER 2010

Physical Education

MANAGEMENT OF PHYSICAL EDUCATION AND SPORTS

(CBCS—2010 onwards)

Time : 3 Hours Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

All questions carry equal marks

1. Organisations — Explain.

2. Duties of a Manager.

3. List out Outdoor activities.

4. Types of Budget.

5. Supply and Demand.

6. List out special activities for disabilities.

7. Define Recreation.

8. Risk Management.

9. Sources of Income.

10. Personal policies.

Part - B (5 × 5 = 25)

Answer **all** the questions

All questions carry equal marks

11. (a) Explain need and importance of Management.

(*Or*)

(b) Explain the principles of Management.

12. (a) Explain the management of Physical education and Sports programme.

(*Or*)

(b) Explain different methods of Evaluation in Physical Education programme.

13. (a) Explain the aim of Office Management.

(*Or*)

(b) Explain–Class Management.

14. (a) Describe the factors involved in the Marketing of sports.

(*Or*)

(b) Explain the guiding principles for purchasing of sports and games equipment.

15. (a) Explain the importance of Records and Reports.

(*Or*)

(b) Define Health and explain the need for health consideration in facility planning.

Part - C (3 × 10 = 30)

Answer any **three** questions.

All questions carry equal marks.

16. Explain Management guidelines for Physical education programme in schools and colleges.

17. Explain the Management structure to fulfill the objectives of Physical education.

18. Explain the Qualities and Qualifications of a Coach and a Physical education teacher.

19. Explain in detail regarding checking, storing, using and maintaining equipments.

20. Define Budget and prepare Budget for Physical education programme for your school for an amount of Rs.20,000/-.

RW-6228 **811103**

M.P.Ed. DEGREE EXAMINATION, NOVEMBER 2010

Physical Education

SPORTS PHYSIOLOGY

(CBCS–2008 onwards)

Time : 3 Hours Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

All questions carry equal marks.

1. Pure blood.

2. Motor unit.

3. Slow twitch fiber.

4. Stroke volume.

5. Alveoli.

6. Reaction time.

7. Cardiac cycle.

8. Vital capacity.

9. Tidal volume.

10. Resting heart rate.

Part - B (5 × 5 = 25)

Answer **all** questions.

All questions carry equal marks.

11. (a) Explain fat metabolism.

(*Or*)

(b) Explain protein metabolism.

12. (a) Describe the stair case phenomenon.

(*Or*)

(b) Explain the process of heat production in the muscle.

13. (a) Explain the voluntary control of muscular unit.

(*Or*)

(b) Describe the physiological changes takes place in underwater condition.

14. (a) Explain about the structure of the heart.

(*Or*)

(b) Explain the structure of the skeletal muscle.

15. (a) Explain the effect of exercise of cardiac output.

(*Or*)

(b) Describe the effect of high altitude training in physical performance.

Part - C

(3 × 10 = 30)

Answer any **three** questions.

All questions carry equal marks.

16. Distinguish between aerobic metabolism and anaerobic metabolism.

17. Explain the effect of training on muscular system.

18. Distinguish the effect of exercise between 'hot humid climate' and 'hot dry climate'.

19. Explain about the lung volumes and capacities.

20. Explain the effect of exercise on circulatory system.

M.P.Ed. DEGREE EXAMINATION, NOVEMBER 2010

Physical Education

Elective—LIBRARY TECHNIQUES

(CBCS–2008 onwards)

Time : 3 Hours | Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

All questions carry equal marks.

1. Define 'Library'.

2. Mention the functions of library.

3. Define 'Resources Sharing'.

4. What is meant by 'Documentation Service' ?

5. Define Library Classification'.

6. What is library catalogue ?

7. State the types of budget in library.

8. List out the furniture used in library.

9. Define 'Automation'.

10. What are the advantages of computer in library ?

Part - B (5 × 5 = 25)

Answer **all** questions.

All questions carry equal marks.

11. (a) Mention different types of libraries.

(*Or*)

(b) Explain Library movement in India.

12. (a) What are the areas of resource sharing ?

(*Or*)

(b) Write about the need of resource sharing.

13. (a) Explain the terms 'DDC' and 'UDC'.

(*Or*)

(b) State the functions of library catalogue.

14. (a) Mention the periodical sections and list out its functions.

(*Or*)

(b) Write about technical maintenance of library.

15. (a) Write down the areas of automation.

(*Or*)

(b) Explain the need of automation.

Part - C (3 × 10 = 30)

Answer any **three** questions.

All questions carry equal marks.

16. Describe the five laws of library science.

17. Explain in detail the sources of information and its types.

18. Write the purpose of library catalogue and explain the catalogue codes 'CCC' and 'AACR2'.

19. Discuss briefly the functions and principles of library management.

20. Elucidate the application of computers in library and mention its benefits.

RW-6230 **811301**

M.P.Ed. DEGREE EXAMINATION, NOVEMBER 2010

Physical Education

SPORTS TRAINING

(CBCS–2008 onwards)

Time : 3 Hours Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

All questions carry equal marks.

1. Meaning of 'Sports training'.

2. Aim of sports training.

3. What is training ?

4. Define 'Co-ordination'.

5. Define 'Explosive strength'.

6. What is training session ?

7. What is a 'Coaching Schedule' ?

8. What is competition system ?

9. Define 'Intensity'.

10. Define 'Density'.

Part - B (5 × 5 = 25)

Answer **all** questions.

All questions carry equal marks.

11. (a) Explain the process of sports performance.

(*Or*)

(b) What are the characteristics of sports training ?

12. (a) Explain the load and its adaptation.

(*Or*)

(b) What are the causes of overload ?

13. (a) What are the tactics to be used in developing 'Speed' ?

(*Or*)

(b) Explain the methods to develop co-ordination.

14. (a) Describe the various types of training plans.

(*Or*)

(b) Explain 'Single periodisation.

15. (a) What are the various stages of motor development ?

(*Or*)

(b) What is the procedure to be followed for preparing competition ?

Part - C (3 × 10 = 30)

Answer any **three** questions.

All questions carry equal marks.

16. Explain in detail the general principles of 'Sports Training'.

17. Describe the different components of 'load' with suitable examples.

18. Define 'Speed endurance' and explain the methods to be followed for its development.

19. Explain the need and importance of 'Double periodisation' and its process.

20. Describe the factors which are to be considered for talent identification.

M.P.Ed., DEGREE EXAMINATION, NOVEMBER 2010

Physical Education

SPORTS BIO-MECHANICS

(CBCS—2008 onwards)

Time : 3 Hours Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.
All questions carry equal marks.

1. Meaning of bio-mechanics.

2. Distinguish Speed and Acceleration.

3. Define the term 'Vector'.

4. State the components of Lever.

5. What is meant by 'Friction' ?

6. Define 'Projectile'.

7. What is 'Kinetic energy' ?

8. Define 'Force'.

9. Define Certrifugal 'force'. Give an example.

10. What is meant by 'distortion' ?

Part - B (5 × 5 = 25)

Answer **all** questions.
All questions carry equal marks.

11 (a) Bio-mechanics plays a vital role in enhancing sports performance—How ?

(*Or*)

(b) Explain the stages of Equilibrium.

12. (a) Classify the Lever with suitable examples.

(*Or*)

(b) DifferentiateSliding and Rolling friction.

13 (a) Explain path of projectile.

(*Or*)

(b) Write the application of principles of work, energy and power in sports and games.

14 (a) What is air resistance ? How it is associated with sprinting events ?

(*Or*)

(b) Give a brief note on Aerodynamic principle.

15 (a) Explain the biomechanical principles involved in horizontal jumping events.

(*Or*)

(b) Explain the bio-mechanical principles involved in vertical jumping events.

Part - C (3 × 10 = 30)

Answer any **three** questions.
All questions carry equal marks.

16. Define 'efficient movements'. Discuss various pre-requisites of efficient movements.

17. Examine the factors determine the degree of stability.

18. Give an account of application of principles of projectile to throwing events.

19. Classify and explain different types of spin and its application to games and sports.

20. Write in detail the application of bio-mechanical principles on throwing events.

M.P. Ed. DEGREE EXAMINATION
NOVEMBER 2010

Physical Education

STATISTICS IN PHYSICAL EDUCATION

(CBCS—2008 onwards)

Time : 3 Hours Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

All questions carry equal marks.

1. Define Population.

2. Define Parameter.

3. Define Skewness.

4. Meaning of Kurtosis.

5. Meaning of Level of significance.

6. Meaning of Reliability.

7. Meaning of Correlated data.

8. Meaning of Uncorrelated data.

9. Meaning of equal size sample.

10. Define Variance.

Part - B $(5 \times 5 = 25)$

Answer **all** questions.
All questions carry equal marks.

11. (a) Write the meaning of Mean deviation, Quartile deviation and Standard deviation.

(*Or*)

(b) Explain the characteristics and uses of measures of variability.

12. (a) Compute Quartiles and Quartile deviation.

10, 20, 30, 50, 70, 80, 90.

(*Or*)

(b) Explain the meaning and importance of percentiles.

13. (a) Differentiate Type I and Type II error.

(*Or*)

(b) Differentiate One tailed and Two tailed test.

14. (a) Write the steps involved and formula used in computing '*t*' ratio for uncorrelated data.

(*Or*)

(b) Write the formula used at each step in computing '*t*' ratio for correlated data.

15. (a) Differentiate '*t*' ratio and 'F' ratio.

(*Or*)

(b) Assign rank and calculate rank order correlation.

X	:	10	30	20	40	10	50	60	70	80	90
Y	:	60	70	50	80	60	50	90	90	70	80

Part - C

(3 × 10 = 30)

Answer any **three** questions.
All questions carry equal marks.

16. Calculate Mean deviation and Standard deviation for the given ungrouped data.

11, 13, 15, 17, 19

17. Write in detail about normal curve.

18. Describe the meaning and uses of standard scales.

19. Calculate '*t*' ratio for two independent samples

Group I :	3	5	7	9	11
Group II :	12	13	15	17	13

20. Calculate F ratio for three independent samples of equal size.

Volleyball	Football	Handball
1	2	3
4	5	6
7	8	9
11	13	12
12	17	15

RW-6233 **811501**

M.P.Ed. DEGREE EXAMINATION, NOVEMBER 2010

Physical Education

Elective—SPORTS PSYCHOLOGY

(CBCS—2008 onwards)

Time : 3 Hours Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

All questions carry equal marks.

1. Define Sports psychology.

2. Professional organisation in Sports psychology.

3. Define Motivation.

4. Setting tangible goals.

5. Define Emotion.

6. Role of Attention.

7. Goal setting for peak performance.

8. Benefits of Relaxation.

9. Define Mental health.

10. Burnout in Athletes.

Part - B (5 × 5 = 25)

Answer **all** questions.

All questions carry equal marks.

11. (a) Explain the importance of Sports psychology.

Or

(b) Explain the ethics in Sport psychology.

12. (a) Explain the need and analysis of Motivation.

Or

(b) Explain the characteristics of Perception.

13. (a) Describe the functions of Emotion.

Or

(b) How will you measure practicing effects.

14. (a) Explain concentration and attention control training.

Or

(b) Differentiate personality of Athlete and Non athlete.

15. (a) Explain the benefits of exercise on mental health.

Or

(b) Explain the role of aggression in Athletic competition.

Part - C (3 × 10 = 30)

Answer any **three** questions.

All questions carry equal marks.

16. Explain the need and importance of Sports psychology.

17. Define Perception and explain various theories of perception.

18. Explain the effect of practice on learning and the techniques of measuring practicing effects.

19. Explain the need of relaxation and explain any two relaxation techniques.

20. Explain various measures in treating anxiety and depression.
