DE– 4237 **11**

DISTANCE EDUCATION

M.B.A. DEGREE EXAMINATION, MAY 2012.

First Semester

Technology Management

MANAGEMENT CONCEPTS

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the contributions of Henri Feyol?

2. Explain the different types of Decision Making.

3. Briefly explain the purpose of organisation structure.

4. Differentiate centralization from Decentralisation.

5. What are the general principles of staffing?

6. Explain the process of communication.

7. Explain the process of control.

8. Write short notes on
   (a) Bench Marking.
   (b) Core competence.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Discuss in detail the contributors made by P.F. Drucker.

10. Discuss in detail the various components of planning.

11. Explain briefly the theories of organization.

12. Write short notes on:
    (a) Heizherg's theory of motivation.
    (b) Maslow's theory.
    (c) Theory Z.

13. Explain briefly the different Leadership Styles.

14. Explain:
    (a) JOHARI Window and its usefulness.
    (b) Six Sigma Concept.

15. What are the Barriers that affect effective organisational communication? How will you overcome them? Explain.

DE–4238 **12**

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2012.

First Semester

ORGANISATIONAL BEHAVIOUR

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain briefly the need to study OB.

2. What is learning? Explain the learning theories.

3. Explain the steps in Team Formation.

4. What are Group norms? Explain.

5. Explain the different types of Organisational Power.

6. What are the consequences of stress? Explain.

7. Explain the significance of organisational climate.

8. Briefly explain the nature and scope of OD.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. What is personality? Explain any two theories of personality.

10. Explain the factors influencing perceptual process.

11. What is Group cohesiveness? What are the factors that influence Group cohesiveness? Explain.

12. What is organisational politics? What are the factors that affect organisational politics? Explain its impact on organisations effectiveness.

13. What are the various levels of organisational conflict? What are the strategies used to resolve organisational conflict?

14. What is organisational change? What are its types? Explain levin's three stage change model.

15. What are the different types of stress? What are the sources of stress? Explain.

DE–4239 **13**

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2012.

First Semester

MANAGERIAL ECONOMICS

(2011 Academic Year Onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain the scope of managerial economics.

2. What are the types of elasticity of demand?

3. Explain the term demand function.

4. What are cases for diminishing return to scale?

5. Explain the impact of 'increase and decrease' in supply with suitable example.

6. Explain the various types of inflation.

7. Explain the concept of stagflation with reference to India.

8. Discuss 'Delphi Technique' of forecasting.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Write notes on: (a) Barometric method (b) Trend Progression (c) Macro economics (d) End-use method.

10. Explain economics of scale and different types of economies with illustrations.

11. Analyse the advantages and limitations of large scale production.

12. Discuss the factors determining 'Consumption' function.

13. "In the long-run all costs are variable". Discuss.

14. As a business manager, What steps would you to take during different phases of business cycle?

15. Explain the effects of 'inflation' and the effects of 'deflation'.

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2012.

First Semester

FINANCIAL AND MANAGEMENT ACCOUNTING

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Discuss the merits of double entry system.

2. Explain the term: Convention of Conservations.

3. Explain the term Accounting Cycle.

4. What is a 'Funds Flow Statement? Examine its managerial uses.

5. Explain the Imprest System of Petty Cash Book.

6. Explain the different types of errors with suitable example.

7. What is a master budget? How it is prepared?

8. What is a trial balance? Explain its objectives.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Distinguish between Trial Balance and Balance Sheet.

10. What do you understand by "Budgeting"? Mention the types of budget that man-agreement of a big industrial concern would normally prepare.

11. Explain the major sources of fund. Also state the differences between 'Funds From Operation' and 'Cash From Operation'.

12. Following are the ratios relating to the trading activities of an organization :

Debtors' Velocity – 3 months

Stock Velocity – 6 months

Creditors' Velocity – 2 months

Gross Profit Ratio – 20%.

Gross profit for the year ended 31st December, 1996 was Rs. 5,00,000. Stock at the end of 1996 was Rs. 20,000 more than what it was at the beginning of the year. Bills payable and receivable were Rs. 36,667 and Rs. 60,000 respectively.

13. From the following particulars, prepare the Funds Flow Statement :

Liabilities	1 Jan.	31 Dec.	Assets	1 Jan.	31 Dec.
	Rs.	Rs.		Rs.	Rs.
Creditors	36,000	41,000	Cash	4,000	3,600
P and L a/c	30,000	45,000	Debtors	35,000	38,400
Capital	1,48,000	1,49,000	Stock	25,000	22,000
			Land	20,000	30,000
			Building	50,000	55,000
			Machinery	80,000	86,000
Total	2,14,000	2,35,000	Total	2,14,000	2,35,000

Depreciation charged on machinery during the year Rs. 10,000.

14. From the following balances draw up a Trading and Profit and Loss Account and Balance Sheet.

Particulars	Amount Rs.
P. Prakash capital	20,000
Bank overdraft	5,000
Machinery	13,400
Cash in hand	1,000
Fixtures and fittings	5,500
Opening stock	45,000
Bills payable	7,000
Creditors	40,000
Debtors	63,000
Bills receivable	5,000
Purchases	50,000
Sales	1,29,000
Returns from customers	1,000
Returns to creditors	1,100
Salaries	9,000
Manufacturing wages	4,000
Commission and T.A.	5,500
Trade expenses	1,500
Discount (Cr.)	4,000
Rent	2,200

The closing Stock amounted to Rs. 52,000.

15. ABC Co. wishes to arrange overdraft facilities with its bankers during the period April to June when it will be manufacturing mostly for stock. Prepare a Cash Budget for the above period from the following data including the extent to bank facilities the company.

(a)

	Sales	Purchases	Wages
	Rs.	Rs.	Rs.
February	1,80,000	1,24,800	12,000
March	1,92,000	1,44,000	14,000
April	1,08,000	2,43,000	11,000
May	1,74,000	2,46,000	10,000
June	1,26,000	2,68,000	15,000

(b) 50 per cent of credit sales is realized in the month following the sale and the remaining 50 per cent in the second month following. Creditors are paid in the month following the month of purchase.

(c) Cash at bank on 1st April (estimated), Rs. 25,000.

DE–4241 **15**

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2012.

First Semester

PRINCIPLES OF TECHNOLOGY MANAGEMENT

(2001 Academic year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Carryout the Technology Impact Analysis of an Asonomic Power Station in India.

2. Illustrate how the analysis of alternate technologies helps the techno – economic feasibility Studies?

3. Describe, using examples, any two knowledge management techniques used for managing technology.

4. Enumerate and discuss various WTO provisions on technology transfer.

5. Using suitable illustrations, demonstrate the competition advantages through new technologies for an organization.

6. Describe the absorption strategies adopted by MNCs for acquired technologies.

7. Discuss the issues in managing creativity? Highlight the strategies adopted to handle the issues.

8. Explain the steps in carrying out Technology Audit.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Describe the evolution of Technology Policy in India. How it fuels/hampers growth in industry?

10. Using suitable illustrations, describe the Incremental and Leap forward approach to technology creation. Compare them.

11. Explain, with own data, the working methodology of Analytical Hierarchy processing method. Detail the preserver of Fuzzy logic in that.

12. Discuss the recent development in the IPR front in the world. State its' strategic management.

13. Describe the steps involved in the product development from scientific breathings. How it is taken to the market?

14. Highlight the Hi-Tech ventures in India. Detail the issues involved in their success/failure.

15. Detail the technology environment in Auto Sector. State the strategies adopted by the automakers worldwide to bring in synergy in this sector.

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2012.

Second Semester

QUANTITATIVE METHODS

(2011 academic year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Solve transportation problem for Initial Cost by northwest corner rule

	D_1	D_2	D_3	D_4	
P_1	2	3	11	7	6
P_2	1	0	6	1	1
P_3	5	8	15	9	10
	7	5	3	2	

2. Describe Linear and Nonlinear function.

3. Discuss the application areas of linear programming.

4. Find the Dual of the following LP

Maximize $Z = 40x_1 + 35x_2$

Subject to constraints :

$$2x_1 + 3x_2 <= 60$$

$$4x_1 + 3x_2 <= 96$$

$$x_1, x_2 >= 0 .$$

5. Define Binomial distribution and list out the basic assumptions.

6. Solve the Binomial probability for $n = 20$, $p = 0.40$ and $x = 10$.

7. Suppose in a Poisson distribution, the bank customers arrive randomly on weekdays at an average of 3.2 customers every 4 minutes. What is the probability of exactly five customers arriving in a 4 minute interval on a weekday? Given Lambda = 3.2 Customers per 4 minutes. The value of $x = 5$ customers per 4 minutes. $e^{-3.2} = 0.0408$.

8. A person repairing radios finds that the time spent on the radio sets has been exponential distribution with mean 20 minutes. If the radios are repaired in the order in which they come in and their arrival is approximately Poisson with an average rate of 15 for 8-hour day. What is repairman's idle time each day? How many jobs are ahead of the average set just brought in?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Elaborate the transportation algorithm and state the conversion of unbalanced problem to balanced problem.

10. Describe various models of operations research.

11. Test the matrix for 200 executive responses to determine whether industry type is independent of geographic location

Industry Type		Geographic location				
		NorthEast	SouthEast	MidWest	West	
		D	*E*	*F*	*G*	
Finance	*A*	24	10	8	14	56
Manufacturing	*B*	30	6	22	12	70
Communications	*C*	28	18	12	16	74
		82	34	42	42	

12. A company manufactures 30 units per day. The sale of these items depend upon demand which has the following distribution

Sales (units)	Probability
27	0.1
28	0.15
29	0.2
30	0.35
31	0.15
32	0.05

The profit from sales of each unit is Rs. 10. Any unsold product is to be disposed off at a loss of Rs. 15 per, unit. There is a penalty of Rs. 5 per unit if the demand is not met.

Using the following random numbers, Estimate the total profit/loss for the company for next ten days : 10, 99, 65, 99, 95, 01, 79, 11, 16, 20.

13. Solve the following LP using simplex method.

Maximize $Z = 10x_1 + 6x_2$

Subject to constraints :

$$5x_1 + 3x_2 <= 30$$

$$1x_1 + 2x_2 <= 18$$

$$x_1, x_2 >= 0 .$$

14. Discuss about Mutually exclusive events and Independent events highlighting the usage of special law of addition and Multiplication Law.

15. Describe the minimizing maximal Regret as criteria for decision making.

DE–4243 **22**

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2012.

Second Semester

BUSINESS ENVIRONMENT

(2011 Academic Year Onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain the impact of environment on business and strategic decisions.

2. Write down the importance of environmental analysis.

3. Briefly explain the Industrial policy 1991.

4. Explain the Positive and Negative effects of fiscal deficit.

5. State the features of societal structure.

6. Discuss the achievements of WTO.

7. Explain the need for clean energy to protect environment.

8. Bring out the role of world bank in development.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain in detail the internal business environment.

10. Discuss the techniques of environmental analysis.

11. Explain the role of government in business environment.

12. Describe the recent trends in India's Foreign Direct Investment.

13. Enumerate the environment protection act 1986.

14. Explain the advantages and disadvantages of globalisation.

15. Bring out in detail the various problems of public enterprises.

DE–4244 **23**

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2012.

Second Semester

BUSINESS RESEARCH

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What is survey research? State its features.

2. How do you recognise a research problem?

3. What are the merits and demerits of participants observation?

4. Define questionnaire. What are its types?

5. What are the characteristics and features of interview schedule?

6. Write a short notes on pilot study.

7. What are the differences between a questionnaire and schedule?

8. 'Interpretation is a fundamental components of research process'. – Explain.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Why probability sampling is generally preferred in comparison to non-probability sampling?

10. What is research report? State and explain its types.

11. Prepare a research design for a research problem which you have planned to analyse.

12. Explain in detail the characteristics of a good questionnaire.

13. Enumerate the categories of scaling technique. Briefly explain.

14. Discuss the relative merits and demerits of

    (a) Rating (vs) Ranking scales

    (b) Summated (vs) Cumulative scales

    (c) Factor analysis.

15. 'A systematic bias results from errors in the sampling procedures'. What do you mean by such a systematic bias?

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2012.

Second Semester

GLOBAL BUSINESS AND MNCs

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain the meaning of the term International business.

2. Briefly explain the Foreign Direct Investment.

3. Define marine Insurance in International business.

4. Write a note on the code of conduct for MNCs.

5. What are the important approaches to defining MNC?

6. Give a brief account of NAFTA.

7. Evaluate the World Bank's assistance to India.

8. Give brief account of International Finance Corporation.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Highlight the factors influencing International business.

10. List out the documents to be attached while exporting the goods.

11. Examine the advantages and disadvantages of the growth of the multinational corporations.

12. Discuss the import foreign market entry strategies.

13. Evaluate the role and performance of WTO with particular reference to developing countries.

14. Give a brief and critical account of the Indian Patent Act.

15. Discuss briefly the important market coverage strategies.

DE–4246 **25**

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2012.

Second Semester

MANAGEMENT OF INNOVATION AND R & D

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the pre-requisites for innovation? Explain the innovation models of John Besant and Joe Tidd.

2. Write down the failures of innovation.

3. Explain complexity theory and TRIZ/TIPS theory in detailed study.

4. List out and describe the highlighted features of apple and Microsoft.

5. Discuss the concept of reverse engineering.

6. What are the two different types of efficiency index? Explain in detail.

7. What is Brinnovation? Explain.

8. What are the sailent features of IPL 20-20? Whether it rules the cricket-down or not? Discuss from the point of viewers and players.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. With a Illustration describe 'R and D the backbone of technological innovation.

10. Explain in detail 4 P's of creativity and 4 zones of innovation.

11. Define the term 'Benchmarking'. Describe Chris Grannell's innovation strategies.

12. Elaborately discuss on "organizational climate for creativity and innovation".

13. How decision support systems are helpful in R and D? Elucidate.

14. How will you create a productive team culture? Explain the support from government to R and D infrastructure and researchers.

15. Discuss in detail intellectual property rights and laws regarding protection of innovations from imitations.
