DISTANCE EDUCATION

M.B.A. (G) DEGREE EXAMINATION, DECEMBER 2014.

First Semester

MANAGEMENT CONCEPTS

(2012–13 Academic Year and 2013 Calendar Year only)

(English Medium only)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. How has McClelland classified 'Need'?
2. Explain the merits of external source of recruitment.
3. Explain the guidelines for conducting a successful interview.
4. What are the requirements of reengineering process? What are the expected results? Discuss.
5. Distinguish "authority" from 'power'.
6. Explain Graicunas' theory of span of supervision.
7. What are the determinants of co-ordination?
8. Mention the merits and demerits of "Laissez faire" leadership style.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the important elements of F.W. Taylor's Scientific Management.
10. Discuss the problems in decision-making. Suggest remedies.

11. Discuss the different methods of departmentation.

12. Discuss Maslow's hierarchy of needs.

13. Explain the different methods of securing effective co-ordination.

14. What are the problems normally faced in performance appraisal? Suggest remedies.

15. Enumerate the steps to benchmark.

DISTANCE EDUCATION

M.B.A. (G) DEGREE EXAMINATION, DECEMBER 2014.

First Semester

ORGANISATIONAL BEHAVIOUR

(2012-13 Academic Year and 2013 Calendar Year Only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the types of Attitudes?

2. Write the major dimensions of social learning theory.

3. Distinguish formal groups from informal groups.

4. What does the term "Power" refers to in relation with OB?

5. What is the purpose of Planning in change management?

6. What are the major external reasons for change in organizations?

7. Define Personality. How does heredity affect the development of personality? Discuss.

8. Determine the scope of organizational behaviour.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Bring out the importance of organizational Behaviour. Brief the basic concepts which regard to the nature of people.

10. Why do people resist change? How do you overcome this problem? Discuss.

11. Discuss the issues and challenges faced by organization in the present scenario.

12. What is group decision making? Bring out the different techniques of group decision making.

13. Explain the importance of perception in studying organizational behaviour. How person's perception helps to make judgements?

14. Why do organizational polities emerge? Discuss the measures to avoid it.

15. Bring out the advantages of OD. Brief the steps involved in introducing a planned change.

M.B.A. (G) DEGREE EXAMINATION, DECEMBER 2014.

First Semester

MANAGERIAL ECONOMICS

(2012–13 Academic Year and 2013 Calendar Year only)

(English Medium only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Define Managerial Economics. Explain the scope and features of Managerial Economics.

2. What are the assumptions of production function?

3. Define Law of Demand and explain the factors influences the demand.

4. Explain briefly about Break Even Analysis.

5. What do you understand by Perfect competition? Explain its features.

6. Explain the term 'Gross Domestic Product'.

7. Explain the concept of Capital Budgeting and state the differences between Risk and Uncertainty.

8. What are the problems to be considered in pricing of a new product?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. What is demand forecasting and explain the criteria for a good forecasting method.

10. Explain the various forms of internal and external economics of scale.

11. What are the factors influencing the elasticity of demand?

12. What are the various measures to control trade cycle?

13. Explain Demand-pull inflation. How it can be controlled?

14. Discuss the factors influencing level of National Income.

15. Write short notes on :

    (a) Fixed, variable and marginal cost.

    (b) Cost control.

    (c) Oligopoly.

DISTANCE EDUCATION

M.B.A. (G) DEGREE EXAMINATION, DECEMBER 2014.

First Semester

QUANTITATIVE METHODS

(2012–13 Academic Year and 2013 Calendar Year only)

(English Medium only)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the relationship between Cost and Level of activity, Marginal cost and Marginal revenue.

2. Explain the simplex method of solving and LP problem.

3. A firm plans to purchase atleast 200 quintals of scrap containing high quality metal X and low quality metal Y. It decides that the scrap to be purchased must contain atleast 100 quintals of X-metal and not more than 35 quintals of Y-metal. The firm can purchase the scrap from two suppliers (A and B) is unlimited quantities. The percentage of X and Y metals in terms of weight in the scrap supplied by A and B is given below.

Metals	Supplier A	Supplier B
X	25%	75%
Y	10%	20%

The price of A's scrap is Rs.200 per quintal and that of B is Rs.400 per quintal. The firm wants to determine the quantities that it should buy from the two suppliers so that total cost is minimized.

4. Explain how to resolve degeneracy in a transportation problem.

5. Obtain the MGF of Poisson distribution.

6. What are the advantages and disadvantages of Simulation?

7. A television repairman finds that the time spent on his job has an exponential distribution with a mean of 30 minutes. If he repairs sets in the order in which they came in, and if the arrival of sets follows a Poisson distribution approximately with an average rate of 10 per 8 hours day, What is the repairman's expected idle time each day? How many jobs are ahead of the average set just brought in?

8. The Manager of a flower shop promises its customers delivery within 4 hours on all flowers orders. All flowers are purchased on the previous day and delivered to Parker by 8.00 AM the next morning. The daily demand for roses is as follows:

Dozens of roses:	70	80	90	100
Probability:	0.1	0.2	0.4	0.3

The Manager purchases roses for Rs.10 per dozen and sells them for Rs.30. All unsold roses are donated to local hospital. How many dozens of roses should Parker order each evening to maximize its profits? What is the optimum expected profit?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Use simplex method to solve the following LP problem.

Maximize $Z = 3x_1 + 5x_2 + 4x_3$

Subject to constraints

$$2x_1 + 3x_2 \le 8$$
$$2x_2 + 5x_3 \le 10$$
$$3x_1 + 2x_2 + 4x_3 \le 15$$
$$x_1,\ x_2,\ x_3 \ge 0.$$

10. Solve the dual of the following primal LP problem.

Minimize $Z_x = x_1 - 2x_2 + 3x_2$

Subject to the constraints
$$-2x_1 + x_2 + 3x_3 = 2$$
$$2x_1 + 3x_2 + 4x_3 = 1$$
$$x_1,\ x_2,\ x_3 \geq 0.$$

11. A manufacturer has distribution centres at Agra, Allahabad and Kolkata. These centres have availability of 40, 20 and 40 units of his product, respectively. His retail outlets at A, B, C, D and E require 25, 10, 20, 30 and between each centre outlet is given below.

Distribution centre	Retail outlets				
	A	B	C	D	E
Agra	55	30	40	50	40
Allahabad	35	30	100	45	60
Kolkata	40	60	95	35	30

Determine the optimal distribution to minimize the cost of transportation.

12. A bakery keeps stock of a popular brand of cake. Previous experience shows the daily demand pattern for the item with associated probabilities, as given below.

Daily demand (number):	0	10	20	30	40	50
Probability	0.01	0.20	0.15	0.50	0.12	0.02

Use the following sequence of random numbers to simulate the demand for next 10 days.

Random Numbers: 25, 39, 65, 76, 12, 05, 73, 89, 19, 49

Also estimate the daily average demand for the cakes on the basis of simulated data.

13. On an average 96 patients per 24 hour-day require the service of an emergency clinic. Also on an average, a patient requires 10 minutes of active attention. Assume that the facility can handle only one emergency at a time. Suppose that it costs the clinic Rs.100 per patient treated to obtain an average servicing time of 10 minutes, and that each minute of decrease in this average time would cost Rs.10 per patient treated, how much would have to be budgeted by the clinic to decrease the average size of the queue from 4/3 patients to 1/2 patient.

14. A bank has two tellers working on savings accounts. The first teller handles withdrawals only. The second teller handles deposits only. It has been found that the service time distribution for the deposits and withdrawals both are exponential with mean service time 3 minutes per customer. Depositors are found to arrive in a Poisson fashion throughout the day with a mean arrival rate of 16 per hour. Withdrawers also arrive in a Poisson fashion with a mean arrival rate of 14 per hour. What would be the effect on the average waiting time for depositors and withdrawers if each teller could handle both withdrawals and deposits. What would be the effect if this could only be accomplished by increasing the service time to 3.5 minutes?

15. A business man has two independent investment portfolios A and B available to him, but he lacks the capital to undertake both of them simultaneously. He can choose A first and then stop, or if A is not successfully, then take, B or vice-versa. The probability of success of A is 0.6, while for B it is 0.4. Both investment schemes require an initial capital outlay of Rs.10,000 and both return nothing if the venture is unsuccessful. Successful completion of A will return Rs.20,000 (over cost) and successful completion of B will return Rs.24,000 (over cost). Draw decision tree and determine the best strategy.

DISTANCE EDUCATION

M.B.A. (G) DEGREE EXAMINATION, DECEMBER 2014.

First Semester

BUSINESS LAWS

(2012-13 Academic Year and 2013 Calendar Year Only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the effects of minor agreement?

2. Difference between coercion & undue influence.

3. What are the different kinds of endorsement?

4. Describe the rights and duties of The Carriage by Air Act, 1972.

5. What are the principles of Fire Insurance and Marine Insurance?

6. What are the contents of prospectus?

7. Discuss the law of agency.

8. What are the kinds of Cheque? Explain it.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What are the various types/classification of contract?

10. Discuss in detail the different modes by which a contract may be discharged.

11. Discuss the remedies against seller where there is breach of contract.

12. What do you understand by 'caveat emptor'? Are there any exceptions to its applications to sale of goods?

13. Briefly state the provisions of Companies Act, regarding the duties and liabilities of director.

14. Describe the different modes of discharge of liability of parties to a negotiable instrument.

15. How a firm can be dissolved. Explain in detail.

DISTANCE EDUCATION

M.B.A. (G) (Semester) DEGREE EXAMINATION, DECEMBER 2014.

Second Semester

FINANCIAL AND MANAGEMENT ACCOUNTING

(2012–2013 Academic Year and 2013 Calendar Year Only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Distinguish between single entry system and double entry system of book keeping.

2. Explain the uses of ratio analysis. What are the limitations of ratio analysis?

3. What do you mean by functional budgets? Discuss any two such budgets.

4. Distinguish between funds flow statement and balance sheet.

5. Mr. Raja started business on 1.4.2010 with a capital of Rs. 50,000 and bought furniture for Rs. 10,000. On 30.9.2010, he borrowed Rs. 25,000 from his wife at 9% p.a. (Interest not yet paid) and introduced additional capital Rs. 7,500. He withdrew Rs. 1,500 per month from business for his household purposes. On 31.3.2011, his position was as follows.

Cash in hand	Rs. 1,000
Cash at bank	Rs. 13,000
Sundry Debtors	Rs. 24,000
Stock	Rs. 34,000
Bills Receivable	Rs. 8,000
Sundry Creditors	Rs. 2,500
Rent due	Rs. 750

Furniture to be depreciated by 10%. Compute his profit for the year 2010-2011.

6. Calculate the following ratios from the information given below :

Gross Profit Ratio, Stock turnover Ratio, Fixed Asset turnover ratio and Liquid Ratio.

	Rs.		Rs.
Sales	25,20,000	Cost of sales	19,20,000
Net profit	3,60,000	Opening Stock	3,00,000
Closing stock	5,00,000	Current assets	7,60,000
Fixed Assets	14,40,000	Net worth	15,00,000
Long term Debts	9,00,000	Current liabilities	6,00,000

7. A project requires an investment of Rs. 55000/-. It has a life of 5 years and an estimated scrap value of Rs. 5000/- at the end of its life. The project yields an annual profit of Rs. 30,000/- before depreciation and tax. If the tax rate is 40%, calculate the pay each period for the project.

8. An investment of Rs. 1,00,000 (having scrap value of Rs. 5,000) yields the following returns :

Year	1	2	3	4	5
CFAT (Rs.) :	40,000	40,000	30,000	30,000	25,000

The cost of capital is 10%. Is the investment desireable? Discuss it according to NPV method assuming the P.V. factor for 1st, 2nd, 3rd, 4th and 5th year — 0.909, 0.826, 0.751, 0.683 and 0.620 respectively.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the limitations of financial statements and point out how these limitations can be removed through management accounting.

10. Discuss the different types of Budgets that are built up for effective control.

11. Explain four important methods that may be used for appraisal for profitability of a project to select the best Project Proposal.

12. Given below is the Trail Balance of S and Co. as on 31-12-2013 :

Particulars	Dr. Rs.	Cr. Rs.
Good will	5,000	
Free hold Premises	20,000	
Salaries	7,200	
Sundry Debtors	30,000	
Stock (1-1-2013)	15,000	
Capital account		45,000
Purchases	75,000	
Plant and Machinery	25,000	

Particulars	Dr. Rs.	Cr. Rs.
Fixtures	5,000	
Discount	750	
Bills receivable	3,500	
Bills Payable		5,600
Wages	16,000	
Provision for doubtful debts		750
Repairs	350	
Trade charges	350	
Carriage inwards	500	
Carriage Outwards	1,150	
Sundry creditors		25,000
Cash in hand	9,100	
Cash at Bank	20,000	
Sales		1,56,000
Commission		1,550
	2,33,900	2,33,900

Prepare Trading Account, Profit and Loss Account for the year ending 31-12-2013 and a Balance Sheet as on that date after making adjustments for the following.

(a) Closing stock was valued at Rs. 20,000

(b) Provide for doubtful debts at 5%

(c) Charge interest on capital at 5% per annum

(d) Charge depreciation as indicated below :

On Plant and machinery @ 6% per annum

On Fixtures and Freehold premises @ $2\frac{1}{2}$% per annum.

13. The Balance sheet of A Ltd. on 1.4.2006 and 2007 was as follows :

	2006 Rs.	2007 Rs.
Liabilities		
Current liabilities	72,000	82,000
Loan	-	40,000
Bank overdraft	60,000	50,000
Capital	2,96,000	2,98,000
	4,28,000	4,70,000
Assets		
Cash	8,000	7,200
Debtors	70,000	76,800
Stock	50,000	44,000
Land	40,000	60,000
Building	1,00,000	1,10,000
Machinery	2,14,000	2,44,000
Prov. For depreciation	(54,000)	(72,000)
	4,28,000	4,70,000

During the year Rs. 52,000 were paid as dividends. Prepare Cash flow statement.

14. Shangrila Food Products at the end of every month is to be equal to 25 percent of the sales estimate for the next month. On January 1, 2003, there were 2700 units of the product in hand. There is no work-in-process at the end of any month. Every unit of the product requires two types of materials in the following quantities :

Material A 4 units, Material B 5 units.

Materials equal to one-half of the next month's production are to be in hand at the end of every month. This requirement was met on 1st January 2003. Prepare a Material Budget for the first quarter of 2003 in a logical form showing the quantities of each type of material to be purchased.

15. You are given the following figures :

Current ratio = 2.5

Liquidity ratio = 1.5

Net working capital = Rs. 3,00,000

Fixed assets turnover ratio (on cost of sales) = 2 times

Average debt collection period = 2 months

Stock turnover ratio (cost of sales/closing stock) = 6 times

Gross Profit ratio = 20%

Fixed assets/shareholders net worth = 0.80

Reserve and surplus/capital = 0.50

Draw up the balance sheet of the company.

Second Semester

BUSINESS ENVIRONMENT

(2012–13 Academic Year and 2013 Calendar Year only)

(English Medium only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain briefly the term Business Environment.

2. Explain the social responsibilities of business.

3. What are the problems of multinational corporations to Indian Business Society?

4. Discuss the various issues related to technology transfer.

5. Discuss the advantages of FDI and FII in India.

6. What are the salient features of good governance?

7. What were the reforms to adopt liberalisation and globalization?

8. What is the role of Commercial Banks in the growth of economy?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What are the components of Business Environment? Explain the environmental factors which are increasingly becoming critical to the changing complexion of competition in business.

10. "Liberalisation is important for furthering the growth of a developing country" – Do you agree? Give reasons.

11. Explain clearly, with examples, the internal and external environment of business.

12. Explain the impact of liberalisation, privatisation and globalization on Indian economy.

13. Explain the role of public sector in India.

14. What are the factors affecting the monetary policy? What roles does RBI play in formulating monetary policy?

15. Discuss the importance and limitations of foreign capital in India. What are the barriers to foreign investment in India?

RESEARCH METHODS

(2012-13 Academic Year & 2013 Calendar Year Only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What is research? Describe the main characteristic of research.

2. What are some of the more effective ways to find a suitable research problem?

3. Explain the essentials of a research design.

4. Distinguish between the sources of primary data and secondary data.

5. What do you understand by processing of data?

6. "Interpretation is a fundamental components of research process". Explain. Why do?

7. How does one construct a survey instrument? What steps need to be followed? Discuss.

8. Explain the significance of research in social sciences.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Examine the various types of research and their relative merits and demerits.

10. Explain the probability and non-probability sampling methods. Which one would be an ideal method for the scientific research?

11. Explain the various types of research reports. Give an account on the context of a research report.

12. What is a hypothesis? How can a hypothesis improve the quality of research? Explain how research will be useful for decision makers.

13. "Processing of data implies editing coding, classification and tabulation". Describe in brief these four operations pointing out the significance of each in context of research study.

14. What is meant by the reliability and validity of a measurement? Describe the various techniques available to assess each.

15. Define observation. Discuss its utility as a method of data collection.

INTERNATIONAL BUSINESS

(2012–2013 Academic Year and 2013 Calendar Year Only)

(English Medium only)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain the concept of FDI. How does it differ from FPI?

2. Why do some countries impose controls over MNCs?

3. Write short notes on

   (a) Cultural Globalization

   (b) Globalization Markets.

4. What are the different areas of conflicts between the host country and translational comany?

5. What are the peculiarities of global strategic management?

6. How is the WTO different from GATT?

7. What are the advantages and disadvantages of economic integration?

8. What is a joint venture? Why do the firms prefer joint venture to go global?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Examine various factors influencing globalization.

10. Elucidate various types of certificates or origin used in export transactions.

11. Explain the role of MNCs in Indian economy. Why would TNCs like to indianise their operations?

12. What is international SWOT analysis? How to use it in formulating global strategies?

13. What are the various issues of the Arthur Dunkel's proposal in the Urgauay round of GATT.

14. Write short notes on

    (a) NAFTA

    (b) SAARC

    (c) APEC.

15. Discuss the role played by the International Development Association is assisting the poor countries in their developmental activities.

MANAGEMENT INFORMATION SYSTEM

(2012–13 Academic Year and 2013 Calendar Year only)

(English Medium only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the pre-requisites of MIS?

2. What do you mean by data processing? Explain the data processing types with examples.

3. What is testing? Discuss elaborately the role of testing in system design.

4. What is electronic data interchange? How it will be useful in organisation?

5. Explain the following terms :

   (a) Artificial Intelligence.

   (b) Expert Systems.

6. Define E-Commerce. Explain its types and characteristics.

7. What are inter-organizational information systems? Explain it with suitable example.

8. Explain the application of Internet.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. What is information system? Mention the characteristics and requirements of MIS.

10. Explain in detail DSS and its components.

11. What are communication channels? Explain its types with suitable example.

12. Illustrate Enterprise Resource Planning Systems with suitable example.

13. Explain in detail the financial information system with suitable examples.

14. What are the different barriers of global E-commerce? How to overcome them?

15. Explain about the Website Management,.

FINANCIAL MANAGEMENT

(2012-13 Academic Year and 2013 Calendar Year only)

(English medium only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Cost of Capital is the function of Management preferences – Comment.

2. What is inventory management? Why is it essential to business concern?

3. Discuss the role of Capital budgeting in financial decision making.

4. Explain the different approaches of financing working capital.

5. Discuss the Gorden's model of dividend decision

6. Calculate the cost of new debentures, new preference shares and new equity shares from the point of view of a company, if anticipated external financing opportunities are as follows :

   (a) 13% debentures of Rs. 100 each issued at 5% discount and redeemable after 5 years at 5% premium. Floatation cost is 4% of issue price.

   (b) 15% preference shares of Rs. 100 each issued at par and redeemable after 5 years at par. Floatation cost is 5% of issue price.

   (c) Equity shares of Rs. 10 each issued at Rs. 80. Floatation cost 5%. Expected EPS is Rs. 5 and dividend payout ratio is 60%. Anticipated growth rate in dividend is 5%. Assume tax rate is 40%.

7. *X* Ltd plans to computerize its stores by investing Rs. 1,50,000 in computers, which have a life of 5 years and no salvage value. The computers will result in an annual saving of Rs. 1,20,000 in expenses. However, it would require Rs. 50,000 annual maintenance expenses. Its tax rate is 50% and depreciation is provided in the Straight Line Method, calculate the Payback period for the computers.

8. The following information is available for Avanti Corporation :

Earnings per share	Rs. 4.00
Rate of return on investments	18 per cent
Rate of return required by shareholders	15 per cent

   What will be the price per share as per the Walter model if the payment ratio is

   (a) 40 per cent?

   (b) 50 per cent?

   (c) 60 per cent?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What is Capital structure? Explain various theories of capital structure.

10. Explain the factors that determine the dividend policy of a firm. Write a note on stability of dividends.

11. Explain the various methods used for evaluating investment proposals.

12. A company has the following capital structure

Securities	Book Value in Rs.	After Tax Cost (%)
Equity share capital	9,00,000	15
Retained Earnings	3,00,000	15
Preferred capital	2,00,000	8
Debentures	16,00,000	6
	30,00,000	

From the above information, you are required to find out weighted avenge cost of capital.

13. An investment of Rs. 1,00,000 (having scrap value of Rs. 5,000) yields the following returns:

Year :	1	2	3	4	5
CFAT (Rs.) :	40,000	40,000	30,000	30,000	25,000

The cost of capital is 10%. Is the investment desireable? Discuss it according to NPV method assuming the P.V. factor for 1st, 2nd, 3rd, 4th, and 5th year – 0.909, 0.826, 0.751, 0.683 and 0.620 respectively.

14. Metro Transport currently has 10,00,000 shares of Equity outstanding with a market price of Rs. 50 per share. It also has Rs. 4,00,000 in 12% Bonds. The company is considering Rs. 5,00,000 expansion programme that it can finance either

    (a) All Equity shares at Rs.40 per share.

    (b) Straight Bonds at 15% interest

    (c) Half Equity Shares at Rs. 40 per share and half 15% Bonds.

    For a EBIT level of Rs. 2,50,000 after the expansion programme, calculate the earnings per share for each of the alternatives methods of financing. Assume a corporate tax rate of 50%.

15. The Capital structure of the progressive corporation consists of an ordinary share capital of Rs. 10,00,000 (Shares of Rs. 100 per value) and Rs. 10,00,000 of 10% debentures. Sales increased by 20% from 1,00,000 units to 1,20,000 units, the selling price is Rs. 10 per unit. Variable cost amounts to Rs. 6 per unit and fixed expenses amounts to Rs. 2,00,000. The income tax rate is assumed to be 50%.

    You are required to calculate the following:

    (a) The Financial leverage at 1,00,000 units and 1,20,000 units.

    (b) The Operating leverage at 1,00,000 units and 1,20,000 units.

    (c) The combine leverage at 1,00,000 units and 1,20,000 units.

    Comment on the leverage behaviour.

PRODUCTION AND OPERATIONS MANAGEMENT

(2012-13 Academic Year and 2013 Calendar Year Only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain the working of Computer Integrated Manufacturing System.

2. Describe the capacity requirement planning process with a flow chart.

3. Describe the steps in making time study and computing the standard time.

4. State the objectives and functions of plant layout.

5. Discuss the importance of JIT system in manufacturing firms.

6. What is statistical quality control? What are its objectives and benefits?

7. Discuss the various types of capacity.

8. Discuss the recent trends in production and operations management.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Differentiate between CAD and CAM. State its advantages and disadvantages.

10. Discuss the role of MRP and CRP in resource requirements planning. State its advantages.

11. Discuss the elements of TQM concept.

12. Explain the various techniques of inventory control.

13. Discuss the factors on which successful implementation of MRP depends.

14. Explain the tools and techniques of plant layout.

15. Explain how PPC department works in a manufacturing organizations and what are its functions and advantages.
