M.Sc. DEGREE EXAMINATION, NOVEMBER 2010

Animal Health and Management

AQUACULTURE AND FISHERIES MANAGEMENT

(CBCS–2008 onwards)

Time : 3 Hours | Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

1. Trawl net.

2. Epizootic Ulcerative Syndrome.

3. Exotic species.

4. Bio-invasion.

5. Coastal Regulation Zone.

6. In-vitro.

7. Brooder.

8. *Penaeus monodon*.

9. WSSV.

10. MSY.

Part - B (5 × 5 = 25)

Answer **all** questions.

11. (a) Discuss any two important water quality parameters in aquaculture.

(*Or*)

(b) Write note on the impact of marine pollution on fisheries.

12. (a) Describe the exotic species aquaculture and its ecological impact.

(*Or*)

(b) Write note on *ex-situ* conservation with an example.

13. (a) Explain the role of fish aggregating devices in fish stock enhancement programmes.

(*Or*)

(b) Write short note on peoples' participated fisheries resource management in India.

14. (a) Explain the duties of Coastal aquaculture Authority of India (CAA).

(*Or*)

(b) Write short note on the effect aquaculture effluent on environment.

15. (a) Describe the different co-management techniques in fisheries.

(*Or*)

(b) Discuss the two viral diseases of fin and shell fishes in India.

Part - C

(3 × 10 = 30)

Answer any **three** questions.

16. Explain the density based different types of shrimp culture systems.

17. Write an essay on post harvest technologies in culture and capture fisheries.

18. Describe the impact of invasive species on aquatic environment.

19. Write an essay on recent concepts in fisheries management.

20. Describe the different molecular techniques in fishery stock management.

M.Sc., DEGREE EXAMINATION, NOVEMBER 2010

Animal Health and Management

ECONOMICS AND ANIMAL HEALTH MANAGEMENT

(CBCS—2008 onwards)

Time : 3 Hours Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

1. Define Economic Theory.

2. Demand Analysis.

3. Price Discrimination.

4. Cost Volume.

5. Production analysis.

6. Animal Health Management.

7. Investment Analysis.

8. Profit Maximization output level.

9. Optimization through diversification.

10. Health Service.

Part - B (5 × 5 = 25)

Answer **all** questions.

11 (a) Explain about the animal Health Business analysis.

(*Or*)

(b) Define the application of Economic theory.

12. (a) Illustrate the Demand elasticity. Add notes on consumer surplus and their relevance in pricing.

(*Or*)

(b) Write a short note on supply analysis on health management.

13 (a) Discuss the role of consumer market structure.

(*Or*)

(b) Explain a simple measure of long-term economic efficiency in Animal Health Management.

14 (a) Describe in detail about the role of Government on price discrimination and over pricing in Management of Animal Health.

(*Or*)

(b) Write the Principle and Applications on Animal Health Economics.

15 (a) Write notes on Profit maximization output level.

(*Or*)

(b) Discuss the functions and tools of Animal Health Management.

Part - C (3 × 10 = 30)

Answer any **three** questions.

16. Describe in detail about Animal Health Management service people, products and facilities.

17. Discuss about consumer surplus and their relevance in pricing in Economics of Animal Health Management.

18. Write an account on R and D cost. Add notes on cost reduction techniques in Health Management.

19. Write notes on Profit Goals, Planning and forecasting.

20. Explain about Investment analysis in Health Clinic.

M.Sc. DEGREE EXAMINATION, NOVEMBER 2010

Animal Health and Management

ANIMAL PRODUCTION SYSTEMS

(CBCS—2008 onwards)

Time : 3 Hours Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

1. Backyard farming.

2. Integration.

3. Manure Pit.

4. Incinerator.

5. Construction Co-efficient.

6. Attic Insulation.

7. Over hang.

8. Solar energy.

9. Marketing Potential.

10. Four “P”s.

Part - B (5 × 5 = 25)

Answer **all** questions.

11. (a) Describe All - in - All out system.

Or

(b) Environmentally controlled house.

12. (a) Differentiate between vertical and horizontal.

Or

(b) Discuss in details about mixed farming system.

13. (a) Wintter management of livestock.

Or

(b) Loose house.

14. (a) Certified Organic foods.

Or

(b) Utilization of Wind energy.

15. (a) Types of marketing Channels.

Or

(b) Discuss the pricing strategies for Animal Products.

Part - C

(3 × 10 = 30)

Answer any **three** questions.

16. Discuss in details about various animal production systems followed in Tamil Nadu.

17. Discuss in details about ventilation in animal house.

18. Describe the climatic factors affecting production performance of the livestock.

19. Discuss about present status of Organic farming in India.

20. Discuss the sales promotion strategies for Animal Products.

M.Sc. DEGREE EXAMINATION, NOVEMBER 2010

Animal Health and Management

BIODIVERSITY AND WILDLIFE MANAGEMENT

(CBCS–2008 onwards)

Time : 3 Hours | Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

1. Genetic diversity.

2. Red data book.

3. Hot spot.

4. Exotic species.

5. Biosphere Reserve.

6. ZSI.

7. ANOVA.

8. Oasis.

9. Food-chain.

10. Remote sensing.

Part - B (5 × 5 = 25)

Answer **all** questions.

11. (a) Explain the Bio-geographical classification of India.

(*Or*)

(b) Define consumptive and productive use of biodiversity.

12. (a) Describe how India as mega diversity country.

(*Or*)

(b) Impact of human interference in wildlife.

13. (a) Write a brief account on *In-situ* conservation.

(*Or*)

(b) National activities on conservation of biodiversity.

14. (a) Describe the Adaptation of wild animals in cold and high altitudes.

(*Or*)

(b) Wild life Protection Act—Explain.

15. (a) Describe symbiotic, commensalism and parasitism.

(*Or*)

(b) Suggest few points for conservation and management of wildlife.

Part - C (3 × 10 = 30)

Answer any **three** questions.

16. Write an essay on values of biodiversity.

17. Explain in detail about the possible measures in conservation of wildlife.

18. Describe in detail about the recent developement (genetic and molecular) in conservation and management of biodiversity.

19. Write an essay on breeding characteristics of wild animals.

20. Role of government and NGO'S in biodiversity conservation.

M.Sc. DEGREE EXAMINATION, NOVEMBER 2010

Animal Health and Management

LAB : ANIMAL MANAGEMENT AND FEEDING

(CBCS—2008 onwards)

Time : 3 Hours Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

1. Define ethics.

2. Restraining.

3. Gnotobiotic.

4. Define designing feeders.

5. Define inbreeding.

6. Define Microenvironments.

7. Primary enclosures.

8. Outdoor housing.

9. Salmonellosis.

10. Humidity.

Part - B (5 × 5 = 25)

Answer **all** questions.

11. (a) Elaborate the handling and restraining of lab animals.

Or

(b) Explain different lab animals and its use ?

12. (a) Give an account of sheltered housing in animals.

Or

(b) Explain the space recommendation of laboratory animals.

13. (a) Give an account feeding methods.

Or

(b) Explain the deficiency disease feeder.

14. (a) Give an account of inbreeding in laboratory animals.

Or

(b) Write a short note on animal welfare acts.

15. (a) Give an account of bacterial diseases and its precautions.

Or

(b) Give a short note on symptoms in Salmonellosis.

Part - C

(3 × 10 = 30)

Answer any **three** questions.

16. Give detailed account of laboratory animals in biomedical research.

17. Write essay on housing in laboratory animals.

18. Give a brief account on principle followed in feeding and water.

19. Discuss in detail about regulatory acts of state and centre in animal welfare.

20. Give an account of viral diseases of rats and its clinical symptoms, treatment and control.

Animal Health and Management

I/D—APPLICATION OF INFORMATION TECHNOLOGY IN MANAGEMENT

(CBCS—2008 onwards)

Time : 3 Hours Maximum : 75 Marks

Part - A (10 × 2 = 20)

Answer **all** questions.

1. What are the attributes of Information ?

2. How the computers are used in Office Automation ?

3. What are the features of MS-Word ?

4. Write any four formatting tools available in Power Point.

5. How many rows and columns are in Excel 2000 ?

6. Define Primary key.

7. What do you mean by a system ?

8. What is Artificial Intelligence ?

9. What do you mean by Computer Network ?

10. What is meant by Intrusion ?

Part - B (5 × 5 = 25)

Answer **all** questions.

11 (a) Discuss the developments in Information Technology.

(*Or*)

(b) Explain the application of computers in Finance and Marketing.

12. (a) Explain any *five* editing features in MS-Word.

(*Or*)

(b) Write down the steps to create a presentation using Auto content wizard.

13 (a) How will you enter and edit formula in Excel ?

(*Or*)

(b) Write down the steps to create a Table using design view.

14 (a) Explain the functions of a System Analyst.

(*Or*)

(b) Discuss Management Information System.

15 (a) Explain the uses of Computer Networks.

(*Or*)

(b) Write short notes on Wide Area Network.

Part - C

(3 × 10 = 30)

Answer any **three** questions.

16. Explain the components of Information Technology.

17. (a) Explain the steps to create a Table in Word.

    (b) Write down the steps to add Animation effects to a Presentation.

18. (a) How will you add rows and delete rows in Worksheet.

    (b) Write down the steps to create a Report.

19. (a) Explain the need for computer based Information System.

(b) Explain the steps in the development of Expert System.

20. Describe the various social impacts of Information Technology.
