M.B.A.(Logistics Management) DEGREE EXAMINATION, MAY 2013.

First Semester

MANAGEMENT CONCEPTS

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the scope and functions of management.

2. Discuss peter F.Drucker's contributions to management.

3. Explain the planning process.

4. Explain the decision making process under the conditions of certainity.

5. Discuss the concept of Authority and Responsibility in business.

6. What are the barriers to communication?

7. Discuss PERT and CPM.

8. Explain briefly about six sigma concept and its relevance in quality management.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks

9. Explain briefly about Henri Fayol's contributions to management.

10. Discuss different decision making techniques.

11. Explain the various theories of motivation.

12. Explain transactional and transformational Leadership.

13. Discuss the principles and the benefits of coordination.

14. What is business process Reengineering? Discuss its relevance in today's business.

15. "Bench marking is a management strategy to compete in business"–Evaluate.

DE–6552 **12**

DISTANCE EDUCATION

M.B.A. (Logistics Management) DEGREE EXAMINATION, MAY 2013.

First Semester

ORGANIZATIONAL BEHAVIOUR

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the need for studying organizational behaviour.

2. Discuss the various determinants of personality.

3. Discuss some methods for improving group cohesiveness.

4. Explain the process of conflict and the types of conflicts.

5. Discuss the relationship between theory X and theory Y, Conflict (win—lose) strategies and life positions.

6. Define organizational effectiveness and explain the factors contributing the organizational effectiveness.

7. Define Organizational culture and state its characteristics.

8. Explain the process of organizational development.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. "Behaviour is generally predictable, so there is no need to formally study OB". Do you agree? Discuss.

10. Distinguish between team and group. How are group decisions made? How can it be made more effective?

11. What do you mean by organizational politics? Why does it emerge and what are the measures to avoid organization politics?

12. Bring out the impact of stress on performance and satisfaction of employees.

13. "Resistance to change is a normal part of the process of change". Discuss what techniques you would use in overcoming such resistance?

14. Discuss the usefulness of any three theories in understanding personality.

15. Critically evaluate the various intervention of OD.

DISTANCE EDUCATION

M.B.A. (Logistics Management) DEGREE EXAMINATION, MAY 2013.

First Semester

MANAGERIAL ECONOMICS

(2011 Academic Year Onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the role and responsibilities of a managerial economist in a firm.

2. What is meant by price elasticity of demand? Explain the factors influencing price elasticity of demand?

3. 'A firm buy inputs in quantities determined by the production function and the prices of the inputs'-Discuss.

4. What are the circumstances under which price discrimination is possible and profitable?

5. Distinguish between industry demand and company demand.

6. Explain Cobb-Douglas production function and its properties.

7. What is profit forecasting? Why profit maximization is not always the aim of business?

8. Mention the problems involved in the measurement of national income.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Critically examine the different methods of forecasting demand for established products.

10. List and explain different types of elasticity with suitable examples.

11. Discuss the different cost concepts relevant to managerial decisions of planning and control.

12. Explain the economies of scale and diseconomies of scale with examples.

13. Distinguish between cost control and cost reduction. What are the essentials of the success of a cost reduction programmes.

14. Discuss the various pricing strategies adopted by business firms.

15. Explain the relevance of payback period method. State its merits and drawbacks.

First Semester

FINANCIAL AND MANAGEMENT ACCOUNTING

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the different types of accounts? Give the rules for debit and credit.

2. What is a Trial Balance? Bring out the objectives of preparing a Trial Balance.

3. Distinguish between double entry and single entry system.

4. What do you mean by ratio analysis? How such an analysis is useful?

5. Explain the main sources of "flow of funds" in a business.

6. What is the purpose of cash flow statement? What information it disclosed in such a statement.

7. Explain the importance of capital budgeting? What is capital rationing?

8. Write short notes on: (a) Working capital, (b) Trend analysis, (c) Types of errors, (d) Balance sheet.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. From the following Trial Balance of Sri Ram and Co., prepare the final accounts for the year 2010.

	Dr. (Rs.)	Cr. (Rs.)
Capital		29,000
Drawings	760	
Purchases and Sales	8,900	15,000
Returns	280	450
Stock 1.1.2010	1,200	
Wages	800	
Buildings	22,000	
Carriage in	2,000	
Trade Expenses	200	
Advertisement	240	
Interest		350
Taxes and Insurance	130	
Debtors and Creditors	6,500	1,200
Bills Receivable and Payable	1,500	700
Cash at Bank	1,390	
Salaries	800	
	46,700	46,700

Adjustments:

(a) Stock on 31/12/2010 was valued at Rs. 1,500.

(b) Insurance prepaid was Rs. 40.

(c) Outstanding salaries Rs. 200 and taxes Rs. 130.

(d) Depreciate Buildings at 2% p.a.

10. The following are the summarized profit and loss account and Balance sheet:

Trading and Profit and Loss Account

	Rs.		Rs.
To Stock	10,000	By Sales	1,00,000
Purchases	55,000	Stock	15,000
Gross profit	50,000		
	1,15,000		1,15,000

	Rs.		Rs.
To Administrative expenses	15,000	By Gross profit	50,000
Selling expenses	12,000		
Net profit	23,000		
	50,000		50,000

Balance sheet

Liabilities	Rs.	Assets	Rs.
Capital	1,00,000	Land and Buildings	50,000
Profit and loss	20,000	Plant and Machinery	30,000
Long-termDebt	25,000	Stock	15,000
Creditors	15,000	Debtors	15,000
		Bills Receivable	12,500
		Cash in hand	17,500
		Furniture	20,000
	1,60,000		1,60,000

Calculate (a) Current Ratio, (b) Liquid Ratio, (c) Stock Turnover Ratio, (d) Gross Profit Ratio, (e) Operating Profit Ratio (f) Debt to Equity Ratio, (g) Proprietary Ratio.

11. Pay off Ltd is producing articles mostly by manual labour and is considering to replace it by a new machine. There are two alternative models M and N. Calculate pay back period from the following information.

	Machine M	Machine N
Estimated life of the machine	4 Yrs	5 Yrs
Cost of Machine	Rs. 9,000	Rs.18,000
Estimates Saving in material	Rs. 500	Rs. 800
Estimated Savings in direct wages	Rs. 6,000	Rs. 8,000
Additional cost of Maintenance	Rs. 800	Rs. 1,000
Additional cost of supervision	Rs. 1,200	Rs. 1,800

12. The following information relates to the productive activities of G Ltd., for three months ended 31st December 2001 at 50% capacity utilization.

Fixed expenses :	Rs.
Management salaries	2,10,000
Depreciation of machinery	1,75,000
Sundry office expenses	3,62,500
Variable expenses at 50% capacity:	
Materials	6,00,000
Labour	6,40,000
Semi-variable expenses at 50% capacity:	
Indirect labour	2,47,500
Salesmen salary	72,000

It is further noted the semi-variable expenses remain constant between 40% and 70% capacity, increase by 10% of the figures between 70% and 95% capacity and increase by 15% above 95% capacity. Sales at 50% capacity is Rs. 21,25,000, sales at 60% capacity is Rs. 21,50,000, sales at 90% capacity is Rs. 38,50,000. Prepare a flexible budget at 60%, and 90% production capacity.

13. Elaborate the various methods of ranking investment proposals.

14. What are accounting concepts? Explain any four accounting concepts in detail.

15. What is a Budget? Explain the types of Budgets.

DE–6555 **15**

DISTANCE EDUCATION

M.B.A. (Logistics Management) DEGREE EXAMINATION, MAY 2013.

First Semester

PRINCIPLES OF LOGISTICS MANAGEMENT

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Describe the role of physical delivery in a supply chain.

2. Write about integrated logistics management.

3. State the importance of transport decision.

4. What do you mean by Railway networkers?

5. Write down the merits and de-merits of Air freight services.

6. List out the functions of logistics system.

7. What is E-logistics? State its application for the logistics management.

8. State the importance of Pull Vs Push system in logistics management.

PART B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What are the international and global issues in logistics management? Explain.

10. Explain the role of Road, Rail, ship, and flight mode in logistics management.

11. Discuss in detail the factors of 3PL and 4PL.

12. Explain the concept of Six-Sigma quality in supply chain.

13. What are the planning models for location analysis? With examples.

14. Discuss the important role of Government in international logistics.

15. Explain the significance of Inbound and Outbound logistics.

DE–6556 **21**

DISTANCE EDUCATION

M.B.A. (Logistics Management) DEGREE EXAMINATION, MAY 2013.

Second Semester

QUANTITATIVE METHODS

(2011 Academic Year)

Time : Three hours Maximum : 100 marks

PART A — ($5 \times 8 = 40$ marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain Break Even Analysis.

2. Explain the steps involved in the mathematical formulation of LPP.

3. Write a note on Binomial Distribution.

4. Describe any one method of finding initial basic feasible solution for a transportation problem.

5. Assume that a factory has 2 machines. Past records show that machine 1 produces 30% of the items of output and machine 2 produces 70% of the items. Further, 5% of the items produced by machine I were defective and only 1% produced by machine 2 were defective. If a defective item is drawn at random, what is the probability that the defective item is produced by machine 1 or machine 2?

6. In a store, Customers arrive in a Poisson stream with mean 60 per hour. The service time is exponential with a mean of 0.005 hours. How many clerks should be available if the expected waiting time in the system should be less than 10 minutes?

7. Discuss the structure of decision making problems.

8. State discrete probability distribution with examples.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the steps involved in Monte-Carlo simulation.

10. Find the maximum value of $x = 5x_1 + 3x_2$

Subject to the constraints :

$$x_1 + x_2 \leq 6,$$
$$2x_1 + 3x_2 \geq 6,$$
$$0 \leq x \leq 4$$
$$0 \leq x_2 \leq 3$$

11. For a binomial distribution, the mean is 4 and variance is 2. Find the probability of getting

(a) at least two successes,

(b) at the most 2 successes.

12. Solve the following transportation problem by Least cost method.

		Distribution				
		D_1	D_2	D_3	D_4	Supply
	R_1	5	7	13	10	700
Source	R_2	8	6	14	13	400
	R_3	12	10	9	11	800
	Demand	200	600	700	400	

13. A manufacturing company keeps stock of a special product. Previous experience indicates the daily demand as given below :

Daily demand :	5	10	15	20	25	30
Probability :	0.01	0.20	0.15	0.50	0.12	0.02

Simulate the demand for the next 10 days. Also find the daily average demand for that product on the basis simulated data.

14. Suggest optimal assignment of the workers to jobs if the completion time (in hours) of different jobs by different workers is as given below.

		Workers			
		W	X	Y	Z
	A	8	7	9	10
Jobs	B	7	9	9	8
	C	10	8	7	11
	D	10	6	8	7

15. State and explain the various points to be noted in studying primal and dual of linear programming problems.

DE–6557 **22**

DISTANCE EDUCATION

M.B.A. (Logistics Management) DEGREE EXAMINATION, MAY 2013.

Second Semester

BUSINESS ENVIRONMENT

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Write a short note on Concepts and Significance of Business Environment?

2. Is it important to know about ecological environment? Why?

3. Explain the role of Government in business?

4. Discuss the functions of Forex Market?

5. Briefly explain about the Clean Technology?

6. Why a firm should be Socially Responsible?

7. "Law on Environmental Protection" – Elucidate

8. Write a short note on facets of liberalization?

PART B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What are the fundamental issues captured in PESTLE?

10. Explain why political stability is important for business growth?

11. Briefly explain about Government Budget and Taxation Measures?

12. What are the key features of FDI? What, is your opinion, is the reason for China getting more FDI than India.

13. Elaborate on technological development and Social change?

14. Write a short on Legal aspects of business?

15. Explain the responsibility of World Bank in global economic development?

DE–6558 **23**

DISTANCE EDUCATION

M.B.A.(Logistics Management) DEGREE EXAMINATION, MAY 2013

Second Semester

BUSINESS RESEARCH

(2011 Academic Year)

Time : Three hours Maximum : 100 marks

PART A — ($5 \times 8 = 40$ marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the significance of research in social sciences.

2. What is hypothesis? What are the various sources and types of hypothesis?

3. What is "Convenience sampling"? What are its merits and demerits?

4. What are the factors that affect the size of the sample?

5. Distinguish between sampling and non-sampling errors.

6. What is coding? What are the guidelines to codify the data?

7. What are 'foot notes'? What is the rationale of footnotes in a research report?

8. Based on the information on 1,000 randomly selected fields about the tenancy status of the cultivators and use of fertilizers collected in an agro-economic survey, the following classification was noted.

	Owned	Rented	Total
Using Fertilizers	416	184	600
Non–using fertilizers	64	336	400
Total	480	520	1,000

Would you conclude that owner-cultivator is more inclined towards the use of fertilizers at 5% level? Work out Chi—square test as a testing procedure?

PART B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the meaning of research. What are the different types in which research can be classified? Discuss the role of research in the area of human resource management.

10. What do you mean by sampling design? What points should be taken into consideration while developing the sampling design for studying the problems of domestic airline passenger.

11. The following data indicate the life time in hours of samples of two kinds of light bulbs in the continuous use:

Brand A 603,625,641,622,585,593,660,600,633,580,615,648

Brand B 620,640,646,620,652,639,590,646,631,669,610,619

You are required to use the Mann-Whitney test to compare the life time of Brand A and Brand B light bulbs.

12. What is a questionnaire? Highlight the main aspects of a questionnaire. Discuss various types of questions that are used in construction of a questionnaire.

13. Describe the layout of a research report covering all relevant points.

14. What are "Scaling Techniques"? Describe the methods of their construction.

15. Explain the various techniques of non-probability sampling.

GLOBAL BUSINESS AND MNC's

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. How do you clarify International Business?

2. Write a short note on "offer & receipt of order"

3. Explain the small exporters' policy.

4. Explain some of the Indian joint Ventures.

5. Discuss about dispute settlement under WTO.

6. Define IMF and its contribution towards global business.

7. What are the factors influencing FDI?

8. Does Technological transfer happen by MNC's.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Write a short note on foreign portfolio Investment.

10. State the various Export-Import Procedures to be adopted for an industry of your choice.

11. Discuss about the Indian efforts to attract credit Insurance.

12. What are the functions and goals of WTO?

13. What are the functions of World Bank and its contribution to global business?

14. Discuss about the International commercial arbitrators.

15. Explain about the World Intellectual property organization and global innovation.

MODERN LOGISTICS OPERATIONS

(2011 Academic Year Onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. How does logistics provide its support to procurement function?

2. Define just in time, Kanban and Vendor Managed inventory.

3. What is assembling and labeling from Multi-Storage points?

4. Explain the steps involved in booking a vessel for Export.

5. What is Terminal Networks? What are its types?

6. Differentiate 3PL and 4PL.

7. List out the process involved in Trade fair and Events Transportation.

8. List out the characters of Logistics information systems.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. What is demand forecasting? Explain the steps involved.

10. How is the stock level managed scientifically?

11. What are the customs formalities involved in EXIM logistics?

12. What are the value added services provided by 4PL?

13. Explain Inter and Multimodal Transportation.

14. How does information systems help in warehouse simulation?

15. What are the factors and steps involved in designing E-logistics?

PACKING AND PACKAGING MANAGEMENT

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Distinguish between Packing and Packaging.

2. Explain about various types of packaging.

3. What are the considerations the manufacturer should be conscious in packing bouquet flowers for export purpose?

4. What are the various types of packaging materials?

5. Highlight some of the cost reduction techniques in packaging.

6. What is Scientific Packaging? Explain with example.

7. What are the technology trends used by packaging industry?

8. What is Logistics automation? Explain the process.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain about, meaning, functions and essentials of packing.

10. Discuss the various types of packaging.

11. What is FMCG Packaging? Explain various packaging types for FMCG products.

12. "Packaging and Waste management" — Discuss.

13. Explain what type of packaging materials are required to pack oil and related products.

14. Give a brief account about packaging laws.

15. Explain briefly about packaging demands for industrial goods.

RAIL-ROAD LOGISTICS

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. "Transportation conquers time and space" – Explain.

2. Highlight various features of Logistics transportation.

3. Discuss the rail logistics in India.

4. Explain how route scheduling is made in rail logistics.

5. What are the factors that contributed to the growth of Road logistics? Explain.

6. What is Road-Cargo elasticity? Explain.

7. Discuss the role of national highways and the toll highways.

8. Highlight the role of Trucker's Borders in Road Cargo movement.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the features of in bound and out bound logistics systems.

10. Discuss the Railways infrastructure in India.

11. What are the ways of determining freight for cargo in Railways?

12. "Roadways is a primary mode of transportations in Logistics" – Discuss.

13. Explain about Rail Cargo movement in India and World Wide.

14. Explain about logistics economics.

15. Explain how coordination carried on among different segments in rail cargo management.

STRATEGIC LOGISTICS MANAGEMENT

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the concept, nature, scope of strategic management.

2. How can JIT be an enabler of competitive strategic logistics?

3. What are the benefits of VMI in competitive decision making of an organization?

4. Explain the relationship between logistics and strategic vision.

5. Explain BCG matrix with suitable illustration with respect to a logistics firm.

6. To create a superior value, a logistics organization must lower its costs, differentiate its products or improve service quality-How?

7. Distinguish between strategic control and operational control.

8. How logistics audit can identify bottlenecks and improvements to organizations strategically?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the strategic management process in detail.

10. What is value chain analysis? Discuss the activities of value chain analysis according to Porter.

11. Discuss the critical factors that are responsible to generate a distinctive competency of a logistics organization.

12. Elaborately discuss the various techniques of environmental scanning.

13. Discuss the different corporate level logistics strategies.

14. What type of alliances and partnerships you would suggest as a strategic choice for a logistics organization to survive?

15. Explain the Mckinsey 7-S model and its implications?'

IT FOR LOGISTICS MANAGEMENT

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the significance of IT in modern era.

2. Briefly describe the availability of Network settings.

3. Explain the significance of "Mail Merge" in communication.

4. Explain the impact of Excel in creating the graphs.

5. Describe the importance of PERT and CPM in logistics management.

6. What are the modern communication tools available in the field of IT?

7. Discuss the modern e-technologies available to enhance the customer service.

8. Differentiate between Data warehousing and Data Mining.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Illustrate the impact of computers in automating the office system.

10. Illustrate the applications of MS Excel.

11. Explain the E–business models with suitable examples.

12. Explain the modern methods available in the field of IT in promoting a service.

13. Comment on the automation of supply chain management with suitable examples.

14. Discuss in detail the "Data warehouse" architecture.

15. Describe the e-banking models with reference to the manufacturing sectors.

BUSINESS LAWS

(2011 Academic Year Onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain the remedies for breach of Contract.

2. Compare Indemnity and Guarantee.

3. Write a short note on Quasi contracts.

4. What is Sale? Distinguish between "Sale" and "An Agreement to sell".

5. Explain the "Doctrine of Caveat Emptor." What are the exceptions to this doctrine? Illustrate your answer.

6. Explain types of parties under the Negotiable Instruments act, 1881.

7. Explain dissolution of firms under the Indian Partnership Act, 1932.

8. Write a short note on various types of meetings under the Companies Act, 1956.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. "All contracts are agreements, but all agreements are not contracts." Discuss the definition and bring out clearly the essentials of a valid contract.

10. Explain the rights and liabilities of common carriers under

    (a) The Carriage by Air Act, 1972.

    (b) The Railways Act, 1989.

11. Explain the rights of an unpaid seller.

12. Write in detail the features and types of Negotiable Instruments.

13. Explain the fundamental principles of Life Insurance, Fire Insurance and Marine Insurance.

14. Illustrate meaning and test of Partnership.

15. Explain the formation of a Company.

DE–6566 **36**

DISTANCE EDUCATION

WAREHOUSING MANAGEMENT

(2011 Academic Year Onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What is the logic to be considered warehouse as a 'necessary evil'?

2. What are the characteristics of an ideal warehouse?

3. Discuss the problems and issues encountered generally in a warehouse while receiving materials.

4. What is EOQ? What are the assumptions of EOQ model? How is it related to safety stock?

5. What are the waste disposal methods in a warehouse?

6. Write notes on industrial safety equipments that must be available in a Container storage warehouse.

7. What is the scope and importance of inventory management in a warehouse?

8. Bring out the application and benefits of bar coding in a warehouse with suitable examples.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.
