DISTANCE EDUCATION

M.B.A. (H.M) DEGREE EXAMINATION, MAY 2012.

First Semester

PRINCIPLES OF HOSPITAL MANAGEMENT

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain fully the steps involved in business planning.

2. Explain the concept of organisation. Narrate in brief the logical steps in forming an organisation.

3. Analyse the factors which make communication effective in an hospital organisation.

4. What is departmentation? Why departmentation is necessary?

5. "Leadership Is Situational". Discuss

6. Motivation is the core of management. Discuss what can be done to motivate the staff in hotel organisation.

7. Discuss the concept of Business Process Re-engineering. (BPR). Should BPR preceds or succeed an EPP implementation.

8. Draw a matrix showing functionality provided by the various prominent (at least two) ERP packages.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. What do you mean by 'management by objectives'? What are the different steps involved in it?

10. What are the basic elements of decision making? Explain the crucial role of diagnosis in decision making and discuss its key parts.

11. Discuss the prevalent situation in terms of marketing hospital service of an ERP solution. Your answer should cover the following.

    (a) Product marketing

    (b) Solution marketing

    (c) ERP Implementation services marketing.

12. How can a Hospital organisation used ERP implementation to obtain competitive advantage? Explain.

13. What is delegation? Point out the factors that affect delegation of authority.

14. Discuss the needs and importance of coordination in management. Explain the principles and techniques of co-ordination.

15. Explain the following theories of Motivation:

    (a) Equality theory of motivation.

    (b) MC celland's needs theory of motivation

    (c) Expectancy theories of motivation.

DISTANCE EDUCATION

M.B.A. (H.M.) DEGREE EXAMINATION, MAY 2012.

First Semester

HEALTH ECONOMICS

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the features of Indian healthcare policy.

2. Brief the role of economics in healthcare.

3. Explain the factors influencing supply in healthcare.

4. Discuss about public health expenditure.

5. List and brief the types of budget.

6. Define "external economy" in healthcare.

7. Write brief notes on "economic analysis".

8. Discuss about the economics of "chief minister's comprehensive health insurance scheme" of Tamilnadu.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Brief the indicators of healthcare system.

10. How do you regulate the competition in healthcare market?

11. How do you measure the elasticity of demand in healthcare?

12. Brief the procedure of pricing.

13. Explain the process of "cost effective analysis".

14. Discuss the economic policy of 'AYUSH'.

15. Write brief notes on scarcity in healthcare.

DE–3738 **13**

DISTANCE EDUCATION

M.B.A. (H.M.) DEGREE EXAMINATION, MAY 2012.

First Semester

HEALTH POLICY AND HEALTH CARE SYSTEM

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Define Health. Give short notes on age pyramid, Dependency ratio and life expectancy.

2. What do you mean by health policy? Brief on national health policy.

3. Brief on Health planning and plan out-lays.

4. Discuss the concept and levels of health care.

5. Describe the determinants of health.

6. Brief on changing pattern of disease.

7. Write down the administration and functions of UNICEF.

8. Define the term "Disease". Write down the concept of disease.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain in detail on the world population trends.

10. List down the National health programmes in India. Discuss briefly on any one of the programme.

11. "Health for all by 2000 A.D – Explain.

12. Define health care. Write down the features of health care delivery system in India.

13. Explain the Health Planning in India.

14. Describe elaborately on the Universal Immunization programme.

15. Write elaborately on World Health Organization.

First Semester

HOSPITAL PLANNING AND DESIGNING

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the services of the hospital offered to the community.

2. Brief construction and commissioning.

3. Explain the factors influencing bed planning.

4. Discuss about the role of "Hospital architect".

5. List and brief the importance of the departments available in the administrative zone.

6. Brief the types of diet available in the hospital.

7. Write brief notes on "Incineration" and "Autoclaving".

8. Discuss about the hospital internal information system.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the role of administrator in hospital administration.

10. Brief in detail about the process of hospital planning.

11. Discuss about the factors influencing hospital utilization.

12. List and brief the departments of diagnostic zone.

13. Explain the layout and requirements of mortuary.

14. Discuss the electrical standards of hospital.

15. Detail the procedure of equipping the hospital.

First Semester

ORGANISATIONAL BEHAVIOUR

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Describe the role of organizational bevaviour in an organization.

2. What are the major factors that determine individual behaviour?

3. Explain the sources of attidues.

4. Illustrate this types of group.

5. What is managerial grid as provided by blake and mouton?

6. How is power important to organization?

7. "Creation of organizational culture is a long term process" — Discuss.

8. Explain survey feedback method in OD.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Describe the different approaches of O.B.

10. Explain herzberg's two factor theory and differentiate it from maslow's theory.

11. Illustrate in detail about group formation with various theories.

12. Distinguish between

    (a) Formal and informal communication

    (b) upward and downward communication.

13. Explain the styles and qualities for a successful leader.

14. Describe the difference b/w organizational climate and culture.

15. Discuss the major OD techniques.

DE–3741 **21**

Second Semester

HOSPITAL CORE SERVICES

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Differentiate clinical and non clinical services.

2. What are the functions of endocrinology services?

3. What specific precautions should be observed in obstetrics and gynaecology services?

4. Bring out the importance of immunology services.

5. How to you ensure outpatient catering facilities?

6. What are the issues related to telephone services in a hospital?

7. Write a note on nursing audit.

8. What do you mean by inservice education in hospitals?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. "Administrative services needs to be effective in order to coordinate with all services in a hospital" – Discuss.

10. Discuss the scope and importance of cardiology services in a hospital and its preparations.

11. Elucidate the need to evaluate staff health in hospitals.

12. "House keeping and environment services play a vital role in emerging hygiene" – Discuss.

13. Enumerate the duties of nursing staff and officers.

14. Discuss the role of hospital administrator with examples.

15. Bring out the importance of hospital information system to hospitals.

Second Semester

HOSPITAL SUPPORT SERVICES

(2005 Onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What do you mean by service? How can it be classified?
2. Define the characteristics of clinical services.
3. What are the various records maintained by a ward in a hospital?
4. Write a brief note on Blood bank management.
5. What is the need for a quality laundry source in hospitals?
6. What are the components of a special diet kitchen?
7. What are the roles and responsibilities of Nursing Assistants?
8. How a casualty department has to be organized?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the Non-clinical support services in detail.
10. Describe the scope, importance and issues in hospitals nursing documents.

11. Analyze the critical aspects of managing ambulance services.

12. Explain how a laboratory in a multispecialty hospital to be organized and managed.

13. Illustrate various types if stores and store functions in hospitals.

14. Analyze the impact of technology in Hospital Support Services.

15. Write an essay on "House Keeping Principles and practice in Hospitals".

DE–3743 **23**

DISTANCE EDUCATION

M.B.A. (HM) DEGREE EXAMINATION, MAY 2012.

Second Semester

HUMAN RESOURCE MANAGEMENT IN HOSPITALS

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Why do we need HRM in Hospitals?

2. What is Job specification? Give an example.

3. Define selection and state it's types.

4. What are the components of a structure of salary?

5. What is Group cohesiveness? What are it's effects?

6. What is the significance of organizational culture?

7. Why Work Life Balance is talked about much in the recent times?

8. What are the disadvantages and advantage of Transfers?

PART B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the process of Human Resource Planning.

10. List out the various types of Tests in Selection and explain it's salient features.

11. Explain Training Needs Inventory and the process of preparing it.

12. How the working conditions in a hospital can be improved?

13. How to study Group Behaviour in Hospitals? What are the ways to effectively manage group behaviour?

14. Explain the process of management of change.

15. Explain the various Employee Welfare Schemes that will motivate the employees.

DISTANCE EDUCATION

M.B.A.(HM) DEGREE EXAMINATION, MAY 2012.

Second Semester

MATERIALS MANAGEMENT IN HOSPITALS

(2005 Onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Outline a system of stores control.

2. Briefly explain the concept of ABC analysis as a technique of Inventory control.

3. Explain briefly cost and benefits of Inventory and some techniques of Inventory control.

4. "Efficient Inventory management is reflected in the liquidity and profitability of the Hospital" – Comment.

5. Briefly explain the procedures of material management from the time the stores and requisitioned till their issue for consumption.

6. What are the objective of Material Requirement Planning (MRP)? Also state the functions served by MRP.

7. Explain the importance and the principles of materials handling.

8. State the procedures of import of hospital Equipments and Medicines.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain what is meant by the Maximum Level, Minimum Level and the Ordering Level in maintenance of stock. What are the factors that govern the fixing up of these levels?

10. Explain the various circumstances under which the issue price of a stores material may be higher than the last purchase price.

11. Discuss the functions and advantages of a centralized Purchase Department of a hospital.

12. What is meant by Material handling? State the benefits and factors to be considered for the selection of Material handling equipments in hospital.

13. Define "Inventory turnover" and discuss briefly its importance in Inventory control.

14. State and explain the different methods of pricing material issues and indicate their impact on the ascertainment of profits, when there is a general tendency of rising prices.

15. Explain Materials Planning and Integrated approach of Material Planning and Control.

DE–3745 **25**

DISTANCE EDUCATION

M.B.A. (HM) DEGREE EXAMINATION, MAY 2012.

Second Semester

ACCOUNTING AND FINANCIAL MANAGEMENT

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Briefly explain the accounting concepts.

2. Give journal entries for the following transactions :

   (a) Salary for doctors Rs. 1,00,000.

   (b) Sales of medicine Rs. 50,000.

   (c) Equipments purchased Rs. 2,50,000.

   (d) Interest received from bank deposits Rs. 10,000.

3. Give a specimen of Profit and Loss Account.

4. Explain any four incomes shown in the Income and Expenditure Account of a trust hospital.

5. What do you mean by internal audit?

6. What are the objectives of financial management in the hospitals?

7. Write a note on "social cost benefit analysis".

8. Explain the pattern of hospital expenditure.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the advantages of double entry system of book-keeping.

10. From the following Receipts and Payments Account of Jeevan charitable hospital, prepare Income and Expenditure Account and Balance Sheet for the year ended 31st December 2010.

	Receipts	Rs.		Payments		Rs.
To	Balance b/d	6,000	By	Investments		5,000
To	Donations	7,000	By	Salary		600
To	Subscription	9,000	By	Rent		400
To	Entrance fee	2,000	By	Medicines		900
			By	Printing		100
			By	Balance c/d :		
				Cash in hand	2,500	
				Cash at bank	14,500	17,000
		24,000				24,000

(a) Subscription outstanding on 31st December 2010 amounted to Rs. 500. Subscription received include Rs. 200 for 2009.

(b) One half of the donation and entrance fee should be capitalized.

(c) On 1st January 2010 the hospital had equipments worth Rs. 3,000 and furniture worth Rs. 900.

11. Give a specimen of Balance Sheet of corporate hospital as per the schedule VI of the Companies Act 1956.

12. Discuss the importance of auditing hospital accounts.

13. Enumerate the sources of finance to the hospitals.

14. Explain the different methods used by hospital to evaluate their investments.

15. Discuss the features of expenditure management in hospitals.

DE–3746 **31**

DISTANCE EDUCATION

M.B.A. (HM) DEGREE EXAMINATION, MAY 2012.

Third Semester

MANAGEMENT INFORMATION SYSTEM

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the significance of system designing phase in system analysis and design.

2. What is computerized MIS? Explain the approaches of MIS development.

3. Briefly explain the limitations of MIS.

4. Write a note an artificial intelligence and expert system.

5. Explain about communication networks.

6. What is EDI? Explain it with its applications.

7. Briefly explain the role of ecommerce and internet.

8. Describe the basic requirements of MIS.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Describe the various phases of system analysis and design.

10. Write a detailed note on MIS.

11. Explain the need, scope and purpose of management information.

12. Describe the role of computers and their effects on MIS.

13. Explain the concepts of on-line information services and video conferencing.

14. Explain the benefits of ERP system.

15. Enumerate the applications of internet and website management.

M.B.A. (HM) DEGREE EXAMINATION, MAY 2012.

Third Semester

RESEARCH METHODS

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the need for conducting social research.

2. Describe the limitations of social research.

3. What is a hypothesis? And how it is framed?

4. Discuss the essentials of a good sampling.

5. Distinguish questionnaire from schedules.

6. Discuss the need for editing data.

7. Where are the guidelines for making interpretation effective?

8. Explain the contents of a research report.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Make a detailed discussion on various types of social research.

10. What is a research problem in social science research? And how it is identified?

11. Discuss in detail the probability sampling methods with real life time examples.

12. "Case study method of social research is gradually loosing the importance in modern day context" – Do you agree?

13. When scaling techniques are resorted to? And elaborate the importance of such techniques in satisfaction surveys.

14. Discuss in detail the steps involved in analysing data.

15. "All the efforts of making a good social research is finally reflected through proper reporting" – Elucidate.

DE–3748 **33**

DISTANCE EDUCATION

M.B.A. (H.M.) DEGREE EXAMINATION, MAY 2012.

Third Semester

HOSPITAL RECORDS MANAGEMENT

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the significance of medical records.

2. Mention the process of medical records coding.

3. Detail the flow of medical records inside the hospital.

4. How do you control the movement of medical records?

5. Detail the standards of medical audit committee.

6. Mention the pharmacy related statistics mentioned in the medical records.

7. Brief in detail about the inactive medical record.

8. Write brief notes on "Code of Ethics".

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the uses and importance of medical records.

10. List and explain the types of indexing.

11. How do you design the medical register for mortuary?

12. Mention in detail about any five medical registers related with nursing department.

13. Discuss the methods of medical records quantitative analysis.

14. Brief in detail about the customer protection act.

15. Write brief notes on "Law of Evidence" and "Medico legal cases".

DE–3749 **34**

DISTANCE EDUCATION

M.B.A. (H.M) DEGREE EXAMINATION, MAY 2012.

Third Semester

HOSPITAL RELATED LAWS

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the scope and objectives of the Medical Termination of Pregnancy Act, 1971.

2. What is Medico legal case? List and explain the medico legal case.

3. Elaborate on the key legal provisions for Tobacco control.

4. Explain the maternity leave provisions provided to a woman under the Maternity Benefits Act, 1936.

5. Describe the procedure to calculate bonus, under the Payment of Bonus Act, 1965.

6. What are the rules relating to physical maintenance of hospital premises, as stated in the Factories Act, 1948?

7. Highlight the provisions of the Industrial employment Act, 1940.

8. Explain in detail about the laws pertaining to manufacture and sale of drugs with respect to Poison Act, 1919.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the applicability of Infant Milk Substitutes, Feeding Bottles and Infant Food Act, 1992 in India.

10. Explain Drugs and Cosmetics Act, 1940. Elaborate on the issues relating to purchase of hospital drugs.

11. Discuss the important provisions of minimum wages Act, 1948.

12. Explain the precautions and procedures to be followed in transplanting, under the Transplantation of Human Organs Act, 1994.

13. When and how can you file complaints under the Consumer Protection Act, 1986?

14. Explain the circumstance under which provident fund becomes payable as per Provident Fund Act, 1952.

15. Describe the procedure of settling the disputes of two hospitals.

DE–3750 **35**

DISTANCE EDUCATION

M.B.A. (H.M.) DEGREE EXAMINATION, MAY 2012.

Third Semester

OPERATIONS RESEARCH

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — ($5 \times 8 = 40$ marks)

Answer any FIVE questions.

1. What is operations research? How you use OR in day-to-day decision making process?

2. Express the linear programming problem in its general form with matrix notation.

3. A firm makes two products Q and S, and has a total production capacity of 9 tonnes per day, Q and S requiring the same production capacity. The firm has a permanent contract to supply at least 2 tonnes of Q and at least 3 tonnes of S which requires 50 machine hours of production time. The daily maximum possible number of machine hours is 360. The entire firm's output can be sold, and the profit made is Rs. 80 per tonne of Q and Rs. 120 per tonne of S. Use graphical method to determine the production schedule for maximum profit and to calculate the profit.

4. Determine an initial basic feasible solution to the following transportation problem by using a VAM method.

	D_1	D_2	D_3	D_4	Supply
S_1	19	30	50	10	7
S_2	70	30	40	60	9
S_3	40	8	70	20	18
Demand	5	8	7	14	

5. Discuss the Balanced Assignment and the Infeasible Assignment Problem, with example.

6. Explain about Queue discipline. Describe the methods of applying queuing concept in hospitals for better services.

7. A bridge project is being considered for construction. The mean time estimates, the variance of these time estimates, manpower requirements and precedence requirement for the various activities are given in the following table :

Activity	Immediate Predecessors	Mean time estimates (days)	Variance (days squared)
A	–	7	3
B	A	5	1
C	B	8	5
D	A	20	5
E	A	11	9
F	C, D	7	6
G	D	2	4
H	D, E	6	4
I	F, G, H	10	9

(a) Draw a PERT network for the building project.

(b) Assuming manpower resources are unlimited, find a critical path, as well as the minimum expected completion time.

8. What are the simulation models? How simulation is used in the management of hospitals for decision making?

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Describe the origin and development of Operations Research (OR). Explain the applications of OR.

10. Solve the LPP using simplex method

Maximise $Z = 30x_1 + 40x_2$

Subject to

$$60x_1 + 120x_2 \leq 12{,}000$$
$$8x_1 + 5x_2 \leq 600$$
$$3x_1 + 4x_2 \leq 500$$
$$x_1, x_2 \geq 0$$

11. Solve the following transportation problem by Least Cost method and check the feasibility of the solution. The unit costs of shipment are given in the cells below :

To / From	D	F	F	Supply
A	6	4	1	50
B	3	8	7	40
C	4	4	2	60
Demand	20	95	35	150

12. A company is spending Rs. 1000 on transportation of its units from three plants to four warehouses. It has calculated the cost of transportation from different plants to warehouses, given below in Rs. The supply and demand of units is also given below, Will the company save some money by optimum scheduling and how much?

	Warehouse				
Plant	W_1	W_2	W_3	W_4	Availability
P_1	19	30	50	12	7
P_2	70	30	40	60	10
P_3	40	10	60	20	18
Requirements	5	8	7	10	

13. A hospital has one registration clerk on duty at a time. She handles information of doctor schedules and makes registrations. Patients arrive at a rate of 8 per hour and the clerk can service 12 patients on an average per hour. After stating your assumptions, answer the following :

(a) What is the average number of patients waiting for the service of the clerk?

(b) What is the average time a patient has to wait before getting service?

(c) The management is thinking of installing a computer system to handle the information and registrations. This is expected to reduce the service time from 5 to 3 minutes. The additional cost of having the new system works out to Rs. 50 per day. If the cost of goodwill of having to wait is estimated to be 12 paise per minute spent waiting before being served, should the hospital install the computer system? (Assume an 8-hour working day.)

14. Construct the network diagram with the following relationship.

– A and B are the first activities of the project
– A and B precede C
– C precedes D
– B precedes E and F
– F and C precedes G
– E precedes H
– H precedes I and J
– D and J precedes K
– K precedes L
– G, I and L are terminal activities of the project.

Activity :	A	B	C	D	E	F	G	H	I	J	K	L
Duration (weeks) :	5	3	2	1	3	2	8	1	2	3	4	7

Find the critical path of the project. Calculate the three time estimates and find the minimum expected time to complete the project.

15. Explain the following :

(a) Objective function in Linear Programming

(b) Degenerate Transportation Problem

(c) Queue discipline

(d) Monte Carlo Simulation.

M.B.A.(H.M) DEGREE EXAMINATION, MAY 2012.

Third Semester

MARKETING OF HOSPITAL SERVICES

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Analyse the different features of services.

2. State the core services of the hospitals.

3. What are the factors that influence the pricing of hospital services?

4. Explain briefly about the hospital consultancy services.

5. Explain the need for logistics management in hospital services.

6. Is advertising important for hospitals? Explain.

7. Give a note on delivery of hospital services.

8. What are the various physical facilities in hospital services?

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Explain the various features of services.

10. Briefly describe the planning and development of new services in hospitals.

11. Explain the various methods of pricing of hospital services.

12. Analyse the role of customer's involvement in the service processes.

13. Discuss the various sales promotional measures followed by hospitals.

14. Discuss the important of physical evidences in hospital services.

15. Write an essay on "Physical Evidences in hospital industry".

Fourth Semester

QUALITY MANAGEMENT IN HOSPITALS

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Elaborate the different approaches to quality.

2. Why the quality costs are measured?

3. Explain in detail the concept of ISO 9000 quality system.

4. What are the criteria for quality assurance?

5. Briefly explain the steps in quality delivery process.

6. Give short note on analyzing training needs.

7. What are the use of scatter diagram?

8. Define Re-engineering.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Discuss in detail about quality terminologies.

10. Discuss in the process of joint commission international (JCI).

11. What is the most important factor for success of the ISO implementation effort?

12. Briefly explain the quality assurance committee.

13. Describe the techniques adopted in controlling quality of health care services.

14. Explain the redesign process.

15. 'Quality of work can be improved by proper training' – Discuss.
