M.B.A. DEGREE EXAMINATION, APRIL 2017

Second Semester

BUSINESS RESEARCH METHODOLOGY

(CBCS – 2016 onwards)

(Common for M.B.A. (G)/M.B.A. (CS)/M.B.A. (B & I)/ M.B.A. (IB)/M.B.A. (LM))

Time : 3 Hours Maximum : 75 Marks

Part A ($5 \times 3 = 15$)

Answer **all** questions.

All questions carry equal marks.

1. Distinguish between applied and fundamental research.

2. Distinguish between probability and non-probability sampling.

3. What is pre-testing?

4. What is a 'Schedule'?

5. What is an 'Abstract'?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Briefly explain the steps involved in research process.

Or

(b) Explain the four types of hypothesis.

7. (a) What is research design and what are the features of a good research design?

Or

(b) What are the reasons for sampling and non-sampling errors to occur?

8. (a) Discuss the effective interview techniques.

Or

(b) What are the essentials of a good questionnaire?

9. (a) Explain the central tendency measures used for analysis.

Or

(b) Find the two lines of Regressions from the following data :

X :	158	160	163	165	167	170	172	175	177	181
Y :	163	158	167	170	160	180	170	175	172	175

Estimate Y when X = 164.

10. (a) Discuss the different steps involved in writing a research report.

Or

(b) Explain Appendix, Bibliography and executive summary and the purpose they serve.

Part C (1 × 10 = 10)

Compulsory

11. Read the following case and answer the questions.

An architecture firm that emphasizes "green" building has a mix of projects – spanning the spectrum from larger corporate projects to small private homes which also includes more profitable work and projects deliberately selected for social good, including the design of orphanage communities for SOS Children International and other non-profit organizations. The firm engages teams of young architects and the firm's founders are dedicated to being both very client-oriented and environmentally responsible. The firm has been commissioned by SOS to design homes for some villages destroyed in the December 24, 2004 tsunami. The preferred design is 'thatch roofs' which is in keeping with the local environment. However, the villagers want a more functional (and more expensive) reinforced cement concrete roof. Imagine you are the Architect.

(a) On what principles and data basis you would decide the homes and

(b) What future plans you would recommend for the firm?

BUSINESS LAW

(Common for M.B.A. (CS)/M.B.A. (G)/M.B.A. (B&I)/ M.B.A. (IB))

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What is 'consent'?

2. Distinguish between bailor and bailee.

3. Differentiate between condition and warranty.

4. What is Bill of Lading?

5. What is 'Abridged Prospectus'?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) What do you understand by the term acceptance'? What are the essentials of a valid acceptance?

Or

(b) Discuss briefly the remedies for breach of contract.

7. (a) What are the distinctions between contract of indemnity and contract of guarantee?

Or

(b) Discuss the rights of an agent against the principal.

8. (a) Briefly describe the rules regarding delivery of goods under the Sale of Goods Act, 1930.

Or

(b) Explain the objectives of Consumer Protection Act, 1986.

9. (a) Describe the responsibility of a Railway Administration as a Carrier of Goods under the Railways Act, 1989.

Or

(b) What are the liabilities of the carrier with regard to baggage or cargo under The Carriage by Air Act, 1972?

10. (a) Explain the contents of MoA.

Or

(b) Discuss the powers of the Directors.

Part C (1 × 10 = 10)

Compulsory.

11. Read the following case and answer the questions.

(a) A minor falsely representing himself to be of age, enters into an agreement to sell his property to 'X' and receives from him as price a sum of Rs. 72,000 in advance. Out of this sum, the minor purchases a car for Rs. 60,000 and spends the rest on a pleasure trip. After the minor has attained majority, 'X' sues him for the conveyance of the property or in the alternative for the refund of Rs. 72,000 and damages. How would you decide? (5)

(b) Alok, the Managing Director of Yellow Ltd., borrowed a large sum of money and misappropriated the same. Later, when the lender demanded his money, the company refused to repay, contending that the money borrowed by Managing Director was misappropriated by him and the company is not liable for repayment. Decide, giving reasons, whether the lender would succeed in recovering the money from the company? (5)

MARKETING MANAGEMENT

(Common for M.B.A. (CS)/M.B.A. (G)/M.B.A. (LM))

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A $(5 \times 3 = 15)$

Answer **all** questions.

All questions carry equal marks.

1. What is 'positioning'?

2. Distinguish between consumer and customer.

3. What is test marketing?

4. What is product life cycle?

5. Distinguish between personal selling and impersonal selling.

Part B $(5 \times 10 = 50)$

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Explain the modern marketing philosophy.

Or

(b) Discuss the bases for segmentation.

7. (a) Explain the sociological and psychological factors that influence consumer behavior.

Or

(b) Discuss any two applications of marketing research.

8. (a) Discuss the reasons for failures of new products.

Or

(b) Discuss the choices available under strategic branding decisions.

9. (a) What are the decisions involved in management of selected channel of distribution?

Or

(b) Discuss the modern trends of retailing.

10. (a) Explain the factors influencing selection of promotion mix.

Or

(b) Explain the major tools of public relations and publicity.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Read the following case and answer the questions.

Ikea is a good example of a company that successfully uses a combination of positioning strategies that satisfies the needs of a particular segment to find a distinctive international position in a competitive market. Ikea is a Swedish company that retails furniture around the world. It uses demographic and family-based segmentation to target primarily young people who cannot afford to buy expensive furniture, but have aspirations for a nice,

fashionable and comfortable home. Ikea uses consistent brand visuals both outside and inside its stores, and carefully considers the needs in its market segment by keeping its costs low, yet providing good service.

For example, it limits sales staff, but provides enough well-trained staff who can answer all questions about the sections to which they are attached. It is supported by an effective computerized system that informs customers of stock and delivery times. Smaller items can be purchased immediately while larger ones take 6-8 weeks to deliver. Customers pay at a final-pay station, and order or select goods as they move through the well sign-posted store.

So it appears like a grand supermarket with staff in attendance. Customers can assemble all items themselves as Ikea designs its furniture for self assembly, or has delivery staff to do it for a small additional fee. Furniture is displayed in a room format so that customers can see how various combinations would appear together in their own rooms. Finally, there is a children's play area and a cafeteria catering to those extra needs of young families, and opening hours cater to working customers. In terms of combining positioning strategies, the targeted segment gets value for money, aspirational satisfaction, complete access to varieties and combinations of product features and attributes rooms that solve choice problems and emotional satisfaction through thoughtful layout and services.

Questions :

(a) Analyze the positioning strategy of IKEA.

(b) What kind of training need to be imparted to sales force of IKEA?

(c) What else need to be done to retain the customers?

2. Distinguish between job description and job specification.
3. What do you mean by 'placement'?
4. Enumerate the types of performance appraisal.
5. What is the purpose of trade union formation?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) Discuss the various functions of HRM.

Or

(b) Explain the determinants of organization structure in relation to HR functions.

7. (a) Explain the steps involved in job analysis process.

Or

(b) Describe the sources of recruitment.

8. (a) Discuss the techniques of executive development.

Or

(b) What are the essentials of a sound Promotion policy?

9. (a) Explain the role of fringe benefits and non-fringe benefits in the performance of employees in an organization.

Or

(b) How is Human Resource information system useful in Human Resource planning?

10. (a) Describe the types of workers participation in Management.

Or

(b) Explain the legislative provisions of welfare and safety which an employer has to provide.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Read the following case and answer the questions.

Venkat is in-charge of a bindery in Vijayawada, which employs fifteen people, five of whom work in the factory. Three of these employees run machines, one supervises, and the fifth moves the blank paper and finished print by handcar. This fifth position, which demands skill to other than driving a handcar, needs to be filled and three applicants have responded.

The first is Mr. Anjaiah who is thirty five, unmarried, and a Navy veteran. Anjaiah has a poor work record. During his five years in Vijayawada he has worked only as seasonal labour and occasional odd jobs. He drove a forklift in the Navy, while working at Visakhapatnam. He has a strong built, which could help, although the work is generally light.

Mr. Nehal Singh, aged 22, came to Vijayawada two years back from Punjab. He has done farm labour for many years and assembly-line work for one year. His command of English is poor (but can speak the regional language. Telugu, fluently). He resides with his mother and seems certain to remain in the area for some time. After having run farm equipment, he should have no trouble steering a handcar.

Mr. Raja is a local boy who finished high school two years ago. Subsequently, he got a diploma from a locally and is currently employed as an assistant in Savani Transport Company, Vijayawada. His character reference is excellent. Mr. Raja is small, but he seems quick and was a track star in high school.

Questions :

(a) How much consideration should be given to Mr. Anjaiah's poor work record?

(b) How important is command to English to the job?

(c) Should Mr. Nehal Singh be passed over because of his status as a recent migrant?

(d) Should Mr. Raja get the job?

(e) Who should be hired? Why?

FINANCIAL MANAGEMENT

(Common for M.B.A (CS)/M.B.A. (B&I)/M.B.A. (G)/ M.B.A. (LM))

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Explain the importance of risk-return trade off in FM.

2. Classify cost of capital.

3. What are the different modes of payment of dividend?

4. Explain the importance of capital budgeting.

5. A company expects a net income of Rs. 80,000. It has Rs. 2,00,000. 8% debentures.

   The equity capitalization rate of the company is 10%. Calculate the value of the firm and overall capitalization rate according the net income approach (ignoring income tax).

Part B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Explain the scope of financial management from the modern point of view.

Or

(b) In what directions the field of finance evolved in recent years. State briefly the objectives of financial management.

7. (a) Explain the guidelines issued by the Government of India regarding foreign equity and debt securities.

Or

(b) Explain at least five new financial instruments which have been recently introduced in the capital market.

8. (a) Give a brief account of the various sources of working capital available of a firm.

Or

(b) What is 'leverage'? What are the leverages used in financial analysis?

9. (a) From the following particulars. Prepare a statement showing working capital needed to finance a level of activity of 12000 units of output per annum.

Analysis of selling price per unit.

	Rs.
Raw materials	5
Labour	3
Overhead	2
Total cost	10
Profit	2
Selling price	12

Additional information:

(i) Raw materials are to remain in store on an average of one month.

(ii) Material are in process on an average of 2 months.

(iii) Finished goods are in stock on an average of 3 months.

(iv) Credit allowed to debtors 4 months.

(v) Credit allowed by suppliers 2 months.

It may be assumed that production and overheads accrue evenly throughout the year.

Or

(b) The Tamil Nadu Fertilizers Ltd. is considering a proposal for the investment of Rs. 5,00,000 on product development which is expected to generate net cash inflows for 6 years as under

Year	Net Cash Flows Rs. ('000)
1	Nil
2	100
3	160
4	240
5	300
6	600

The following are the present value factors @ 15% p.a

Year	1	2	3
Factor	0.87	0.76	0.66
Year	4	5	6
Factor	0.57	0.50	0.43

Find out whether the proposal can be accepted on the basis of NPV method.

10. (a) Explain the factors influencing capital structure planning.

Or

(b) What are the determinants of the dividend policy of Corporate Enterprises? What are the different modes of payment of dividend?

Part C (1 × 10 = 10)

Compulsory.

11. Read the following case and answer the questions.

A company is to start a new project which is having cost of Rs. 1,00,000 and life of 5 years. Salvage value is nil. tax rate for the company is 50% and it follows straight line method of depreciation. The cash flows before tax (CFBT) are as follows:

Year: 1 2 3 4 5 CFBT (Rs.): 35,000, 35,000, 40,000 30,000. 20,000 respectively. Compute the following:

(a) Payback period.

(b) What is your comment if the standard pay back period is 3 years.

Second Semester

BANKING AND INSURANCE : LAW AND PRACTICE

(CBCS – 2014 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** the questions.

All questions carry equal marks.

1. What is 'Right of lien'?

2. What is the purpose of crossing of a cheque?

3. What is hypothecation?

4. What is the meaning of IRDA?

5. What is the meaning of risk with respect to insurance?

Part B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Explain how does RBI exercise control over Banks?

Or

(b) Discuss the recent developments in E-banking.

7. (a) What are the essentials of a promissory note?

Or

(b) Describe the statutory protections available to a paying banker.

8. (a) Discuss the advantages and disadvantages of any two securities for loan.

Or

(b) Enumerate the types of borrowers and the purposes for which they borrow.

9. (a) Discuss the principles of insurance.

Or

(b) Discuss the recent developments in insurance sector.

10. (a) Explain the settlement of insurance claims under Motor Vehicle Insurance.

Or

(b) Examine the role of company secretary in risk management through insurance.

Part C $(1 \times 10 = 10)$

Compulsory

11. Read the following case and answer the questions.

(a) Neelima opened a savings bank account with Dhan Bank. She was handed over a copy of rules and regulations for operating the account. It provided that the cheque book should be kept under lock and key and for loss, if any, arising from not complying with requirement, the bank will not be responsible. Neelima kept the cheque book in drawer and one of

her office colleagues took off one cheque leaf and by forging her signature withdrew 2 lakh from the bank. She claimed refund of this amount from the bank. Bank refused to pay stating that the loss has been caused due to negligence on part of the customer. She has filed an appeal against the bank. Give your decision on the case with reasons. (5)

(b) Kapil purchased an automobile service station from Vimal. The purchase price included the costs of building, equipment and other assets. The business was financed by a loan taken by Kapil from a scheduled bank, which also held a mortgage of the building. Kapil, after purchase, converted one of the car-repair bays into a quick-service restaurant. Kapil had secured an insurance cover on the property but did not disclose to the insurer about the conversion. Six months after the commencement of the business, a car undergoing servicing at the station caught fire and damaged the roof over a bay in the restaurant area. Could Kapil's insurer deny coverage for fire? (5)

Or

(b) What is meant by Break even chart? Explain different types of Break Even Charts.

9. (a) Shriram Enterprises manufactures a special product "Zed." The following particulars were collected for the current year.

Monthly demand of Product Zed, 1,000 units

Cost of placing an order, ₹ 100

Annual carrying cost per unit, ₹ 15

Normal usage, 50 units per week

Minimum usage, 25 units per week

Reorder period, 4 to 6 weeks.

Compute from the above:

(i) Reorder quantity,

(ii) Reorder level

(iii) Minimum level

(iv) Maximum level/and

(v) Average stock level.

Or

(b) What is meant by activity based costing? Explain it with an example.

10. (a) Explain the concept of

(i) Standard costing and

(ii) Variance analysis.

Or

(b) Product 'A' is obtained after it passes through three distinct processes. Prepare process accounts from the following :

Particulars	Process I	Process II	Process II	Total
	₹	₹	₹	₹
Materials	5,200	3,960	5,924	15,084
Wages	4,000	6,000	8,000	18,000
Production overheads	,,	,,	,,	18,000
Output in units	950	840	750	
Normal loss	5%	10%	15%	
Value of scrap per unit	4	8	10	

1,000 units of materials @ ₹ 6 per unit were introduced in process I. Production overhead is to be distributed as 100% on wages.

Part C (1 × 10 = 10)

Compulsory.

11. In the following table, there appear income statements for four companies namely called Company W, Company X, Company Y and Company Z. Each income statement has items missing you are required to determine these missing numbers. (Assume taxes are part of "Period expenses.")

Particulars	Co.W	Co. X	Co.Y	Co. Z
	₹	₹	₹	₹
Sales	1,35,000	1,08,000	81,000	1,26,000
Cost of good sold:				
Beginning inventory	18,000	13,500	?	18,000
Plus Purchases	58,500	?	51,000	72,000
Less : Ending inventory	13,500	18,000	18,000	?
Cost of goods sold	?	54,000	?	?
Gross margin	?	?	?	45,000
Period expenses	18,000	24,000	9,000	?
Net income (loss)	?	?	9,000	(3,000)

INDIRECT TAX LAWS

(CBCS – 2014 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Enumerate the special feature of indirect taxation in India.
2. Explain the bases for levy of excise duty?
3. Briefly specify the genesis and need for GST.
4. Discuss the procedure for warehousing of goods under the Customs Act.
5. What do you mean by inter-state sale and intra-state sale?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) Explain the various reforms in Indirect tax system.

Or

(b) Explain the merits and demerits of Indirect taxes.

7. (a) Specify the kinds of excise duties.

Or

(b) Bring out the procedure for assessment of goods under Central Excise Act.

8. (a) How do you levy the service tax for management of services?

Or

(b) What are the reasons for mooting out VAT in India?

9. (a) Discuss the types of Customs duty.

Or

(b) Why do they have duty draw backs?

10. (a) Enumerate the registration formalities for dealers under Sales Tax Act.

Or

(b) Specify and state the need for various forms under CST.

Part C $(1 \times 10 = 10)$

Compulsory.

11. Read the following case and answer the questions :

M/s. XYZ company involved in manufacturing of tyre tubes for car and Lorries in the states of TamilNadu, Chattisgarh, Punjab and Rajasthan. The factory has the same manufacturing capacity and transports the goods throughout the country. A. Suggest how the company has to gets itself B. What procedure the company has to carry out to clear the goods from its factory C. Can the company claim CENVAT credit? If so, specify how.

GLOBAL BUSINESS COMMUNICATION

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. What are the merits and demerits of communications through e-mail?
2. Explain Acronyms and Metaphor with examples.
3. What care you take in communicating negative news in organisation?
4. Write a note on transmittal documents.
5. What is acceptance?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

6. (a) Bring out the known national cultural variables between India and the country in which you are planning to have business tie –up.

Or

(b) Elaborate about ethical issues in global communication. Do you think personal ethics has a say in business ethical communication.

7. (a) What are the major language related factors to be considered for effective communication? Explain them in detail.

Or

(b) Write the following in simple language without changing the meaning

(i) In a subsequent letter we will evaluate the relative desirability of various and sundry investments in effectuating the overall objectives of the company.

(ii) Many top-management groups seek to inject more incentive into pay practices by gearing increases to differences in performance.

Fill in the blanks with suitable words or phrases.

(iii) The government has promised to continue certain subsidies as a ———————— for the stopping of violence.

(iv) The hearing of the case was held ————————.

Use the given words and form sentences.

(v) Pro rata

(vi) In toto

Fill in the blanks with suitable forms of the verbs given in the bracket.

(vii) we ———————— the documents before we mailed them to you (carefully examine)

(viii) I'm sorry I———————— the letter from S.K. agencies———————— a photocopy? (Misplace, you have)

Correct the following sentences :

(ix) There has been a mistake definitely in this document.

(x) He wanted to know why did I distinue to get my supply of biscuits from him.

8. (a) What are the factors you think important in building goodwill through business letters?

Or

(b) Draft a letter to communicate about job offers to the selected employees.

9. (a) Elaborate on various parts of business proposal when you plan for global business.

Or

(b) Bring out various strategies for improving oral presentation.

10. (a) Based on your analysis about a company in abroad, prepare a report to your board of directors about the feasibility of considering them as your buyer.

Or

(b) Write a letter to your clearing and forwarding agent stating that the cargo is very urgent and needs to be cleared at the earliest.

Part C $(1 \times 10 = 10)$

Compulsory

11. Write a report about the meeting and discussions with your employees about their suggestions made by them to you chief general manager.

EXPORT MANAGEMENT PROCEDURES AND DOCUMENTATIONS

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Specify the objectives of export credit and gurantee corporation.

2. What do you mean by open policy?

3. Write a note on deemed exports.

4. Explain bend rebate.

5. List out the role of commodity beads.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

6. (a) Elaborate about the steps involved in exporting.

Or

(b) List out the various import documents necessary in India. Also elaborate the contents of a bill of entry.

7. (a) Elaborate the steps in exporting from our country of origin.

Or

(b) Explain a bill of lading and a bill of exchange.

8. (a) Do you feel free trade zones help to improve a country's financial position? Justify your answer.

Or

(b) Explain the various export promotion measures extended to exporters in India.

9. (a) List out the various export houses you know in our country.

Or

(b) Bring out the links between customs and central excise.

10. (a) Bring out the objectives, role and functions of Indian institute of foreign trade.

Or

(b) Bring out the salient functions of export inspection council.

Part C $(1 \times 10 = 10)$

Compulsory.

11. Elaborate various duty exemption or remission schemes that are in operation/ practice in india.

Business Models

INTERNATIONAL BUSINESS

(2016 Onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Distinguish between e-commerce and e-business.

2. What is the need for e-commerce?

3. How can online and offline techniques be used in the control stage of strategy?

4. Why do we need security in the case of e-commerce?

5. Explain paper based systems and what are its disadvantages.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

6. (a) Discuss about the e-business architecture challenges in India.

Or

(b) What are the initiatives and trends that drive e-business?

7. (a) Explain the basic elements to sell online and explain e-commerce procedure.

Or

(b) Discuss the ways and means of promoting site. Also explain the various tools used to enhance the web sites.

8. (a) How do you plan your e-ad in the web site you prefer?

Or

(b) Explain what is meant by the internal contribution and outline how companies will decide on an ad. Bring out the speciality of ad on web.

9. (a) Elaborate on security concepts relating to e-payment.

Or

(b) What are the cyber crimes you commonly come across? How can we overcome these things?

10. (a) Explain the birth and advent of EDI in India. State the features of EDI and EDI in India.

Or

(b) Explain GEDIS with its service network.

Part C $(1 \times 10 = 10)$

Compulsory.

11. Without the development of the world wide web by Tim Berners –Lee, the internet is unlikely to have become a commercial medium – Discuss.

QUANTITATIVE METHODS

(Common for M.B.A (G)/M.B.A. (IB))

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A $(5 \times 3 = 15)$

Answer **all** questions.

1. Enumerate the applications of L.P.P. in business.

2. Give the expression of Binomial distribution and under what conditions it is used?

3. What is a queuing theory problem? Describe the advantages of queuing theory to a business executives with a view to persuading him to make use of the same in management.

4. What are the types of decision making environments?

5. Explain the correlation concept.

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) Determine the optimum assignment to maximize the production.

Work Centres

		A	*B*	*C*
	1	10	7	8
Method	2	8	9	7
	3	7	12	6
	4	10	10	8

Or

(b) Consider the following data from base to target and the matrix consists of unit transportation cost.

T

		T_1	T_2	T_3	
	B_1	8	6	5	15
B	B_2	6	6	6	16
	B_3	10	8	4	12
	B_4	8	6	4	13
		18	20	18	

7. (a) The past records showed that there were 7 road accidents on an average per month in a locality. What is the probability as per Poisson distribution, that in a given month, there will be less than 6 accidents?

Or

(b) A box contains 100 oranges. 20 of which are defective, 6 oranges are selected randomly for inspection. Find out the probability that

(i) all 6 are defectives

(ii) all 6 are good

(iii) atleast 1 is defective

(iv) at the most 2 are defective.

8. (a) Explain the various steps involved in the process of simulation.

Or

(b) The production department for a company requires 3600 kg of raw materials for manufacturing a particular item per year. It has been estimated that the cost of placing an order is Rs. 36 and the cost of carrying inventory is 25 per cent of the investment in the inventories. The price is Rs. 10 per kg. The purchase manager wishes to determine an ordering policy for raw materials such as lot size, order cycle time, minimum variable inventory cost and minimum total inventory cost.

9. (a) The demand function for a certain product is given by $p = -0.025x + 900 \quad (0 \le x \le 40000)$ where p is the unit price and x is the quantity demanded.

(i) Find the revenue function R.

(ii) Find the marginal revenue function.

(iii) Find $R'(5000)$ and interpret your results.

(iv) If the total cost function for the production is given by $C(x) = 200x + 2800000$, then find the profit function P. Also find the marginal profit function $P'(5000)$ and interpret your results.

Or

(b) From the following data obtain two regression equation.

X	6	9	12	5	8	14
Y	5	20	15	12	9	11

10. (a) A manufacturer makes a product, of which the principal ingredient is a chemical *X*. At the moment, the manufacturer spends Rs. 1,000 per year on supply of *X*, but there is a possibility that the price may soon increase to four times its present figure because of a worldwide shortage of the chemical. There is another chemical *Y*, which the manufactures could use in conjunction with a third chemical, *Z* in order to give the same effect as chemical *X*. Chemical *Y* and *Z* would together cost the manufacturer Rs. 3,000 per year, but their prices are unlikely to rise. What action should the manufacturer take? Apply the maximin and minimax criteria for decision-making and give two sets of solutions. If the coefficient of optimism is 0.4, find the course of action that minimizes the cost.

Or

(b) Explain the concept of decision tree.

Part C (1 × 10 = 10)

Compulsory.

11. Solve the L.P.P. using Simplex method.

Minimize $Z = 32000x_1 + 11000x_2 + 10000x_3$

Subject to :

$$16x_1 + 12x_2 + 8x_3 \le 220$$
$$11x_2 + 10x_3 \le 400$$
$$x_2 \ge 12$$
$$x_1 \ge 6$$
$$\text{and } x_1, x_2, x_3 \ge 0.$$

MANAGEMENT STRATEGIES OF MNCs

(2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Section A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Explain the concepts of MNCs and TNCs.

2. Explain the acquisition strategies used by MNCs.

3. Explain the need for Good Corporate Governance.

4. What do you mean by Strategic Leadership?

5. Explain the role of location in strategizing MNCs.

Section B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) What do you understand by corporate governance? How is it used to monitor and control manager's strategic decisions?

Or

(b) What do you mean by Strategic Leadership? Explain the key strategic leadership actions.

7. (a) What is meant by Strategic Management Process? What are the different factors that needs to be Considered during this process?

Or

(b) What is strategic entrepreneurship? How do firms develop innovations through cross functional teams?

8. (a) Explain briefly the emergence and growth of MNCs.

Or

(b) Explain the Concept of Business Process Outsourcing with a suitable example

9. (a) What do you mean by acquisition? Discuss the acquisition strategies used by MINCs.

Or

(b) Who are the stakeholders? How can we classify them?

10. (a) Examine the benefits and problems posed by MNCs for the host and source country.

Or

(b) Discuss the different international strategies by which MNC can operate. Bring out the merits and limitations of each.

Section C $(1 \times 10 = 10)$

Compulsory.

11. What is an entrepreneur and in entrepreneurial mind-set? What is entrepreneurial opportunities and how are they important for firms competing in 21st century competitive landscape?

INTERNATIONAL MARKETING LOGISTICS

(2013 Onwards)

Time : 3 Hours Maximum : 75 Marks

Section A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What do you mean by supply change management?

2. What do you understand by conference system in linear shipping operations?

3. Write a short note major ports of India.

4. What are the benefits of warehousing?

5. What is the C and F agents in transportation?

Section B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Write a short note on any two of the following :
   (i) Containerization
   (ii) Supply Chain Management
   (iii) Problems faced by ports in India
   (iv) Structure of Civil Aviation in India

   Or

   (b) Narrate the role of intermediaries in efficient and effective logistics.

7. (a) Explain briefly the concepts of 3PLs and 4PLs in logistics management.

Or

(b) Write an explanatory note on the role of Indian Railways in the movement of export import traffic.

8. (a) Write a brief note on multi-modal transportation and combined transportation.

Or

(b) Explain the concept, objectives and scope of international marketing logistics.

9. (a) Distinguish between linear and tramp shipping.

Or

(b) Explain briefly the role of IT in Logistics.

10. (a) Write an explanatory note on Charter Party and its main clauses.

Or

(b) Distinguish between registration and classification of ship. Explain briefly the principles of shipping.

Section C $(1 \times 10 = 10)$

Compulsory question.

11. Explain why logistics is considered as the important activity of marketing.

MULTINATIONAL FINANCIAL MANAGEMENT

(2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Section A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What is netting?

2. What do you mean by foreign exchange risk?

3. Define transfer prising.

4. Give an over view of NASDAQ.

5. Write a short note on foreign direct investment.

Section B (5 × 10 = 50)

Answer **all** questions by choosing either (a) or (b).

All questions carry equal marks.

6. (a) Discuss the concept and scope of multinational financial management.

Or

(b) What factors distinguish multinational financial management from domestic financial management?

7. (a) What do you mean by capital structure of MNC? Discuss the various determinants of Capital structure.

Or

(b) What do you mean by short term financing? Discuss the instruments of short term financing in the context of international financing.

8. (a) What is the basic message of CAPM? How does a multinational firm use the CAPM?

Or

(b) Define capital budgeting. Discuss the various methods of capital budgeting.

9. (a) What do you mean by international cash management? Discuss the objectives and functions of international cash management.

Or

(b) Discuss about short term portfolio management system.

10. (a) What is international capital market? Discuss about equity benchmark indices of international capital market.

Or

(b) What do you mean by global investment banker? Briefly discuss the role of global investment bankers.

Section C $(1 \times 10 = 10)$

Compulsory Question.

11. Discuss the role of FDI in the growth of Indian economy?

RW–037

IMPORT MANAGEMENT

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What is the significance of IEC number?
2. Enumerate the major factors in international supplier selection.
3. What constitutes deemed exports?
4. Who is a forwarding agent?
5. What is a 'current account deficit'?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) Discuss the general provisions of current policy related to imports.

Or

(b) Brief the procedure to import restricted item in ITC(HS).

7. (a) Economic theory behind antidumping duties is questionable. Justify.

Or

(b) Describe the salient features of Incoterms 2000.

8. (a) What is EDI? Why is EDI gaining importance in Foreign trade operations?

Or

(b) Describe the conditions for import of goods by EOU/ EHTP/STP/BTP units.

9. (a) Explain various forms of chartering of shipping services.

Or

(b) Enumerate the documents required for filing insurance claims and brief the process to claim insurance.

10. (a) Discuss the various RBI regulations for making payment for imports.

Or

(b) Explain exchange rate volatility and how does it impact business if imports.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Read the following case and answer the questions.

A bank in New York issued a letter to credit a beneficiary (seller) in Spain at the request of the buyer covering the shipment of building products. When the seller presented the documents to the bank for payment, the bank declined to pay on the ground that it had no opportunity to test the quality of the products. The letter of credit did not require that a testing certificate from an independent laboratory accompany the documents.

Questions :

(a) Was the bank justified in withholding payment?

(b) Does the buyer or the bank have the right to demand inspection of the quality of the merchandise?

(c) What is the importance of the independent principle for this case?

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks

1. Enumerate any three functions of WTO.

2. What are the three boxes in Agriculture Agreement?

3. What is Dumping?

4. Define intellectual property.

5. How do you define the term "trade-related investment measures" (TRIMs)?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks

6. (a) Tabulate the principal differences between GATT and WTO.

Or

(b) Discuss the significance of Doha Ministerial Conference, 2001.

7. (a) What is the objective of market access and what useful purpose does it serve?

Or

(b) Bring out the salient features sanitary and phytosanitary measures agreement.

8. (a) Explain briefly the three basic categories of subsidies created by SCM Agreement.

Or

(b) Describe the significance of 'rules of origin' under WTO system for ensuring fair international trade.

9. (a) Enumerate the various provisions of GATS regarding services.

Or

(b) Discuss the status of TRIPS agreement in the multilateral trading system.

10. (a) Enumerate the exceptions to National Treatment Rule (GATT Article III).

Or

(b) Critically evaluate whether TRIMs addresses the issues related to climate change and sustainable development.

Part C $(1 \times 10 = 10)$

Compulsory

11. Read the following case and answer the questions.

One of the banners one saw during the demonstration at Seattle, Washington, USA, proclaimed the WTO was not the World Trade Organization but the 'Wrong Trade organisation'. It was the Wrong Trade Organization

because it involved itself with trade which (as the protestors saw it) spoilt the environment and promoted unacceptable working conditions for labourers in the poor countries. In the face of it, the charge is clearly not acceptable, but then, do the demonstrations have a point at all?

The Seattle demonstrators said that in large parts of the developing world, the production of goods that ultimately generated higher trade figures rested on unsatisfactory working conditions. Their point was that the WTO was not doing anything to ensure that such production did not enter the stream of globally traded items.

Since trade (being only one part of pure economic activity) cannot set the standards either in labour or the environment, the WTO should not get into these spheres of activity but should restrict itself policing international trading activity, taking as given, the prevailing labour and environment standards.

It can also be argued that since not much effective work is being done in both the labour and environment spheres by way of tightening up on standards by the different international forums currently engaged in the task-the International Labour Organization, and so on-there is no alternative but to tighten the screw of these related aspects of trade activity within the WTO itself.

There are some who will argue that the entire effort to involve the WTO with the labour and environment aspects of trade and environment aspects of trade is actually a part of the larger effort by some developed countries to reduce the comparative advantage which poor countries enjoy by way of lower overall production costs, which makes their products cheaper in the world market.

If this is correct, then the point needs to be emphasized that the WTO is the right trade organization, which is being sought to be influenced and controlled by the wrong sort people.

Questions

(a) What are the basic limitations of World Trade Organization?

(b) Why is the World Trade Organization Called 'Wrong Trade organisation?

(c) How does WTO affect India, particularly in agriculture and in labour aspects?

ENTERPRISE RESOURCE PLANNING

(2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. State any three limitations of ERP.

2. What do you understand Just-In – Time?

3. What is the order cycle time?

4. State the end users criteria in ERP.

5. What is an application platform?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) Elaborate the structure of ERP.

Or

(b) Explain the technologies applied in ERP.

7. (a) Explain the ERP applications in JIT.

Or

(b) Elaborate the applications of six sigma.

8. (a) Explore the process of production lead time reduction.

Or

(b) Cycle time reduction gives life productivity-Comment on this.

9. (a) Enumerate the uses and limitations of gap analysis.

Or

(b) Elucidate the pros and cons of in-house implementation of ERP.

10. (a) Explain the current directions in ERP.

Or

(b) Elaborate the faster implementation methodologies in ERP.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Case study :

Read the following case and answer the questions given at the end.

Introduction

No aspect of business today is subject to more governmental regulation than the development, manufacture, approval, sale and marketing of pharmaceuticals. Products that customers rely on for their well-being have to be right. At present, the

pharmaceutical industry is experiencing declining profits because of increased competition from generic brands and errors within the manufacturing process. In order to improve this situation, many pharmaceutical companies are attempting to increase efficiency by optimizing their resources, controlling inventory and reducing waste and errors. Pharmaceutical companies generally rely on ERP software to help them meet the highest standards of efficiency, traceability and quality assurance.

Business Challenges

Recent changes in federal regulations require pharmaceutical companies to provide more granular product labeling.

Besides the benefit of simplified dosage instructions, improved product labeling may make it easier to identify manufacturing defects. Our client is a global pharmaceutical and consumer products company that was challenged to find a solution to reform package labeling world-wide. It wanted to address the new regulations as well as help with the identification of defects in product manufacturing.

Solution INSYS Group was engaged to develop a workflow that would integrate labeling software with an existing SAP system that could serialize the package coding and labeling scheme. This would let the company improve regulatory compliance and reduce risk by making it easier to identify manufacturing defects on a lot-number basis.

Benefits

The labeling workflow helped the company improve its compliance with industry and government regulations, increase traceability and integrate quality control and product safety document management

Why INSYS Group

INSYS Group's Pharma and Biotech practice develops workflows that result in the kind of thorough, complete documentation that addresses the demands of both internal compliance specialists and regulators throughout the world.

On this engagement, the INSYS team included senior-level business and product manufacturing professionals with experience developing work flows related to assembly, tracking and documentation for product packaging, as well as integration with ERP and supply chain systems. Since initiating the project, INSYS Group has been engaged to provide additional workflow and integration services throughout the company's global marketplace. INSYS Group is a wholly-owned subsidiary of Luxoft Holding, In.

Enumerate the issues and suggest some useful solutions.

PRACTICE OF COMMERCIAL BANKING

(2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Outline the functions of commercial banks.

2. What are EMIs?

3. What precautions should be taken by a banker while opening account for administrators and executors?

4. What do you understand by bullion market?

5. Briefly explain the significance of 'mortgage' in banking.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Critically evaluate the nationalisation of banks in India.

Or

(b) Examine the reforms in the financial sector which impacted banking industry in India.

7. (a) Describe the problems associated with retail lending by banks. How do bankers overcome them?

Or

(b) Discuss the significance of the services like RTGs and NEFT in contemporary banking.

8. (a) What are joint stock companies? What care is to be taken while opening and conducting accounts in the names of such companies by bankers?

Or

(b) "Government securities are securities issued by a Government to raise funds necessary to pay for expenses/investments" – Elucidate.

9. (a) Outline the procedures that banks follow for lending against securities.

Or

(b) How are the bank accounts of Hindu undivided family managed? How do they differ with other accounts?

10. (a) "Pledging is offering assets to a lender as collateral for a loan" – Discuss.

Or

(b) Do mortgages result in non-performing assets? How are NPAs handled?

Part C $(1 \times 10 = 10)$

(Compulsory)

11. An open bearer cheque for Rs. 7,000 drawn by your customer is presented for payment. The balance in his account is Rs. 6,600. The presenter, while talking to the ledger keeper, comes to know that the balance is short and pays Rs. 500 by a pay in slip and informs the ledger keeper about the credit and gets his cheque passed. The drawer, when he comes to know of this, complained to the manager and ask for a refund of the sum of Rs. 7,000.

How will you, as a banker deal with the situation?

MONETARY MANAGEMENT

(2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Section A (5 × 3 = 15)

Answer **all** the questions.

All questions carry equal marks.

1. Outline the characteristics of a developed money market.
2. Explain the role of RBI as a banker to the Government.
3. What is a clearing house?
4. How is licensing of banks done in India?
5. Examine the role of RBI in the recent demonetisation drive of Government of India.

Section B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) What are the instruments of a developed money market?

Or

(b) Explain the meaning of NBFCs. Distinguish between commercial bank and NBFCs.

7. (a) Distinguish between central bank and commercial banks.

Or

(b) What are the methods of notes issue? Discuss their merits and demerits.

8. (a) "From the standpoint of credit control, open market operations are complementary to bank rate policy" – Elucidate.

Or

(b) "A central bank is the lender of last resort" – Discuss.

9. (a) Outline the steps taken by RBI in promoting banking habits of citizens.

Or

(b) What is a credit information burian? Examine its role in monetary management.

10. (a) Why is exchange rate stability important for balance of payments? How does it affect the monetary policy of a country?

Or

(b) What are the advantages of concentration of notes issue with the RBI in India? How does it differ with other countries?

Section C $(1 \times 10 = 10)$

(Compulsory)

11. CASE :::Demonetization and RBI

The Reserve Bank of India has clarified that it is taking all steps to expeditiously complete the computing of the deposits received after the demonetisation of Rs. 500 and Rs. 1,000 notes from 9 November and will release the numbers at the earliest. The periodical deposit figures released earlier were based on aggregation of accounting entries done at the currency chests all over the country, the RBI said in release posted on its website.

"Now that the Scheme has come to an end on December 30, 2016, these figures would need to be reconciled with the physical cash balances to eliminate accounting errors/ possible double counts etc. RBI has already initiated this process and till this is completed any estimate may not indicate the actual numbers of the SBNs that have been returned." the clarification said.

The clarification comes in the wake of reports that the banks have received deposits close to Rs. 15 lakh crore, of estimated Rs. 15.4 lakh crore worth junked currency notes that were in circulation, from the 50-day demonetisatton exercise.

A PTI report citing sources said between Rs. 14.5 lakh crore and Rs. 15 lakh crore may have come back into the banking system and RBI is still doing reconciliation and cross–checking.

Both the government and the RBI have not come out with the official statement on how much have been deposited in various banks at the end December 30, the last date for depositing and exchange of junked Rs. 500/1000 notes.

The last official number on this was only till December 10 when RBI said that the old notes of Rs. 500 and Rs. 1,000 which have been returned to the central bank and the currency chest amounted to Rs. 12.44 lakh crore. On the last day of demonetisation. RBI had asked all banks including cooperatives to report details of deposits of old Rs. 500/1,000 notes to it after the close of banking hours.

Finance Ministry had said that there were lot of areas where double counting could have happened. So the Finance Ministry had identified those areas and had requested RBI and banks to again double check. There could be slight addition in the deposit of junked notes as extended exchange facility is available to certain specified category.

According to terms and conditions of RBI for availing this benefit, NRIs and Indians returning from abroad will have to physically show the junked 500 and 1,000 rupee notes to customs officials at the airport and get a declaration form stamped before they can deposit the demonetized currency in RBI during the grace period.

Indians who were abroad during November 9 to December 30 have been given a three-month grace period till March 31 to deposit the junked notes, while for the NRIs. it is six months till June 30. While there is no limit on deposit of defunct notes by an Indian national who was abroad when the 50-day window was in operation, NRIs can deposit only Rs. 25,000 as per FEMA law restrictions.

Questions:

(a) How do you think will RBI estimate the old notes and assess the black money with NRls still returning the same?

(b) Draft an implementable monetary policy post demonetization for India.

INTRODUCTION TO INSURANCE

(2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Who are insurance brokers?

2. Briefly explain the role of ombudsman in resolving disputes in insurance.

3. Which insurance corers non-human objects? Give examples.

4. Outline the recent reforms in the Indian insurance industry.

5. What are the ways in which principle of atmost good faith can be breached?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Describe the concept of insurance and its evolution.

Or

(b) Classify risks and examine how insurance covers them.

7. (a) Illustrate and explain how five insurance works. Examine the difference between marine insurance and hall insurance.

Or

(b) Outline the scope of miscellaneous insurance and its emergence in today's industry.

8. (a) What are the objectives of IRDA? Discuss its role as a regulator of insurance business.

Or

(b) Examine the evolution of life insurance industry and the recent changes after private players have entered into Indian market.

9. (a) Describe the circumstances related to insurable interest. In what stages insurable interest need to be proved?

Or

(b) What are the different types of policies available? On what types of insurance do they depend upon?

10. (a) Examine the 4Ps of marketing of insurance.

Or

(b) Is insurance selling a concept selling? Elucidate.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. When Mr. W took out a new household insurance policy in March 2001, he stated, in response to a question from the firm, that his house had never been affected by movement of any kind, such as subsidence, heave, landslip or settlement.

In August that year, Mr. W notified the firm that cracks had developed in the walls of his house. The firm's loss adjuster concluded that the damage was due to subsidence. The firm asked Mr. W for a copy of the structural survey he had obtained before he bought the house in 1997. The surveyors report concluded "The property is affected by structural movement evident in severe cracking to the gable elevation. This appears significant and likely to be progressive."

During the firm's enquiries it also became aware of a report on the house that had been prepared in 1996, shortly before Mr. W bought the property. Although this recommended repairs to the drains, they had never been carried out.

The firm cancelled the policy, saying it would never have been issued if the firm had known about the existing problems.

Mr. W said the firm should not have done this: as he had answered the questions on the application form correctly to the best of his knowledge.

When the application form was inspected, it was noted that the firm had asked a very clear question about any incidence of subsidence or other kinds of movement. However, Mr. W's reply had not fairly represented the true picture and had made no reference to the findings of the surveyor he consulted before he bought the house.

Questions :

(a) Is the insurer right in cancelling the insurance claim ? Justify.

(b) What precautions should be taken while filling an application for household insurance?

(c) Examine the role of an insurance surveyor in this case.

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What do you mean by communication encoded?
2. What are the merits of telephonic communication?
3. What is inter-Bank communication?
4. What is an e-mail? How is it useful?
5. What is a press release?

Part B (5 × 10 = 50)

Answer **all** questions by choosing either (a) or (b).

All questions carry equal marks.

6. (a) What are the barriers to communication? How can they be overcome?

Or

(b) State the essentials of effective communication with a suitable example.

7. (a) Discuss the importance of listening skills along with the process and types of listening.

Or

(b) Distinguish between inter personal and intra personal communication with practical examples.

8. (a) State the essentials of a business letter in detail. Give an example.

Or

(b) Write down the mechanics of an agenda of a board meeting of a company and minutes thereof.

9. (a) What are the advanced visual support systems available for business presentations? State the advantages of power point presentation.

Or

(b) Bring out the impact of technologies advancement of business communication in a globalised environment.

10. (a) What are the factors to be taken into consideration while planning a company annual meeting in Chennai?

Or

(b) What are the factors to be taken into consideration while organizing a press conference for announcing increased production capacity and marketing abroad?

Part C (1 × 10 = 10)

Compulsory.

11. As a company secretary, you have prepared three different agendas for a purchase committee, selection committee and Board meetings. All the three were about to be held in the forenoon of the same day and after the commencement of such meetings you came to know that all the three agendas were served irrelevantly. Confusion prevailed for half-an-hour between the members and participants respectively and the meetings got delayed due to misplacement of agendas. One of the Board members had to miss his return flight due to this confusion.

This was the act of mischievous sub-staff done with a purpose to put you in trouble and tarnish your image in the company.

What will be your reaction to the problem?

How would you treat your sub-staff after the meetings?

Write an explanatory reply in detail to the top management on the confusion created recording your position.

E-BANKING

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Define E-Commerce.
2. What are the benefits of computerization of banks?
3. What do you mean by 'Electronic Cheque'?
4. What is a 'Digital Signature'?
5. Define Computerised Audit.

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) Write short notes on various Currency Counting Machines and their usage.

Or

(b) State the features of Home Banking.

7. (a) What do you mean by Core Banking'? Bring out its features.

Or

(b) What is 'Topology'? Which Topology is most suited for banks?

8. (a) Explain the functions of Automated Teller Machine.

Or

(b) Highlight the features of Credit Cards.

9. (a) How data transmission is carried out using BANKNET and RBI Net?

Or

(b) Explain the working of SWIFT System.

10. (a) Elaborate in detail the different types of threats in using E-Banking Services.

Or

(b) Explain the role of technology up-gradation and its impact on E-Banking in India.

Part C $(1 \times 10 = 10)$

Compulsory.

11. Mr. K, who had a current account and a credit card account with his bank, was very surprised to receive a credit card statement with the wrong name on it. The statement was clearly his, as the account number and all the transaction details were correct. However, the name on the statement appeared to have been made up and not a genuine name at all.

After making a number of phone calls to the bank. Mr. K was eventually told that the name change had come about because of a "*systems error*". The bank sent him a cheque for Rs. 2,500 for his out-of-pocket expenses in having to pursue the matter. Although the name on the cheque was closer to his own name than the name on the statement had been - it was still not right.

Given this further error, Mr. K remained most concerned about what was happening on his account. When he pursued the matter further, he discovered that the bank's record of his occupation stated that he was a "*professional shoplifter*"

It soon became clear that the alterations to Mr. K's details on his credit card account had not come about as a result of a systems error, as the bank had told him. The changes had been made deliberately, by a member of the bank's staff.

The bank had compounded the problem by failing to get Mr. K's name right when it sent him a cheque. It had also taken several months to amend his name on his credit reference history. The overall effect of all this was that Mr. K was caused a significant degree of distress and inconvenience.

(a) Highlight the problem in the case and offer solution to Mr. K.

(b) Give your views on how the problem could have been avoided.

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What is reverse engineering?
2. What do you know by locational flexibility?
3. What are the factors to be considered for good layout?
4. What is process planning? What are the aspects considered for an effective process planning?
5. Explain the usefulness of PERT?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Briefly explain the type of manufacturing systems.

Or

(b) Describe the importance of designing the product. What are the various considerations made in designing products?

7. (a) Discuss the capacity planning strategies.

Or

(b) What are factors affecting the capacity determination of a service industry?

8. (a) Discuss the procedure for time and work study.

Or

(b) Explain the characteristics of production process systems.

9. (a) Describe the methods of layouts.

Or

(b) Discuss the aggregate production planning strategies.

10. (a) Explain inventory control systems? Why it is important for a manufacturing company?

Or

(b) Describe with example the CPM as an effective networking technique.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Location of a plant has direct relevance to raw materials, market, human resources, civic amenities transportation etc. However, in some countries the problem becomes complicated due to (i) Inter-State competitions and

tussles, (ii) Regional development and (iii) Political pressures and biased decision. During 1970, Government of India mooted the idea of expanding steel production under public sector units to be established at suitable locations. A committee of eminent personalities was formed to go through claims of (i) Vijaynagar Steel plant near Bellary in Karnataka, (ii) Salem Steel in TN and (iii) Vishakapatanam steel plant in A.P. Since it was under PSU the political pressure was going on and if it was under private sector, there would not have been any kind of political pressure. The most important raw materials for steel plant are iron core power and coal. Again in iron ore the iron percentage should be preferably more than 60% and ash content in coal should be less than 30%. These factors enable production of iron and steel at competitive price. From experts' reports the following brief was available:

(a) Vizag — The Iron ore is rich with 65% Iron and coal can be arranged from MP and Bihar and Vizag is well connected by broad gauge railway line to all important cities and the place has sea port and airport. Hence this place has more natural advantage than other cities.

(b) Salem — Iron ore was having 60 to 65%. Iron content and hence be economically exploited. The coal is in lignite form which is low quality coal. Hence this needs to be converted as coke for use. The place has broad gauge line and Madras sea port and airport are nearby. This place was considered second preference.

(c) Vijaynagar — Bellary belt has Iron ore of 60% iron but coal has to come from AP (Singareni Colliery). The place had meter gauge railway line and hence not well connected to all India network. The seaport and airports were far away and hence this place was not found suitable. As per the expert committee report steel plant work started Vizag and Salem and these plants came up as per the plan and are doing well. However, to everyone's surprise the them PM, Smt. Indira Gandhi, did foundation stone laying in 1971 at Toranagallu in Bellary district for Vijaynagar steel plant also. This ultimately proved to be an election gimmick to please the votes, though the PSU unit did not come up there at all. This is a clear example how politicians try to fool gullible voters by way of inaugurations/foundation stone laying. Steel plants are quite huge with township having about 50,000 to 1,00,000 people. Hence requirements of housing, electricity, water,

hospitals, education, institution and entertainment facilities are very essential. The investment is huge and this helps to develop the surrounding area quite well and there is abundant scope for ancillary units, engineering services and employment inside and outside the steel plant. Both Vizag and Salem got these advantages and production standard as per the plan and these industries continue to run profitably. The expert committee had made comment on Vijaynagar proposal that, the unit can be viable if it uses latest foreign technology. In this method oxygen is injected to force oxidation of ores instead of natural air. Though PSU was not started a private enterprise Jinal Group took interest and applied for license to the Central Government. By the year 1990 they obtained license and Vijaynagar Steel plant with foreign technology and decided to make only sheet products, which fetch higher prices. They also kept bare minimum workforce and executives to make it economical right from inception. By this time broad gauge-lines were formed and nearest seaport was Goa and hence some problems were taken care. This unit became operative in about 3 years and is also running profitably.

Questions :

(i) What are essential factors for locating a Steel plant and why?

(ii) Explain how political pressures and pulls effect decision making and delays in starting industries.

(iii) Explain how it was possible to make Vijaynagar plant visible.

(iv) How technology, HR, natural facilities play vital role to start new enterprise. Explain your views?

M.B.A. (G/LM) DEGREE EXAMINATION, APRIL 2017.

Fourth Semester

BUSINESS ETHICS AND CORPORATE GOVERNANCE

(Common for M.B.A. (G)/M.B.A. (LM))

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What is deontological ethics?
2. What is corporate ethics?
3. What is 'moral responsibility'?
4. What is a 'code of conduct'?
5. What is CSR audit?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) Discuss in brief the scope of ethics in business.

Or

(b) What is Aristotle's general theory of why virtues are virtuous?

7. (a) What are the various ethical issues in HRM?

Or

(b) Describe the problems/unethical issues involved in protecting the investors' tights.

8. (a) Evaluate the effectiveness of stakeholder theory of corporate governance in the light of private sector organizations in India.

Or

(b) Discuss the main issues involved in corporate governance in India.

9. (a) Write a brief comparison to Japanese model of corporate governance and Indian model of corporate governance.

Or

(b) What are the reasons for corporate mis-governance in India by the Board of Directors in spite of laws and enactments by the Government?

10. (a) Describe the impact of CSR on economic issues.

Or

(b) What is the role and policy of the Government of India in promoting CSR?

Part C $(1 \times 10 = 10)$

Compulsory.

11. CSR at Bank of India

At Bank of India, corporate social responsibility is basically the care and concern for the deprived in particular and the community at large. Social responsibility is a function of the banking industry where

by the Bank focuses on those below poverty line and the communities that qualify for schematic lending under the various government sponsored programs. The focus is on ensuring that they become self-sufficient and can achieve the desired goals to improve their living standards. The Bank has a policy of recruiting the

blind and disabled and also has a committee to monitor and prevent any sexual harassment at the work place. Employees always volunteer to support NGOs in noble causes such as Eye donations! Blood donation camps.

The top management not only involves in such a cause but also actively supports it. Well known NGOs who have been on the scene for quite a number of years and doing services to the community over the years are supported in their cause. The programs are monitored by the zonal offices spread over 43 zones that ensure the end of the funds donated to the NGOs. The relationship with some of the NOOs is on a continuous basis like that with the cancer foundation. The Bank is truly a bank of India, as the name indicates, with over 2600 branches and 43 zonal offices and has a good representation both in metro, urban and rural India It is, therefore, natural that CSR should spread across state borders and is not limited to where the Bank is headquartered.

Business ethics and governance are separate issues. The money contributed towards CSR activities are monitored by the concerned Zonal offices and the NGOs are asked to submit receipts and photographs justifying end use of funds. Employees have always contributed whenever there has been a major disaster by donating a day's wages, which along with the Bank's contribution, collectively works out to a few million rupees. Their employees are involved in a systematic monitoring of the activities for which the funds have been donated. The objective is to ensure that there is total involvement of both the management and the employees while the mission would be to succeed in making life better for poorest of the poor and the downtrodden.

As part of its centenary celebrations, the Bank of India has adopted 101 villages. Employees too are very considerate when it comes to serving a social cause and the Officer's association and the Unions have always been organising blood donation drives, adoption of village and free cancer detection camp.

Question :

(a) What is the rationale behind the implementation of corporate social responsibility at Bank of India?

(b) What benefits Bank of India has derived after implementing CSR initiatives?

M.B.A. (G/LM) DEGREE EXAMINATION, APRIL 2017

Fourth Semester

PROJECT PLANNING AND MANAGEMENT

(Common for M.B.A. (G)/M.B.A. (LM))

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What do you mean by the term 'project'?
2. State any three objectives to market appraisal.
3. What is project scoping?
4. What is a load chart?
5. What is project indivisibility?

Part B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Describe the elements of project scope management.

Or

(b) What are the phases and tasks of a project development cycle?

7. (a) Explain the significant elements of a pre-feasibility study of a project.

Or

(b) Bring out the guidelines issued by the planning commission for project formulation.

8. (a) Briefly explain the application of sensitivity analysis in investment project evaluation under uncertainty and risk.

Or

(b) What is the importance of recognizing alternative perspectives of a project?

9. (a) Explain the benefits of computerized information system in project management.

Or

(b) A small equipment erection project consists of following 12 jobs:

Jobs :	1-2	2-3	2-4	3-4	3-5	4-6	5-8
Duration (Weeks)	2	7	3	3	5	3	3

Jobs :	6-7	6-10	7-9	8-9	9-10
Duration (Weeks)	8	4	4	1	7

Draw the Project Diagram and determine Project Completion time.

10. (a) What are the different sources of Project Finance? Give a brief account of each of them.

Or

(b) Write a comprehensive procedure to apply and seek finance from Banks for a project.

Part C (1 × 10 = 10)

(Compulsory)

11. M/s. Sofine Chemical (P) Ltd. a newly incorporated private limited company. The company was floated with the objective of setting up a plant for the production of detergent washing powder. The critical path for the network of project activities indicated the project completion time as 9 months. It was unfortunate that nature played havoc. There was an unexpected earthquake and the proposed industrial site also felt mild tremors. In view of the widespread damages caused by the earthquake, the overall business activity came to a standstill. The promoters of M/s. Sofine Chemicals (P) Ltd. also had to shelve their project for above six months. After the business conditions returned back to normality, they made a conscious decision to shift to location of their proposed plant to a different location as the originally proposed location was considered earthquake — prone. Identifying a suitable land in a different location and buying the land took another three months.

Thus nine months time which was the completion time as envisaged originally already lapsed and the promoters have only acquired land for the project. The cost accountant who made a revised financial projection showed an entirely different picture. The initial investment required had increased by about 25% due to hike in price of building materials and equipments. This had brought down the profit margin considerably. Moreover, during the lapse of nine months, a few new entrants have already set up their plants for the production of detergent washing powder at nearby places. It has also been brought to notice that some more new entrants have been doing ground work to set up similar plants.

Suggest the course of actions to be followed by M/s. Sofine Chemicals (P) Ltd.

M.B.A. (G) DEGREE EXAMINATION, APRIL 2017.

Fourth Semester

ADVANCED COST ACCOUNTING

(CBCS–2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Explain (a) cost centre (b) cost unit.
2. What is perpetual inventory system?
3. Define budgetary control?
4. State the objectives of process costing
5. What is Breakeven Point?

Part B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Show the stores ledger entries as they would appear when using : (i) the Weighted Average Method, and (ii) the LIFO Method, of pricing issues, in connection with the following transactions :

April		Units	Value
1	Balance in hand b/f	300	600
2	Purchased	200	440
4	Issued	150	–

April		Units	Value
6	Purchased	200	460
11	Issued	150	–
19	Issued	200	–
22	Purchased	200	480
27	Issued	250	–

In a period of rising prices such as above, what are the effects of each method?

Or

(b) Distinguish between Job costing and process costing?

7. (a) A product passes through three processes A, B and C, 10,000 units at a cost of Re. 1 were issued to process A. The other direct expenses were :

Particulars	Process A	Process B	Process C
Sundry materials	1,000	1,500	1,480
Direct Labour	5,000	8,000	6,500
Direct expenses	1,050	1,188	1,605

The wastage of Process A was 5% and Process B 4%. The wastage of Process A was sold at Re. 0.25 per unit and that of B at Re. 0.50 per unit and that of C at Re. 1.00 per unit. The overhead charges were 168% of direct labour. The final product was sold at Rs. 10.00 per unit, fetching a profit of 20% on sales. Find the percentage of wastage in Process C.

Or

(b) Explain the types of sales variances.

8. (a) From the following data compute the material cost variances :

Name of the material	Standard		Actual	
	Qty (Units)	Price (Rs.)	Qty (Units)	Price (Rs.)
Zee	3,500	10	3,700	12
Wee	1,500	21	1,650	20
Tee	1,000	33	1,250	36

Or

(b) Explain different methods of costing.

9. (a) Majestic Auto Ltd. Is manufacturing and selling three standard products. The company has a standard cost system and analyses the variances between the budget and the actual periodically.

The summarised working results for 2005-2006 were as follows :

Product	Budget			Actual		
	Selling price per unit (Rs.)	Cost per unit (Rs.)	No. of units sold	Selling price per unit (Rs.)	Cost per unit (Rs.)	No. of units sold
A	50	32	10,000	48	30	12,000
B	40	24	14,000	42	25	12,000
C	30	18	16,000	31	20	15,000

(i) Calculate the variance in profit during the period.

(ii) Analyse the variance in profit into : (1) Sales price variance; (2) Sales volume variance; (3) Cost variance; (4) Sales margin quantity variance. (5) Sales margin mix variance,

Or

(b) Distinguish between Budgetary control and Standard costing?

10. (a) Following information relates to the manufacturing of a component X – 101 in a cost centre :

Cost of materials	6 paise per component
Operators wages	72 paise an hour
Machine-hour rate	Rs. 1.50
Setting up time of the machine	2 hours and 20 minutes
Manufacturing time	10 minutes per component

Prepare cost sheets showing both production and setting up costs total and per unit, when a batch consists of : (i) 10 components, (ii) 100 components, and (iii) 1,000 components.

Or

(b) Give an account of (i) Use of Software for cost Management (ii) Treatment of Scrap in Cost accounting (iii)Activity based costing.

Part C $(1 \times 10 = 10)$

Compulsory.

11. A company using a detailed system of standard costing finds that the cost of investigation of variances is Rs. 20,000. If after investigation an out-of-control situation is discovered, the cost of correction is Rs. 30,000. If no investigation made, the present value of extra cost involved is Rs. 1,50,000. The probability of the process being in control is 0.82 and the probability of the process being out of control is 0.18. You are required to advise :

(a) Whether investigation of the variances should be undertaken or not.

(b) The probability at which it is desirable to institute investigation into variances.

INVESTMENT MANAGEMENT

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What are the commonly stated investment goals?
2. What is debt capital?
3. What are the three options with respect to bond portfolio management?
4. What are the assumptions of EMH?
5. Who are the institutional investors?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) List out the broad phases of investment management.

Or

(b) Explain the objectives and functions of SEBI.

7. (a) What are the factors that have to be taken into account when pricing a new issue of shares?

Or

(b) State the main characteristics of the debenture. Also explain the various types of debentures.

8. (a) What is strategic asset allocation? What are the other approaches to asset allocation?

Or

(b) Explain the following two board choices with respect to equity portfolio strategy. Passive portfolio strategy and active portfolio strategy.

9. (a) What is the basic assumption of the APT? What are the pros and cons of the APT over the CAPM?

Or

(b) Describe the random walk theory.

10. (a) Discuss the features of bill market scheme 1970.

Or

(b) Explain the role of foreign institutional investors in Indian capital market.

Part C $(1 \times 10 = 10)$

Compulsory

11. On Nov. 17, 2008, Satyam computers share prices plugged by 30%, bringing heavy loss to the investors. What type of risk is this? What is the exposure of the company? What is the exposure of the promoters?

SALES MANAGEMENT

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. State any three qualitative objectives of personal selling.

2. What is a 'presentation' in selling process?

3. What is job analysis with respect to sales force?

4. Enumerate any three conditions under which supervision of sales force is necessary.

5. What are sales budget and its importance?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) What thinking process goes on mind that causes the decision to buy or not to buy? Explain.

Or

(b) Discuss different situations where role of personal selling is vital.

7. (a) Briefly mention the important variables, which one has to keep in mind to develop an appropriate strategy for a presentation.

Or

(b) Discuss some of the well-tried and tested techniques for effectively closing the sales.

8. (a) Briefly explain the steps to territory planning.

Or

(b) Discuss the determinants of sales force profile.

9. (a) Discuss the advantages and disadvantages of some of the methods of identifying training need of sales force.

Or

(b) Explain how does the non-financial incentive factors make a special mark on sales force motivation?

10. (a) Describe the importance of monitoring and performance appraisal of sales force.

Or

(b) What are the different reports generated to monitor sales force? How are they used?

Part C $(1 \times 10 = 10)$

Compulsory.

11. Teksons Co. (Pvt.) Ltd., a Hyderabad – based company, manufacture and sells industrial fastening equipment and supplies through fifty representatives and distributors throughout Andhra Pradesh. The Company which is 15 years old has experienced its most dynamic growth in the past two years with the development of heavy duty equipment which could cross into many areas:

the construction industry, packaging and crafting, furniture manufacture, mill – work, mobile homes and many others. In and around Hyderabad area, the equipment was selling well to contractors and builders, but not to mills or furniture manufacturers. In other parts of Andhra Pradesh, 92% of the sales were confined to the packaging and furniture industries.

The sales force was doing a good job. Their competence was unquestioned, their sales were up substantially each year. But when the company developed the heavy duty equipment that could expand their sphere of experience – they balked. The problem was that the sales representatives had grown comfortable selling to only one or two of these industries.

The problem facing Mr.P.N. Reddy, the sales manager, was how to shake long-time competent sales representatives out of their regular routine and get them out selling in new markets when new product development indicated a market expansion.

Questions :

(a) Suggest suitable guidelines which could cause sales force to expand their efforts into new categories of customers.

(b) Outline the advantages and disadvantages of expanding the sales force at this time.

DISTRIBUTION MANAGEMENT

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Point out the importance of distribution management.

2. Write note on network marketing.

3. List the objectives of channel management.

4. Brief the uses of warehouse.

5. Differentiate between Vertical marketing system and Horizontal marketing system.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

6. (a) Explain the role of marketing mix in distribution management.

Or

(b) Discuss the fundamentals and methods of relationship marketing in distribution channel management.

7. (a) Describe how channel members are selected and evaluated for effective distribution system.

Or

(b) Elaborate the functions of wholesaling, retailing and franchising in Indian perspective.

8. (a) Enumerate the parameters to evaluate the channel design alternative and suggest a channel design for a FMCG company.

Or

(b) Describe the causes of channel conflicts and resolution methods in detail.

9. (a) Explain the need of channel information system in the present digital era.

Or

(b) Describe the role of supply chain in distribution management with suitable example.

10. (a) Explain in detail the distribution channel strategy. Also explain the various kinds of distribution.

Or

(b) Explain the critical issues and challenges of global distribution management in the present competitive environment.

Part C $(1 \times 10 = 10)$

Compulsory

11. Dhinakaran and Ramesh are two enterprising youth. They have passed out from IIM, Ahmadabad. They thought instead of doing a job, they will launch fresh vegetables in Indian markets. Having learnt of the future conventional foods, they decided to venture into

cultivation of mushrooms. Mushrooms are known to be the best alternative food for vegetarians. For Dhinakaran and Ramesh fund raising was a serious handicap for mass production. However, the first trial batch of mushrooms that they produced was bought by Star Hotel in Chennai. Further, the hotel placed orders for supply of 20 kgs every day. Now mushroom industry is run by small entrepreneurs, like Dhinakaran and Ramesh. Another big player M/s FarmFresh Mushrooms, equipped with cold storage facility was more interested in the export market. Dhinakaran and Ramesh have set their sights high. They aim to sell mushrooms in a very big way all over India. Mushrooms have a great market potential and is a perishable food.

Questions :

(a) How will you advise Dhinakaran and Ramesh, as how to increase the consumer awareness about this new food?

(b) What would be your suggestions for distribution channel for mushrooms in India?

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Explain briefly the marketing mix for services.

2. What is service encounter?

3. What are positioning maps?

4. Write a note on GAPS model.

5. Explain the importance of marketing for leisure services.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Explain the factors influencing the growth in services marketing.

Or

(b) Describe the characteristics of services.

7. (a) Discuss the role of servicescape in service marketing.

Or

(b) Discuss the classification of services developed by Christopher Lovelock.

8. (a) Discuss the dimensions of positioning of services.

Or

(b) Explain the steps in developing positioning strategy.

9. (a) Describe the SERVQUAL dimensions in details.

Or

(b) Comment on the measurement of satisfaction of services.

10. (a) Explain the characteristics of hotel industry market.

Or

(b) What are the challenges and prospects of telecommunication services in India?

Part C $(1 \times 10 = 10)$

Compulsory.

11. Mr. X opened as a Lunch and Snack Joint in the newly developed office area in outskirts of Chennai. The area is developed with a number of I.T. industries. The boom in the IT Industry enabled a number of new startup companies to prosper. The main investment of those types of companies was in real estate in the form of Offices and Infrastructure Development. The companies

prospered using English Speaking College graduates available in adequate numbers at salaries that are not too high. A majority of employees of those companies were unmarried fresh graduates. About a year after Mr. X opened Mr. Joshi another owner, was contemplating on business expansion. During one afternoon Mr. Joshi was focusing on the customer complaints received which majorly focused on late serving time in-spite of continuous efforts. The business of Mr. X had grown in all leaps and bounds within a short period of time. However a new restaurant was going to open in the neighbouring building. Therefore expansion and improvement of facilities was the key focus of Mr. Joshi to stay in the competition.

Mr. Joshi thought that they should go for top class decor, fancy designer furniture that would push them up-marked and they would also be able to charge better. He thought for going for new monogrammed ceramic cutlery to give a distinct look. They also thought of buying some new kitchen equipment with electric tandoor and improvised kitchen equipment. The main concern was to borrow a large sum of money from a financer. As it would lead to increase charges or considerably reduce food portions and charge extra for additional portions of dal or curry that is currently free of charge, He wandered if the crowd of office goers who are their main customers would be able to afford that, He always thought that their main need was to a fed substantial meal as they are all young and work long hours. Mr. Joshi thought that people liked his food because they served healthy home - like food at prices that his customers afford at their salary level. Deciding how to go about this expansion is a real problem.

Questions :

(a) Describe characteristics of the current clientel vis-a-vis their food needs during the working hours.

(b) What would be the desired and adequate levels of service? What level of service would you plan to deliver?

(c) Based on your analysis and given shortage of funds, can you suggest what should be the main elements of the planned investment? Which investments can be avoided and for what reasons?

RETAIL OPERATIONS MANAGEMENT

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Who is a retailer?
2. What is customer segmentation?
3. What do you mean by 'service quality'?
4. What is a private label?
5. Name any two financial management software used in retail operations.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Explain the key components of retail operations.

Or

(b) What are the different kinds of environmental influences that affect Indian retail industry?

7. (a) Discuss the factors affecting merchandise mix decisions.

Or

(b) Discuss the aspects you would consider while branding retail stores.

8. (a) Discuss the fundamentals that should be kept in mind while designing the store.

Or

(b) What is the strategic importance of space planning in stores?

9. (a) Explain the different types of sourcing.

Or

(b) What are the objectives of vendor management in retail logistics?

10. (a) Explain how MIS could be vital to decision making/advantage in retailing operations.

Or

(b) What are the challenges retailers face in attracting and retaining store employees?

Part C $(1 \times 10 = 10)$

Compulsory.

11. Read the following case and answer the questions.

Changing tastes and preferences of customers, upward mobility, rising disposable income, availability of a variety of products and services, lifting of the quantitative restrictions on imports, and increasing exposure to international standards have led to a retail revolution in India. The Mumbai-based Akbarallys is conscious of these developments.

A pioneer of the concept of shopping under one roof, Akbarally Ebrahimiji set up a 300-sq ft drug store in 1897 that today has metamorphosed into a sprawling retail chain. There are five department stores at different locations in Mumbai generating sale of more than Rs. 50 crore. The 32 counters stock more than 20,000 products ranging from electronic goods to garments.

The strong points of the retail chain are the range of products offered and convenient locations that are overshadowed by its cramped and shoddy interiors and poor service. But recent make-over in decor and managerial actions at enhancing employee skills and merchandising offer scope for improving the profitability Focus is on stocking products like garments that have a higher margin as compared to food and drugs that do not. Competition is imminent from local retail brands and international chains contemplating entry into India. A strategic option is to go in for franchisee arrangements in major metropolitan cities. The aim is to establish a mall as an anchor store surrounded by well-known retailers. Another project is to set up the Akbarally Institute of Retailing affiliated to the University of Bombay.

The business is managed wholly by the three Khorakiwala brothers and their children. The second-generation family members are professionally trained in management. The senior positions are manned by professionals. Besides retailing, the family is also into furniture centres in Mumbai. Its other business that is better known is Wockhardt, a leading pharmaceutical company.

The challenge before the family business is to keep changing itself to remain on the top.

Question :

(a) Analyse the retailing operation of Akbarallys from the viewpoint of strategic management. Do you feel that the organisation is geared to face new challenges?

(b) What needs to be done additionally to secure continued success?

ADVANCED BEHAVIOURAL SCIENCE

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What do you mean by 'Interventions'?

2. What is 'strokes' in TA?

3. What is goal setting?

4. Is it ethical to modify another individual's behavior?

5. Distinguish between anxiety and stress.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Discuss the importance of behavioral science in business management.

Or

(b) How does behavioral science approaches impact organizational life?

7. (a) How assertiveness is relevant to organizational life?

Or

(b) How can transactional analysis help an individual to communicate better?

8. (a) How TA is useful in performance interview?

Or

(b) Discuss the effective modes of planning development involving subordinates.

9. (a) Briefly discuss the classification of behavior change techniques.

Or

(b) Describe the guidelines for implementing behavior change management programs.

10. (a) Explain with an example, how does managerial counseling predict and help people in overcoming their problems?

Or

(b) Discuss the significance of training for counseling.

Part C $(1 \times 10 = 10)$

Compulsory.

11. Read the following case and answer the questions.

The Chief of Maintenance was Shukla and under him Mukherjee was working as the Maintenance Engineer at Sundar Steel Ltd. The total strength of Maintenance was 500 workers, 25 executives and 50 supervisors.

Chatterjee was working in Maintenance as a worker for three years. He was efficient. He had initiative and drive. He performed his duties in a near perfect manner. He was a man of proven technical ability with utmost drive and dash. He was promoted as Supervisor. Chatterjee, now a Supervisor, was one day passing through the Maintenance Shop on his routine inspection. He found a certain worker sitting idle. He pulled him up for this. The worker retaliated by abusing him with filthy words. With a grim face and utter frustration, Chatterjee reported the matter to Mukherjee. The worker who insulted Chatterjee was a "notorious character", and no supervisor dared to confront him. Mukherjee took a serious view of the incident and served a strong warning letter to the worker. Things were moving smoothly. Chatterjee was getting along well with others.

But after about three years, another serious incident took place. A worker came drunk to duty, began playing cards, and using very filthy language. When Chatterjee strongly objected to this, the worker got up and slapped Chatterjee. Later, the worker went to his union and reported that Chatterjee had assaulted him while he was performing his duties. Chatterjee had no idea that the situation would take such a turn. He, therefore, never bothered to report the matter to his boss or collect evidence in support of this case.

The union took the case to Shukla and prevailed over him to take stern action against Chatterjee. Shukla instructed Mukherjee to demote Chatterjee to the rank of a worker. Mukherjee expressed his apprehension that in such a case Chatterjee will be of no use to the department, and the demotion would adversely affect the morale of all sincere and efficient supervisors. But Chatterjee was demoted.

Chatterjee continued working in the organization with all his efficiency, competence, and ability for two months. Then he resigned stating that he had secured better employment elsewhere. Mukherjee was perturbed at this turn of events. While placing Chatterjee's resignation letter before Shukla, he expressed deep concern at this development.

Shukla called Chief of Personnel for advice on this delicate issue. The Chief of Personnel said, "I think the incident should help us to appreciate the essential qualification required for a successful supervisor. An honest and hardworking man need not necessarily prove to be an effective supervisor. Something more is required for this as he has to get things done rather than do himself" Mukherjee said, "I have a high opinion of Chatterjee. He proved his technical competence and was sincere at his work. Given some guidance on how to deal with the type of persons he had to work with, the sad situation could have been avoided".

Shukla said, "I am really sorry to lose Chatterjee. He was very honest and painstaking in his work. But I do not know how I could have helped hint. I wonder how he always managed to get into trouble with workers. We know they are illiterates and some of them are tough. But supervisor must have the ability and presence of mind to deal with such men. I have numerous supervisors, but I never had to teach anybody how to supervise his men".

Questions : (2+3+5)

(a) Do you think counseling/mentoring may help improving rough and tough employees?

(b) Do you think the decision taken by Shukla is in keeping with creating developmental climate in the organization?

(c) Identify, the person/persons who should have been assertive and why? Give reasons.

M.B.A. (G) DEGREE EXAMINATION, APRIL 2017

Fourth Semester

Elective Paper — LABOUR LEGISLATIONS

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What are the working hours, overtime and intervals for rest for which an adult worker may be allowed to work in a factory?

2. Define the terms : Allocable surplus and Available surplus as used in the Payment of Bonus Act, 1965.

3. When the gratuity is payable?

4. What is an industrial dispute? What are the three ingredients of industrial dispute?

5. What are the maternity benefits available to women workers under the Maternity Benefit Act, 1961?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) State the provisions of the Factories Act, 1948 with regard to safety of the workers.

Or

(b) How is the amount of compensation payable to an injured employee calculated under the Workmen's Compensation Act, 1923?

7. (a) Explain the procedure for fixing minimum wages.

Or

(b) State the provisions relating to deductions to be made from wages under the Payment of Wages Act, 1936.

8. (a) What are the different types of benefits provided by the ESI Act?

Or

(b) What are the powers and duties of the ESI Corporation and the Medical Benefit Council?

9. (a) What are the rights and liabilities of a registered Trade Union?

Or

(b) Discuss the various methods of settlement of industrial disputes under the Industrial Dispute Act 1947.

10. (a) State the important provisions of the Maternity Benefit Act, 1961.

Or

(b) Explain the salient features of the Contract Labour (Regulation and Abolition) Act, 1976.

Part C (1 × 10 = 10)

Read the following and answer the questions.

11. (a) State the categories of employees to which the Payment of Bonus Act does not apply.

(b) Who is entitled and who is not entitled to claim bonus under the Payment of Bonus Act, 1965?

(c) Mr. X joined as supervisor on monthly salary of Rs. 4,000 on 01.02.2011 and resigned from his job on 28.02.2011. The company declared a bonus of 20% to all eligible employees and paid it on time. Mr. X knowing the facts made a claim to HRD, which inturn rejected the claim. Examine the validity in the light of the provisions of the Bonus Act, 1965.

(d) Mr. A, who is a permanent employee of RBI. State whether he is entitled to receive bonus under the Payment of Bonus Act, 1965.

Elective Paper – INTERNATIONAL HUMAN RESOURCE MANAGEMENT

(2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** the questions.

1. Bring out the similarities between domestic and international human resource management.

2. Define cultural adjustments.

3. What is balance sheet approach of compensation?

4. Explain cross — cultural training.

5. Why is there a need for work-life balance and flexible working?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) What is IHRM? Bring out the future challenges of IHRM?

Or

(b) Explain various functions of international human resource department which differ from domestic counterpart.

7. (a) Explain recruitment and selection criteria for expatriate managers.

Or

(b) State the problem and prospects in recruitment of International employee.

8. (a) What are the factors to be considered while designing training and development activities?

Or

(b) Discuss the problems faced, in conducting training programmes for expatriates.

9. (a) What are the salient features of international compensation packages prevalent in various multinational organizations?

Or

(b) Explain various factors affecting international compensation system.

10. (a) What is work life balance? Explain the impact of policy and practice on the international human resource management.

Or

(b) Discuss and evaluate the strengths and weakness of various forms of diversity initiatives in international organizations.

Part C (1 × 10 = 10)

11. Case study

Mr. Tinu is from corporate headquarters of Swedish firm having operations in twenty countries across the globe. As a member of the HR department, he is responsible for managing international assignments Mr. Tinu is to present a 15 minute summary of the key aspects of expatriate selection to a regional meeting of subsidiary managers, none of whom have any experience in HR or in selecting expatriates. The corporate objective is to Use intra-regional international assignments for Cross-border project teamwork between their various operations within the region.

Questions

(a) What aspects of expatriate selection should Mr. Tinu highlight in his presentation?

(b) Should Mr.Tinu be concerned about expatriate failure? If so, why?

PRODUCTION MANAGEMENT

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. What is meant by a Job Shop? Give two examples.

2. What will be a major factor to consider for location of a services operation?

3. Describe briefly the continuous production process.

4. What is line balancing?

5. What is meant by VED technique in inventory management?

Part B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b).

6. (a) Differentiate batch and intermittent production.

Or

(b) Describe the reverse engineering process.

7. (a) What are the various steps involved in process planning?

Or

(b) Discuss the various types of capacity planning.

8. (a) Narrate the procedure for layout planning.

Or

(b) Explain the steps involved in production control.

9. (a) What are the different types of inventories? Explain with examples.

Or

(b) Write short notes on :

(i) REL chart

(ii) P and Q systems.

10. (a) Explain MRP(I).

Or

(b) What are the factors to be considered in the location decision for a textile factory?

Part C $(1 \times 10 = 10)$

Compulsory.

11. Explain the scope and problems of production management.

SHIPPING AND MARITIME LAW

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Define the term agent.

2. What is meant by agreement to sell?

3. Elaborate on statutory transfer.

4. List out the various laws enacted for carriage of goods.

5. What is a tort?

Part B (5 × 10 = 50)

Answer **all** questions.

6. (a) Discuss the essential elements of a valid contract.

Or

(b) Discuss the remedies available for breach of a contract.

7. (a) Discuss the application of the term 'Caveat Emptor' with respect to an agreement for sales.

Or

(b) Discuss the various types of charter.

8. (a) Discuss the nature of non-contractual actions in transport by sea.

Or

(b) Discuss the special clauses in freight and their implications.

9. (a) Discuss the provisions of carriers Act 1865.

Or

(b) Discuss the various rights of consumers as per Indian Consumer Protect Act.

10. (a) Discuss the evidential hierarchy of lading statements.

Or

(b) Discuss the reasons for limitation of liabilities and what precautions the importer needs to address same.

Part C $(1 \times 10 = 10)$

Compulsory.

11. What are the various kinds of problems that can happen to an importer of goods? Discuss the various ways an importer can get his grievances redressed in foreign trade.'

EXPORT AND IMPORT MANAGEMENT

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Define export.

2. What is meant by business risk?

3. List out the advantages of containers in export.

4. What is an LC?

5. Mention the various types of information systems useful in export business.

Part B (5 × 10 = 50)

Answer **all** questions.

6. (a) Discuss the history of Foreign trade in India.

Or

(b) Discuss the current trends in India's foreign trade.

7. (a) Discuss the steps involved in an export documentation for agricultural exports.

Or

(b) Discuss the import strategies used by Indian business houses.

8. (a) Discuss leasing and its importance in export business.

Or

(b) Discuss the nature of shipping industry.

9. (a) Discuss the importance of INCO terms and its types.

Or

(b) Discuss the methods of payment used in international trade.

10. (a) Discuss the various aspects of trade with Asian countries

Or

(b) Discuss the reasons for emergence of Japan as an economically prosperous country.

Part C $(1 \times 10 = 10)$

Compulsory

11. Discuss the various forms of organizations used by multinationals and their advantages and disadvantages for foreign trade.

SUSTAINABLE SUPPLY CHAIN MANAGEMENT

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What is supply chain sustainability?
2. Write any two examples of software titles that address some aspect of supply chain.
3. What do you mean by 'cross-functional driver' in a supply chain?
4. What is the use of gap analysis in performance measurement?
5. What is green supply chain?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) Discuss the importance of expanding the scope of strategic fit across the supply chain.

Or

(b) What is the importance of benchmarking? Enumerate the challenges faced to implement benchmarking.

7. (a) What types of networks are best suited to highly differentiated products?

Or

(b) How could an auto manufacturer use transportation to increase the efficiency of its chain?

8. (a) Identify the drivers of supply chain sustainability and their obstacles for operations.

Or

(b) How pricing and revenue management are relevant to perishable assets?

9. (a) How can you, as a Supply Chain Manager, use SCOR model for benchmarking and measuring Supply Chain Performance?

Or

(b) Write a comprehensive framework of supply chain visibility.

10. (a) Discuss the impact of stakeholders on sustainable supply chain.

Or

(b) Identify and explain the HR competencies that would be useful to sustainable supply chain management

Part C (1 × 10 = 10)

Compulsory.

11. Micron electronics Inc. is a manufacturer of Personal computers (PC) that sells directly to the Customers who place orders either through Telephone or Internet. Micron has one assembly facility, located at Idaho and also has a sub-contractor, who is able to assemble most popular models. A typical customer order comes in via the internet or toll-free-telephone number. Depending on the type of order, it is allocated either to the Idaho facility or to the sub-contractor. Large corporate orders, for example are handled out of Idaho. Micron carries almost no Finished Goods Inventory and assembles PC's in response to Customer orders.

A typical order may include a Monitor and a Printer in addition to PC. Micron does not manufacture peripherals such as monitors and printers. They are stored at a depot in Memphis, which Federal Express (Fed Ex) operates for Micron. Some peripherals are also held at Idaho facility. Thus, the Order Coordinator must allocate product to the peripheral order from items in the depot. For an individual order, Fed Ex transports the assembled PC (either from Idaho or from the sub-contractor) to Memphis, where it is merged with the peripherals. Another possibility is, for Fed Ex to do the merge at a station close to the customer site. For example, an order from Chicago can be merged there itself. The merged order is then delivered to the customer. To facilitate this Merge-In-Transit, Micron shares detailed electronic

information with the Fed Ex warehouse as PC's ship out of Idaho. Customers can track the status of their orders after they have placed them.

For large corporate orders within the U.S., Micron does not use Fed Ex. It uses LTL companies to move the product. Currently these orders are filled using peripherals that are used at Idaho.

Micron outsources both PC components and peripherals throughout the world. The company uses Air freight as well as Ocean transport to move product to the U.S and then a combination of Truck and Rail to move it into warehouses.

Questions :

(a) What you have understood about Merge-In-Transit with reference to this case?

(b) What is the role of Fed Ex in Micron electronics?

(c) What are the advantages of using the services of Fed Ex?

Fourth Semester

LOGISTICS POSITIONING AND ROUTING

(2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Write Short Note on Time based Logistics.

2. What are the integrated models of Location?

3. What are the constrains of optimal routing selection?

4. What is Decision Support System?

5. Write Short Note on Third party and Fourth party Logistics.

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) What is Logistics re-engineering? Explain its procedure.

Or

(b) Explain the various strategies in Logistics Positioning.

7. (a) Write down the various Logistics Location Problems.

Or

(b) Discuss the various models of Logistics Location and its pros and cons.

8. (a) What are the various ways to evaluate optimum routing options in Logistics management?

Or

(b) Explain various functionalities, principles, participants in assessing different transportation scenario.

9. (a) Explain the problems in Logistics positioning system.

Or

(b) What is value chain analysis? What are its advantages and limitations?

10. (a) Explain the various factors in heavy manufacturing location.

Or

(b) Discuss in detail about six sigma concepts.

Part C $(1 \times 10 = 10)$

11. Read the following Case and Answer the questions.

The case study

The company "Tolam Logistics (TL)", is located in Hong Kong. Its founder, Mr. Eric Lam, established it in 1996. Mr Lam has over 20 years of experience in freight forwarding and delivery transportation. The company has five major customers including Toshiba, Carrier, Kelon,

Sanyo Electronics (Hong Kong) and Alpa (Fuji's air conditioner and Fujitsu's plasma TV). It has rented 100,000 sq. feet of warehouse space in Hong Kong and owns about 32 trucks. The company's main operations include the distribution of goods and some value-added services. It employs over 100 Figure 2. A conceptual model for 3PL IJPDLM 33,9832 full-time workers, including management staff. They make up one transportation team. Three part-time teams can be put together when required. The company has no overseas office at present. In 2002, the company recorded an annual turnover of HK$30 million, with a profit margin of about 20 percent. It does not have any overseas office at present, but may in the future, most probably in mainland China.

The following are the major (in-bound logistics) operations at TL :

(a) Drayage (i.e. container cargo handling and transportation from the port to the warehouse);

(b) Vanning and devanning (i.e. break-bulk cargo handling for warehousing or delivery).

(c) Import declaration.

(d) Direct-to-store and warehouse bypass.

(e) Warehousing and inventory management.

(f) Testing and repackaging;

(g) Local delivery (with selective deliveries);

(h) Reverse logistics; and value-added services:

(i) Quality checking and repairs, etc.

TL has some Web-enabled logistics operations, which were developed in 2002. The company also aims to expand into a full-pledged 3PL service provider in about two to three years.

Questions:

(i) Discuss the various effective operations of Tolam Logistics in Logistics positioning.

(ii) Explain how Tolam Logistics can make its Logistics positioning practices still more effective.

M.B.A. (LM) DEGREE EXAMINATION, APRIL 2017

Fourth Semester

MODERN PLANT MANAGEMENT

(CBCS – 2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Explain the benefits of cost-benefit analysis.

2. Explain batch scheduling.

3. What are the principles of waste management?

4. What are quality circles? Why are they important in a company?

5. Write a note on time saving techniques.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Explain in detail the evaluation methods of plant location.

Or

(b) Describe the principles of modern plant management.

7. (a) Discuss production planning and control strategies.

Or

(b) Illustrate lay out design procedure with an example.

8. (a) Give a detailed account on maintenance procedures and the guidelines for effective maintenance.

Or

(b) What do you mean by planning for logistics? And explain the types of maintenance.

9. (a) Discuss the significance and importance of Lean manufacturing. How does it differ from Discrete manufacturing technique?

Or

(b) Highlight the developments in recent years in industrial logistics and SCM citing examples.

10. (a) Discuss the productivity improvement techniques of a company manufacturing white goods.

Or

(b) Explain the problems associated with improving productivity. How to overcome them?

Part C $(1 \times 10 = 10)$

Compulsory

11. A company contemplates for improvements in its production facility which is usually accomplished at little or no expenses, without sophisticated techniques or expensive equipments. It focuses on the simplification by breaking down complex processes into their sub-processes and then improving them. So the company engaged consultants to have some experiments before and after

the improvements and modftications in process, data are collected before and after modifications and on the basis of these information's the cost and rejection levels of the products are to be done. Some of kaizen improvements in wire harness manufacturing companies and their effect on cost and rejections levels were indentified and rectified.

Problems were identified in excessive cycle time and poor quality in resistor leg bending for resistor assembly and irrax tube cutting and slitting. This problem is generally found in the wire harness and companies on small scale operation, the reason being Leg bending with nose plier. Before the improvement the tube cutting and slitting performing by scissors and using a plain scale for measuring the length of the tube. The problems were in Tube cut length variations, poor quality in slitting and extra cycle time in tube cutting. Before improvement the irrax tube were cut by scissors and measure with scale.

Questions:

(a) What do you mean by Kaizen philosophy?

(b) What were the problems faced by this company?

(c) What kind of action you would suggest for each of the problems identified using Kaizen method?

(d) What are the tangible and intangible benefits you would identify by using your services as a consultant in such a company?

(e) Would a similar action be suggested by you for a large-sized company? If Yes/No why?

LOGISTICS QUALITY MANAGEMENT

(2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A ($5 \times 3 = 15$)

Answer **all** questions.

1. How do technological factors influence network design decisions?

2. Narrate the applications of Six sigma in logistics.

3. What is reverse logistics?

4. What do you mean by remanufacturing?

5. What is a supply chain?

Part B ($5 \times 10 = 50$)

Answer **all** questions, choosing either (a) or (b).

6. (a) Analyse the major quality management issues in logistics.

Or

(b) Enumerate the different ways of handling risus associated with quality management in logistics.

7. (a) Elaborate the role of logistical managers in ensuring quality in logistics.

Or

(b) How do environmental factors influence quality management in logistics?

8. (a) Elucidate the important ingredients of consumer electronics recycling.

Or

(b) Enumerate the methodologies for the standardisation of reverse logistics process.

9. (a) Write a detailed note on Taguchi's method and its applications.

Or

(b) What is lean manufacturing? Also highlight its features and applications.

10. (a) What are the issues to be resolved when making network design decisions for a supply chain?

Or

(b) Describe the importance and the services provided by third party logistics providers.

Part C $(1 \times 10 = 10)$

Compulsory

11. Critically evaluate the various quality techniques and its applications in LSCM.

INTERNATIONAL LOGISTICS AND SCM

(2013 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Enumerate the incentives in logistics.

2. Mention the importance of customer service in global logistics.

3. Identify uncertainties that affect supply chain performance.

4. Mention the advantages of air transport.

5. What do you mean by sourcing.

Part B (5 × 10 = 50)

Answer **all** questions by choosing either (a) or (b).

6. (a) Mention the functions of international logistics.

Or

(b) Enumerate the impact of global logistics on global business.

7. (a) Explain how customer service performance can be improved by global logistics.

Or

(b) Bring out the major ingredients of retail logistics.

8. (a) Explain the role of IT in international logistics.

Or

(b) Analyse the methodology involved in reducing risks in global logistics.

9. (a) How does a global logistics manager evaluate the performance of various alternative modes of transport?

Or

(b) 'Logistics and SCM act as a major tool for integrating international operations' – Comment.

10. (a) Elucidate the results achieved by China logistics.

Or

(b) Bring out the major developments in central and Eastern European logistics strategies.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Mr. X has credit balance in his current account with sound bank Ltd upon which he has given Mr. Y the authority to draw cheques. Some time afterwards, the bank learns that Mr. X is incapacitated by temporary mental derangement from managing his affairs and at intervals is in a lunatic asylum. Does Mr. Y still has power to operate the account? Give reasons.

———————
