M.Com. (F & C) DEGREE EXAMINATION, MAY 2014.

MANAGEMENT CONCEPTS

(2005 Onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain the different levels of management.

2. Discuss the nature and process of management.

3. Explain the policies, elements and strategies of managerial planning.

4. What are the steps involved in decision–making?

5. Explain the nature and importance of organisation.

6. State and briefly explain the steps involved in the staffing process.

7. What are the different types of motivation?

8. What are the requirements of a good control system?

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the concept of management and bring out its importance in present–day context.

10. What do you mean by objectives of an organisation? How do clearly defined objectives helps in managing the organisation.

11. What are the features of a good plan? Explain.

12. Explain the important guidelines for making effective decision.

13. Line and staff is an obsolete concept. Explain.

14. Explain the various sources of man power supply.

15. Define management audit. How does it differ from financial audit? How can a management audit programme be adopted?

M.Com. (F&C) DEGREE EXAMINATION, MAY 2014.

FINANCIAL ACCOUNTING AND ANALYSIS

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the types of errors in accounting entries?

2. State the limitations of ratio analysis.

3. What do you mean by business entity concept and going concern concept?

4. Evaluate the CPP and CCA methods of accounting for price level changes.

5. Why financial statement should by analysed further?

6. Mr. Gopalan failed to balance his trail balance, the credit side exceeding the debit side by Rs. 1,270. This amount was entered in a suspense account. Later the following errors were discovered :

   (a) The Sales Day Book is totaled Rs. 50 short

   (b) Payment of trade expenses Rs. 275 entered on the payment side of the cash book is omitted to be posted

(c) Commission Rs. 125 paid has been posted twice to commission account.

(d) A sale to Annamalai for Rs. 195 though correctly entered in the Day Book is debited to Annamalai account as Rs. 465

(e) Goods bought from L.Lal for Rs. 500 though Correctly entered in the invoice book is debited to L.Lal's personal account instead of being credited to him.

(f) Discount column the receipts side of cash book, totaling Rs. 615 has been added up to show Rs. 715

Give the journal entries to rectify the above errors and prepare the suspense account.

7. From the following details prepare statement of Proprietary Funds with as many details as possible :

(a) Stock Velocity 6

(b) Capital Turnover ratio (on cost of sales): 2

(c) Fixed Assets Turnover ratio (on cost of sales) : 4

(d) Gross profit Turnover ratio: 20 per cent.

(e) Debtors Velocity: 2 months

(f) Creditor' Velocity: 73 days

The gross profit was Rs. 60,000 Reserves and surplus amount to Rs. 20,000. Closing stock was Rs. 5,000 in excess of opening stock.

8. The following are the summarized Balance Sheet of Shankar Ltd as on 31st March 2009 and 2010. Prepare a cash flow statement.

Liabilities	2009 Rs.	2010 Rs.	Assets	2009 Rs.	2010 Rs.
Share Capital	8,000	8,500	Land	5,000	5,000
Profit and Loss account	1,450	2,450	Plant and Machinery	2,400	3,400

Liabilities	2009 Rs.	2010 Rs.	Assets	2009 Rs.	2010 Rs.
Mortgage Loan	–	500	Stock	900	700
Sundry Creditors	900	500	Debtors	1,650	1,950
			Cash	400	900
	10,350	11,950		10,350	11,950

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What is the need for accounting standards? Describe any two accounting standards you are aware of.

10. State the need for cash flow analysis. What are its uses?

11. What do you understand by Human Resources Accounting? State and explain any one model.

12. Thomas does not maintain his Books in the Double Entry system and Bank Account. From the following information, prepare profit and loss account and

Balance Sheet as at March 31, 2009 :

(A) Assets and Liabilities :

	31-3-2008 Rs.	31-3-2009 Rs.
Stock	19,800	1,13,200
Creditors	31,000	14,500
Debtors	1,19,000	1,25,000
Premises	90,000	90,000
Furniture	11,000	11,500
Air Conditioner	15,000	15,000

(B) Creditors as at 31-3-2008 include Rs. 15,000 for purchase of Air-conditioners.

(C) Cash Transactions :

	Rs.
Cash as at April 1,2008	15,000
Collections form customers	1,60,000
Payment to Creditors (Trade)	1,44,000
Rent Rates and Taxes	11,500
Salaries	1,12,000
Sundry Expenses	18,000
Sundry Income	16,500
Drawings by Thomas	30,000
Loan form Mrs. Fernandez	23,000
Capital Introduced	12,000
Cash Sales	11,500
Cash Purchases	15,000
Paid to creditor for Air-conditioner	15,000

(D) Bad debts written off 1,200

13. The Alfa Manufacturing Company Limited was registered with a nominal capital of Rs. 60,00,000 in Equity Shares of Rs.10 each. The following is the list of balances extracted from its books on 31st March 1999 :

	Rs.
Calls in arrear	75,000
Premises	30,00,000
Plant and Machinery	33,00,000
Interim dividend paid on 1st November 1998	3,92,500
Stock, 1st April, 1998	7,50,000

Fixtures	–	–	72,000
Sundry Debtors	–	–	8,70,000
Goodwill	–	–	2,50,000
Cash in hand	–	–	7,500
Cash at Bank	–	–	3,99,000
Purchases	–	–	18,50,000
Preliminary Expenses	–	–	50,000
Wages	–	–	8,48,650
General Expenses	–	–	68,350
Freight and Carriage	–	–	1,31,150
Salaries	–	–	1,45,000
Directors' Fees	–	–	57,250
Bad Debts	–	–	21,100
Debenture Interest paid	–	–	1,80,000
Share Capital	–	–	40,00,000
12% Debentures	–	–	30,00,000
Profit and Loss account	–	–	2,62,500
Bills Payable	–	–	3,70,000
Sundry Creditors	–	–	4,00,000
Sales	–	–	41,50,000
General Reserve	–	–	2,50,000
Bad Debts Provision 1st April 1998	–	–	35,000

Prepare Trading and profit and Loss Account and Balance Sheet in proper form after making the following adjustments :

(a) Depreciate Plant and Machinery by 15%

(b) Write off Rs. 5,000 from Preliminary Expense

(c) Provide for half years debenture interest due

(d) Leave bad and Doubtful Debts Provision at 5% on Sundry Debtors.

(e) Provide for Income Tax @ 50%

(f) Stock on 31st March, 1999 was 9,50,000.

14. From the following information, prepare a Balance Sheet. Show the workings.

(a)	Working Capital	Rs. 75,000
(b)	Reserves and surplus	Rs. 1,00,000
(c)	Bank overdraft	Rs. 60,000
(d)	Current ratio	1.75
(e)	Liquid ratio	1.15
(f)	Fixed assets to proprietor's funds	0.75
(g)	Long term liabilities	Nil

15. The following are the summarized Balance Sheet of Surya Ltd as on 31st March 2000 and 2001 :

Liabilities	2009 Rs.	2010 Rs.	Assets	2009 Rs.	2010 Rs.
Equity Capital	2,00,000	2,60,000	Goodwill	–	20,000
General Reserve	50,000	50,000	Plant and Machinery	1,12,950	1,16,200
Profit and Loss account	39,690	41,220	Land and Building	1,48,500	1,44,250
Bills payable	33,780	11,525	Stock	1,11,040	97,370
Sundry Creditors	39,500	41,135	Sundry advances	2,315	735
Overdraft	59,510	–	Debtors	85,175	72,625
Provision for Taxation	40,000	50,000	Cash	2,500	2,700
	4,62,480	4,53,880		4,62,480	4,53,880

(a) During the year ended 31st March 2001 an interim dividend of Rs. 26,000 was paid.

(b) The assets of another company were purchased for Rs. 60,000 payable in fully paid shares of the company. These assets consisted of stock Rs. 21,640.

Machinery Rs.18,360 and Goodwill Rs. 20,000.

In addition plant were purchased for Rs. 5,650.

(c) Income tax paid during the year Rs. 25,000

(d) The net profit for the year before tax was Rs. 62, 500.

Your required to Prepare Fund Flow Statement.

DISTANCE EDUCATION

M.Com.(Finance and Control) DEGREE EXAMINATION, MAY 2014.

COST AND MANAGEMENT ACCOUNTING

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE of the following.

1. State the difference between "Time Rate System" and "Piece Rate System".

2. Explain the term Batch costing.

3. What is master budget?

4. What is meant by overtime? How should overtime cost be treated in cost accounts?

5. Give an outline of two scope of management accounting.

6. From the following information calculate :
   (a) EOQ and
   (b) The number of orders to be placed in one year
   Annual consumption 8000 kgs
   Cost of placing one order Rs. 50
   Cost of material per unit Rs. 40
   Storage and carrying cost is 8% on average inventory.

7. Margin of safety Rs. 10,000 which represents 40% of sales PV ratio 50% calculate (a) sales (b) break even point (c) fixed cost and (d) profit

8. Distinguish between allocation and absorption of overheads.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. The A company has three production departments A, B and C and two service departments X and Y. The expenses incurred by them during a particular month are A = Rs. 80,000 B = Rs. 70,000 C = Rs. 50,000, X = Rs. 23,400, Y=Rs. 30,000.

The expenses of the service departments are apportioned to the production departments on the following basis.

	A	B	C
Expenses of X 20%	40%	30%	10%
Expenses of Y 40%	20%	20%	20%

Give the secondary distribution summary.

10. From the following information. Prepare cash budget for the period April to June.

Month	Credit Sales	Purchases	Wages
	Rs.	Rs.	Rs.
February, 2008	1,80,000	1,24,800	12,000
March,2008	1,92,000	1,44,000	14,000
April,2008	1,08,000	2,43,000	11,000
May,2008	1,74,000	2,46,000	10,000
June 2008	1,26,000	2,68,000	15,000

(a) 50% of the credit sales are realised in the month following sales and the remaining 50% in the second month following.

(b) Creditors and wages are paid in the month following the month of purchases.

(c) Cash at bank on 1.4.08 Rs.25,000

11. Describe in detail the steps to be followed in the fixation of standard costs.

12. From the following particulars calculate the overhead rate per hour for the production departments A,B and C.

Particulars	Production Departments			Service Departments		Total
	A	B	C	X	Y	
Rent (Rs.)	200	400	150	150	100	1,000
Electricity (Rs.)	50	80	30	20	20	200
Insurance (Rs.)	80	160	60	60	40	400
Depreciation (Rs.)	1,000	1,500	1,000	300	200	4,000
Canteen exp. (Rs.)	50	50	50	100	150	400
Total exp. (Rs.)	1,380	2,190	1,290	630	510	6,000
Working hours	1,000	2,500	1,800	–	–	5,300
Exp. Ratio(x)	30%	40%	20%	–	10%	100%
Exp. Ratio (y)	10%	20%	50%	20%	–	100%

13. ABC company wishes to arrange over draft facilities with its Bankers during the period April to June 2007 when it will be manufacturing mostly for stock. Prepare a cash budget for the above period from the following data, indicating the extent of the bank overdraft required at the end of each month.

Months	Sales Rs.	Purchase Rs.	Wages Rs.
February, 2007	1,80,000	1,24,800	12,000
March,2007	1,92,000	1,44,000	14,000
April,2007	1,08,000	2,43,000	11,000
May,2007	1,74,000	2,46,000	10,000
June 2007	1,26,000	2,68,000	15,000

Other information.

(a) 50% of credit sales are realized in the month following the sales and the remaining 50% in the second month following.

(b) Creditors for purchases are paid in the month following the month of purchase.

(c) Wages are paid in the first day of next month

(d) Estimated opening cash at bank Rs. 25,000 (1.4.2007)

14. The X company Ltd submits the following information on 31st March 2006.

	Rs
Sales	2,75,000
Opening stock :	
Finished goods	7,000
Work in progress	4,000
Purchase of raw materials	1,10,000
Opening stock of raw materials	3,000
Closing stock of raw materials	4,000
Direct labour	65,000

Factory overhead @ 60% of the direct labour cost

Closing stock

Work in progress	6,000
Finished goods	8,000

Other expenses

Selling expenses 10% of sales, administration expenses 5% of sales. Prepare a statement of cost and profit.

15. The stock in hand of a material as on 1st September 2004 was 500 units at Rs. 1 per unit. The following purchases and issues were subsequently made. Prepare the stores ledger account showing how the value of the issues would be recorded under (a) FIFO (b) LIFO methods.

Purchased		Issued	
September 6	100 units at Rs 1.10	September 9	500 units
September 20	700 units at Rs 1.20	September 22	500 units
September 27	400 units at Rs. 1.30	September 30	500 units
October 13	1000 units at Rs. 1.40	October 15	500 units
October 20	500 units at Rs. 1.50	October 22	500 units
November 17	400 units at Rs. 1.60	November 11	500 units

DE–8227 **14**

DISTANCE EDUCATION

M.Com. (Finance and Control) DEGREE EXAMINATION, MAY 2014.

QUANTITATIVE TECHNIQUES

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Describe the primary and secondary methods of collecting data. In what special circumstances are the two methods suitable.

2. Distinguish between 'Skewness' and 'Kurtosis'. And bring out their importance in describing frequency distribution.

3. Discuss the importance of probability in decision – making.

4. "Decision criteria under situation of uncertainty is governed by the attitude of the decision maker". Explain.

5. A box contains 100 transistors, 20 of which are defective, 10 are selected for inspection. Indicate what is the probability that

   (a) all 10 are defective and

   (b) all 10 are good

   (c) at least one is defective and

   (d) at the most 3 are defective?

6. In a sample of 600 men from a certain city, 450 men are found to be smokers. In a sample of 900 from another city 450 are found to be smokers. Do the data indicate that the two cities are significantly different with respect to prevalence of smoking habit among men?

7. Calculate the mean, median and the mode from the following table :

Marks :	20–29	30–39	40–49	50–59
No.of Students :	5	12	15	20
Marks :	60–69	70–79	80–89	90–99
No.of Students :	18	10	6	4

8. Find the appropriate measure of Skewness from the following data :

Age (Years)	No.of Employers
Below 20	13
20–25	29
25–30	46
30–35	60
35–40	112
40–45	94
45–50	45
50 and above	21

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What are the general rules of forming a frequency distribution? Discuss the problems in the construction of frequency distribution.

10. Explain the difference between 'risk' and uncertainty and also state four elements that decision matrices usually contain.

11. Calculate the co-efficient of Skewness based on Quartiles from the following data :

Class	Frequency
More than 0	5474
More than 10	5426
More than 20	5259
More than 30	5023
More than 40	4475
More than 50	3712
More than 60	2718
More than 70	1406
More than 80	764
More than 90	370
More than 100	160
More than 110	39

12. Assuming that half of the population is vegetarian so that chance of an individual being a vegetarian is $\frac{1}{2}$. Assuming that 100 investigators can take sample of 10 Individuals each to see whether they are vegetarians how many investigators would you expect to report that three people or Less were vegetarians?

13. Find the two regression equations from the following data :

X :	57	58	59	59	60	61	62	64
Y :	77	78	75	78	82	82	79	81

Estimate the value of Y when the value of X is 65.

14. (a) Comment on the following :

For a binomial distribution, mean = 7, variance = 11

(b) For a binomial distribution the mean is 6 and the standard deviation is $\sqrt{2}$. Write out all the terms of the binomial distribution.

15. The average number of articles produced by two machines per day are 200 and 250 with standard deviation 20 and 25 respectively on the basis of records of 25 days production. Can you regard both the machines equally efficient at 1% level of significance?

BUSINESS LAW

(2005 Onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. State the legal rules regarding a valid offer.

2. Explain the essentials of a contract of sale.

3. State the difference between contact and quasi contract.

4. State the various types of a guarantee.

5. What is endorsement of negotiable instruments? Who can make an endorsement?

6. State the various kinds of marine losses.

7. What are the duties of a bailee? What right does he enjoy under contract of bailment?

8. What are the different kinds of common carriers?

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Describe the essentials of valid contract.

10. Discuss the law relating to the enforcement of contingent contracts.

11. Explain the rights and obligations of a finder of goods.

12. Describe the rights, duties and liabilities of an agent.

13. Explain the rule of caveat emptor. Discuss the cases in which the rule of caveat emptor does not apply.

14. Explain with examples the fundamental principles of insurance.

15. State the comparison between a charter party and a bill of lading. Is bill of leading a negotiable instrument?

FINANCIAL MANAGEMENT AND CONTROL

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. State briefly the significance of financial management.
2. How the financial decision making involves risk return trade off?
3. Write short notes on public deposits.
4. What are the factors determining working capital needs?
5. What is cost of capital? Explain its significance.
6. What are the benefits of holding inventories?
7. What is operating leverage? Explain its significance.
8. What are the essentials of Walter's dividend model? Explain its short comings.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the various functions of financial management.
10. What is a Debenture? Discuss the different types of debentures.

11. Explain working capital management.

12. Anand Ltd. offers for public subscription equity shares of Rs. 10 each at a premium of 10%. The company pays an underwriting commission of 5% on the issue price. The equity shareholders expect a dividend of 15%.

    (a) Calculate the cost of equity capital.

    (b) Calculate the cost of equity capital, if the market price of the share is Rs. 20.

13. Discuss the various aspects of receivable management.

14. Explain the dangers of

    (a) Excess working capital and

    (b) Inadequate working capital.

15. Victary Ltd earns Rs. 5 per share. The capitalisation rate is 10% and the return on investment is 12%. Under Walter's model determine

    (a) the optimum payout.

    (b) the market price of the share at this payout.

    (c) the market price of the share if the payout is 20%.

    (d) the market price of the share if the payout is 40%.
