M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

MANAGEMENT PRACTICES

(upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define social responsibility.

2. What s motion study?

3. What do you mean by planning premises?

4. List out any two types of plans.

5. Explain centralisation.

6. Define line authority

7. What is global leading?

8. What are all the elements of communication?

9. Define TQM.

10. Define BPR.

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Management as an art – justify.

Or

(b) Explain the human approach of management.

12. (a) Describe the purpose of planning.

Or

(b) Explain the prerequisites to frame objectives.

13. (a) Describe any the kind of departmentation.

Or

(b) Explain the characteristics of effective organisation.

14. (a) Write a note on leadership.

Or

(b) Explain the importance of group decision making.

15. (a) Describe the role of information technology in controlling.

Or

(b) Give short note on global controlling.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Describe the contributions of F.W. Tailor.

Or

(b) Write an essay on evolution of management thoughts.

17. (a) Explain steps involved in planning.

Or

(b) Define line and staff organisation. Explain the conflict arising among staff and line organisations.

18. (a) Explain the theories of motivation.

Or

(b) Write a note on :

(i) Six sigma

(ii) JIT.

CP–8367

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

EXECUTIVE COMMUNICATION

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is the importance of communication in management?

2. What is encoding? Why is it done?

3. What are the various types of letters?

4. What are called as personalized letters?

5. What are short reports? Why are they used?

6. What are appendices?

7. What is body language?

8. What is dyadic communication?

9. What is the purpose of resolutions?

10. What is minutes of the meeting?

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) What are the various types of media used in communication?

Or

(b) What are the barriers of media in communication?

12. (a) Give an example letter of a customer complaint.

Or

(b) How a sales collection letter is drafted for dealers?

13. (a) Compare formal reports with informal reports.

Or

(b) What are the norms for including exhibits in a technical report?

14. (a) What are kinesics and proxemics? Why are they important in communication?

Or

(b) Write a note on telephone etiquette.

15. (a) What are the challenging issues in conferences?

Or

(b) Illustrate how a prepared speech is drafted?

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Elucidate the modern means of communication and the changing role of communication.

Or

(b) Discuss the norms for business letters under different situations.

17. (a) Explain the nuances in writing a research report.

Or

(b) List and explain the merits and demerits of various audio-visual aids.

18. (a) Explain the purpose and content of an agenda. Give an example for agenda.

Or

(b) Analyse the role of technology in communication.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

ORGANIZATIONAL BEHAVIOUR

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What do you mean by organizational behaviour?

2. What is personality?

3. Define emotion.

4. What do you mean by attitude?

5. Define stress.

6. Name the different types of group.

7. What is organizational change?

8. What do you mean by impression management?

9. Define homogeneity.

10. Name the challenges of workforce diversity.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Discuss the major behavioural science disciplines that contribute to OB.

Or

(b) Explain the determinants of personality.

12. (a) Discuss whether emotions are rational and what functions it serve.

Or

(b) What is ethics? Explain the types of ethics.

13. (a) Explain the various sources of stress.

Or

(b) Discuss the five stages of group development.

14. (a) How do you manage planned change? Discuss.

Or

(b) Discuss the political behaviour in organization.

15. (a) Explain the challenges of organizational behaviour at international level.

Or

(b) Distinguish between homogeneity and heterogeneity of national cultures.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain the challenges and opportunities for managers in using OB concepts.

Or

(b) Discuss in detail about trait theories of personality.

17. (a) Describe the implications of El on managers and their performance.

Or

(b) What is perception? Discuss the process involved in perception.

18. (a) Discuss the approaches to managing organizational change.

Or

(b) How do you create and sustain organizational culture?

CP–8369

Sub. Code
14

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

STATISTICAL METHODS

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A $(10 \times 2 = 20)$

Answer **all** questions.

1. Find the total cost function if the fixed cost Rs. 7,000 and variable cost Rs. 600.

2. $y = 3e^{2x} + \cos 3x + \sqrt{x}$, find $\frac{dy}{dx}$.

3. Define Correlation and give any two types.

4. Define standard deviation.

5. What is the probability of impossible event?

6. Define normal distribution.

7. Explain price index and quantity index.

8. What are the components of time series analysis?

9. Define null and alternative hypothesis.

10. Define the standard error of a sampling distribution.

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Draw the graph of the function $y = x^2 + 2x + 3$.

Or

(b) The marginal cost function y for producing x unit is $y' = 10 + 24x - 3x^2$. If the total cost of producing one unit is Rs. 30. Find the total cost and average cost.

12. (a) Find the arithmetic mean of the following :

x :	1	2	3	4	5	6	7
f :	5	9	12	17	14	10	6

Or

(b) For a group of 200 candidates, the mean and standard deviation of scores were found to be 40 and 15 respectively. Later on it was discovered that the scores 43 and 35 were misread as 34 and 53 respectively. Find the corrected mean and standard deviation corresponding to the corrected figures.

13. (a) Find the expectation of the number on a die when thrown.

Or

(b) If the random variable X has a Poisson distribution such that $\Pr(X = 1) = \Pr(X = 2)$, find $\Pr(X = 4)$.

14. (a) From the following data construct an index for 2014 taking 2013 as base :

Commodities :	A	B	C	D	E
Price in 2013 :	50	40	80	110	20
Price in 2014 :	70	60	90	120	20

Or

(b) Describe the methods of measuring trend in time series.

15. (a) The number of road accidents per week in a city were as follows : 20, 2, 14, 12, 8, 10, 6, 15, 9, 4. Are these figures in agreement with the belief that accident conditions were the same during periods of 10 weeks?

Or

(b) Out of 8000 graduates in a town, 800 are females and out of 1600 graduates employees, 120 are females. Use χ^2 distribution to determine if any discrimination is made in appointment on the basis of sex.

Part C $(3 \times 10 = 30)$

Answer **all** questions.

16. (a) Draw a suitable graph to represent the following data along with Balance of Trade [BOT].

Period :	Jan.	Feb.	Mar.	Apr.	May	Jun.
Exports :	30	32	28	25	23	20
Imports :	20	25	33	38	40	42

Or

(b) Let the random variables X and Y have the joint probability density function

$$f(x, y) = \begin{cases} x + y, & 0 < x < 1;\ 0 < y < 1 \\ 0, & \text{elsewhere.} \end{cases}$$

Find the correlation coefficient of X and Y.

17. (a) Obtain the equations of two lines of regression for the following :

X :	65	66	67	67	68	69	70	72
Y :	67	68	65	68	72	72	69	71

Or

(b) The local authorities in a certain city install 10,000 electric lamps in the streets of the city. If these lamps have an average life of 1000 burning hours with a standard deviation of 200 hours, assuming normality, what number of lamps might be expected to fail :

(i) in the first 800 burning hours?

(ii) between 800 and 1200 burning hours?

After what period of burning hours would you expect that

(1) 10% of the lamps would fail?

(2) 10% of the lamps would be still burning?

18. (a) The following data refer to the production of cloth in million yards during the year 2003–2012. Assuming a four year cycle, compute the trend value by the method of moving average.

Year :	2003	2004	2005	2006	2007
Production in Yards :	460	512	515	470	500
Year :	2008	2009	2010	2011	2012
Production in Yards :	510	525	540	520	550

Or

(b) Random sample of 400 men and 600 women were asked whether they would like to have a flyover near their residence. 200 men and 325 women were in favour of the proposal. Test the hypothesis that proportions of men and women in favour of the proposal, are the same against that they are not, at 5% level.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

MANAGEMENT ACCOUNTING

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What do you mean by management accounting?

2. Define financial accounting.

3. What is ratios?

4. What is budget?

5. How is production budget prepared?

6. What is financial statement analysis?

7. What is fund flow statement analysis?

8. Write note on cash from operations.

9. What is zero base budget?

10. What is marginal costing?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Discuss the accounting principles.

Or

(b) Discuss the merits of double entry system of book keeping.

12. (a) Distinguish between financial accounting Vs management accounting.

Or

(b) What are the various profitability ratio's?

13. (a) Explain the merits of cash flow analysis.

Or

(b) A plant purchased for Rs. 55,000 [Accumulated depreciation Rs. 23,000] was sold for Rs. 44,000.

The gain on sale of plant was taken to profit and loss account this increasing the net profit to Rs. 1,62,000. You are required to calculate fund from operations.

14. (a) Discuss the merits of cost unit.

Or

(b) Prepare a cost sheet to find out profit and cost per unit from the following particulars.

Raw materials consumed Rs. 1,60,000

Direct wages Rs. 80,000

Factory overhead Rs. 16,000

Office overhead – 10% of factory cost

Selling overhead – Rs. 12,000

Units produced – 4,000

Unit sold – 3,600

Selling price per unit – Rs. 100.

15. (a) What are the various applications of break-even analysis?

Or

(b) Explain the significance of budgetary control.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Discuss the functions of management accounting.

Or

(b) What are the various methods of depreciation?

17. (a) What are the factors determining working capital?

Or

(b) From the following information find out

(i) P/V ratio

(ii) Breakeven point

(iii) Profit

(iv) Margin of safety.

Total fixed cost	Rs. 4,500
Total variable cost	Rs. 7,500
Total sales	Rs. 15,000

18. (a) What are the difficulties faced in installing a costing system? How are they overcome?

Or

(b) From the following, prepare B/S.

Current ratio – 1.75, Liquid ratio – 1.25, stock turnover ratio – 9, (Cost of sales/closing stock), Gross profit ratio – 25%, Dept collection period – 1.5 months, Reserves and surplus to capital – 0.2, Turnover to fixed asset – 1.2, capital gearing ratio – 0.6, fixed asset to net worth – 1.25, sales for the year Rs. 12,00,000.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017.

Airline and Airport Management

BUSINESS RESEARCH METHODS

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What do you mean by empirical research?

2. Differentiate cross sectional research from time series research.

3. What are the types of scales?

4. How is sample size of a definite population determined?

5. Which type of research uses secondary data?

6. Explain the need for a research summary.

7. List out three unethical practices in research.

8. Explain the purpose of coding.

9. What is the role of audience in research?

10. What are the various types of research reports?

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) What do you understand by the term research? State its objectives.

Or

(b) Explain briefly the features of a good research design.

12. (a) Under what circumstances the observation method of data collection is used?

Or

(b) How many types of errors are there in the context of testing of hypothesis?

13. (a) Differentiate factor and cluster analysis with example.

Or

(b) Write short notes on : (i) importance of oral communication (ii) characteristics of a good research report.

14. (a) Explain the different methods of collecting data.

Or

(b) Describe the steps in preparing the data for analysis.

15. (a) Describe the limitations of the test of hypothesis.

Or

(b) How to write good research report?

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Describe the various types of research and their applications with examples.

Or

(b) Explain the types of experimental research design, used in social research.

17. (a) Describe the different sampling techniques for research.

Or

(b) Explain the various statistical anlayses for hypothesis testing.

18. (a) Explain the contents of a complete research report with illustration.

Or

(b) How do the audience play significant role in writing research report? Give the principles in preparing a research report.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

AIRPORT ECONOMICS

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define the term 'consumer behaviour'.

2. What is a green field airport?

3. What is the meaning of airport slot?

4. What is meant by commercial service airport?

5. State the meaning of hub and spoke system.

6. Define the term 'air navigator'.

7. What do you mean by skim the cream pricing?

8. State the meaning of consumer consonance and dissonance.

9. What is the meaning of airport privatisation?

10. What is meant by regulatory mechanism?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) What are the various categories of airport?

Or

(b) What are the factors affecting consumer behaviour?

12. (a) Enumerate the causes and effects of aircraft delay.

Or

(b) What are the functions of level 3 airport?

13. (a) List out the determinants of airport competition?

Or

(b) List out the aeronautical and non-aeronatical revenues.

14. (a) What are the factors determining airport pricing?

Or

(b) What are the indicators used to measure airport performance?

15. (a) Enumerate the forms of airport regulation.

Or

(b) Enumerate the causes of privatising airport.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain the principles of airport management.

Or

(b) What are the measures adopted to decongest airport congestion?

17. (a) Describe the competitive strategies adopted by airports.

Or

(b) Enumerate the principles of airport pricing.

18. (a) Argue for and against privatisation of airports.

Or

(b) Explain the objectives and principles of regulating airport operations.

CP–8373

Sub. Code
21

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

QUANTITATIVE TECHNIQUES

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define decision variables.

2. Explain briefly about the simplex method.

3. What is North West Corner method?

4. Explain briefly about the optimal solution.

5. Define sequencing.

6. Briefly explain the usage of sequencing.

7. Explain CPM.

8. What do you mean by a network?

9. Briefly explain queuing models.

10. Define optimistic time with example.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) What is linear programming? What are its major assumptions and limitations?

Or

(b) Discuss and describe the role of linear programming in managerial decision making bringing out limitations if any.

12. (a) What is meant by unbalanced transportation problem? Explain the method for solving such a problem.

Or

(b) Explain how can one modify an effectiveness matrix in an assignment problem, if a particular assignment is prohibited.

13. (a) Discuss the role of statistical technique in PERT.

Or

(b) What are the basic assumptions underlying the 'expected time' estimate?

14. (a) Discuss in detail about the complex sequencing with example.

Or

(b) Discuss in detail about the sequencing of n jobs and 2 machines.

15. (a) Discuss the fields of application for queuing theory. Explain queue discipline and its various forms.

Or

(b) Explain in brief the main characteristics of the 'queuing system'.

Part C $(3 \times 10 = 30)$

Answer **all** questions.

16. (a) In a railway marshalling yard, goods trains arrive at a rate of 30 trains per day. Assuming that the inter arrival time follows an exponential distribution and the service time distribution is also exponential with an average of 36 minutes. Calculate :

(i) expected queue size (line length)

(ii) probability that the queue size exceeds 10, if the input of trains increases to an average of 33 per day, what will be the change in (i) and (ii)?

Or

(b) What is an infeasible solution, and how does it occur? How is this condition recognized in the graphical method?

17. (a) A computer centre has three expert programmers. The centre wants three application programmes to be developed the head of the computer centre, after carefully studying the programmes to be developed, estimates the computer time in minutes required by the experts for the application programmes as follows :

		Programmers		
		A	B	C
	1	120	100	80
Programmes	2	80	90	110
	3	110	140	120

Assign the programmers to the programmes in such a way that the total computer time is minimum.

Or

(b) Explain how an assignment problem can be solved by using the transportation approach.

18. (a) Use the graphical method to solve the following LP problem :

Maximize $Z = 3x_1 + 4x_2$

Subject to constraints :

$x_1 - x_2 = -1$

$-x_1 + x_2 \leq 0$

$x_1, x_2 \geq 0.$

Or

(b) Use two phase simplex method to solve the following LP problem :

Minimize $Z = x_1 + x_2$

Subject to the constraints :

$2x_1 + x_2 \geq 4$

$x_1 + 7x_2 \geq 7$

$x_1, x_2 \geq 0.$

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

HUMAN RESOURCE MANAGEMENT IN AVIATION INDUSTRY

(Upto 2015 Batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Distinguish Line and Staff functions. Give examples.

2. Define Strategic Human Resource Management.

3. Illustrate 'Job Analysis'.

4. List down the various sources of application forms.

5. Bring out the consequences of absence of training.

6. State the importance of career planning.

7. List down the financial incentives provided in aviation sector.

8. What are all the factors influencing the compensation in the aviation companies?

9. Enumerate the important trade unions in the aviation sector.

10. Highlight the functions of ground staff in an airlines company.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Describe the role and functions of HR managers with regard to suppliers and investors in Airline organization.

Or

(b) Explain the current trends in 'Human Resource Philosophy' in aviation industry with apt examples.

12. (a) Detail the steps involved in the recruitment process in an airline organization.

Or

(b) Explain the concept of 'employment forecasting' with its objectives and importance with apt illustrations.

13. (a) Write a note on the following focusing on the Aviation industry:

(i) Management Development Programme (MDP)

(ii) Special Purpose Training.

Or

(b) Elucidate the different types of promotions offered to employees in Aviation industry.

14. (a) Highlight the factors determining the CTC of pilots in an airline company.

Or

(b) Elaborate the Non statutory benefits provided to airline employees with special reference to India.

15. (a) Discuss the grievance handling measures available in Indian Aviation Industry.

Or

(b) Elaborate the procedures to be adopted in dismissing an employee from job with apt examples.

Part C $(3 \times 10 = 30)$

Answer **all** questions.

16. (a) Explain the role and responsibilities of Human Resource managers in the international. Airline Companies operating in India. Add suitable examples.

Or

(b) Enumerate the different interview methods employed for recruiting high level talent and professionals in Aviation sector with its merits and limitations.

17. (a) Distinguish on-the-job training and off-the-job training with apt dimensions Detail the different methods used under these training methods in aviation sector with apt examples.

Or

(b) Discuss the current trends in compensation of employee in Aviation sector in India with live examples.

18. (a) Give a detailed account on the Human Resource Management approach of British Airways with its distinctness and competitive strategy.

Or

(b) Enumerate the factors influencing on the finalization of outsourcing projects in an airlines company.

Airline and Airport Management

AIR CARRIER OPERATIONS

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is meant by Gratuitous private carrier?

2. What is meant by sterile cockpit rule?

3. Define rest period.

4. What is meant by WAT? Who prepares it?

5. Define clearway.

6. What is an observer seat?

7. Mention three types of maintenance manual storage retrieval system.

8. What is meant by certificated land airports?

9. What are the three copies of documents to be carried by a pilot-in-command of domestic flag carrier?

10. Expand the following:
    (a) LAHSO
    (b) GMT
    (c) CASE
    (d) CFR.

Part B

$(5 \times 5 = 25)$

Answer **all** questions.

11. (a) What is meant by operational control? Briefly explain.

Or

(b) Draw the diagram of an Airline organisational structure and briefly explain.

12. (a) What are the types of operating manuals? Briefly explain.

Or

(b) Briefly explain alternate airport weather minimum.

13. (a) What are the prohibitions concerning the use of alcohol beverage on board the aircraft?

Or

(b) Briefly explain the inoperable instruments and equipments.

14. (a) Write briefly about the flight dispatcher and his/her functions under part 121.

Or

(b) Briefly explain people express exemption 3585.

15. (a) What are the operating limitations? Briefly explain.

Or

(b) Write short note on flight attendants.

Part C

(3 × 10 = 30)

Answer **all** questions.

16. (a) What are the tests the FAA uses in determining if an individual or company is acting as a common carrier? Explain in detail.

Or

(b) Explain oxygen for medical use by passengers on board the aircraft.

17. (a) What are the duties of flight control and flight following explain?

Or

(b) What is meant by airplane security? Mention the contents of Airplane security programme.

18. (a) Explain the types of records and reports maintained by the air carrier under FAR 121 subpart V.

Or

(b) Explain the difference between despatch release document and flight release document.

AVIATION RULES AND REGULATIONS

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define the term 'Special flight/Ferry flight permit'.

2. What are the types of ICAO AME licences?

3. What is temporary certificate of registration?

4. What are the various categories of aircraft in which the certificate of airworthiness issued?

5. Write the applicability of Aircraft Act 1934.

6. What is the purpose of promulgation of Civil Aviation Requirements (CAR)?

7. Can refuelling of aircraft be carried out with passengers on board? If yes, under what conditions?

8. What do you understand by contamination of fuel?

9. What is aircraft accident? What is the aircraft rule under which the investigation of aircraft accident carried out?

10. What is aeromobile license? Who issues it?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Explain the content of section 8 of Aircraft Act 1934.

Or

(b) Explain the procedure for issue of mandatory modifications.

12. (a) Write briefly about "Accountable manager" of an approved aviation organisation.

Or

(b) Explain the categories of registration of civil aircraft.

13. (a) Explain the Indian short term certificate of airworthiness.

Or

(b) Explain the categories of aircraft maintenance engineer's licence.

14. (a) Explain the requirements for issue of Commercial Pilot Licence (CPL).

Or

(b) Written instructions are to be given by the aircraft operator to the refuelling company. What should they contain?

15. (a) Explain the crew composition of civil aviation aircraft.

Or

(b) What is exit row seating in passenger aircraft? List out the conditions for allotment of exit row seats.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain the procedure and requirements for renewal of certificate of airworthiness of civil aircraft.

Or

(b) Explain the requirements and procedure of approval of Indian organisation in civil aviation.

17. (a) Explain the classification of major defect and list out the defects specified in Group-I and Group-II defects.

Or

(b) Explain the requirements and procedure for issue and renewal of 'Approval of technical persons'.

18. (a) Explain the procedure for obtaining the aeromobile licence for the radio equipments and RTR licence for the operator of radio equipments used in civil aircraft.

Or

(b) Explain the air traffic units and the air traffic services provided by them in civil aviation.

Airline and Airport Management

AIRPORT MARKETING

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is the goal of airport enterprise?

2. What do you mean by Airport value chain?

3. What are primary and secondary hubs?

4. State the meaning of low cost airport.

5. What is meant by bench marking?

6. What are the uses of self service kiasks?

7. Mention any two SBUs in Airport marketing.

8. What is a chartered airport?

9. List out the commercial services of airport.

10. Who is a cherry picker in airport?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Explain the market positioning strategies adopted by airports.

Or

(b) Enumerate the major stakeholders of an airport and list out their subdivisions.

12. (a) Explain the features of low cost airports.

Or

(b) Enumerate the aviation and non-aviation revenues of airport.

13. (a) Explain the functions of passenger terminal and cargo terminal in airport.

Or

(b) Explain the role of primary actors in Airport value chain.

14. (a) Who are concessionaries in airport? Explain their functions.

Or

(b) Bring out the impact of September 11, 2001 event on airport business.

15. (a) What is catchment area of airport? Explain the role of airport in developing the catchment area.

Or

(b) 'Singapore airport is the best airport in the world' – Elucidate.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Enumerate the factors that determine the choice of airport.

Or

(b) Explain the role and benefits of Airport alliances.

17. (a) Describe the features of different types of airport alliances.

Or

(b) Explain point to point alliance and multipoint alliance.

18. (a) Discuss about the size of Airport marketing for any two aviation related business.

Or

(b) Analyse the strategies adopted by Airport to improve its market share.

AIRLINE FINANCE AND INSURANCE

(Upto 2015 Batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is meant by solvency ratio?

2. What are tangible assets of airlines?

3. What is the main objective of credit rating?

4. State the meaning of preference shares.

5. Distinguish between merger and acquisition.

6. What do you mean by wet leasing?

7. Define the term venture capital.

8. What is meant by operating lease?

9. What is the meaning of insurable interest?

10. State the meaning of subrogation.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) What are the uses of financial statements?

Or

(b) List out the items of income and expenditure of airlines.

12. (a) Enumerate the financial institutions involved in airline finance.

Or

(b) Explain the methods of valuing airlines tangible assets.

13. (a) What are the functions of rating agencies?

Or

(b) Enumerate the internal and external sources of airline finance.

14. (a) Why and how are airlines privatised?

Or

(b) What are the types of foreign exchange transactions?

15. (a) What is risk? How is risk managed?

Or

(b) List out the factors influencing pricing of aviation risk.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain the concepts of conventions in accounting.

Or

(b) What are the methods of assessing the company's financial soundness?

17. (a) Explain the methods of airline leasing.

Or

(b) Explain the principles of insurance.

18. (a) Explain the merits and demerits of aircraft leasing.

Or

(b) Explain the methods of securitising airline assets.

AIRPORT ENGINEERING

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is Greenfield airport?

2. What is holding Apron?

3. What is load classification number?

4. What is stopway and clearway?

5. What is DME?

6. What is obstruction lighting?

7. List out the aircraft parking configuration with neat sketch.

8. What is an X-ray unit? Why it is installed in airport?

9. What is Air route surveillance radar?

10. What are the objectives of air traffic control?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) List out the functions of directorate general of civil aviation.

Or

(b) Describe the airport layout with neat sketch.

12. (a) Explain runway marking and taxiway marking with neat diagram.

Or

(b) Write a brief note on holding apron and terminal apron.

13. (a) Differentiate between VFR and IFR.

Or

(b) Describe the importance of airport security system.

14. (a) List out the goods prohibited for carriage by air.

Or

(b) Write a short note on lounge area requirements.

15. (a) Explain the role of meteorology in aviation.

Or

(b) Describe the importance of communication in aviation industry.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Narrate about ICAO and its functions.

Or

(b) Explain Airport configuration with neat sketch.

17. (a) Explain flight plan and its content.

Or

(b) Explain visual approach slope indicator and precision approach path indicator.

18. (a) Narrate the essential features of air traffic services.

Or

(b) Write a brief description and use of VOR, DME, NDB, Marker Beacon and ILS.

COMPUTER APPLICATION IN BUSINESS

(Upto 2015 Batch)

Time : 3 Hours Maximum : 75 Marks

Answer TWO question choosen by the examiner through LOT system. Each question carries equal marks.

MS-Word

1. Create a document and to insert picture in right side and related information in left side using page layout option in MS-Word.
2. Create a list of five best friends. Create a thank you letter. Use mail merge feature of MS-Word to create a Thank you letter for each of your friends from the above two files.
3. Create a class time table using table option in MS-Word.

MS-Excel

4. Generate a salary statement of an employee.
5. A company records the details of total sales sector wise and month wise in the following format :

	January	February	March	April
Sector 1	–	–	–	–
Sector 2	–	–	–	–
Sector 3	–	–	–	–
–	–	–	–	–

(a) Enter the data in a worksheet and save it.

(b) Using appropriate formula, calculate the total sales in each sector

(c) Create a pie chart to show sales in Jan in all sectors.

6. Draw graphs to illustrate the class performance.

MS-Power point

7. Create a presentation on any topic with heading of topic using three slides. Give any suitable transition on every slide.

8. Design slides for the head lines news of a popular TV channel.

TALLY

9. Prepare a cash book with discount column of Shyam from the following transactions. Enter the following in Shyam cash book and show the balance.

2016

Mar	1	Balance of cash in hand Rs. 25,000
Mar	3	Rent paid Rs. 2,000
Mar	5	Purchase goods for cash Rs. 10,000
Mar	10	Stationery purchased for Rs. 2,500
Mar	12	Sold goods for cash Rs. 8,000
Mar	15	Cash received from Ram Rs. 980 and discount allowed Rs. 20
Mar	18	Cash paid to Shyam Rs.950 and discount received Rs. 50
Mar	25	Wages paid Rs. 2,000

10. Pass the journal entries of M/S Ram Traders post them to the ledger from the following transactions :

Date	Transactions	Rs.
2016		
April 1	Commenced business with cash	1,50,000
3	Purchased furniture	25,000
5	Goods purchased	30,000
15	Cash sales	40,000

Airline and Airport Management

AIRLINE MARKETING

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define airline Business.

2. What do you mean by fleet?

3. What is the use of distribution channel in airline industry?

4. Define CRM.

5. State the Objective of relationship marketing.

6. What is Open Skies Agreement?

7. Differentiate between dry lease and wet lease.

8. Define Marketing.

9. What is product mix?

10. Define uniform pricing.

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Distinguish between "Consumer Market" and "Industrial Market" in airline industry.

Or

(b) Explain the pricing policy of airline industry.

12. (a) Write a note on structure of air freight pricing.

Or

(b) Define "Product "with reference to Airline Industry and discuss Product Life Cycle

13. (a) Explain the Objectives and advantages of C.R.M.

Or

(b) Define Air Travel Market and its types.

14. (a) Explain Porter's 5 forces theory with reference to Airline Industry.

Or

(b) Explain the impact of technological factors on airline marketing.

15. (a) Explain the function of GDS.

Or

(b) Discuss the major benefits of brand image.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain the components of relationship marketing strategy.

Or

(b) Define distribution system and different distribution systems adopted by airline industry

17. (a) Explain how Political factors influence the macro environmental environment in airline industry

Or

(b) Discuss the future of Airline Marketing

18. (a) Write a detailed note on PESTE Analysis of Airline Industry.

Or

(b) Explain marking mix with reference to airline industry.

Airline and Airport Management

AVIATION AND AIRPORT SECURITY

(Upto 2015 Batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is Deregulation?

2. Define terrorism.

3. What are the responsibilities of cargo carrier in aviation industry?

4. What is the acronym NOPE in threat assessment?

5. Explain the concept of U.S. domestic terrorism.

6. Define Taggant.

7. What is an "Airport Locker"?

8. What are the expansion of ICAO and E.C.A.C? State their roles in aviation security.

9. What are the objectives of GORE commission?

10. What are the requirements of a known shipper?

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Write short notes on profile of a hijacker.

Or

(b) Briefly explain about Montreal – Bonn Agreement.

12. (a) Explain Hijacking convention.

Or

(b) Explain the causes of terrorism.

13. (a) Explain briefly about the hand-held body scanners.

Or

(b) Discuss about the ergonomics solutions at the airport.

14. (a) Explain the role of bomb sniffing dugs in airport security.

Or

(b) Briefly explain about known shipper and unknown shipper in aviation.

15. (a) Discuss BIOSIMMER in detail.

Or

(b) Briefly explain about Microwave Holograph Imaging.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Discuss central intelligence agency and defense intelligence agency.

Or

(b) Discuss Biometric security doors used in airports.

17. (a) Explain about Palestinian Liberation Organization.

Or

(b) Explain the Sayeret Mat'kal of Israel.

18. (a) What is a metal detector? Explain the procedure for selecting a metal detector.

Or

(b) What is access control? Explain the means of controlling access to the airport and aircraft.

HUMAN PERFORMANCE IN GENERAL AVIATION

(Upto 2015 Batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define General Aviation.

2. What is flight path predictor?

3. Explain LOFT.

4. Define "Instrument Rating".

5. What are the various attention forms?

6. Explain "working memory".

7. Define "Stress".

8. What is meant by "human factors"?

9. What are psychomotor skills?

10. What is "Circadic Rhythm"?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Explain "training transfer".

Or

(b) How are "Personal Minimums" set?

12. (a) Explain the primary reasons for attending safety seminars.

Or

(b) Explain what stress does to information processing.

13. (a) Explain "Reflective Journals".

Or

(b) Give an overview of GNSS Development.

14. (a) How does G.P.S. receiver design help the pilots?

Or

(b) Explain the innovative trends in G.A.

15. (a) Explain interface devices.

Or

(b) Explain the major causes of human error in G.A.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain what stress does to "Decision-Making".

Or

(b) Explain how to cope-up with stress.

17. (a) Explain the issues relating to implementation of human factors training in G.A.

Or

(b) Explain in detail P.B.L.

18. (a) Explain human factors principles.

Or

(b) Explain how the attitude and behaviour of pilots be attributed to G.A. incidents and accidents and what are the remedial approaches.

Airline and Airport Management

AIRLINE BUSINESS STRATEGIES

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What do you mean by 'industry dynamics'?

2. Define the term 'knowledge economy'.

3. State the meaning of market segmentation.

4. What is meant by customer relationship management?

5. Differentiate E– commerce from E–business.

6. Define 'mission and vision statements'.

7. What is meant by proration of air ticket?

8. Why do airlines form strategic alliance?

9. What are biometric technologies used in airline business?

10. State the meaning of integrated data base.

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) What are the objectives of operational planning?

Or

(b) How do airlines segment their markets?

12. (a) What are the challenges faced by airlines with regard to operations, customers and competition.

Or

(b) What are the key drivers of E–business?

13. (a) Describe the features of Airbus A380.

Or

(b) What are the features of fractional ownership of aircrafts?

14. (a) Explain the changing characteristics of cargo markets.

Or

(b) What are the advantages of integrated aircargo services?

15. (a) How can enabling technology improve customer service?

Or

(b) Explain the integrated data base system in airline business.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Discuss the factors to make customer relationship management successful.

Or

(b) Discuss the effects of E–business on customers, partners and airlines.

17. (a) Explain the strategies adopted by airlines in regional markets.

Or

(b) What are the threats and opportunities of implementing information management in aircargo market?

18. (a) List out the problems in assessing investment in technology. Why should airlines invest in emerging technology.

Or

(b) Briefly describe the business structures, process and philosophies adopted by airlines to make successful implementation of emerging technology.

STRATEGIC AIRPORT PLANNING

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define Airport charges and list the charges.

2. What is LCN?

3. Define delay and list types of delays.

4. What is Apron Layout?

5. What is route fragmentation?

6. Name the main uncertainities faced by an airport.

7. Who are the stakeholders in aviation industry?

8. Detail out planning principles.

9. Define gate and gate capacity.

10. List out the primary control surfaces of an aircraft.

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Draw a flowchart explaining strategic planning processes of an airport.

Or

(b) How do airports benefits National Economy?

12. (a) Explain the various factors that lead to market imperfection in airport.

Or

(b) Distinguish between general aviation and military aviation.

13. (a) Enumerate the various types of costs associated with airports.

Or

(b) Describe the process of managing capacity constraints of airports.

14. (a) Briefly explain the forecasting in a system planning context.

Or

(b) Discuss the various types of pollutions caused by the aviation industry.

15. (a) Describe how the competitive behaviour in airline industry affect the strategic planning.

Or

(b) Explain the institutional changes in the aviation sector.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Narrate the national planning concerns towards strategic airport planning.

Or

(b) Explain the challenges to traditional planning approach.

17. (a) Explain the development of airport planning process.

Or

(b) What yardsticks are adopted to establish financial performance of airports?

18. (a) Explain airport system design.

Or

(b) Describe the various steps involved in strategic system planning process of an airport.

AVIATION INFORMATION SYSTEM

(Upto 2015 Batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is meta data?

2. List out the benefits of human factors with EFB.

3. Mention the preferred optical qualities of cockpit display.

4. What is AFM?

5. What is onboard maintenance terminal system?

6. What are the various functions integrated with PAT?

7. What are the four P's consist in the operational information?

8. What are the different types of EFB hardware classes?

9. What is desktop publishing?

10. What are the benefits of certified avionics display?

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Describe the operating document development process.

Or

(b) Briefly explain the need for standard operational information interchange.

12. (a) Explain ATA system specification for use in flight operations.

Or

(b) What is structural data and why it is necessary?

13. (a) Explain the steps in the information conversion process.

Or

(b) What are the security recommendations to the future of aviation operational information?

14. (a) Narrate the benefits of structuring information.

Or

(b) Explain the ATA – TICC data interchange concepts.

15. (a) Briefly explain security considerations in electronic documents.

Or

(b) Explain the details of self assembling informations of the cockpit.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain the organising criteria and operational priorities of aviation information system.

Or

(b) Describe the future of aviation operational information.

17. (a) Explain electronic flight bag, its original plan, system design and various issues.

Or

(b) Explain the industry code considerations for the future of aviation operational information.

18. (a) Explain the information characteristics requirement in achieving structured information for the cockpit.

Or

(b) Explain ATA standard phases of flight with neat sketch.

LOGISTICS AND AIR CARGO MANAGEMENT

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Briefly explain about Customer value chain.

2. Enumerate the objectives of Logistics

3. What do you mean by Layout design?

4. Define Warehousing.

5. What is route planning?

6. What do you understand by Containerization?

7. What is E-Logistics?

8. What is Logistics resource Management?

9. Write a short note on Air cargo Traffic.

10. Briefly explain valuation charges?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Explain the Scope and functions of logistics.

Or

(b) Explain the role of logistics in company strategy.

12. (a) Discuss the principles of material storage System.

Or

(b) Explain the role of material handling.

13. (a) Write detailed note on freight management.

Or

(b) Explain the importance of Packaging.

14. (a) Explain in detail about Reverse Logistics.

Or

(b) Write short note on Strategic logistic Planning.

15. (a) Explain Valuation charges and Disbursements.

Or

(b) Explain about handling facility in airways.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain the logistics service phases and attributes in detail.

Or

(b) Discuss about different types of warehouse.

17. (a) Describe the Structure and operations of Logistics information system.

Or

(b) Discuss in detail about Global logistics, their operations and strategic issues.

18. (a) List out the different types of cargo.

Or

(b) Write a brief note on operations and industrial regulations with respect to Air cargo.

AVIATION MAINTENANCE MANAGEMENT

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is Reliability?

2. What is Functional Check?

3. What is meant by Redesign? And when it is done?

4. What is C.A.S.S?

5. What are the Engineering Functions?

6. What is Quality Assurance?

7. Define Line Maintenance.

8. Define “Ops Specs”.

9. Define Verification.

10. What is “Second Pair of Eyes” in maintenance.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Explain the functions of" Material Support" in Aviation Industry.

Or

(b) Briefly explain the functions and procedures of P.P and C.

12. (a) Explain the process oriented approaches in Airline Maintenance activities.

Or

(b) Explain the Management techniques in service interruptions

13. (a) What are Regulatory Documentation?

Or

(b) Explain Aircraft Certification.

14. (a) List out Line Station Activities.

Or

(b) What are the Basic Inspection Policies?

15. (a) Explain Oversight functions.

Or

(b) Explain various safety programs in airline maintenance.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain the Elements of a Reliability Program.

Or

(b) Describe the Responsibilities of M.C.C.

17. (a) Draw an organisational structure for a typical maintenance and engineering organisation.

Or

(b) Explain the goals and objectives of an airline maintenance program.

18. (a) Explain the Manufacturers various Documentation.

Or

(b) Explain with neat sketch the failure rate patterns.

STRATEGIC AIRLINE ALLIANCES

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Classify the three basic types of airlines.

2. Define an institution.

3. What is product objective?

4. What is brand image?

5. What is T.F.P?

6. Explain competitive strategies.

7. What is domino effect?

8. Explain A.S.A.

9. What is complexity logic?

10. Define F.F.P.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Explain the current airline alliance groups.

Or

(b) Explain the concept of R.D.P.

12. (a) What are the three methods of differentiating an airline product?

Or

(b) Discuss the turbulence in marketing channels.

13. (a) Explain operational performance.

Or

(b) Name the sources of financial benefits from alliances.

14. (a) What are the advantages of hierarchical structure?

Or

(b) What are the major reasons for alliance failures?

15. (a) Explain the future of airline alliances.

Or

(b) Explain the concept of stand alone capability.

Part C (3 × 10 = 30)

Answer any **three** questions.

16. (a) What are the different types of alliances between airlines?

Or

(b) Explain with a sketch the framework of international airline alliance dynamics.

17. (a) Summarize the basic strategic options for independent airline.

Or

(b) What are the benefits, challenges and cost of alliance brand association?

18. (a) Explain the key determinants of success for strategic airline alliance.

Or

(b) Explain with a neat sketch the framework for alliance performance assessment.

AVIATION MANAGEMENT STRATEGIES

(upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is the meaning of environmental scanning?

2. Who is a niche marketer?

3. What is meant by business cycle?

4. Define the term 'Bench marking'.

5. State the meaning of forward and backward integration.

6. Differentiate between joint venture and strategic alliance.

7. Define the term 'SBU'.

8. What is the need for turn around strategies?

9. What do you mean by quality circle?

10. What is meant by inbound logistics?

Part B

$(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Define vision and explain the steps in establishing vision.

Or

(b) How can you categorise competitive strategies according to miles and snow?

12. (a) What is core competency? Explain the process of recognising core competency in a firm.

Or

(b) Analyse the pros and cons of single vs multiple business strategy.

13. (a) Explain the steps for instituting total quality management.

Or

(b) Explain the various differentiation strategies adopted by corporates.

14. (a) What are the components of internal support system?

Or

(b) Describe the strategies adopted by corporates in declining markets.

15. (a) Explain Mckinsey's 7s frame work for strategy implementation.

Or

(b) Explain the process of corporate governance.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Discuss the primary and supporting activities in value chain analysis.

Or

(b) Explain the various types of growth strategies.

17. (a) What are the types of turn around strategies?

Or

(b) What are the elements of internal environment of business?

18. (a) Information system is the key to successful execution of strategy – Discuss.

Or

(b) Make a SWOT analysis of Air India.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

FUTURE AVIATION SYSTEMS

(Upto 2015 Batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is synthesis?

2. Write the types of cargo.

3. What is crew culture?

4. How the airports are classified based on the revenue generated?

5. What is FANS?

6. Difference between Long Haul flight and Short Haul flight.

7. Define Ergonomics.

8. What are the objectives of Air Traffic control?

9. What is meant by Free Flight?

10. List out the data needed for Air Traffic Managers.

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Explain Gate to Gate concept.

Or

(b) Explain the attitudes to security and need for designing the security.

12. (a) Describe the cultural factors in the cockpit.

Or

(b) Write about the FANS committee.

13. (a) Explain cockpit automation features and limitations.

Or

(b) Narrate the benefits of the future air traffic management system.

14. (a) Write a note on architecture of the interior design of an aircraft.

Or

(b) Explain the short comings and limitations of the conventional ATC system.

15. (a) Describe the four "R"s of leadership in Resource Management.

Or

(b) Explain the nature of Air Traffic Flow management.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Describe the role of Airports in the world and role of IT in aviation industry.

Or

(b) Explain cockpit display objectives and laws for cockpit instrument display design.

17. (a) Explain basic training issues in Air Traffic flow management.

Or

(b) Narrate Grid theory for understanding different behavioural styles for individuals.

18. (a) Describe the cognitive issues of TFM and assertion about traffic management skills.

Or

(b) Explain synthesis, toplevel synthesis and subsystem synthesis.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

AIR TRAFFIC CONTROL

(Upto 2015 batch)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is short term memory?

2. Define culture.

3. What is communication style?

4. What is post traumatic stress diorder?

5. Define Illusion.

6. Define stress and state its sources.

7. What is auditory perception?

8. What is meant by latent human factor?

9. What is Recognition?

10. What is meant by non-verbal communication?

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Explain the three main theories or models for describing human errors.

Or

(b) Briefly explain the reason model.

12. (a) Draw the structure of ear and briefly explain its functions.

Or

(b) What are the various sources of information which can be gathered from a single eye?

13. (a) Explain the various types of communication failure between the ATC and Pilot.

Or

(b) Explain the stages in development of team.

14. (a) Briefly explain circadian Rhythms.

Or

(b) Explain ADS and ADS-B.

15. (a) What is stress? What are the symptoms for indication of stress in A.T.C. environment?

Or

(b) What is shift work? Briefly explain the consequences of shift work.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) What is illusion? Explain the four kinds of illusion with diagram.

Or

(b) What are the controller-pilot communication failures?

17. (a) Explain verbal and non-verbal communication and draw a diagram on model of communication.

Or

(b) Describe the key variables which make up the controller's situation awareness.

18. (a) Explain the levels of behaviour in details and its impact on ATC.

Or

(b) What are the causes of stress? Explain the process of managing stress in A.T.C.
