First Semester

MANAGEMENT CONCEPTS

(Upto 2012–2013)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Define management and its functions in Industry.

2. Discuss the characteristics of a good planning.

3. Explain the different types of decision making.

4. Give brief notes on 'Decision Trees'.

5. Define matrix organization system in Indian context.

6. Differentiate monetary motivation techniques from non–monetary motivation techniques in an organisation.

7. Highlight the problems involves in the delegation of authority.

8. Define business process reengineering and its impact in Industry.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the contribution of Peter drucker to management thought.

10. Highlight the different type of approaches used in Decision making.

11. Discuss the different kinds of organisation and its advantages in Industry.

12. Define the steps in controlling process.

13. Discuss Maslow's theory of motivation and its applicability in Industry.

14. Highlight the different types of leadership styles and its suitability to the Indian context.

15. Explain the new trend of management and its perspectiveness.

ORGANISATIONAL BEHAVIOUR

(Upto 2012–13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the elements of organisational behaviour?
2. What are the determinants of personality?
3. What are the factors that affect group cohesiveness?
4. Draw and explain the communication process.
5. Differentiate autocratic leader from democratic leader.
6. What are the types of stress?
7. "Organisational culture is essential for satisfaction" – Explain.
8. Explain any four reasons why organisation opts to charge.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the models of organisational behaviour.

10. "Any relatively permanent change in behaviour as a result of experience in learning" – Discuss.

11. Explain the methods of reduce the barriers in communication.

12. Explain with an example the sources of power.

13. "Not appointing right man for the right job results in stress to that person and all"– Discuss.

14. Explain in detail the organisational design.

15. Explain OD interventions.

MANAGERIAL ECONOMICS

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain various economic theories.

2. Explain determinants of Demand.

3. Describe Demand forecasting Techniques.

4. Write a note on Cost Function.

5. Describe explicit and implicit costs.

6. Explain the governmental control over pricing.

7. Enumerate profit maximization and Break even Analysis.

8. Explain Inflation.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Give a note on Managerial economies and its theories.

10. Explain Types of Demand.

11. Explain Indifference Curves.

12. Describe pricing under Competitive market.

13. Describe short run production function.

14. Explain Economies of Scale.

15. Enumerate Business Cycle.

DECEMBER 2013.

First Semester

QUANTITATIVE METHODS

(Upto 2012 – 13)

Time : Three hours Maximum : 100 marks

PART A — ($5 \times 8 = 40$ marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What is a model?

2. What are the limitations of linear programming problem?

3. Explain Vogal's approximation method of solving a transportation problem.

4. Define the dual of a linear programming problem.

5. Describe the terms joint, conditional and marginal probabilities.

6. Explain 'expected value of perfect information' with examples.

7. Discuss Simulation and its application in decision making.

8. What do you mean by "relevant cost"?

PART B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Solve the following Linear Programming Problem

Minimize $Z = 50X_1 + 40X_2$,

Subject to $5X_1 + 10X_2 \leq 50$

$$8X_1 + 2X_2 \geq 16$$

$$X_1, X_2 \geq 0.$$

10. Find the optimum solution for the following transportation problem.

To	Sales office A	Sales office B	Sales office C	Sales office D	Availability
From					
Factory A	28	11	19	24	350
Factory B	10	18	14	10	300
Factory C	11	24	13	10	400
Requirement	250	225	275	300	1050

11. A food products company is contemplating the introduction of a new product with new package and replace the existing product at much higher price (S1), or a moderate change in the existing product with a new package and a small increase in price (S2) or a small change in the existing product and with a word new in the package and a negligible increase in price (S3). The three possible states of nature of events are :

(a) High increase in sales (N1)

(b) No change in sales (N2) and

(c) Decrease in sales (N3)

Marketing department of the company worked out the payoffs in terms of yearly net profits for each strategy of three events. This is represented in the following table:

	States of nature		
Strategies	N1	N2	N3
S1	700,000	300,000	150,000
S2	500,000	450,000	0
S3	300,000	300,000	300,000

Which strategy should the company choose on the basis of

(i) Maximin Criterion (Pessimistic)

(ii) Maximax Criterion (Optimistic)

(iii) Minimax Regret Criterion

(iv) Laplace Criterion (Equal likelihood).

12. New India Furniture Company has the following data available in the context of inventory for one of its items: Annual demand = 10,000 units; ordering cost per order = Rs. 20; rate of inventory carrying cost = 2%. Find;

(a) EOQ,

(b) Frequency of orders, and

(c) Total cost.

13. The chances that four students A, B, C, D solve a problem are 1/2, 1/3, 1/4 and 1/4 respectively. If all of them try to solve the problem independently, find the probability the problem is solved.

14. "Operations Research is an aid for the executive in making his decisions by providing him with the needed quantitative information, based on the scientific method analysis". Discuss.

15. Write short notes on :

    (a) Monte Carlo Simulation

    (b) Break even analysis

    (c) Sensitivity analysis.

FINANCIAL AND MANAGEMENT ACCOUNTING

(Upto 2012 – 2013)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Briefly explain the various accounting concepts.

2. What are all the errors occur while preparing the accounts?

3. Explain in detail the preparation of statement of affairs.

4. Discuss the objectives and major limitations of financial statement analysis.

5. Explain the significance and limitations of ratio analysis.

6. How does cash flow statement differ from fund flow statement?

7. What do you mean by budget and budgetary control? What are the main objectives of budgetary control?

8. Compare and contrast NPV and IRR method?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the scope and functions of accounting?

10. Explain Trading a/c, Profit and Loss a/c and Balance Sheet with a specimen.

11. How will you classify the accounting ratios?

12. Discuss the meaning and uses of comparative statement analysis, Common – size statement and Trend analysis.

13. Explain the managerial uses and limitations of fund flow statement and cash flow statement.

14. The budgeted expenses for the production of 10,000 units in a factory are given below:

	per unit (Rs)
Materials	70
Labour	25
Fixed Overheads	20
Direct variable Overhead	10
Selling expenses (15% fixed)	13
Distribution expenses (20% fixed)	7
Administrative expenses (Rs. 50,000)	5
	150

Prepare a budget for the production of 8,000 and 9,000 units.

15. A company has to select one of the following two projects:

		Project A	Project B
Cost		Rs. 11,000	Rs. 10,000
Cash inflows:	Year 1	6,000	1,000
	2	2,000	1,000
	3	1,000	2,000
	4	5,000	10,000

Using the internal rate of return method suggest which project is preferable.

BUSINESS ENVIRONMENT

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the economic forces affecting business environment?

2. Bring out the regulatory policies of Government towards business.

3. Explain licensing of Industrial Undertaking according to IDRA.

4. What is meant by inflation? Bring out the effects of Inflation on business.

5. What are the differences between money market and capital market?

6. Enumerate the role of banks in Indian Economy.

7. Explain in detail about the basic objectives of economic planning and development.

8. What were the reforms adopted by Government of India with regard to liberalisation and globalisation?

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Analyse the impact of technology on business.

10. What are the suggestions provided by you for strengthening trade union movement in India?

11. Briefly discuss about capital issue control norms issued by SEBI.

12. Analyse the various functions of Commercial Banks.

13. Explain in detail about the concept and growth of Deficit Financing in India.

14. Discuss in detail about the privatisation in India.

15. Explain the technique of SWOT analysis.

RESEARCH METHODS

Time : Three hours Maximum : 100 marks

SECTION A — ($5 \times 8 = 40$ marks)

Answer any FIVE questions.

All questions carry equal marks.

1. "Empirical research in India in particular creates so many problems for the researchers". State the problems that are usually faced by such researchers.

2. Discuss the techniques of defining a research problem.

3. Explain the meaning and significance of a research design.

4. What are the factors to be considered in selecting the size of the sample?

5. Distinguish between an experiment and survey.

6. What are the guiding considerations in the construction of questionnaire? Explain.

7. Why tabulation is considered essential in a research study?

8. Describe in brief, the layout of a research report.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Describe the different types of research.

10. Briefly describe the important parametric tests used in context of testing hypothesis. How such tests differ from non-parametric tests? Explain.

11. Explain and illustrate the procedure of selecting a random sample.

12. Enumerate the different methods of collecting data.

13. Write a brief note on different types of analysis of data.

14. Describe the different methods of scale construction. Pointing out the merits and demerits of each.

15. Explain the significance of research report and narrate the various steps involved in writing a report.

MANAGEMENT INFORMATION SYSTEM

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What is Data Flow Diagram? Explain with customer order processing system.

2. Define Data processing. Explain different processing modes.

3. What is a system? Explain types of system with suitable examples.

4. Discuss Intelligent Agents in Information Technology system.

5. Explain the following :

   (a) Batch processing applications.

   (b) Real time applications.

   (c) Decision making applications.

6. Describe communication channels.

7. Explain the Client/Server architecture of the network.

8. How consumers, organisation and suppliers get benefited through E-Commerce? Discuss with real examples.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. What is the need for system study? Discuss the substages of system investigation.

10. Why are information systems essential in business today? Compare and contrast computerised and manual MIS.

11. How information system supports for decision making process? And also explain its applications.

12. Elaborately discuss on Internet models.

13. Briefly explain the aspects of Enterprise Resource Planning.

14. What are the four main organisation forms used in web sites? Discuss.

15. With a neat sketch diagram, explain information technology tools.
