(Accredited with A+ Grade by NAAC (CGPA : 3.64) in the Third Cycle) &
Graded as Category-I University by MHRD-UGC)
Karaikudi

Date: 02.06.2018

Prof. Subbiah, Vice-Chancellor, Alagappa University, inaugurated the "Artificial Limb Production Unit" and "Braille & Audio Books Production Unit" under the Department of Special Education and Rehabilitation Science on 01.06.2018.

In the Department of Special Education and Rehabilitation Science, apart from Special Education courses, a separate innovative resource school for differently abled is effectively serving more than 74 differently-abled students. Educational services along with physiotherapy, occupational therapy and speech therapy services are provided to the students with different disabilities. Some students with motor problems are in need of splints, calipers and modified shoes. Realizing the need under the Department, Artificial Limb Production Unit was started. This unit will serve students with cerebral palsy and loco motor problems. Artificial Limbs, Braces, Shoes and other orthotics and prosthetic adaptive devices will be designed under this unit.

In the Braille and Audio Books Production Unit, the printed books will be scanned and converted as audio books using recent technological instant scanner and reader devices. The Braille Embosser will also be helpful for the students with visual disabilities to get braille printouts. The daisy players and recorders will also help the students to record and listen lectures.

Prof. H. Gurumallesh Prabu, Registrar, Dr. J. Sujathamalini, Associate Professor and Head and Dr. K. Gunasekaran, Assistant Professor were present on the occasion.

The Vice-Chancellor also inaugurated the SC/ST Teaching and Non-Teaching Welfare Association Building at the University Campus.

Also, the Vice-Chancellor inaugurated the Modular Kitchen with modern cooking equipments of worth Rs. Nine lakhs in the P.G. Men's Hostel. It helps to prepare hygienic food to the students staying in hostels. The newly installed cooking equipments highly efficient such as preparing 3000 idlies within an hour. Facilities are also available to chop vegetables and prepare chapathis and other food items.
