Alagappa Institute of Management
Alagappa University

ALAGAPPA UNIVERSITY

Alagappa University has sprouted from the galaxy of institutions founded by a great visionary and philanthropist Dr. RM. AlagappaChettiar with the mission of transforming the educationally backward district 'sivaganga' to attain modest education for the underprivileged and the unreached sections of the society under the Special Act of the Government of Tamil Nadu in May 1985. The University has been accredited with A+ Grade with CGPA of 3.64 by National Assessment and Accreditation Council (NAAC). Alagappa University embraces "Excellence in Action" as the motto in all the spheres such as; teaching, research and extension. It is located in karaikudi (A cultural heritage Town in Tamil Nadu state) which could be connected by roads and air from Madurai and Tiruchirapalli international airports.

The University has 44 Departments, 3 Constituent Colleges and 10 Centres of Development Studies offering over 198 Programs to foster research, development and dissemination of knowledge in various branches of learning. It also has 46 Affiliated Colleges located in Sivaganga and Ramanathapuram districts of Tamil Nadu. The University, is a member of the Association of Common Wealth Universities (ACU) and has Collaborations with Universities / Institutions of Higher Learning in countries like China, Malaysia, West Indies, U.S.A., UK, Australia and South Korea, to offer innovative and exchange programmes. The University has obtained Category-I status by the MHRD-UGC and holds 2nd place out of the 12 State Universities in the Country. It has secured 36th position among Universities in National Institutional Ranking Framework (NIRF) 2020 ranking. Adding to its glory, the University has reached global recognition with the coveted QS World Universities Ranking, 199th in Asia, and 24th in India.

ALAGAPPA INSTITUTE OF MANAGEMENT

In the year 1993, aiming at the contribution for nation's economic growth and prosperity through high quality business education, research and training that are relevant and useful to industry and economy, government and other institutions and to promote entrepreneurship Alagappa Institute of Management (AIM) was established.

AIM has received approval from University Grants Commission (UGC), New Delhi, and Tamil Nadu Government for its MBA programme. Besides MBA programme, it also offers M.Phil and Ph.Ddegrees in Management. The institute has been ranked and acclaimed as one among the top 100 'B' schools in India through various surveys conducted by agencies and magazines, from time to time.

AIM with fervour encourages its students to build up a great sense of solidarity tangled with vital skills and talents through the curriculum and innovative pedagogy. The pedagogy in AIM is highly interactive, inimitable and is commended by industrialists and academicians. Its uniqueness rests with the methods of urging the students to apt entrepreneurship as their way of life. It envisages substantial participation and applied learning process.

CONFERENCE THEME: SUSTAINABLE ENVIRONMENTAL MANAGEMENT

Sustainable environment has become a buzzword among all the sections of people in this world. Alongside, going green has become the universal mantra for everyone in this globe. Business can no longer be sustainable without embracing sustainable environmental practices. Accordingly, manufacturing and service organizations started adopting several strategies: such as green manufacturing, green packaging, use of sustainable resources and other sustainable environmental practices. The paradigm shift accelerated by the industry amounts to mammoth changes in the minds of individuals though they are responsible for augmenting sustainable environment. With this understanding sustainable environmental management emanates and the importance of sustainability lies in the "future" factors, which set a higher standard than those used to define business.

Sustainable environmental management remains a prime concern and objective of everyone because the existence of human beings will be continued only with the adoption of sustainable environmental practices. Sustainable environmental management can be practiced by means of producing green and eco-friendly products, sustainable agriculture, sustainable health and sanitation facilities, sustainable energy, sustainable construction etc., and others. Consequently, a core strategy has been adopted across the entire globe, such as; reduce, reuse and recycle as the triad.

CONFERENCE OBJECTIVES

The sweeping changes across the manufacturing and agricultural sector witness tectonic overtures to the changing demands and needs of the individuals attributed by social, cultural and demographic changes therefore, this conference would pool resources from Academicians and Industries and Research Centers to formulate and devise proposals in bringing out successful models and strategies to sustain the environment (Corporations: Industry, Agriculture).

To provide the researchers by unveiling and leveraging an area for study in developing new ideas and innovations in the pressing issues of environmental holocaust to initiate and prompt sustainable manufacturing (business) and agriculture that is socially, economically and environmentally viable by means of discussions and deliberations (Research/Academics).

Paving and insisting aspiring entrepreneurs by means of exploring the unexplored and less explored areas of sustainable; health, sanitation, energy, transportation, ecology, manufacturing and service sectors to inspire sustainable businesses with the notion to augment the society and economy at large (Society & Economy).
