MANAGEMENT CONCEPTS

(2012 – 2013 Academic Year and 2013 Calendar Year only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Why management is a science as well as an art?

2. What circumstances lead to making decision under uncertainty? Provide an example.

3. What are the differences between formal and informal organizations?

4. What are the techniques of direction?

5. Write notes on special control techniques.

6. What are the features and types of benchmarking?

7. What is the concept and relevance of core competence to management?

8. Enumerate the major stages of staffing process and the advantages of staffing process.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the elements of behavioural theory?

10. Briefly explain the different types of plans.

11. Explain the principles of effective delegation and the difficulties in delegation.

12. How will you define leadership as a process of influence? What are its various features?

13. Discuss the techniques of coordination.

14. Explain the different phases of BPR.

15. What is the role of creativity in decision making? Discuss its process and the way an individual can be made more creative.

ORGANIZATIONAL BEHAVIOUR

(2012-13 Academic Year and 2013 Calendar Year only)

(English medium only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Briefly explain the factors affecting attitude formation.

2. How groups and teams differ?

3. What are the sources of organizational power?

4. What are the sources of stress?

5. What are the requisites of a sound organizational culture?

6. How does a team-building intervention work? Why are these interventions so well linked by OD practitioners?

7. Discuss the determinants of personality.

8. What is Transactional Analysis? What are its implications to organizational behaviour?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the process of learning.

10. Explain the theories as to why and how groups are formed.

11. Discuss the determinants of organizational politics and its impact.

12. Discuss the various stages of conflict process.

13. Examine the various indicators of organizational effectiveness.

14. Why is change resisted in organizations? What can the management do to overcome?

15. Distinguish between constructive conflict and destructive conflict. Discuss strategies to encourage constructive conflict.

MANAGERIAL ECONOMICS

(2012-13 Academic Year and 2013 Calendar Year only)

(English Medium only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Briefly explain the five principles which are basic to the entire gamut of managerial economics.

2. What factors influence elasticity of supply?

3. Examine critically the Cobb-Douglas production function.

4. What do you think price discrimination-harmful or beneficial to society?

5. Critically examine the profit maximization doctrine.

6. Brief the current trend in balance of payments.

7. The long-run average cost curve is U-shaped. Does this mean that the economies of scale do not exist?

8. Highlight the net present value criteria of investment appraisal.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Identify the tools of decision making in managerial economics.

10. What are the advantages of Price elasticity of demand in decision making?

11. Describe the relationship between output and cost in the long run.

12. Differentiate between skimming price and penetration price policy. Which of these policies is relevant in pricing a new product under different competitive conditions in market?

13. Describe the methods of determining break even analysis.

14. Discuss the measures to check inflation.

15. Discuss briefly the various theories of profit.

First Semester

QUANTITATIVE METHODS

(2012-13 Academic Year and 2013 Calendar Year only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. The revenue function of a product in terms of its quantity of sales is given below. Find the marginal revenue expression and also estimate the marginal revenue when the quantity of sales is 100. $f(X) = 10X^3 + 20X^2 + 6X - 80$

2. How can the concept of duality be useful in managerial decision making?

3. What is the optimality criterion in the assignment problem?

4. What is poisson distribution? What are its characteristics?

5. Define a queue and explain the various queue disciplines.

6. Describe the concept of Minimax-Maxmini principle.

7. List and explain different decision environments.

8. How do you convert an unbalanced transportation problem into a balanced one?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. How far quantitative techniques can be applied in management decision making. Discuss with special reference to any functional area of management.

10. Solve the following LPP using the simplex method.

Max $Z = X_1 - X_2 + 3X_3$

Subject to $X_1 + X_2 + X_3 \leq 10$

$2X_1 - X_3 \leq 2$

$2X_1 - 2X_2 + 3X_3 \leq 0$

and $X_1, X_2 \geq 0$

11. Obtain the initial basic feasible solution to the following transportation problem using North West corner rule and VAM.

	D1	D2	D3	Supply
O1	2	7	4	5
O2	3	3	1	8
O3	4	4	7	7
O4	6	6	2	14
Demand	7	9	18	

12. A banker claims that the life of a regular saving account opened with his bank averages 18 months with a standard deviation of 6.45 months.

    Assuming normal distribution:

    (a) The probability that there will still be money in 22 months in a saving account opened with the said bank by a depositor.

    (b) What is the probability that the account will have been closed before 2 years?

13. (a) Define simulation. Why simulation used?

    (b) What are the advantages and limitations of simulation models?

14. A business man has two independent investment portfolios A and B, available to him, but be lacks the capital to undertake both of them simultaneously. He can either choose A first and then stop, or if A is not successful, then take B or vice versa. The probability of success of A is 0.6, while for B it is 0.4. Both investment schemes require an initial capital outlay of Rs. 10,000 and both return nothing if the venture proves to be unsuccesful. Successful completion of A will return Rs. 20,000 (over cost) and successful completion of B will return Rs. 24,000 (over cost). Draw a decision tree in order, to determine the best strategy.

15. Explain the following with examples

    (a) Expected Opportunity Loss

    (b) Expected value of perfect information

BUSINESS LAWS

(2012–13 Academic year and 2013 Calendar year only)

(English Medium only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the essentials of valid consideration?

2. Distinguish between a contract of guarantee and a contract of indemnity.

3. Make distinctions between common carrier and private carrier.

4. What are the privileges of 'holder in due course'?

5. What are the differences between life insurance and other forms of insurance?

6. What are the liabilities of partners to third parties?

7. What are the duties of Directors under the Companies Act, 1956?

8. What is 'caveat emptor' and what are the exceptions to it?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. State briefly the various modes in which a contract may be discharged.

10. Briefly explain the various modes by which an agency may be created.

11. Explain the rights of an unpaid seller.

12. What are the essential characteristic features of a negotiable instrument?

13. Discuss the law relating to 'insurable interest' in the case of life insurance.

14. Explain the procedure for registration of a partnership firm.

15. Discuss the modes of winding up of a company under the Companies Act, 1956.

FINANCIAL AND MANAGEMENT ACCOUNTING

(2012-13 Academic Year and 2013 Calendar Year only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are accounting standards? What are its need and importance?

2. What is financial statement analysis? Who are interested in this analysis?

3. Briefly describe the different 'internal' and 'external' sources and applications for cash.

4. Explain the meaning the methods of capital rationing.

5. Following items appear in the Balance Sheet of a Company as on 31st December 2010 :

Current Assets :	Rs.	
Stock-in-trade	1,00,000	
Bank Balance	50,000	
Sundry Debtors	2,50,000	
Advances	20,000	Rs. 4,20,000

Current Liabilities :

Sundry Creditors	1,75,000	
Advance received against orders	35,000	
		Rs. 2,10,000

(a) Calculate the current ratio.

(b) State whether each of the following transactions would affect the current ratio favourably or otherwise. Each transaction is to be treated independently.

(i) Paid Rs. 30,000 to a creditor

(ii) Received Rs. 20,000 from a customer

(iii) Paid cheque of Rs. 25,000 for the purchase of machinery.

6. Extracts from Balance Sheets :

	As on 30.6.2011	As on 30.6.2012
	Rs.	Rs.
Equity Share Capital	2,00,000	3,00,000
Share Premium A/c	20,000	30,000
9% Debentures	1,00,000	1,50,000

Additional information :

9% Debentures worth Rs. 30,000 were redeemed dining the year.

Prepare necessary accounts to find out sources/application of funds.

7. The Balance Sheets of X Ltd. As on 1.1.11 and 31.12.11 are given below :

Liabilities	1.1.11 Rs.	31.12.11 Rs.	Assets	1.1.11 Rs.	31.12.11 Rs.
Share Capital	1,25,000	1,53,000	Cash	10,000	47,000
Bank loan	40,000	50,000	Debtors	30,000	50,000
Loan from financial Institution	25,000	–	Stock	35,000	25,000
			Machinery	80,000	55,000
Creditors	40,000	44,000	Land	40,000	50,000
Profit and Loss A/c	1,00,000	1,20,000	Buildings	35,000	60,000
			Goodwill	1,00,000	80,000
	3,30,000	3,67,000		3,30,000	3,67,000

Prepare a Cash Flow Statement.

8. Calculate the pay-back periods of the following projects each requiring a cash outlay of Rs. 1,00,000. Suggest which projects are acceptable if the standard pay-back period is 5 years.

Year	Project A Rs.	Project B Rs.	Project C Rs.
1	30,000	30,000	10,000
2	30,000	40,000	20,000
3	30,000	20,000	30,000
4	30,000	10,000	40,000
5	30,000	5,000	–

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the nature and scope of management accounting.

10. Define capital budgeting. What is its importance? What are the different methods of capital appraisal?

11. Mr. Mano keeps his books of accounts under single entry system. His financial position on 31.12.2013 and 31.12.2014 was as follows :

Particulars:	2013 Rs.	2014 Rs.
Cash	9,860	800
Stock in trade	38,520	57,020
Plant and Machinery	54,420	61,000
Bills Receivable	–	16,480
Sundry Debtors	24,840	43,940
Sundry Creditors	72,040	80,000
Furniture	4,960	5,220
Drawings	–	5,000

During the year he introduced additional capital of Rs. 20,000.

From the above particulars prepare a statement of Profit and Loss of Mr. Mano for the year ended 31.12.2014.

12. Given the following information for ABC company at the end of 2006, determine balances for the income statement and the balance sheet.

Net sales	: Rs. 1,00,000
Debtors Turnover Ratio based on net sales	: 2
Inventory Turnover Ratio	: 0.8
Debts Assets Ratio	: 0.6
Net Profit Margin	: 5%
Gross Profit Margin	: 25%
Return on Investment	: 2%

13. Prepare a Fund Flow Statement from the following particulars :

Balance Sheet of X Co. Ltd.

	2011 Rs.	2010 Rs.
Assets		
Cash	36,000	60,000
Debtors	1,08,000	1,00,000
Stock	1,60,000	1,40,000
Investment (marketable temporary)	–	20,000
Fixed assets net	2,92,000	1,79,000
Goodwill	–	20,000
	5,96,000	5,19,000
Liabilities :		
Trade creditors	1,70,000	1,94,000
Accrued expenses	38,000	26,000
Mortgages	60,000	40,000
Share capital	2,60,000	2,00,000
Retained earnings	68,000	59,000
	5,96,000	5,19,000

Additional information:

(a) Depreciation provided during 2011 amounted to Rs. 27,000

(b) Dividends paid in 2011 amounted to Rs. 14,000

14. A large retail store makes 25% of its sales for cash and remainder on 30 days' terms. Due to faulty collection practice, there have been losses from bad debts to the extent of 1% of credit sales on an average in the past. The experience of the company tells that normally 60% of credit sales are collected in the month following the sale, 25% in the second following month and 14% in the third following month. Sales in the preceding three months of 2012 have been Jan. Rs. 80,000, Feb. Rs. 1,00,000 and March Rs. 1,40,000. Sales for the next three months are estimated as April, Rs. 1,50,000, May Rs. 1,10,000 and June Rs. 1,00,000.

    Prepare a schedule of the expected cash collections during the month April, May and June 2012 for the presentation to the Finance Dept. What will be the cash receipts if the credit policy is enforced strictly so that there are no overdue accounts and bad debts?

15. Modern Electronics Co. Ltd. are considering a purchase of an machine. Two machines A and B are available, each costing Rs. 50,000. In comparing the profitability of these machines a discount rate of 10% is to be used. Earnings after taxation are expected to be as follows :

Year	Machine A Cash Flow	Machine B Cash Flow
1	15,000	5,000
2	20,000	15,000
3	25,000	20,000
4	15,000	30,000
5	10,000	20,000

You are also given the following data :

PV of Re. @ 10% discount :	0.909	0.826	0.751	0.683	0.621
Year :	1	2	3	4	5

Evaluate the projects using : (a) the pay-back period, (b) the accounting rate of return, (c) the net present value and the profitability index at 10% discount factor.

BUSINESS ENVIRONMENT

(2012-13 Academic year and 2013 Calendar year only)

(English medium only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the need for the study of Business Environment.

2. Elaborate the interface between the government and the public sector.

3. What are the factors that attract and discourage FDIs in India?

4. Write notes on clean technology.

5. What is the need for clean energy and how does carbon footprint related to it?

6. Present some of the important arguments against privatization.

7. What are the measures adopted by the Government of India to improve balance of payments?

8. What are the drawbacks of pollution related acts?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the critical elements of politico-legal environment.

10. Discuss the impact of regulatory and promotional policy of the government on industrial performance.

11. Discuss the measures taken by the government to check inflation.

12. Describe the incentives and support mechanisms present in the current technology policy of the government.

13. What is the need for investors protection and what measures are currently available to facilitate entry of them into capital markets?

14. What are the functions of WTO in global economic development?

15. Examine in detail the salient features of the present export and import policy of our country.

RESEARCH METHODS

(2012-13 Academic Year and 2013 Calendar Year only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What is social research and what are its objectives?

2. What is research design and what are the features of a good research design?

3. What is sampling and non-sampling errors? What are the reasons for such errors?

4. What is Likert scale? What are the advantages and limitations of Likert scale?

5. A milk producers union wishes to test whether the preference pattern of consumers for its product is dependent on income levels. A random sample of 500 individuals gives the following data :

Income Level	Product preferred		
	Product A	Product B	Product C
Low	170	30	80
Medium	50	25	60
High	20	10	55

Can you conclude that the preference patterns are independent of income level?

6. Write notes on factor analysis method.

7. What are the various types of reports?

8. Narrate the characteristics of a good questionnaire.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What is exploratory research? What are the usual methods of conducting the same?

10. Briefly explain the steps involved in hypothesis testing.

11. Discuss the factors that are to be considered while selecting a sampling procedure.

12. Discuss the different interview methods by which data could be collected. Highlight the suitability of each method to specific need.

13. The following are the number of mistakes counted on pages randomly selected from reports typed by a company's two secretaries :

Male Secretary	15	20	5	6	8	10	12
Female Secretary	12	8	7	9	10	5	4

Use the Mann-Whitney U-test at 2 percent level significance to test the null hypothesis that the two secretaries average equal mistakes per page.

14. Explain the use and importance of tools of analysis of data.

15. Discuss the contents of a research report.

INTERNATIONAL BUSINESS

(2012-13 Academic Year and 2013 Calendar Year only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the forms of international business?

2. What is the procedure and documents required for availing credit insurance?

3. Why do companies go global?

4. What are the vital components of contracts during Technology Collaboration Agreements?

5. Write notes on countervailing duties.

6. What is World Intellectual Proper Organization (WIPO) and what are its functions?

7. What are the limitations to technology transfer to Indian firms by MNCs in spite of FDI?

8. Write notes on Foreign Portfolio Investment.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the reasons for the growth of international business.

10. Explain the requirements of commercial documents for export.

11. How does FDI helps in accelerating the rate of economic growth of the host country? What are the limitations of FDI?

12. Explain the critical stages of negotiating cross-cultural negotiating process during foreign collaborations.

13. What are the (a) aims and purpose, fundamental principles of ASEAN, (b) objectives of NAFTA, (c) basic principles of SAPTA.

14. Explain the role of IMF in promoting global business.

15. Briefly explain the procedural formalities involved in shipment of export cargo.

MANAGEMENT INFORMATION SYSTEM

(2012–13 Academic Year and 2013 Calendar Year only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Write a note to explain the evolution of MIS.

2. Make distinctions between Executive Information System and DSS.

3. What is WAN and its classifications?

4. What are the different levels of the organizational hierarchy? Which type of information systems are used at each level?

5. What are the advantages to small businesses in using a VAN? Explain it with an example.

6. Write notes on M-Commerce.

7. What is an integrated information system?

8. State advantages and limitation of computers.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What are the characteristics and basic requirements of MIS?

10. Discuss the role of Manufacturing Information System in support of computer-integrated manufacturing.

11. Explain the importance of Electronic communications system in modern business scenario, taking examples of your choice.

12. How does marketing information system contribute to management?

13. What are the main elements of EDI system? Explain the steps involved in EDI process.

14. Describe any three applications of internet and website management.

15. Briefly explain the technologies supporting convergence of networks.

Third Semester

FINANCIAL MANAGEMENT

(2012–2013 Academic Year and 2013 Calendar Year only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What do mean by Financial Management? Explain its basic aspects.

2. What are the objectives of Financial Management?

3. Explain the features, advantages and disadvantages of debentures as a source of long-term finance.

4. What are the approaches concerned with the working capital management?

5. What is leverage? Briefly explain the leverages used in financial management.

6. Dividend-Payers Ltd. has a stable income and stable dividend policy. The average annual dividend payout is Rs. 27 per share(face value = Rs. 100). You are required to find out (a) cost of equity capital, if market price in year 1 is Rs. 150. (b) expected market price in year 2. if cost of equity is expected to rise to 20% (c) dividend

payout required in year 2. if the company were to have an expected market price of Rs. 160 per share, at the existing cost of equity.

7. A company has an annual sales of Rs. 1 lakh with 60% contribution margin. The fixed operating costs are Rs. 30,000 and the interest on long-term debt is Rs. 10,000. Compute the combined leverage, and find its impact on residual income if sales increases by 5%.

8. Due to a considerable risk inherent in a project costing an initial cash outflow of Rs. 20,000 a firm decides to use certainty equivalents to evaluate the project. The certainty equivalents have been estimated to be 0.8, 0.7, 0.6, 0,5, 0.4 in a period of 5 years. The risk free rate of interest is 10%. The expected values of cash inflows are given below:

Years	Cash Inflows
1	Rs. 5,000
2	8,000
3	8,000
4	6,000
5	12,000

You are required to advise the firm whether its management should accept the project.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What factors are to be taken into account while determining working capital requirements?

10. What do you understand by Dividend Policy? What are the main determinants of dividend policy in a corporate enterprise?

11. What do you understand by Simple Capital Structure and Complex Capital Structure? Explain the Net Operating Income Theory of Capital Structure planning.

12. The capital structure of a company as on 31st March is as follows:

Equity capital: 6,00,000 equity shares of Rs. 100 each	Rs. 6.00 crores
Reserves and surplus	Rs. 1.20 crores
12% Debentures of Rs. 100 each	Rs. 1.80 crores

For the year ended 31st March, the company has paid equity dividend at 24%. Dividend is likely to grow by 5% every year. Market Price of Equity Share is Rs. 600 per share. Income tax rate applicable to the company is 30%. You required to (a) compute the current weighted average cost of capital(WACC), (b) the company has a plan to raise a further Rs. 3 crores by way of long-term loan at 18% interest. If the loan is raised, the Market Price of Equity Share is expected to fall to Rs. 500 per share. What will be the new WACC of the company?

13. Company X and Company Y are in the same risk class, and are identical in every fashion except that company X uses Debt while company Y does not. The levered firm has Rs. 9,00,000 debentures, carrying 10% rate of interest. Both the firms earn 20% before interest and taxes on their total assets of Rs. 15 lakhs. Assume perfect capital market, rational investors, and so on: a tax rate of 15% for an all equity company.

    (a) compute the value of firm X and Y using the Net Income(NI) approach,

    (b) also compute the value of each firms using the net operating income (NOI) approach.

14. A choice is to be made between two competing proposals which require an equal investment of Rs. 50,000 and are expected to generate net cash flows as under:

	Project I	Project II
End of year -1	25,000	10,000
End of year -2	15,000	12,000
End of year -3	10,000	18,000
End of year -4	Nil	25,000
End of year -1	12,000	8,000
End of year -6	6,000	4,000

The cost of capital of the company is 10%. The following are the present value factors at 10% per annum.

Years	1	2	3	4	5	6
PV of Re. 1 at 10% p.a.	0.909	0.826	0.751	0.683	0.621	0.564

Which project will you choose?

15. Calculate the degree of operating leverage degree of financial leverage and the degree of combined leverage for the following firms and interpret the results.

Particulars	P	Q	R
Output(units)	3,00,000	75,000	5,00,000
Fixed cost(Rs.)	3,50,000	7,00,000	75,000
Unit variable cost(Rs.)	1.00	7.50	0.10
Interest expenses(Rs.)	25,000	40,000	Nil
Unit selling price(Rs.)	3.00	25.00	0.50

PROJECT MANAGEMENT

(2012 – 13 Academic year and 2013 calendar year only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What do you mean by 'economic feasibility of project'?

2. How would you determine 'compatibility' of projects?

3. What are the objectives of technical appraisal?

4. What are the components of a project plan?

5. What is a 'Turn Key Contract'? When will it be suitable?

6. Total Quality Management has a major role to play in managing today's project" – Comment.

7. Explain the role of Government in project formulation.

8. What is the significance of financial analysis?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the role and responsibilities of a project manager.

10. Explain the process of project formulation. Provide an example.

11. Discuss the need to conduct social cost-benefit analysis.

12. Explain the steps involved in PERT planning process.

13. Discuss the methods and tools available for selection of contractors.

14. Describe the tools of project monitoring methods.

15. What are the precautionary measures to be followed to avoid failure of projects?

PRODUCTION AND OPERATIONS MANAGEMENT

(2012–13 Academic Year and 2013 Calendar Year only)

(English Medium Only)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Enumerate the functions of a Production Manager.

2. What are the objectives of facilities planning?

3. What are the aids to process planning?

4. State the factors responsible for good layout design.

5. What are the features of JIT?

6. Bring out the relationship between TQM and zero defect manufacturing.

7. What is the need for facility planning?

8. How do CAD/ CAM enable flexible manufacturing?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. (a) Distinguish between manufacturing operations and service operations.

   (b) What is mass production? What are its characteristics, advantages and limitations?

10. Discuss the capacity planning framework.

11. Briefly discuss the steps in method study.

12. Explain the production planning control functions.

13. Explain the salient features of Material Requirement Planning.

14. Explain various quality control charts and acceptance sampling technique.

15. A toy manufacturer uses 48,000 rubber wheels per year for a popular toy. The firm produces the wheel at the rate of 800 per day. Carrying cost is Rs. 1 and the setup cost for production run of the wheel is Rs. 45. The company operates 240 days in a year.

    Determine (a) optimum batch size, (b) cycle time and run time, and (c) minimum total annual cost of carrying and setup.
