M.B.A.(HRM) DEGREE EXAMINATION, MAY 2017.

First Semester

MANAGEMENT CONCEPTS

(Upto 2012 — 13 Academic year and 2013 calendar year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions

All questions carry equal marks.

1. Explain the nature and scope of management.

2. Elucidate the various steps involved in the process of planning.

3. Give the meaning of span of control. Discuss the factors governing span of control.

4. What is centralization of authority? What are its merits and demerits?

5. Discuss the Hertzberg hygiene factors and motivators theory.

6. Explain the Great Man Theory of leadership.

7. What are the special control techniques?

8. What do you know about strategic alliance? Explain its importance in modern context.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the contributions of Henry Fayol to Management thought.

10. Explain the decision making process in management.

11. Describe the concept and methods of departmentation.

12. Differentiate between delegation and decentralization of authority.

13. Elucidate the barriers of communication. How can such barriers be overcome?

14. Explain the importance and techniques of coordination.

15. What is meant by Total Quality Management(TQM). Explain its importance from Indian perspective.

DISTANCE EDUCATION

M.B.A. (HRM) DEGREE EXAMINATION, MAY 2017.

First Semester

ORGANISATIONAL BEHAVIOR

(Upto 2012 – 2013 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the basic elements of organizational behavior?

2. Write a note on global scenario of organizational behavior.

3. What is learning? Discuss the nature of learning.

4. Discuss the importance and process of organizational communication.

5. Explain the concept of power. Is power positive or negative?

6. What is stress? Discuss the factors causing stress.

7. What do you know about organizational climate? Explain its implications on organizational behavior.

8. What do you mean by planned organisational change? Give reasons for organisational change?

SECTION B — (4 × 15 = 60 marks)

Answer any **four** questions.

All questions carry equal marks.

9. Elaborately discuss the Autocratic, Custodial and Supportive Models of organizational behavior.

10. Explain the Maslow's Theory of motivation and its relevance in organizational behavior.

11. Elucidate the group behavior and its influence in the organizational behavior.

12. Explain the different styles of leadership in organisations.

13. Discuss the methods of managing stress in the organization.

14. Describe the meaning of organizational culture and its implications in the efficiency of the organization.

15. Discuss in detail about organizational development along with its interventions.

DISTANCE EDUCATION

M.B.A. (HRM) DEGREE EXAMINATION, MAY 2017.

First Semester

MANAGERIAL ECONOMICS

(Upto 2012 – 13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Point out the differences between managerial economics and economics.

2. What is demand function? What are its uses?

3. Explain the cost output relationship in the short run and long run.

4. Explain the managerial uses of production function.

5. What is monopoly? How to determine price under monopoly?

6. Discuss profit planning and control.

7. What are the methods of measuring national income?

8. Mention the features of a business cycle.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the nature and scope of managerial economics.

10. What is law of demand? Why does demand curve slope downward? State the exceptional demand curve.

11. Discuss the importance of economies of scale in decision making.

12. Explain the term price discrimination. How is price determined in a discriminating monopoly?

13. Contrast briefly the various theories of profit regarding their explanation of the source of profit.

14. Explain the significance of national income analysis in managerial economics.

15. What are the stages of Business Cycles? How to control business cycles?

DISTANCE EDUCATION

M.B.A. (H.R.M.) DEGREE EXAMINATION, MAY 2017.

First Semester

QUANTITATIVE METHODS

(Upto 2012–13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. (a) Discuss the steps involved in formulation of Linear Programming Problems.

   (b) Solve graphically;

   Minimize $Z = 6x_1 + 4x_2 \geq 60$

   Subject to $5x_1 + 4x_2 \geq 60$

   $3x_1 + 7x_2 \leq 84$

   $x_1 + 2x_2 \leq 18$

   $x_1, x_2 \geq 0$

2. A company is manufacturing two products x and y by using two types of raw materials A and B. The requirement of materials for producing one unit of each product is as follows:

Product	Material A	Material B
X	2 units	3 units
Y	4 units	2 units

At present, only 80 units of material A and 60 units of material B are available. If the profit for product x is the Rs. 60 per unit, and it is Rs. 50 per product y. What should be the product mix to earn maximum profit? Determine graphically as well as using the simplex method.

3. Define the following and indicate their significance to decision-making with linear programming and the simplex method.

   (a) Pivot Column

   (b) Pivot row

   (c) Degeneracy

   (d) Multiple optima.

4. (a) Write the key features of conditional probabilities.

   (b) A bag contains 30 balls numbered from 1 to 30. One ball is drawn at random. Find the probability that the number of the drawn will be a multiple of (i) 5 or 7, and (ii) 3 or 7.

5. (a) What are the types of decisions? Explain them in brief with suitable examples.

   (b) Consider the details of two competing alternatives as shown in the following table. The initial outlay of each of the alternatives is Rs. 50,000,000. The life of each alternative is 15 years. Find the best alternative when the interest rate is 0% using the expected value creation.

Alternative 1		Alternative 2	
Annual Revenue (Rs.)	Probability	Annual Revenue (Rs.)	Probability
12,00,000	0.25	22,00,000	0.20
19,00,000	0.45	24,00,000	0.45
28,00,000	0.30	32,00,000	0.35

6. A small retailer has studied the weekly receipts and payments over the past 200 weeks and has developed the following set of information;

Weekly Receipts	Probability	Weekly Payments	Probability
3000	0.20	4000	0.30
5000	0.30	6000	0.40
7000	0.40	8000	0.20
12000	0.10	10000	0.10

Using the following set of random numbers, simulate the weekly pattern of receipts and payments for the 12 weeks of the next quarter, assuming further that the beginning bank balance is Rs. 8,000. what is the estimated balance at the end of the 12 weekly period? What is the highest weekly balance during the quarter? What is the average weekly balance for the quarter?

Random Numbers:

For Receipts	03	91	38	55	17	46	32
For Payments	61	96	30	32	03	88	48
For Receipts	43	69	72	24	22		
For Payments	28	88	18	71	99		

7. Evening shift resident doctors in the 'B' Healthy Hospital work five consecutive days and have two consecutive days off. Their five days work can start on any day of the week and the schedule rotates indefinitely. The hospital requires the following minimum number of doctors working:

S	M	T	W	T	F	S
35	55	60	50	60	50	45

No more than 40 doctors can start their five working days on the same day. Formulate a general linear programming model to minimize the number of doctors employed by the hospital.

8. (a) What is investment analysis? Why is it of great significance to a firm?

(b) MNV Electronics is engaged in producing a certain component which is sold at a uniform price of Rs. 8 each. The variable cost of producing the component amounts to Rs. 4.80 per unit while the fixed costs amount to Rs. 24,000. How many units of the component must be produced and sold so that the company breaks even? How much sales would be made at this level of activity?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. The Marketing Department of Everest Company has collected information on the problem of advertising on the problem of advertising for its products. This relates to the advertising media available, the number of families expected to be reached with each alternative, cost per advertisement, the maximum availability of each medium and the expected exposure of each one (measured as the relative value of one advertisement in each of the media).

The information is as given here;

Advertising Media	No. of Families Expected to cover	Cost Per Ad (Rs)	Maximum Availability (No. of times)	Expected Exposure (Units)
TV (30 sec)	3000	8000	8	80
Radio (15 sec)	7000	3000	30	20
Sunday Edition of Daily (1/4 page)	5000	4000	4	50
Magazine (1 Page)	2000	3000	2	60

Other information and requirement:

(a) The advertising budget is Rs. 70,000/-

(b) At least 40,000 families should be covered. (The families receiving messages could be common. But a family receiving three messages, for example, would be taken to be equivalent to three).

(c) At least 2 insertions are given in Sunday edition of Daily but not more than 4 ads should be given on the TV.

Draft this as a Linear Programming Problem. The company's objective is to maximize the expected exposure.

10. (a) What is linear programming? What are its major merits and limitations?

(b) A company manufactures two products A and B. Product A yields contribution of Rs. 30 per unit and product B Rs. 40 per unit towards profits and fixed costs. It is estimated that the sales of product A for the coming month will not exceed 20. Sales of product B have not been estimated but the company does have a contract to supply at least 10 units to a regular customer.

Machine hours available for the coming month are 100 and products A and B require 4 hours and 2 hours respectively to produce one unit. Labour hours available are 180 and products A and B require 4 and 6 hours of labour respectively. Materials available are restricted to 40 units and the two products each use one unit of material per unit. Determine the optimal product mix.

11. A company has five warehouse and five stores. The warehouses have a total surplus of 430 units of a given commodity that is divided among them as follows;

Warehouse	W1	W2	W3	W4
Surplus	150	30	120	130

The five stores have, in all, a requirement of 450 units of the commodity, individual requirement are;

Store	S1	S2	S3	S4	S5
Requirement	80	60	20	210	80

Cost of shipping one unit from the warehouse to the store is displayed in the following table:

Warehouse	Store				
	S1	S2	S3	S4	S5
W1	9	12	10	10	6
W2	5	18	12	11	2
W3	10	M	7	3	20
W4	5	6	2	M	8

M in the table indicates that the route is not available.

How should the company arrange to transport the units so that the transportation cost is minimized?

12. A small retailer has studied the weekly receipts and payments over the past 200 weeks and has developed the following set of information:

Weekly Receipts	Probability	Weekly Payments	Probability
3000	0.20	4000	0.30
5000	0.30	6000	0.40
7000	0.40	8000	0.20
12000	0.10	10000	0.10

Using the following set of random numbers, simulate the weekly pattern of receipts and payments for the 12 weeks of the next quarter, assuming further that the beginning bank balance is Rs. 8000. What is the estimated balance at the end of the 12 weekly periods? What is the highest weekly balance during the quarter? What is the average weekly balance for the quarter?

13. The manager of a book store has to decide the number of copies of a particular tax law book to order. A book costs Rs. 60 and is sold for Rs. 80. Since some of the tax laws change year after year, any copies unsold while the edition is current must be sold for Rs. 30. From past records, the distribution of demand for this book has been obtained as follows;

Demand (No. of copies)	15	16	17	18	19	20	21	22
Proportion	0.05	0.08	0.20	0.45	0.10	0.07	0.03	0.02

14. (a) What are pay-off and regret functions? How can entries in a regret table be derived from a pay-off table?

(b) Explain the posterior analysis of decision-making. Define the expected value of sample information.

15. (a) Discuss the methods of finding initial feasible solution of a transportation problem and state the advantages, limitations and two areas of application for each of them.

(b) Give a schematic of solving a transportation problem.

DISTANCE EDUCATION

M.B.A. (H.R.M.) DEGREE EXAMINATION, MAY 2017.

First Semester

FINANCIAL AND MANAGEMENT ACCOUNTING

(Upto 2012–13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the current trends and developments in Accounting standards in the international forum.

2. Explain the steps involved in preparing the rectification of errors statement.

3. Compare and contrast Horizontal vs. Vertical analysis of financial statement analysis.

4. Enumerate the preparation of schedule of changes in the Fund flow Statement in detail.

5. Discuss the need and importance of budgetary control system.

6. Define Payback period method. List down its objectives and merits in detail.

7. What are the objectives of rectification errors? Highlight its applications in ensuring the accounting standards with examples.

8. From the following information of PQR Ltd. prepare a statement showing changes in working capital positions along with, funds flow statement :

Particulars	31st December	
	Previous Year	Current Year
Current Assets :	1,35,000	1,27,200
Investments	15,000	21,400
Land	9,000	9,000
Plant and Machinery	81,000	1,05,000
Accumulated depreciation	24,000	26,000
Patents	16,200	12,600
Total Asset	2,32,200	2,49,200
Current Liabilities :	24,600	34,800
12% Debentures	43,400	–
14% debentures	–	39,000
Equity share capital	90,000	1,00,000
Reserve for future lose on investments	6,000	3,600
Retained earnings	68,200	71,800
Total liabilities and capital	2,32,200	2,49,200

Additional Information :

(a) A reconciliation of the balances in retained earnings is as follows :

Beginning balance	:	Rs. 68,200
Net Income for current year	:	Rs. 3,000
Award received from settled of patent infringmenet cases	:	Rs. 15,600
Dividends	:	Rs. 15,000
Ending Balance		Rs. 71,800

(b) Net income of the current year includes a loss of Rs. 4,800/- on the sale of a part of plant. The plant was for Rs. 19,000/- at the beginning of the year, accumulated depreciation being Rs. 6,000/-.

(c) Investments of Rs. 15,000/- were sold during the year at a loss. The loss was charged to the reserve for future losses on investments and did not appear on the income statement.

(d) During the current year the 12% debentures were called for redemption. Most of them were refunded through the issuance of new 14% debentures and the rest were retired for cash.

(e) The equity shares were issued in exchange of machinery. The rest of the plant and machinery were purchased for cash.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. (a) Discuss the historical function and managerial functions of Accounting.

(b) Explain any three accounting convention of your choice in detail with its managerial scope.

10. The following is the Trial Balance of Chennai Limited as on 31st March. 2006. Prepare Profit & Loss Account and balance Sheet as on that date.

Trial balance on 31.03.2010

Debits	Rs.	Credits	Rs.
Land and Building	7,00,000	Share capital (20,000) ordinary share of	
Preliminary		Rs. 100, Rs. 50 paid up	10,00,000
Expenses	20,000	General reserve	1,50,000
Rent, Rates and		8% debentures	5,00,000
Insurance	14,000	Bank Loan (Unsecured)	20,000
Bank	1,20,000	Sundry Creditors	80,000
Salaries	40,000	Securities premium	50,000
Cash	10,000	Debenture redemption reserve	2,00,000
Printing and		Gross profit	5,20,000
Stationery	6,000	P and L A/c Balance	30,000
Closings stock on 31.03.2010	6,40,000		
Furniture and Fittings	40,000		
Trade investments	30,000		
Debenture Interest	20,000		
Advance payment of income tax	40,000		
Sundry debtors	3,50,000		
Directors fees	10,000		
Machinery	5,00,000		
Interest on bank loan	10,000		
	25,50,000		25,50,000

The following information is relevant for the preparation of final accounts :

(a) Outstanding expenses : Audit fees Rs. 10,000/-; Interest on debentures for six months Rs. 20,000/-; Provision for income tax Rs. 1,20,000/-

(b) Machinery worth of Rs. 2,00,000/- was purchased and installed on 1st October 2010. Provide depreciation on Land and Buildings @2.5% and on Machinery @10% per annum.

(c) Prepaid insurance Rs. 4,000/-

(d) Transfer Rs. 50,000/- to debenture redemption reserve and Rs. 20,000/ to general reserve.

(e) Write off 50% of preliminary expenses

(f) Directors propose 8% dividend on share capital

(g) Authorized capital consists of 50,000 equity shares of Rs. 100 each.

11. Following is the Profit and Loss Account and Balance Sheet ABC Ltd., You are require to redraft them for the purpose of financial analysis :

Profit and Loss Account

For the year ending 31st March, 2009

	Rs.		Rs.
Operating stock	5,00,000	Sales :	
Purchases	11,00,000	Cash : 3,00,000	
Wages	3,00,000	Credit : 17,00,000	20,00,000
Factory overheads	2,00,000	Closings tock	6,00,000
Gross profit	5,00,000		
	26,00,000		26,00,000

	Rs.		Rs.
Administrative expenses	75,000	Gross profit	5,00,000
Selling and distribution expenses	50,000	Dividend on investment	10,000
Interest on bank overdraft	20,000	Profit on sale of furniture	20,000
Depreciation on office equipments	60,000		
Loss on sale on motor car	5,000		
Net profit	3,20,000		
	5,30,000		5,30,000

Preference dividend (net interim)	15,000	Balance b/d	2,71,000
Provision for taxation	1,76,000	Net profit	3,20,000
Balanced c/d	4,00,000		
	5,91,000		5,91,000

Balance Sheet as on 31st March, 2009.

Liabilities	Rs.	Assets	Rs.
Equity share capital	10,00,000	Goodwill (at cost)	5,00,000
6% preference share capital	5,00,000	Plant and Machinery	6,00,000
General Reserve	1,00,000	Land and Building	7,00,000
Profit and Loss Account	4,00,000	Furniture and Fixtures	1,00,000
Provision for Taxation	1,76,000	Stock-in-trade	6,00,000
Bills payable	1,24,000	Bills receivable	30,000
Bank overdraft	1,20,000	Debtors	1,50,000
Creditors	4,80,000	Bank	2,20,000

12. (a) Discuss the need and managerial applications of Cash Flow Statement.

(b) Enumerate the challenges associated with the Cash Flow Statement preparation and its key limitations.

13. A company manufactures Product A and Product B. During the year ending 31st December 2012, it is expected to sell 15,000 kg. of Product A and 75,000 kg. of Product B at Rs. 30 and Rs. 16 kg respectively. The direct materials P, Q and R are mixed in the proportion of 3:5:2 in the manufacture of Product A. Materials Q and R are mixed in the proportion of 1:2 in the manufacture of Product B. The actual and bud et inventories for the ear are given below :

	Opening stock (kgs)	Expected closing stock (kgs)	Anticipated cost per kg (Rs.)
Material P	4,500	3,000	12
Material Q	3,000	6,000	10
Material R	30,000	9,000	8
Product A	3,000	1,500	–
Product B	4,000	4,500	–

Prepare the Production Budget and the Materials Budget showing the expenditure on purchase of materials for the year end 31st December, 2012.

14. A Company has developed the following discrete probability distribution of cash flows for a particular capital budgeting proposal :

Year 1		Year 2		Year 3	
Cash Flow	Prob.	Cash Flow	Prob.	Cash Flow	Prob.
100	0.10	300	0.20	500	0.10
200	0.20	400	0.40	600	0.30
300	0.30	500	0.30	700	0.30
400	0.40	600	0.10	1000	0.30

Assume that the probability distributions of the flows for different years are perfectly correlated over time; the initial cost of the project is 1,000; and the appropriate discount rate is 10%. Now determine

(a) The mean and standard deviation of the cash flows for each year.

(b) The expected NPV of the project.

(c) The probability that the project shall have an NPV greater than zero, assuming that the NPV distribution follows 'normal' pattern.

(d) The probability that the project would succeed, assuming that instead of being perfectly correlated, the successive flows are independent of each other.

(e) The EVPI for the project under the assumptions (i) perfectly correlated and (ii) independent cash flows.

15. (a) Write a detailed note on Capital rationing and their rationale.

(b) Highlight the managerial applications of DCF method in capital appraisal with apt examples

BUSINESS ENVIRONMENT

(Upto 2012–13 Academic year and 2013 Calendar year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Define the term 'Business environment'?

2. Analyse the economic forces influencing the business.

3. Explain the concept 'Laissez-faire'.

4. What are the objectives of planned management development?

5. What do you mean by 'concentration of economic power'?

6. What are the essential difference in the object of FERA and FEMA?

7. What is market socialism?

8. What is meant by economic planning?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Define and explain what is meant by 'co-operative' system.

10. Discuss how technological development effects social change quickly.

11. What is a development bank? What is the difference between a commercial bank and a development bank?

12. What are the methods of credit control?

13. State and analyse the industrial policy resolution of 1956.

14. Discuss the background of liberalization and globalisation policy in India.

15. Describe how the social and cultural environment affect the business.

RESEARCH METHODS

(Upto 2012-13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Distinguish between Research methods and Research methodology.

2. Describe fully the techniques of defining a research problem.

3. 'Research design in exploratory studies must be flexible but in descriptive studies, it must minimise bias and maximise reliability." Discuss

4. How would you differentiate between simple random sampling and complex random sampling designs? Explain clearly giving examples.

5. Distinguish between :

   (a) Systematic and stratified sampling;

   (b) Cluster and area sampling.

6. Explain and illustrate the procedure of selecting a random sample.

7. Discuss the relative merits and demerits of :

   (a) Rating vs. ranking scales.

   (b) Summated vs. Cumulative scales

8. Clearly explain the difference between collection of data through questionnaires and schedules.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What are the guiding considerations in the construction of questionnaire? Explain.

10. Discuss the meaning and importance of review of Literature in the research.

11. Write short notes on :

    (a) Pantry and store audits;

    (b) Thematic Apperception Test;

    (c) Holtzman Inkbolt Test

12. Why tabulation is considered essential in a research study? Narrate the characteristics of a good table.

13. State the reasons why sampling is used in the context of research studies.

14. Write a brief essay on statistical estimation.

15. What is Chi-square text? Explain its significance in statistical analysis.

MANAGEMENT INFORMATION SYSTEM

(Upto 2012-13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What is meant by MIS? How does it assists managers in their day-to-day functioning?

2. What is meant by system analysis? Discuss its main objectives.

3. What are the pre-requisites of an effective MIS?

4. Discuss the advantages and limitations of the computer system.

5. Describe the characteristics and components of decision support system.

6. Define computer network. What are the benefits of using computer network?

7. Explain electronic data interchange and its advantages.

8. Explain the E-commerce applications in various areas.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the various phases involved in system development.

10. Distinguish between conceptual design and detailed design. Which is more important?

11. What are the operating elements of an MIS?

12. Explain the various categories of management support system.

13. What is meant by network topology? Discuss the common network topologies.

14. What is ERP system? Discuss the concept and challenges of ERP.
