First Semester

MANAGEMENT CONCEPTS

(Upto 2012–13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the Contribution of Henri Fayol towards the development of an integrated theory of Management.

2. Distinguish between Operational planning Vs strategic planning.

3. Explain the various factors affecting Span of Management.

4. Critically evaluate Maslow's theory of motivation.

5. Write the various objectives of Special Control Techniques.

6. What is core competency and what purpose does it serve?

7. Write notes on Balanced Score Card.

8. "Policies are guide-posts for managerial action" – Explain.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Critically analyze the scientific theory of management.

10. Discuss decision making under different states of nature.

11. Define delegation of authority. Briefly discuss the principles of delegation What are barriers to effective delegation?

12. What are the various types of leadership styles?

13. Control and coordination are related but have different functions. Comment.

14. Write notes on :

    (a) Business Process engineering

    (b) Total Quality Management.

15. What are the different types of organization structure?

First Semester

ORGANISATIONAL BEHAVIOUR

(Upto 2012–13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the organizational and psychological factors that influence an individual's ability?

2. Why do people join groups? Cite at least three reasons.

3. What are the measures that can be adopted to limit the adverse effects of politics?

4. Differentiate between constructive and destructive conflict with suitable examples.

5. What are the factors that influence the organizational effectiveness?

6. What are the internal and external factors that influence change in an organization?

7. Explain the types of stress and its coping strategies.

8. What is organizational behaviour? State its key elements

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the concept of personality? How does it determine the behaviour of an individual?

10. Highlight the advantages of group dynamics and group decision making. How can group decision making be improved?

11. What is power? How is it different from authority? Explain the various bases of power.

12. What are the components of conflict process model?

13. Distinguish between organizational culture and organizational climate. What are the factors that influence organizational climate?

14. What do you mean by OD interventions? Describe the various OD interventions.

15. Why is change resisted in organizations? What can the management do to overcome?

First Semester

MANAGERIAL ECONOMICS

(Upto 2012-13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Briefly state the relationship between managerial economics and macro economics.

2. What are the types of demand?

3. What is production function? Explain the managerial uses of production function.

4. What do you understand by differential pricing? Explain the various types of geographical price differentials and discuss how they are determined.

5. What is profit Forecasting? Describe the approaches to profit forecasting.

6. Specify the managerial uses of national income analysis.

7. Discuss the various economies of scale. Do they result in monopolies?

8. Discuss why profit maximisation is not always the aim of a business firm.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. 'Managerial Economics' is prescriptive rather than descriptive in character. Examine this statement.

10. How do you get economies of scale? Explain the different types of economies of scale.

11. Explain the cost output relationship in the short run and in the long run.

12. Explain the pricing policies at various stages of product life cycle.

13. Explain the nature of capital budgeting problem in a business enterprise. What are the principal methods of ranking alternative investment proposals?

14. What are the causes of inflation? How can it be controlled?

15. Define National Income. Discuss the different methods of estimating National Income.

First Semester

FINANCIAL AND MANAGEMENT ACCOUNTING

(Upto 2012-13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the various accounting concepts.

2. What is the need for accounting standards?

3. What is a master budget? Explain its advantages.

4. Distinguish between funds flow statement and balance sheet.

5. What is Ratio Analysis and write a short note on its classifications?

6. Bring out the advantages and disadvantages of Pay-back period.

7. Write a short note on schedule of changes in working capital.

8. Compare and contrast NPV and IRR.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What do you mean by Financial Statements? What are its objectives? State the limitations of financial statements

10. Elucidate briefly the methods of analyzing capital expenditure proposal.

11. Explain the importance of Sales, Production, Material Purchase and Cash budgets in decision making.

12. From the following data forecast the cash position at the end of July to September 2011.

Month 2011	Sales Rs.	Purchases Rs.	Wages Rs.	Sales expenses Rs.
May	1,40,000	60,000	10,000	7,000
June	1,50,000	88,000	12,000	9,000
July	80,000	1,00,000	8,000	5,000
August	1,20,000	1,03,000	10,000	10,000
September	85,000	80,000	8,000	6,000

Further information :

Sales at 10% realized in the month of sales. Balance realized in subsequent month.

Purchase: Creditors are paid in the month following the month of supply.

Wages: 50% paid in arrears in the following month.

Sales expenses paid in the month itself.

Income tax Rs. 20,000 payable in July.

Cash balance on hand as on 1-7-2011 Rs.65,000.

13. One plant of a company is doing poorly and is being considered for replacement. Two mutually exclusive plants X and Y have been proposed. The plants are expected to cost Rs. 1,00,000 each and have an estimated life of 5 years and 4 years respectively and have no salvage value. The company's required rate of return is 12%. The anticipated cash flows after tax for the two plants are as follows:

Year	Plant X Rs.	Plant Y Rs.
1	30,000	40,000
2	30,000	40,000
3	25,000	60,000
4	25,000	15,000
5	55,000	-

Rank the proposals applying NPV and give your suggestion.

NPV factor: Year :	1	2	3	4	5
@ 12%	0.893	0.797	0.712	0.636	0.567

14. Sakshi Ltd. furnishes its balance sheet for the years 2008 and 2009, prepare a comparative balance sheet and calculate the following ratios:

(a) Current ratio,

(b) Quick ratio,

(c) Debt equity ratio.

Liabilities	2008 Rs.	2009 Rs.	Assets	2008 Rs.	2009 Rs.
Equity share capital	80,000	80,000	Land and building	80,000	74,000
8% Debentures	80,000	90,000	Plant and Machinery	60,000	54,000
Retailed earning	40,000	49,000	Furniture	20,000	28,000
Sundry creditors	50,000	70,000	Inventory	40,000	60,000
Bills payable	10,000	15,000	Debtors	40,000	80,000
			Cash	20,000	8,000
	2,60,000	3,04,000		2,60,000	3,04,000

15. Prepare Trading. Profit and Loss A/c and Balance sheet from the following Trial Balance of Mr.Balan.

Debit balances	Rs.	Credit balances	Rs.
Sundry debtors	92,000	Balan capital	70,000
Plant and Machinery	20,000	Interest received	2,600
Interest	430	Sales	2,50,000
Rent, Rates,		Sundry creditors	60,000
Tax and insurance	5,600	Bank overdraft	20,000
Wages	8,320		
Sales returns	5,400		
Purchases	1,50,000		
Opening stock	60,000		
Drawings	22,000		
Salaries	12,550		
Advertising	840		
Discount	600		
Bad Debts	800		
Business premises	12,000		
Furniture	10,000		
Cash in hand	2,060		
	4,02,600		4,02,600

Adjustments:

(a) Stock on hand 31.12.12 Rs.90.000.

(b) Provide depreciation on plant and machinery at 7.5% and furniture and fixtures at 10%.

M.B.A. (L.M.) DEGREE EXAMINATION, DECEMBER 2014.

First Semester

PRINCIPLES OF LOGISTICS MANAGEMENT

(Upto 2012-2013 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What do you understand by 'Logistics'? Give a representative list of logistics elements for a typical manufacturing firm.

2. Explain the interdependence of location decision and distribution decision in the context of supply chain relationship.

3. State what percentage of the retail price of a product you would attribute to transport on an average and highlight the importance of transport in Logistics.

4. Distinguish between 'Push Strategy' and 'Pull Strategy'.

5. Every organization move materials to support its operations. What do service companies like Internet service providers move? Is the concept of supply chain relevant to these companies? Comment.

6. Describe the modes of transportation available to a Distribution Manager.

7. Describe 'Manufacturing postponement'.

8. Elaborate your understanding about third party and fourth party Logistics. Give examples.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Describe how a company achieves strategic fit between its logistics and its competitive strategy.

10. How transportation selection decision can be taken in logistics management? Discuss the factors to be considered in the selection process.

11. What types of distribution networks are typically best suited for commodity items?

12. How can aggregate planning be used in logistics industry in an environment of high uncertainty?

13. Discuss the impact of globalization and its effect on logistics. Explain how companies could effectively gear up to the international order.

14. Is there any difference between a functional product and an innovative product? How these differences influence logistics and its performance?

15. Describe the reengineering procedure.

Second Semester

QUANTITATIVE METHODS

(Upto 2012 – 13 Academic Year and 2013 Calender Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What is the role and contributions of elasticity of demand to determine the functional relationship?

2. What are linear functions? Comment on the slope of linear functions.

3. Define the following :
   (a) Alternate optimum solution,
   (b) Unbounded solution,
   (c) Slack variable,
   (d) Criterion value.

4. What is duality? How is it useful?

5. Explain North West Corner rule with an illustration.

6. State Baye's theorem and illustrate its application with an example.

7. Briefly explain the types of queuing system.

8. Explain Mini Max and Maxi max criteria of Decision Making.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Suppose a manufacturer can sell x items per week at a price $P = 30 - 0.001x$ rupees each when it costs, $y = 4x + 1800$ rupees to produce x items. Determine the number of items he should produce per week for maximum profit.

10. Solve the following LPP using simplex method :

Maximize $Z = 2x + y$ subject to the constraints.

$4x + 3y \leq 12$

$4x + y \leq 8$

$4x - y \leq 8$

$x, y \geq 0$

11. Find the optimum solution to the following transportation problem. Use NWC rule method for initial basic solution.

	F_1	F_2	F_3	F_4	Available
P_1	8	10	7	6	50
P_2	12	9	4	7	40
P_3	9	11	10	8	30
Requirement	25	32	40	23	

12. Solve the following assignment problem.

		Men			
		A	B	C	D
	1	10	25	15	20
Job	2	15	30	5	15
	3	35	20	12	24
	4	17	25	24	30

13. The arrival rate of customers arriving at a petrol bunk follows Poisson distribution with a mean arrival rate of 10 per 15 minutes interval find the following :

    (a) The probability that no customer will arrive in a 15 minutes interval.

    (b) The probability that exactly 3 customers will arrive in a 15 minutes interval.

14. A tourist cab owner has 25 taxis in operation. He keeps three drivers as reserve to attend calls, in case the scheduled driver reports sick. The probability distribution of sick drivers is given below :

Number sick :	0	1	2	3	4	5
Probability :	0.20	0.25	0.20	0.15	0.12	0.08

Use Monte Carlo method to estimate the utilization of reserve drivers and the probability that at least one taxi will be off the road due to non availability of the driver.

15. What are the approaches to probability? Explain them with suitable examples.

Second Semester

BUSINESS ENVIRONMENT

(Upto 2012–13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the relationship between inflation and business.

2. Discuss the social responsibility of today's business.

3. Distinguish between monetary and fiscal policies in India.

4. Explain the need for environmental study.

5. Describe the need of foreign capital for economic growth.

6. Briefly describe India's policy on import of technology.

7. Discuss the interface between Government and Public sector.

8. Describe the functions of WTO.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. "The economic environment of business exercises a strong influence on the non-economic environment of business and vice versa". Briefly discuss citing specific interactions.

10. Explain the role of primary and secondary markets in mobilizing the savings of people and their various schemes.

11. Examine in detail the salient features of the present export and import policy of our country.

12. Briefly describe the banking system in India.

13. Industrial policies in India – Critically examine.

14. Explain the role of legal environment as a factor that envelops all the phases of business.

15. Explain the competitive strength and weaknesses of India to face global competition.

Second Semester

BUSINESS RESEARCH

(Upto 2012-2013 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Distinguish between experimental approach and case study approach to life.

2. What is a Research Design? Explain its meaning and significance.

3. What is a sample design? Discuss the points to be taken into consideration by a researcher in developing a sample design for his research project?

4. Discuss the general principles governing the framing of Questionnaire.

5. Distinguish between parametric and non parametric tests.

6. Why probability sampling is generally preferred in comparison to non-probability sampling? Explain the procedure of selecting a simple random sample.

7. State the importance of tabulation in business research.

8. What is t-test? When is it used and for what purposes?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the meaning, scope and objectives of research.

10. Discuss the various stages in the formulation of a Research Problem.

11. Explain different methods under non-probability sampling.

12. What are the various types of measurement scales? Discuss the merits and pitfalls of each one of them.

13. A total of 1,600 families were selected at random in a city to test the belief that high income families usually send their children to public schools and low income families often send their children to government schools. The following results were obtained:

Income	Public	Government	Total
Low	494	506	1000
High	162	438	600
Total	656	944	1600

Calculate the Chi-Square statistics and test whether income and type of schooling are independent @ 5% level of significance.

14. Processing of data implies editing, coding, classification and tabulation. Describe in brief these four operations.

15. Explain stages of report writing.

GLOBAL BUSINESS AND MNCs

(Upto 2012-13 Academic Year and 2013 Calender Year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the technology impact and environmental impact in international business.

2. What are the criteria used in defining a multinational company?

3. Explain the three main divisions of FDI theory.

4. Explain briefly the rediscounting program of EXIM.

5. Point out the Indian Joint Venture position abroad.

6. Discuss the trade related aspects of intellectual property rights.

7. What are the objectives of ASEAN?

8. What are the features of WTO?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What is technology transfer? How do host countries react to technology transfers?

10. What is the role and usages of a letter of credit in financing foreign trade? Also explain the process of LC operation.

11. Define duties. Discuss the different types of anti-dumping duties.

12. Describe the process involved in the settlement of International Commercial Disputes.

13. Discuss the strategic decisions from an organization's point of view to enter International Business.

14. Discuss the progress, problems and prospects of SAARC.

15. Discuss the functional role of World Bank.

MODERN LOGISTICS OPERATIONS

(Upto 2012 – 2013 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What is the significance of JIT in logistics operations?

2. What is a bonded warehouse? How does it serve the purpose in import logistics?

3. Who are the key players in international logistics operations?

4. Explain the operational features of trade fairs and event transportation.

5. What are the features of international supply chain management?

6. Explain briefly the value and benefits of the GSI system of standards of world-wide supply-chain.

7. Relate E-Kanban with E-logistics.

8. What do understand by warehouse simulation? What are the benefits of simulation?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Describe the role of logistics operations in production.

10. Discuss briefly the operational functions of export logistics.

11. What are the common logistical services offered by 3PL and 4PL?

12. Describe the special logistical services offered by 4PL.

13. How does demand forecasting logistics help in marketing functions?

14. Describe the role of logistics during different product life cycle stages.

15. Discuss the challenges that are met by automatic identification technology in logistics operations.

PACKING AND PACKAGING MANAGEMENT

(Upto 2012-13 Academic Year and 2013 Calender Year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the functions of packing?

2. Explain the visual communication conveyed by the symbols used on packages and labels, with suitable examples.

3. Explain the environmental considerations that have to be taken care of in packaging.

4. Write short notes on:

   (a) Rigid packaging,

   (b) Semi-rigid packaging,

   (c) Flexible packaging.

   Give examples.

5. What is value analysis and what is the purpose of value analysis?

6. Packing for inventory control demands innovation Comment with examples.

7. What are the packaging demands of consumer goods industry?

8. What are the labeling requirements of infant milk food container?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the various tests you would undertake to test packaging.

10. Write short notes any three of the following:

    (a) Shrink packaging

    (b) Child-resistant packaging

    (c) Pilfer-proof packaging

    (d) Active packaging.

11. Discuss the aspects which contribute to package design.

12. Discuss the advantages and disadvantages of using the following packing materials :

    (a) Corrugated cardboard,

    (b) Wood,

    (c) Plastic,

    (d) Metal.

13. Discuss the requirements of Indian packaging law to protect consumer in food packaging.

14. Write short notes on any four of the following with suitable examples:

    (a) Containerization

    (b) Radio frequency identification

    (c) Injection molding

    (d) Induction sealing

    (e) Bar code printer.

15. Discuss standard packaging solutions for large size, medium size and small size packaging, with suitable examples.

STRATEGIC LOGISTICS MANAGEMENT

(Upto 2012-13 Academic year and 2013 Calender year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. How does tactical logistics are different from strategic logistics?

2. Value added logistics services are bundled in categories – Explain.

3. What resources you would identify during internal appraisal? Explain.

4. What is bench marking logistics? What are its types and advantages?

5. What are stability strategies? When do logistic firms employ them?

6. What is strategy evaluation and control?

7. Explain the reasons for matching organization structure to strategy.

8. Explain the concept of synergy and its relevance to strategic logistics.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the strategic principles involved in outsourcing and what are the strategic advantages of outsourcing?

10. Show how different supply chains may adopt different and distinctive strategies for competing in the marketplace.

11. Briefly discuss the value chain framework relevant to strategic logistics.

12. Describe the different aspects of environmental scanning necessary for identifying opportunities and threats.

13. What are the risks and costs associated with strategic alliances?

14. What is resource allocation? What are the different methods of resource allocation and how is it done at different strategic levels?

15. Explain the relationship between leadership and corporate culture.

IT FOR LOGISTICS MANAGEMENT

(Upto 2012 – 2013 Academic year and 2013 Calendar year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are benefits of logistics automation using information technology?

2. What techniques would you use to identify top customers of your logistics firm?

3. What useful purpose does animation and graphics serve in logistics and what are its advantages?

4. Explain the following advertisement on the Internet :

   (a) Push-based advertising,

   (b) Pull-based advertising.

5. Write short notes on electronic ordering systems and value added networks.

6. Explain the logistical advantages of applying ERP system.

7. Explain E-Mail Security Protocols.

8. Describe the process of on-line marketing in logistics management.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss about the Extranet, Intranet and Internet relationship in logistic management.

10. Explain the useful information you would elicit from the charts focusing data analysis in logistics management.

11. How would you apply / use information technology in asset management of a logistics enterprise?

12. Discuss the salient features of any three models of E-Business.

13. Discuss some information technology based approaches that are well suited for in-bound and out-bound logistics.

14. Describe in detail about the various layers of EDI software.

15. Explain various types of e-payment systems.

BUSINESS LAWS

(Upto 2012–13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Define the term 'breach of contract' and the ways in which it occurs.

2. Distinguish between a contract of indemnity and a contract of guarantee.

3. What are the essential characteristics of sale of goods?

4. What are the rights and duties of a common carrier?

5. What are the characteristics features of a negotiable instrument?

6. Bring out the differences between life insurance and other forms of insurance.

7. Distinguish between :

   (a) partnership and joint hindu family business,

   (b) partnership and company.

8. What are the requisites of a valid meeting?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss any three ways in which a contract may be discharged.

10. Discuss the ways in which an agency can be created.

11. Explain various 'implied conditions' that the law incorporates into a contract of sale of goods.

12. What are the various ways in which one or more parties to a negotiable instrument is/ are discharged from liability?

13. What are the consequences of the dissolution of a parthership firm?

14. Explain the modes of winding up of a company under the Companies Act.

15. Analyze the following case, giving reasons :(5 marks each)

    (a) Ms. Sona, a popular Indian film actress was engaged to dance in a new year party at hotel ABC International and spend remaining time in other cultural activities for which she was to be paid Rs. 15 lakhs. For this event, ABC international had booked tickets worth Rs. 25 lakhs. Meanwhile, in the same city another company promised an amount of Rs. 35 lakhs on New Year to Ms. Sona which she immediately accepted the offer without revealing an acceptance of offer from ABC International. Three days before the event, Ms. Sona's acceptance of offer at another hotel in the same city was known to ABC International. Suggest the remedy to each of the above parties as per the Indian Contract Act.

(b) Amit is the payee of an order cheque. Babu steals the cheque and forges Amit's signature and endorses the cheque in his own favour. Babu then endorses it to Chandran who takes the same in good faith and for valuable consideration. Is Chandran a holder in due course?

(c) A minor falsely representing himself to be of age, enters into an agreement to sell his property to 'X' and receives from him as price a sum of Rs. 72,000 in advance. Out of this sum, the minor purchases a car for Rs. 60,000 and spends the rest on a pleasure trip. After the minor has attained majority, 'X' sues him for the conveyance of the property or in the alternative for the refund of Rs. 72,000 and damages. How would you decide?
