B.Sc. DEGREE EXAMINATION, NOVEMBER 2017

Nutrition and Dietetics

தமிழ்ச் செம்மொழியும் தமிழர்களின் பன்முகத் திறனும்

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

பகுதி அ (10 × 2 = 20)

எல்லா வினாக்களுக்கும் விடை தருக.

1. திராவிட மொழிக்குடும்பம் பற்றி குறிப்பு வரைக.

2. செம்மொழிக்கான தகுதிகளில் இரண்டினைத் தருக.

3. ‘இரட்டை ஆடை’ விவரிக்க.

4. ஆடை வேலைப்பாடு என்பதற்கு விளக்கம் தருக.

5. ஆடவர் அணியும் அணிகலன்கள் எவை?

6. ‘நவமணிகள்’ என்பதனை விளக்குக.

7. பழந்தமிழக இசைக்கருவிகள் பெயர் தருக.

8. அகழி சொல் விளக்கம் தருக.

9. தூதின் வகைகளை விளக்குக.

10. பழந்தமிழக வானியல் அறிவிற்கு ஒரு சான்று தருக.

பகுதி ஆ (5 × 5 = 25)

எல்லா வினாக்களுக்கும் விடை தருக.

11. (அ) தமிழின் தொன்மையை உரைக்க.

(அல்லது)

(ஆ) தமிழ்மொழி செம்மொழித் தகுதி பெற நடைபெற்ற முயற்சிகள் யாவை?

12. (அ) ஆடை வகைகளை விவரிக்க.

(அல்லது)

(ஆ) ஆடை வெளுத்தல் என்பதனை விளக்குக.

13. (அ) பெண்கள் அணியும் அணிகலன்கள் எவை?

(அல்லது)

(ஆ) 'கிண்கிணி' விளக்குக.

14. (அ) ஓவியக்கலையைத் தெளிவுபடுத்துக.

(அல்லது)

(ஆ) நடனக் கலையின் சிறப்பு உரைக்க.

15. (அ) பண்டமாற்று என்பதனைப் புலப்படுத்துக.

(அல்லது)

(ஆ) பழங்கால சோதிட அறிவிற்கு சான்றுடன் விளக்கம் தருக.

பகுதி இ (3 × 10 = 30)

எல்லா வினாக்களுக்கும் விடை தருக.

16. (அ) தமிழ்ச் செம்மொழி நூல்கள் பற்றி தெளிவுபடுத்துக.

(அல்லது)

(ஆ) 'ஆடை வேலைப்பாடு' என்பதனைப் புலப்படுத்துக.

17. (அ) 'ஆடைப்பண்பாடு' என்பதனை மதிப்பிடுக.

(அல்லது)

(ஆ) பழங்கால அணிவகைகளை விவரிக்க.

18. (அ) சிற்பக்கலையின் தோற்றம் வளர்ச்சி பற்றி எழுதுக.

(அல்லது)

(ஆ) பழங்காலப் பொருளாதாரம் குறித்து நீவிர் அறிவன யாவை?

B.Sc. (Nutrition and Dietetics) DEGREE

(Collaborative Programmes) EXAMINATION,

NOVEMBER 2017

First Semester

Part I – Arabic

BASIC GRAMMAR

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Mention the names of the three Arabic short vowels.

2. What is meant by السكون? Write any two Arabic words with السكون as a part in them.

3. Define Particle - "حرف" with any two examples for it.

4. Mention the two kinds of plural with an example for each.

5. Write any two examples for the relative pronouns.

6. Mention the two varieties of pronouns with an example for each.

7. Write any two examples for the interrogatives.

8. What are the two parts of nominal sentences?

9. What are the four Arabic letters, prefixed to the verbs of Imperfect tense?

10. Write any four months of Hijri year, known to you, in Arabic.

Part B (5 × 5 = 25)

Answer **all** questions

11. (a) Define "اسم" - (Noun) with examples.

Or

(b) Define "Definite article of Arabic" with examples.

12. (a) Define "The Dual" with examples.

Or

(b) Define "The sound plural feminine" with examples.

13. (a) Define "The verbal sentence" with examples.

Or

(b) Define "The prepositions" with examples.

14. (a) Write any five examples for the Imperfect tense verbs in Arabic with their English equivalents.

Or

(b) Define "The Intransitive verbs" with examples.

15. (a) Write the particles which make the Imperfect verbs into the Jussive mood.

Or

(b) Write the numbers one to ten in Arabic as cardinals.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) The changing shapes of the Arabic Alphabet.

Or

(b) The adjective and the noun qualified.

17. (a) The Nominal sentence.

Or

(b) The active and passive voices.

18. (a) The Past tense.

Or

(b) Kaana and its categories.

Nutrition and Dietetics

English — PROSE AND COMMUNICATION SKILLS

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is vocational education?

2. What is our greatest wealth?

3. Who was Stevenson? How much was the teacher paid?

4. What were the animal stories about?

5. How does Sarojini Naidu humbly describe herself?

6. We ———————— (dance) here next week

7. While the boys ———————— (play) chess, I went there.

   Find out the types of sentence.

8. How beautiful the flower is!

9. What are you writing?

10. Do not make noise.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) What are the essential ingredients of education according to Sir Richard Livingstone.

Or

(b) Substantiate Indira Gandhi's view that the youth are the backbone of India.

12. (a) What is the usefulness of forming habits?

Or

(b) How does the teacher try to repair the damage done and with what result?

13. (a) What books did Margaret Atwood enjoy reading?

Or

(b) What does Sarojini Naidu say about the vision of patriotism?

14. (a) Use the correct form of the verb :

(i) I was very tired, So I ———————— (go) to bed early.

(ii) Yesterday my father ———————— (come) from Delhi.

(iii) Birds ———————— (fly) in the sky.

(iv) Last week I ————————(meet) my friend.

(v) ———————— (jog) is a good exercise.

Or

(b) Identify the sentence pattern for the following sentences :

(i) She wrote a letter.
(ii) My mother brought me new clothes.
(iii) He broke the glass
(iv) We live in flats
(v) Gopal calls Raman a Scientist.

15. (a) Use appropriate articles in the following sentences :

(i) I am looking for ———————— job.
(ii) A dog is ———————— animal.
(iii) Would you like to be ————— English teacher?
(iv) ———————— earth goes round the sun.
(v) I often listen to ———————— radio.

Or

(b) Use appropriate prepositions in the following sentences :

(i) I was not good ———————— mathematics.
(ii) Ravi invited his friends ———————— lunch.
(iii) Many people escaped ———————— the tiger.
(iv) I feel Sorry ————————your difficulties.
(v) The bus arrived ———————— time.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) What are Livingstone's views on education?

Or

(b) Write the summary of the story "On the Power of Youth".

17. (a) What are Gardiner's views on desirability?

Or

(b) Show how the title "Crime and Punishment" is a satire?

18. (a) What is meant by "verb" and explain its varieties with examples.

Or

(b) Fill in the blanks with appropriate tense form :

(i) He ———————— (eat) an apple.

(ii) Ravi ———————— (complete) his work just now.

(iii) When ———————— (will) you visit Delhi next?

(iv) He ———————— (go) to Mumbai yesterday

(v) She ———————— (die) before her husband ———————— (come)

(vi) I ———————— (read) this book for six days.

(vii) ———————— (leave) this place by this time tomorrow.

(viii) I just ———————— (finish) my work.

(ix) Hema ———————— (join) in the craft class next week.

(x) All ———————— (shall) be present here by 10 am.

B.Sc. DEGREE EXAMINATION, NOVEMBER 2017

Nutrition and Dietetics

FOOD SCIENCE

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Balanced diet.

2. Hidden hunger

3. Dough

4. Fortification.

5. Enzymatic browning

6. Carotenoid

7. Pasteurization

8. Cheese

9. Winterization

10. Crystallization of honey.

Part B

$(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Write a note on importance of balanced diets.

Or

(b) Explain energy yielding and body building.

12. (a) Explain enrichment and fortification of flours.

Or

(b) Describe the factors affecting cooking quality of pulses.

13. (a) Explain the changes during cooking of vegetables.

Or

(b) Write about the changes during fruit ripening.

14. (a) Write about pasteurization of milk.

Or

(b) Explain post mortem changes in meat.

15. (a) Write an account on factors affecting crystallization.

Or

(b) Write brief notes on factors that lower smoking point.

Part C

(3 × 10 = 30)

Answer **all** questions.

16. (a) Describe energy yielding.

Or

(b) Explain the importance of enrichment and fortification of foods.

17. (a) Write in detail about fat and water soluble pigments.

Or

(b) Write an account on composition and nutritive value of fish.

18. (a) Describe the spices types and its applications as medicine.

Or

(b) Explain in detail about hydrogenation and winterization of oils.

B.Sc. DEGREE EXAMINATION, NOVEMBER 2017

Nutrition and Dietetics

FOOD MICROBIOLOGY

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Louis Pasteur.

2. Baker's yeast.

3. Broth culture.

4. Stationary phase culture.

5. Microbial contamination.

6. Food preservation.

7. Non perishable foods.

8. *Aspergillus flavus.*

9. Yoghurt.

10. Fermented food.

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Write short notes on morphology of bacteriophages.

Or

(b) Write a brief note on light microscopy.

12. (a) Explain briefly about microbial growth curve.

Or

(b) What is continuous culture? Explain.

13. (a) Write shot notes on spoilage of vegetables.

Or

(b) Write short notes on spoilage of fruits.

14. (a) Give a short account on spoilage of cereals caused by microbes.

Or

(b) Write short notes on sugar products.

15. (a) Write short notes on Sauerkraut.

Or

(b) Describe the preparation of hard and soft cheese by microbial action.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Give an account on morphology of bacteria and fungi.

Or

(b) Explain in detail about various extrinsic factors affecting microbial growth.

17. (a) Discuss in detail about any two microbial spoilage of milk and milk products, and add note on preservation of milk products.

Or

(b) Write an account on spoilage and preservation of sugar products.

18. (a) Elaborate about alcoholic beverages.

Or

(b) Write in detail about microbial biomass as human food.

B.Sc. DEGREE EXAMINATION, NOVEMBER 2017

Nutrition and Dietetics

FOOD CHEMISTRY

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Write the importance of functional foods.

2. Explain food poisoning caused by bacteria.

3. Name any three viruses associated with food poisoning.

4. What is known as enzymatic browning?

5. What are pasteurized eggs?

6. Name any two bacteria and two molds involved in spoilage of meat.

7. What are the factors affecting composition of milk?

8. What is the role of nitrite in curing of meat?

9. What is hydrogenation?

10. What causes the browning of foods?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Explain the important for determine the moisture content of food.

Or

(b) Write a short note on health foods.

12. (a) What is Non-Enzymatic browning reaction?

Or

(b) How can acids and alkalis denature enzymes?

13. (a) How are enzymes used in the home and hi industry?

Or

(b) What is the difference between starch and pregelatinized starch?

14. (a) Explain the various physiological changes in our bodies by fats.

Or

(b) What is hydrolytic rancidity? How do you prevent rancidity?

15. (a) Discuss in detail about enzymatic browning in fruits and vegetables.

Or

(b) Write an essay about properties and active principles of spices and condiments.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Describe in detail about "Basic Seven Food Groups" and justify the seven food groups suitability to our Indian condition.

Or

(b) Pulses are referred to "Poor man's meat." Comment on this statement with example.

17. (a) Write detailed an account on enzymes and their applications in the field of food industry.

Or

(b) Distinguish the nutritional properties of skimmed milk and whole milk.

18. (a) Briefly explain the structure of triglyceride and lactose.

Or

(b) Explain in detail the structure of meat and its nutritional significance.

FUNDAMENTALS OF BIOCHEMISTRY

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is hydrogen bond?

2. Define buffers.

3. What is meant by glycoproteins?

4. What is meant by lipoproteins?

5. What is the general structure of an amino acid?

6. Define proteins.

7. What are nucleotides?

8. Define transcription.

9. Define active site.

10. Name any two enzymes used in food industry.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Describe briefly about various biomolecules.

Or

(b) Justify water acts as universal solvent.

12. (a) What are biological roles of carbohydrates?

Or

(b) Give a short note on triglycerides.

13. (a) Write an account on peptides.

Or

(b) Explain briefly about the 1° structure of proteins.

14. (a) Write a short note on DNA.

Or

(b) What are types of RNA?

15. (a) What are characteristics of enzymes?

Or

(b) Describe briefly about Lineweaver-burk plot.

Part C $(3 \times 10 = 30)$

Answer **all** questions.

16. (a) Give an account on classification of carbohydrates.

Or

(b) Write a detailed note on functions and properties of lipids.

17. (a) Describe in detail about the properties of amino acids.

Or

(b) Give an account on protein classification.

18. (a) Discuss in detail about DNA and RNA.

Or

(b) Explain in detail about the various factors affecting the enzyme activity.

PRINCIPLES OF NUTRITION

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Carbohydrate

2. Dietary fibre

3. Essential fatty acids

4. Aminoacids

5. BMR

6. Energy

7. Micro minerals

8. Calcium

9. B vitamins

10. Ascorbic acid.

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) List the uses of RDA.

Or

(b) Write a Role of fibre in preventing diseases.

12. (a) Write an account on functions of protein and aminoacids.

Or

(b) Give an account on Evaluation of protein quality.

13. (a) Determination of energy value by direct calorimetry method.

Or

(b) Explain energy requirements for physical activity.

14. (a) Illustrate the classification and general functions of minerals.

Or

(b) Effect of imbalance of micro minerals.

15. (a) Write a note on classification and general functions of vitamins.

Or

(b) List the functions of water soluble vitamins.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Describe the general principles and importance of RDA.

Or

(b) Write in Nutritional classification, functions and sources of lipids.

17. (a) Describe energy requirement by factorial method.

Or

(b) Explain about the importance of minerals in diet.

18. (a) Describe the functions and deficiency of vitamin A, D, E and K.

Or

(b) Brief out the functions and deficiency of essential fatty acids.

Or

(b) How do you create public awareness among the people on environmental protection?

12. (a) How natural sources are exploited? Explain.

Or

(b) Write a note on growing energy needs and management.

13. (a) Give the structure and functions of forest ecosystem.

Or

(b) Give an account on hot spots of Biodiversity.

14. (a) Write the causes of air pollution and prevention.

Or

(b) Explain the disadvantages of nuclear hazards.

15. (a) Briefly explain about your visit made on different environments.

Or

(b) Explain about river ecosystem.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Give your valid suggestions for public awareness on environment.

Or

(b) Explain the benefits and problems of construction of Dam.

17. (a) Describe the renewable energy resources and their advantages.

Or

(b) Explain an individual role in conservation of natural resources.

18. (a) Discuss the different types of diversity.

Or

(b) Give an account on endangered species of India.

English – COMMUNICATIVE SKILLS

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is Communication?

2. What are the difference between one way and two way communication?

3. Give an example for prepositional phrases.

4. The lion was killed by the man. (Change into Active voice)

5. What is Homophones?

6. Mention any two examples on nouns often confused.

7. What are consonants?

8. What is called Falling Intonation?

9. What is scanning?

10. Where do we follow loud reading method?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) What are called Non-verbal Communication?

Or

(b) What are the ways of challenging the barriers of Communication?

12. (a) Write a short note Question Tags.

Or

(b) Explain Infinitive and Gerund.

13. (a) Fill in the blanks with suitable prepositions.

Nehru was called ———————— to say a few words ———————— the occasion ———————— the assassination ———————— Gandhi ————————. ———————— an utter sense ———————— shame, Nehru expressed his regret ———————— the failure our country ———————— give ———————— protection ———————— the life ———————— this great man, as well as that ———————— many an innocent man, woman and child.

Or

(b) Illustrate Articles.

14. (a) What is stress? What are the two types of stress? Explain.

Or

(b) How many consonants are there in English? Explain.

15. (a) Differentiate Loud Reading and Silent Reading.

Or

(b) Explain the mechanics of Handwriting.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Write an essay on types of Communication.

Or

(b) Answer the following as directed.

(i) Some students like to study in the mornings. (Change into compound sentence)

(ii) I tried to speak English, and my friend tried to speak English (Change into complex sentence)

(iii) Alex played foot ball, so Maria went shopping. (Change into simple sentence)

(iv) Since I have no milk, I'll go to the store. (change into compound sentence)

(v) I will go to the store since I have no milk. (change into simple sentence)

17. (a) Write an essay on Primary and Secondary stress.

Or

(b) Explain the importance of Reading.

18. (a) Define and explain (i) Loud Reading (ii) Silent Reading.

Or

(b) Explain SQ3R.

HUMAN PHYSIOLOGY

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define blood coagulation process.

2. What is systole and diastole?

3. Write the composition of saliva.

4. Define Peristalsis.

5. What is respiratory quotient?

6. Define cardiac cycle

7. What is Graves's disease?

8. Define parturition.

9. Differentiate between sympathic and para sympathic nervous system.

10. What is meant by reflex action?

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Briefly explain the structure and function of hemoglobin.

Or

(b) Explain the function of cardiac muscle and the role of ECG.

12. (a) Explain the process of digestion in mouth.

Or

(b) Write short notes on absorption of food.

13. (a) Describe in detail the mechanism of respiratory system.

Or

(b) Describe the mechanism of urine formation with neat diagram.

14. (a) Explain the structure and function of male reproductive system.

Or

(b) Discuss in detail the action of thyroid hormone.

15. (a) Discuss the function of autonomous nervous system.

Or

(b) Illustrate with neat diagram the structure of ear and its work pertaining to hearing function.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Discuss in detail the formation, types of White Blood Cells and their functions.

Or

(b) Give an account on digestion, absorption and assimilation of protein.

17. (a) Elaborate in detail the mechanism of gas exchange in lungs and transportation of gases in blood.

Or

(b) Discuss in detail the action of hormone secreted by the anterior lobe of pituitary gland.

18. (a) Elaborate in detail the transmission of nerve impulse along myelinated and non myelinated nerve fibers.

Or

(b) Describe in detail the structure of eye and mechanism of vision.

BASIC FOOD PROCESSING AND PRESERVATION

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is food spoilage?

2. What is fortified flour?

3. List out the different types of milk.

4. Give few examples of processed foods.

5. Define pasteurization.

6. Give the principle of freeze drying.

7. What are class II preservatives?

8. Define canning.

9. What are the types of fermentation?

10. Differentiate between drying and dehydration.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Discuss the importance of microorganism in food processing.

Or

(b) Explain how the intrinsic parameters of food influence the growth of microbes.

12. (a) Explain in detail the process involved in the manufacture of bread.

Or

(b) Give an outline on traditional method of processing sorghum.

13. (a) Describe in detail the steps involved in the production of skimmed milk powder.

Or

(b) Comment on activities of Lactic acid bacteria and its health promoting effects.

14. (a) Give a brief account on Pasteurization process.

Or

(b) Explain the principle and types of drying methods used for food preservation.

15. (a) Give an account on permitted food preservatives.

Or

(b) Describe the preparation of any one common fermented food.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Discuss in detail the traditional and modern methods of rice milling, its advantages and disadvantages.

Or

(b) Elaborate in detail the different food processing techniques and its effect on nutritional property Of food.

17. (a) Describe in detail production, classification of yogurt and its therapeutic value.

Or

(b) Write short notes on: (5 marks each)

(i) Sterilization process

(ii) Dehydration

18. (a) Elaborate in detail the steps involved in canning fruits and vegetable. Discuss the types of spoilage occurring in canned food.

Or

(b) Discuss in detail the principle and application of batch and continuous fermentation process.

First Semester

Nutrition and Dietetics

NUTRITION FOR HEALTH AND FITNESS

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define Balanced diet.

2. What is strokes volume?

3. What is meant by muscle hypertrophy?

4. Define carbohydrates.

5. What are micronutrients?

6. What is elliptical cycling?

7. Why does involvement in regular exercise delay the onset of fatigue?

8. What are the causes for obesity?

9. How does exercise help to reduce stress?

10. Define pulmonary rehabilitation.

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Briefly explain the role of macronutrients in healthy diet.

Or

(b) Explain in detail the effect of exercise on Skeleto-muscular system.

12. (a) Give an account on FAO based food pyramid for healthy lifestyle.

Or

(b) Enlist the sources of vitamin D and explain the role of vitamin D in human health.

13. (a) Explain the working principle of motorized Treadmill and its health benefits.

Or

(b) Briefly explain the role of functional trainer in body solid fitness.

14. (a) Discuss in detail how faulty diet causes anemia and its preventive measures.

Or

(b) Write short notes on non-communicable diseases.

15. (a) Explain the role of yoga in keeping the mind healthy.

Or

(b) Give the dietary recommendation for underweight person.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Discuss in detail the response of cardiovascular and pulmonary system to exercise.

Or

(b) Elaborate in detail the positive effects of exercise on endocrine system.

17. (a) Describe in detail the role Multi-gym in fitness for different muscle groups.

Or

(b) Discuss the impact of modern diet and sedentary life style on human health.

18. (a) Describe in detail the various clinical exercise and physical activities to prevent obesity.

Or

(b) Give an overview on the guidelines and benefits of pulmonary rehabilitation.

FOOD STANDARDS AND QUALITY CONTROL

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Distinguish between quality assurance and quality control.

2. What are food standards?

3. Classify preservatives.

4. Define flavor enhancers.

5. List the sources of contamination of water.

6. What does HACCP stands for?

7. What are aflatoxins?

8. Name the pathogen commonly found in cereals.

9. Define leavening agents.

10. What is Codex Alimentarius?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Explain in detail the principles of quality control in food industry.

Or

(b) Elaborate simple test to assess the quality of tinned food and baked products.

12. (a) Discuss in detail about food additives and its classification.

Or

(b) Write in detail about the preservatives used for the preservation of fruits and vegetables.

13. (a) Briefly explain the methods of sensory test to assess the quality of food.

Or

(b) List out the popular centers for sensory evaluation in India and explain their role.

14. (a) What kinds of toxin are present in wild mushrooms and what are the precautionary steps to avoid mushroom poisoning?

Or

(b) Give an account on tests used for detecting food contamination by organic and inorganic compounds.

15. (a) Bring out the significance of HACCP in food industry.

Or

(b) Write the importance of PFA in food industry.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Give an account on simple techniques used for quality checking of raw and preserved foods.

Or

(b) Explain in detail the specification for beverages, spices and condiments as quality control measures.

17. (a) Discuss in detail about the types of sensory tests, its requirement, procedure and defects in quality evaluation.

Or

(b) Elaborate in detail about sea food toxins, its symptoms, treatment and preventive measures.

18. (a) Describe in detail the types of food adulteration and measures to control adulteration.

Or

(b) Elaborate in detail about the role of various organizations involved in maintaining the food standards.
