First Semester

MANAGEMENT CONCEPTS

(Upto 2012-13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are the principles of scientific management?

2. What are the major differences between strategic and operational planning?

3. What are the benefits of informal organization?

4. What are the barriers to communication?

5. Do you subscribe to the view that only top management is responsible for exercising control function in the organization?

6. What is core competency and how does it value to an organization?

7. What is leadership? Why is there a need for leadership?

8. What is span of control? Examine its pros and cons.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Examine the different roles played by a manager of a typical business organization.

10. What are different types of decisions and explain their managerial implications.

11. Define delegation of authority. Briefly discuss the principles of delegation.

12. Critically examine Maslow's need priority theory. How far up the hierarchical ladder do most people progress?

13. Discuss the techniques of coordination.

14. What are the important features of Business Process Re-engineering? How does it benefit an organization?

15. Define departmentalization. Explain the various basis of departmentalization.

First Semester

ORGANISATIONAL BEHAVIOUR

(Upto 2012–13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What is OB? State the need and various approaches of organisational behaviour.

2. What is personality? What are the determinants of personality?

3. Explain the theories of group formation.

4. Discuss the importance of team building process and state various types of team.

5. Enumerate the sources of power.

6. Describe the causes of stress. How to overcome it?

7. Explain the significance of organisational culture.

8. What is organisational change? What are the causes of organisational change?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Discuss the various models of OB.

10. In what way do you find attitude relevant to understand OB? Explain the various dimensions of attitude.

11. What is group cohesiveness? Explain the factors that influence group cohesiveness.

12. Explain the various strategies used to resolve organisational conflict.

13. What is organisational politics? What are the factors that affect organisational politics?

14. Enumerate the various dimensions of organisational climate.

15. Discuss the major challenges to organisational development.

First Semester

MANAGERIAL ECONOMICS

(Upto 2012-13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Briefly illustrate the significance of Managerial Economics.

2. Do you feel that Indian economy is progressing well?

3. Given the PV Ratio as 25% and fixed cost as Rs. 10,000, what should be the sales to earn a profit of Rs. 20,000?

4. Differentiate between Perfect competition and Monopoly.

5. Explain the features of profits.

6. Briefly explain the phases of Business cycle.

7. Is India's Balance of Payments position at satisfactory level? How?

8. Why is the Average cost curve U shaped?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. The figures related to demand for a product at different prices are given as under :

Year	1	2	3	4	5
Demand (in units)	80	90	100	110	115
Price	25	23	21	20	19
Year	6	7	8	9	10
Demand (in units)	120	125	130	135	140
Price	18	17	16	15	14

You are required to calculate using Regression, the price to be aquoted by the company to achieve a demand of 150 units.

10. If you are starting a soap manufacturing business, how would you price your product?

11. ABC Ltd. is selling 20000 units of its product at Rs. 20 per unit, incurring a variable cost of Rs. 12 per unit and fixed cost of Rs. 80,000. The company proposes to double its present profits. What should be the quantum of sales needed to accomplish this objective?

12. Explain the different methods which can be used to forecast demand.

13. AXZ Ltd. is considering to invest in two machines, X or Y costing Rs. 50,000 and Rs. 90,000 respectively. The company's cost of capital is 8% and it is subject to a tax at the rate of 50%. Given the cash inflows from the two machines for their entire life, determine the NPV of the two machines and suitably advice the company management about investing in either of them.

Year	1	2	3	4	5
X	40,000	42,000	50,000	61,000	40,000
Y	80,000	98,000	87,000	73,000	40,000

14. Explain the causes for economies of scale.

15. Do you feel that India's LPG policy is serving the needs of all citizens?

First Semester

FINANCIAL AND MANAGEMENT ACCOUNTING

(upto 2012-13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What is financial accounting? Explain any four principles of financial accounting.

2. Distinguish between operating, financing and investing activities in cash flow statement. Enumerate the sources of cash.

3. Explain different categories of financial analysis?

4. 'Ratios are indicators-sometimes pointers but not in themselves powerful tools of management'. In the light of this statement, draw out the limitations of ratios.

5. Write a detailed note on 'Budget as a tool of planning'.

6. The below is the balance extracted from the book of Mr. Arjun :

	Rs.		Rs.
Capital	50,000	Sales	3,02,600
Bank overdraft	8,400	Return inwards	5,000
Furniture	5,200	Discount received	800
Buildings	40,000	Taxes paid	4.000
Creditors	26,600	General expenses	8,000
Opening stock	44,000	Salaries	18,000
Debtors	36,000	Commission paid	4,400
Rent received	2,000	Carriage inwards	3,600
Purchases	2,20,000		

Adjustments:

(a) Stock on hand on 31st Dec. was estimated at Rs.40,120,

(b) Write off depreciation on business buildings @10%.

Prepare final accounts for the year ended 31.12.2003

7. Prepare a Production budget from the following information:

Product	Estimated stock on 1.1.2000	Estimated sales	Desired stock on 31.12.2000
X	4000	40000	10000
Y	NIL	25000	NIL
Z	10000	30000	NIL

8. Following are the investment details of 3 Projects

Project	Investment	Cash In-flows	
		I year	II year
	Rs.	Rs.	Rs.
X	3000	6000	-
Y	3000	2000	4000
Z	3000	3000	3000

Calculate N.P.V. at 10% interest rate, the P.V. of Rs.1 for I year 0.909 and for II year is 0.826. Which Project is the best?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Distinguish 'Management Accounting' and 'Financial Accounting'. How does Management Accounting decision help in decision-making. Discuss the use of management accounting as a tool in

(a) decision-making and

(b) exercising control.

10. Discuss the methods used for evaluating and ranking investment proposals. Make a comparative study of the 'internal rate of return approach' with the 'present value approach' in choosing a capital expenditure project.

11. Mr. Raja started business on 1.4.2010 with a capital of Rs.50,000 and bought furniture for Rs.10,000. On 30.9.2010, he borrowed Rs.25,000 from his wife at 9%p.a. (Interest not yet paid) and introduced additional capital Rs.7,500. He withdrew Rs.1,500 per month from business for his household purposes. On 31.3.2011, his position was as follows.

Cash in hand	Rs.1,000
Cash at bank	Rs.13,000
Sundry Debtors	Rs.24,000
Stock	Rs.34,000
Bills Receivable	Rs.8,000
Sundry Creditors	Rs.2,500
Rent due	Rs.750

Furniture to be depreciated by 10%. Compute his profit for the year 2010-2011.

12. From the following Balance Sheet of M/s Madhu Enterprises Ltd. calculate:
    (a) Current Ratio,
    (b) Liquidity Ratio,
    (c) Debt-equity Ratio,
    (d) Fixed Assets Ratio.

Balance Sheet (as at 31st December 2006)

	Rs.		Rs.
Share capital :		Fixed assets :	
400, 6% preference		Goodwill	6,000
shares of Rs.15 each	6,000	Land and Buildings	8,000
1,000 equity shares		Machinery	16,000
of Rs.10 each	10,000	Current assets :	
General Reserve	1,000	Debtors	4,800
4% Debentures	14,000	Stock	2,000
Profit and Loss a/c	2,000	Cash	3,200
Creditors	3,600		
Bank overdraft	2,400		
Proposed dividend	1,000		
	40,000		40,000

13. Blue Star Ltd. presents to you the following balance sheets and profit and loss account

Blue Star Ltd

Balance Sheet as on 31-3-2000 and 31-3-2001

Liabilities	31.3.2000 Rs.	31.3.2001
Equity Share Capital	25,00,000	25,00,000
Profit and Loss account	20,75,000	23,65,000
14% Debentures	15,00,000	12,50,000
Sundry creditors	2,76,250	3,26,750
Expenses outstanding	54,500	68,500
Assets	**31.3.2000**	**31.3.2001 Rs.**
Fixed assets	40,00,000	40,50,000
Investments	6,25,000	2,50,000
Stock	10,33,250	12,67,750
Sundry debtors	4,00,000	4,50,000
Cash at bank	3,35,500	4,83,500
Goodwill	12,000	9,000
	64,05,750	65,10,250

You art required to prepare cash flow statement for the year ended 31st March 2001.

14. The following financial statement is summarized from the books of Armstrong Ltd., as at 31st March 1999:

Capital and Liabilities	31.03.99 (Rs.)	Property and Assets	31.03.99 (Rs.)
Paid up capital	15,00,000	Fixed assets	16,50,000
Reserves and surplus	6,00,000	Stock	9,10,000
10% Debentures	5,00,000	Debtors	12,40,000
Bank overdraft	2,00,000	Furniture	1,60,000
Creditors	12,00,000	Cash	40,000
Total	40,00,000	Total	40,00,000

Prepare a common-size balance-Sheet.

15. Amit company is considering a new project for which the investment data are as follows:

Capital outlay Rs.20,00,000, Depreciation 20%.

Forecast of annual income before charging depreciation is as follows :

Year 1	-	Rs.1,00,000
2	-	Rs.1,00,000
3	-	Rs.80,000
4	-	Rs.80,000
5	-	Rs.40,000

Compute the pay-back period and ARR.

First Semester

PRINCIPLES OF TECHNOLOGY MANAGEMENT

(Upto 2012–13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Demonstrate the contribution of technology to competitive advantage with an example.

2. How does 'planned obsolescence' serve as a tool to technology creation?

3. How does Analytic Hierarchy Process help decision making in technological choice?

4. What is the reason to prefer MOU as the transfer option?

5. Enumerate the advantages through new technologies.

6. State the differences between technology acquisition and technology absorption.

7. What are the features of System Dynamics methodology in technology forecasting?

8. What is the effect of innovation and technology creation on organizational performance?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Critically evaluate the features of current S & T policy of India.

10. Discuss any two methods of technology forecasting. Its applications and merits.

11. What is alternate technology? Explain the reasons opting for alternate technology.

12. What are key the provisions on transfer of technology in the WTO's TRIPS Agreement?

13. Examine tile institutional factors responsible for technology adoption.

14. Discuss the constraints or problems in imported technology that are experienced by Indian industry.

15. Explain the criteria on which you would conduct feasibility studies for a transport industry.

Second Semester

QUANTITATIVE METHODS

(Upto 2012-13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Explain the relationship between marginal cost and average cost.

2. An animal feed company must produce 200 kg of a mixture consisting of ingredients X_1 and X_2 daily. X_1 cost Rs. 3 per kg and X_2 Rs. 8 per kg. Not more than 80 kg of X_1 can be used, and at least 60 kg of X_2 must he used. Find how much of each ingredient should be used if the company wants to minimize cost.

3. Distinguish between 'balanced transportation problem' and 'unbalanced transportation problem'.

4. If three balls are drawn at random at a time from a bag containing six red and five white balls, then what is the change of getting all red balls?

5. What are the fields of applications for queuing?

6. Write down the steps involved in drawing a decision tree.

7. What is the role of sensitivity analysis in linear programming?

8. What are the limitations of linear programming?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Describe some of the important categories of mathematical models.

10. Use simplex method to solve the following LP problem.

Max. $Z = 4X_1 + 5X_2 + 8X_3$

Subject to :

$$X_1 + X_2 + X_3 \leq 100$$
$$3X_1 + 2X_2 + 4X_3 \leq 500$$
$$X_1, X_2, X_3 \geq 0.$$

11. For the transportation data given below. Find the initial feasible solution using (a) NCWM and (b) VAM methods.

	Warehouse, cost per unit in Rs.			
Plant	W_1	W_2	W_3	Availability
P_1	8	7	10	25
P_2	6	8	4	33
P_3	5	6	9	22
Requirement	26	30	24	80

12. There are three bags containing some balls as follows :

Bag (A) = 3 red and 7 black

Bag (B) = 6 red and 4 black

Bag (C) = 8 red and 2 black

A ball is drawn first from the Bag (A). Another ball is drawn from the bag (B), if the first one was red, or from the Bag (C) if the first one was black.

Find the probability that (a) the ball drawn from the Bag (A) was red, (b) the ball drawn from the Bag (B) was red, (c) the ball drawn from the Bag (C) was red, and that (d) two red balls were drawn.

13. What are the advantages and disadvantages of simulation?

14. A businessman has two alternatives open to him and each of which can he followed by any of the four possible events. The conditional payoffs for each action event combination are given below :

Actions	Payoffs conditional on events			
	A	B	C	D
S_1	8	0	–10	6
S_2	–4	12	18	–2
S_3	14	6	0	8

(a) If he adopts maximin criterion, what acts he should choose?

(b) If the criterion of choice is minimax regret, what action should be chosen?

15. Explain the types of decision making environments.

BUSINESS ENVIRONMENT

(Upto 2012-13 Academic Year and 2013 Calendar Year)

Time : 3 hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Illustrate with an example that the business environment is dynamic.

2. Does the government play competitive role in business? Comment.

3. What is fiscal deficit what are the reasons for fiscal deficit?

4. What are the features of clean technology'?

5. What is the need for law on patents?

6. What is the impact of privatization on public sector?

7. Does consumerism have any impact on Indian business environment?

8. What do you mean by 'reduction of carbon footprint'? What is the need for such reduction?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the impact of political environment of business.

10. What are the problems and prospects of SSI?

11. Brief the role played by central bank in operating monetary policy.

12. What are the salient features of current technology policy?

13. Critically examine the factors related to legal environment in promoting incorporation, conduct and closure of business.

14. Explain the role of World Bank in global economic development.

15. Explain the need for government intervention in business and the positive consequences of such interventions.

BUSINESS RESEARCH

(Upto 2012-13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain briefly the various types of research.

2. What are the significance of research in social science?

3. Describe the techniques of defining a research problem.

4. Define hypothesis. What are the various sources of hypothesis?

5. What is sample size? Explain the factors affecting the size of the sample.

6. Distinguish between questionnaire and an interview schedule.

7. Enumerate the process of data analysis.

8. What are the principles of good report writing?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the process of research.

10. Describe the factors affecting research design.

11. Enumerate the various methods of sampling.

12. Explain briefly the methods of data collection.

13. Write short note to the following :

    (a) F test

    (b) Chi-square test

    (c) Type I error and Type II error.

14. Describe the layout of a research report.

15. What are the features of a good report and explain the criteria for evaluating research reports?

(Upto 2012-13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What is contagion effect?

2. Describe the features of small Exporters policy.

3. Enumerate the factors that influence FDI.

4. Write short notes with an example on: Indian joint ventures abroad.

5. Describe the controversial provisions in the TRIPs.

6. What are the objectives and main features of WIPO?

7. Distinguish between tariff barriers and non—tariff barriers.

8. What is Foreign Portfolio investment and what are its routes?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain how would you classify international business?

10. Discuss the procedural custom formalities required during shipment of export Cargo.

11. Discuss the capital budgeting techniques with formalities required during shipment of export cargo.

12. Explain the process of negotiating foreign collaboration.

13. Briefly describe the procedure to settle dispute under WTO.

14. Describe the achievements of IMF.

15. Explain the organizational structure of MNCs.

(Upto 2012-13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What is the role of R&D in economic growth?

2. Distinguish between creativity and innovation.

3. What is dominant design? What does it predict?

4. Suggest tips to manage ambiguity.

5. What are not inventions?

6. Explain Innovation Efficiency Index.

7. What is business model innovation?

8. Enumerate tips to create a productive team culture.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Explain the essentials for innovation.

10. Explain the salient features of Michael Lee Scritchfield's 4P's of creativity.

11. Explain the basic premise of TRIZ/TIPS theory. What is its impact on organization?

12. Write a detailed note on the innovations noticed by you on any two top innovating firms of the world.

13. How will protect your website from imitators?

14. Discuss the strategies to be formulated to commit R & D as a corporate function.

15. Explain the Innovation models of John Besant and Joe Tidd.

(Upto 2012 – 13 Academic Year and 2013 Calendar Year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Enumerate the reasons for the superiority of flexible systems.

2. What is the role of IT in process re – engineering?

3. What are the principles of BPR?

4. Enumerate the reasons for re – engineering success.

5. What is the growing need for enterprise flexibility?

6. How to sell more services profitable?

7. Compare and contrast process versus structure.

8. Why is change management critical to the success of BPR implementation from the beginning?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the essential requirements of Re–engineering Team.

10. Explain the steps to improve your teams processes.

11. Discuss the steps to prepare for implementation of BPR.

12. Examine the pros and cons of BPR and Value Engineering.

13. Strategic flexibility is the key to growth – Discuss.

14. Discuss the flexibility options available in different types of M & A.

15. Tabulate the steps to process reengineering and its corresponding activities.

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain the significant of energy in India's scenario.

2. What are the various forms of energy?

3. Enumerate the different types of environment.

4. Evaluate Nano technology for energy efficiency.

5. Write a short note to the following:
   (a) Sunergy
   (b) Algae as energy material.

6. State the measures for responsible energy usage.

7. Briefly explain the environment protection act.

8. Explain the carbon nanotubes and nanofibers.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Enumerate the major resources of Energy.

10. Write short notes to the following

    (a) Global warming

    (b) Light-Emitting Diode (LED),

11. Explain the various nuclear methods and their risks.

12. Write an essay about the available green energy technologies.

13. Explain the energy security and energy technology.

14. Explain the manufacturing technology and product design to enhance energy quality and to reduce consumption.

15. Describe the energy consumption trend in India. What measures to be taken to optimisation?

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are digital convergence and its influence?

2. What is comparative genomics?

3. Write notes on : Graphic display techniques.

4. What is an automated highway system?

5. Describe a recent application of IT in railway ticket booking.

6. Write notes on: Cloud computing.

7. What is swarm intelligence? Give examples. Why is it interesting for IT?

8. What are cybernetics and systems science?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Discuss the various types of modern application software.

10. What is the role of bio-informatics in drug discovery?

11. Discuss the scope of IT enabled e-governance by government bodies taking an example of your choice.

12. What are the components of HMI devices? What are the features and benefits of HMI?

13. Explain the features of 'retail point of sale software' for small business.

14. What are artificial neural networks? What is its basic structure? Describe its areas of applications.

15. Which types of bioinformatics inventions are eligible for patent protect and commercialization?

MANUFACTURING, MAINTENANCE AND WASTE MANAGEMENT

(Upto 2012-13 Academic year and 2013 Calendar year)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Enumerate the functions of manufacturing management.

2. What are the problems with concurrent engineering?

3. What are the prerequisites for the implementation of autonomous maintenance?

4. What is the significance of failure statistics?

5. What is the concept of zero waste and how would it contribute to waste reduction?

6. What are the advantages of recovery and reuse of organic waste?

7. What is FMS and what are equipments required for FMS?

8. What are the aims to design-out maintenance?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. What is DFM and what are its principles for assemblies?

10. Explain group technology and cellular manufacturing with suitable examples.

11. Discuss the steps of preventive maintenance program. What are the advantages and limitations of preventive maintenance?

12. What are topics you would cover in a typical maintenance engineering training program? Describe any two types of training you would impart.

13. Describe the basic classifications of waste.

14. Discuss the methods of disposal of industrial waste.

15. Explain the activities involved in planning a program of plant shutdown and monitoring the same.
