RW–10098 **641702/643207/652702**

M.B.A. DEGREE EXAMINATION, APRIL 2015

Second Semester

Core Course — QUANTITATIVE METHODS

(Common for MBA (G)/MBA., IB & E – Com. & Logistic Management)

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What is a linear function? Give an example.

2. What is a binomial distribution?

3. What are the costs that are involved in inventory problems?

4. Distinguish between minima and maxima principles.

5. Distinguish between regression and correlation.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Solve the assignment problem :

		Job			
		P	Q	R	S
Machine	A	18	26	17	11
	B	13	28	14	26
	C	38	19	18	15
	D	19	26	24	10

Or

(b) Solve the following Simplex problem :

Maximize $5x_1 + 6x_2 + 7x_3$

Subject to $3x_1 + x_2 + x_3 \geq 1{,}200$

$x_1 + 3x_2 + x_3 \geq 1{,}500$

$x_1, x_2 \geq 0.$

7. (a) The probability that a machine produces a defective item is 0.3. If a sample of 5 items produced by the machine are selected at random, what is the probability that there is exactly two defective items?

Or

(b) List and explain the approaches to probability.

8. (a) Discuss the use of simulation in queueing system with an example.

Or

(b) Suppose a bakery keeps record of the sale of a number of cakes of a certain type. Information relating to 200 days sales is :

Demand (no. of cakes) :	5	6	7	8	9	10	11	12	Total
No. of days :	4	10	16	50	62	38	12	8	200

Simulate for the demand for the next 10 days and find the average demand per day. Use the following random numbers for simulation : 61, 74, 24, 03, 59, 16, 84, 92, 52 and 07.

9. (a) Consider the following data on daily net profit. Find the best order size based on the savage minmax regret criterion.

		Demand (D_i)				
		50	100	150	200	250
	75	950	1200	575	–675	–1425
Order Size Q_i	150	50	700	2000	2250	1600
	225	–850	850	2550	3550	4525
	300	–1800	600	1800	2000	5000

Or

(b) Elucidate the concept of 'decision-tree'. What are its uses in decision making process?

10. (a) The production function of a production is $5x^2 - 2000x + 3200$ where x is the number of units produced. Find the optimal production quantity which will minimize the cost of production.

Or

(b) Obtain the equations of the two lines of regression for the following data.

X:	1	2	3	4	5	6	7	8	9
Y:	9	8	10	12	11	13	14	16	15

Part C (1 × 10 = 10)

Compulsory

11. Solve the following transportation problem and check its optimality.

		Destination			
		$D1$	$D2$	$D3$	Supply
Source	$S1$	2	7	4	5
	$S2$	3	3	7	8
	$S3$	5	4	1	7
	$S4$	1	6	2	14
	Demand	7	9	18	34

RW–10199 **811101**

M.P.Ed. (Arrear) DEGREE EXAMINATION, APRIL 2015

First Semester

Physical Education

PHILOSOPHICAL AND SCIENTIFIC BASES OF PHYSICAL EDUCATION

(CBCS – 2008/2010 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

All questions carry equal marks.

1. Define philosophy.
2. What is learning?
3. Define motivation.
4. What is intelligence?
5. Define sociology.
6. What is group dynamics?
7. Define curriculum.
8. What is body mechanics?
9. What is reform?
10. What is idealism?

Part B $(5 \times 5 = 25)$

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

11. (a) Philosophy in education.

Or

(b) Components of philosophy.

12. (a) Explain the laws of learning.

Or

(b) Individual difference and learning.

13. (a) Benefits of sports.

Or

(b) Human characteristics.

14. (a) Curriculum design.

Or

(b) Role of administration.

15. (a) Benefits of physical education curriculum.

Or

(b) Curriculum improvement through administrative standard.

Part C (3 × 10 = 30)

Answer any **three** questions.

All questions carry equal marks.

16. Give an account on the school of philosophy and its application in physical education.

17. Explain any two theories of learning.

18. Explain the sociological implication of educational sports.

19. Explain the physical education curriculum in school, colleges and universities.

20. Give an account on the curriculum reform experimentation in physical education programmes.

RW–10100 **632204**

M.B.A. DEGREE EXAMINATION, APRIL 2015

Second Semester

Banking and Insurance

MONETARY MANAGEMENT

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Give any three differences between money market Vs capital market.

2. Write notes on custodian of cash reserves of commercial banks.

3. Write about NBFIs.

4. What is deposit insurance in RBI?

5. What is Neutral money?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) Elaborate the characteristics and importance of developed money market.

Or

(b) Explain the money market instruments in India.

7. (a) Explain the function of Central Bank.

Or

(b) Write the notes on :

(i) Agent and Advison

(ii) Bank of Rediscount

(iii) Lender of Last Resort.

8. (a) What are the supervisory functions of RBI? Explain.

Or

(b) Briefly explain the regulations relating to capital and reserves.

9. (a) Critically examine the role of the RBI in the development of agriculture in India.

Or

(b) Explain the relevance of training of banking personnel and banking education.

10. (a) Explain the objectives of monetary policy.

Or

(b) Write the instruments of monetary policy of the RBI and explain.

Part C $(1 \times 10 = 10)$

Compulsory.

11. Situational Analysis

Based on the full employment objective of the monetary policy, what is the labour force status of each of the following?

(a) A teenager who sends out resumes in searching for a first job.

(b) An autoworker who has been laid off and would like to work but has given up hope of finding work or being recalled.

(c) A parent who works part-time, wants a full time job, but doesn't have time to look.

(d) A teacher who has a job but too ill to work.

RW–10101 **632205**

M.B.A. DEGREE EXAMINATION, APRIL 2015

Second Semester

Banking and Insurance

BANKING LAW

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** the questions.

1. Write short notes on debtor and creditor relationship.
2. Write the rules for closing a bank account.
3. Define presentment.
4. Who is the paying banker?
5. Write short notes on SERFAESI.

Part B (5 × 10 = 50)

Answer **all** either (a) or (b) in the given questions.

6. (a) Define banker and bank customer. Explain the general relationship between banker and customer.

Or

(b) Draft the rights of banker in detail.

7. (a) Classify the different kinds of customers' account with banker and explain.

Or

(b) Describe the legal aspects of entries in the pass book.

8. (a) Distinguish cheque, bill and promissory note.

Or

(b) List out and explain different types of crossing of cheques.

9. (a) Discuss the precautions to be taken by the paying banker.

Or

(b) What are circumstances the banker can refuse payment of cheques? Support the refusement according to banking law.

10. (a) Elaborate the background and importance of SERFAESI.

Or

(b) Briefly explain the important provisions and problems in implementation of SERFAESI.

Part C $(1 \times 10 = 10)$

Compulsory

11. Case study :

Mr. Karthik who had a current account and a credit card account with his, was very surprised to receive a credit card statement with the wrong name on it. The statement was clearly his, as the account number and all the transaction details were correct.

After making a number of phone calls to the bank, Mr. Karthik was eventually told that the name change had come about because of a 'systems error'. The bank sent him a cheque for Rs. 1750 for his out of pocket expenses in having to pursue the matter. Although the name on the cheque was closer to his own name than the name on the statement had been – it was still not right.

When he pursued the matter further, he discovered that the bank's record of his occupation stated that he was a 'professional shoplifter'. It soon became clear that the alterations to Mr. Karthik's details on his credit card account had not come about as a result of system error, as the bank told him. The changes had been made deliberately, by a member of the bank's staff.

Question :

Analyze this situation with respect to banker and customer relationship and banking laws.

RW–10102 **632702**

M.B.A. DEGREE EXAMINATION, APRIL 2015

Second Semester

Banking and Insurance

INTRODUCTION TO INSURANCE

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Give the meaning "Insured".

2. Write the bases for classification of Insurance.

3. Write short notes on IRDA.

4. What is subrogation?

5. Write the significance of Insurance marketing.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

6. (a) Explain the nature and functions of Insurance in detail.

Or

(b) Discuss the benefits of insurance to individuals, business units and the society.

7. (a) Explain the types of life insurance in detail.

Or

(b) Write features of

(i) Fire Insurance

(ii) Marine Insurance.

8. (a) Describe the functioning private sector insurance companies.

Or

(b) Discuss the recent reforms in the Indian insurance Industry.

9. (a) What are the basic principles of Insurance? Explain.

Or

(b) Write short notes on:

(i) Premium funds

(ii) Investments

(iii) Reserves

(iv) Surplus.

10. (a) Develop a marketing plan for an insurance company.

Or

(b) Explain the selling process of Insurance in detail.

Part C (1 × 10 = 10)

(Compulsory)

11. Case:

Megan, age 28, is married and has a son, age one – she recently purchased a cash-value life insurance policy that has the following characteristics:

(a) The frequency and amount of premium payments are flexible.

(b) The insurance and saving components are separate.

(c) The interest rate credited to the policy is tied to current market conditions, but the policy guarantees a minimum interest rate.

(d) The policy has a back-end surrender charge that declines to zero over some time period.

Based on the above characteristics, what type of life insurance did Megan purchase? Explain your answer.

RW–10167 **652703**

M.B.A. DEGREE EXAMINATION, APRIL 2015

GLOBAL BUSINESS INFORMATION SYSTEM

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Write the significance of GBIS.

2. What are the different database models?

3. What is Gateway packet service?

4. Write the salient features of E-tendering.

5. Define Encryption.

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) Explain the components of Information system in detail.

Or

(b) Discuss the technological and management issues of implementing MIS in MNCS.

7. (a) How do the different roles of system software and application software affect you as a business end user? Explain.

Or

(b) Explain the role of client server computing concept in MIS.

8. (a) Explain the different types of tele communication network in detail.

Or

(b) What are all the different telecommunication alternatives available? Explain its features in detail.

9. (a) Discuss the role of Information system in HRIS.

Or

(b) Write the applications of Information technology in E-business. Discuss the advantages and disadvantages of E-business.

10. (a) Are enterprise information portals making executive information systems unnecessary? Explain your reasoning.

Or

(b) What are all the Information system security issues? How can we overcome those issues?

Part C (10)

Compulsory.

11. Case study

The city of London has been well known for its many historic sites, live theater and heavy traffic. Inspite of a sophisticated underground subway system known locally as the "tube", traffic delays, car exhaust, noise pollution, and vehicle – pedestrian accidents have plagued Londoners for decades.

After long deliberation, London's city government adopted the central London congestion charging scheme. This plan involved establishing a toll perimeter around London's center. Rather than stopping cars to collect tolls, however London set up video cameras at each toll zone crossing. These cameras link to a billing system that charges each vehicle's registered owner a one-day access toll with same-day reentrance privileges. The steep toll discourages vehicle traffic into London's city center.

Londonees who live with in the toll zone receive a special discount, as do residents living hear the toll zone boundary, certain government workers, and business operating fleets of vehicles. Tolls remain in effect during working hours on work days. Car owners have until the end of the day to pay their toll through e-mail, SMS messaging, telephone, website or Kiosk.

The tolls have resulted in a significant decrease in automobile traffic, increased use of mass transit, fewer accidents, and faster driving times. The tolls have had a negligible effect on business operations and most residents. They have also generated significant revenue that London uses to maintain the system and to enhance public transportation.

Consider the massive work involved in educating the public, marking all streets entering the toll zone, setting up cameras, and building the information systems. The

information systems alone must process the raw images, match license plates to a payment database, receive payments, send out non payment notices, and process appeals police also use the system's databases for a variety of law enforcement – related work.

Questions:

(a) Briefly describe the advantages and disadvantages of this automated toll procedure of central London congestion charging scheme project.

(b) Which conversion strategy would you recommend for this project.

(c) Defend your commendation in detail.

RW–10104 **652205**

M.B.A. (INT. B & E-COM)DEGREE EXAMINATION, APRIL 2015

Second Semester

EXPORT MANAGEMENT : PROCEDURES AND DOCUMENTATION

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. What is export credit insurance?
2. Write about ICD in shipment.
3. What is duty free credit?
4. Write notes on cargo insurance.
5. What is the main objective of export promotion council?

Part B (5 × 10 = 50)

Answer **all** either (a) or (b) given questions.

6. (a) What are the commercial and regulatory documents needed in export? Explain.

Or

(b) Explain the procedure for availing credit insurance.

7. (a) Discuss the relevance of different methods of shipment of export cargo.

Or

(b) Explain the procedure and documentation for multimodal transport.

8. (a) List out the gems and jewellery scheme based on current foreign trade policy.

Or

(b) Explain EPCG scheme in detail.

9. (a) Write the procedure for cargo insurance.

Or

(b) List out the necessary documents for filing marine insurance.

10. (a) Discuss the role of Indian Institute of foreign trade.

Or

(b) Explain the functions of commodity board and food export development authority.

Part C $(1 \times 10 = 10)$

Compulsory.

11. Case Study :

The Mary Queen, an ocean-going oil tanker, negligently collided with a large freighter. The "Mary Queen" is insured by an ocean marine hull insurance policy with a running down clause. For each of the following losses, explain whether the ocean marine following losses, explain whether the ocean marine coverage would apply to the loss.

(a) Damage to the Mary Queen

(b) Damage to the freighter.

(c) Death or injury to the crew members on the freighter.

RW–10105 **652203**

M.B.A. DEGREE EXAMINATION, APRIL 2015

Second Semester

International Business and E.Com

GLOBAL BUSINESS COMMUNICATION

(CBCS 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. What are the objectives and scope of business communication?

2. What aspects of grammar would you consider appropriate in vocabulary building?

3. What are the principles of effective business writing?

4. What is an executive summary?

5. What is an L/C? State its significance.

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) Explain the process of oral and written presentation. Add a note on the use of visual aids.

Or

(b) How would communication help solving group problems?

7. (a) Explain the significance of grammatically correct language in communication. What components of vocabulary would ensure it?

Or

(b) Only careful use of Jargons and Metaphors or Idioms and Phrases can enhance the quality of communication. Briefly explain.

8. (a) Describe the types and characteristics of report writing.

Or

(b) 'The 3 Ps of business writing should be effectively utilized in conveying different types of messages'. Elucidate.

9. (a) How would you format a letter to an international business associate?

Or

(b) Explain the structure and components of a report.

10. (a) Design and present a letter to a foreign banker enquiring the status of a foreign importer.

Or

(b) Write a letter to a foreign business unit inviting an offer, the offer by the overseas seller and your acceptance of the offer, for any commodity of your preference.

Part C $(1 \times 10 = 10)$

(Compulsory question)

11. Draft a proposal to the principal business unit for opening a new branch in another city to meet expanding business.

RW–10124 **652401**

M.B.A. (IB) DEGREE EXAMINATION, APRIL 2015

Fourth Semester

MANAGEMENT STRATEGIES OF MNCs

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** the questions.

All questions carry equal marks.

1. What are TNCs?

2. What are the analysis tools for external environment analysis?

3. Explain the concept of SBUs.

4. What is a network structured organization?

5. What is a corporate restructuring?

Part B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Discuss the need for MNCs for developing countries.

Or

(b) Discuss the nature of growth of MNCs and associated problems.

7. (a) Discuss the types of threats and possible business responses to them.

Or

(b) Discuss the nature of internal weaknesses for MNCs' business.

8. (a) Discuss the nature of competitive behavior of MNCs in India with suitable examples.

Or

(b) Discuss the role played by international alliances in growth of Indian economy.

9. (a) Explain role of corporate governance for organizations.

Or

(b) Compare how strategy will be implemented in functional and multidivisional organizations.

10. (a) Discuss the role of culture in implementing strategy in organizations.

Or

(b) Explain the importance of innovation in competitive strategy.

Part C $(1 \times 10 = 10)$

Compulsory

11. Read the given caselet and answer the questions below:

Genesis of Unilever India goes back to 1888 when Unilever exported Sunlight soap to India. Three Indian subsidiaries were formed by 1935 that were merged to form Hindustan Lever (HLL) in 1956. From then on mergers and acquisitions of Lipton, Booke Bond, Ponds,

TOMCO, Lakme and Modern Foods etc. have resulted in a conglomerate of businesses that were restructured continuously over many years. During the era of liberalization, the name has been changed to Unilever India.

Unilever is one of the world's oldest multinational companies engaged in the Fast Moving Consumer Goods (FMCG) industry. The corporate strategy is to focus on the core businesses of food, home care and personal care. Unilever operates in more than 100 countries and about 200,000 employees around the world and its top management coming from 24 countries. Their philosophy of internationalisation is based on local roots with global scale and being a multi - local multinational.

Both Unilever and its Indian arm are in a highly competitive FMCG market. The FMCG customer is very price sensitive, but equally the distribution and sales functions also are very tough. While competing with global competitors like P&G and local competitors like Nirma or Tata, this company has managed to create strong brands like Lifebuoy or Dalda etc. many of which have gone on to become generic with the product category.

Questions:

(a) What are the factors that shape the strategy development of MNCs like Unilever? Explain their role.

(b) What should be the strategy for an MNC who is a new entrant in Indian FMCG market?

RW–10125 **652402**

M.B.A. (IB) DEGREE EXAMINATION, APRIL 2015

Fourth Semester

INTERNATIONAL MARKETING LOGISTICS

(CBCS 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Define 3 PL.
2. Write short notes on MTD.
3. Define Terminal stuffing.
4. Define Demurrage.
5. What is the concept of IATA rules?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) "Difference between domestic and international logistics can be said to arise on account of three major factors." Elaborate on this statement.

Or

(b) What are the main activities involved in Marketing Logistics? Explain giving suitable examples.

7. (a) Discuss the various shipping policy measures adopted by the Government for development of shipping in India.

Or

(b) Explain about MTD and CTD in detail.

8. (a) Describe the public warehousing network in India, and outline the role of Central Warehousing corporation in facilitating overseas trade.

Or

(b) Describe the role of IT in Logistics.

9. (a) Explain the functions and services of Intermediaries with examples.

Or

(b) Describe the types of Intermediaries.

10. (a) What are the various types of marine containers? Describe salient features of anyone of them.

Or

(b) What are the various factors taken into consideration while selecting the mode of inland transportation for export cargo? Explain them briefly.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. A privately held company is one of the leading providers of transportation services in the US. Products consist of customized offerings across business lines like Truck Rentals, Managed Maintenance, Dedicated and Non-dedicated Truck Carriage, Logistics and Brokerage. Value added offerings include 24 × 7 roadside assistance,

licensing and DOT (Department Of Transportation) compliance assistance, HVUT (Heavy vehicle use tax) and fuel tax reporting, cashless fuel purchases, insurance facilities and sale of used trucks.

The company relied on a legacy application to manage truckloads. Since it wanted to enter the Third Party Logistics (3PL) market, the company wanted to develop and integrate applications to perform true transport sub-contracting, including activities like load optimization and load building for its customers. Towards this end, it wanted a system to enable receipt of orders from clients, build loads and provide freight visibility as well as link with off-the-shelf optimization tools.

The scope of activities concerned almost all the major IT activities of the company and threw up the following challenges :

(a) The client's existing systems and processes were unable to support the business requirements and since it was not viable to replace all existing systems, Infosys had to suggest practical workarounds to handle this

(b) The client expected huge cost savings. While the Global Delivery Model could handle this, the issue of integrating the old legacy systems with the proposed modular systems threatened to negate the cost savings

(c) Another requirement was that the client's business intelligence should be enhanced by making available a large amount of data

(d) The client wanted to grow by improving the portfolio of operations and Infosys had to make this system robust and become a key enabler for the proposed growth path

(e) There were some existing data warehouses and Infosys had to enhance them and also build new ones from scratch. Detailed reporting tools had also to be developed

(f) The client's vision was far ahead of its processes and Infosys had to ensure fulfillment of the company's strategy by handling the entire critical IT infrastructure.

Since a lot of complex activity concerning disparate systems was involved, Infosys used its InFluxT methodology in tandem with the Global Delivery Model to ensure client satisfaction and low operational costs. The Infosys Team chosen to handle this project consisted of 60 professionals with varied experience. This team recommended a modified system based on concepts such as loosely coupled modular systems, seamless integration and consolidation of customer facing processes. The team remodeled various processes and brought them in sync with the client's vision and strategy. They also devised an implementation plan for critical IT areas.

The Infosys solution was spread across several phases over two years and some of these phases are already functional, with others in the pipeline. Initially, Infosys re-engineered the legacy application used to receive loads from customers and developed a transactional application for logistics operations. This was also integrated into the existing legacy application. This Web based application enabled the client to move up the value chain.

The company had a vast amount of data in data warehouses and Infosys enhanced the existing data warehouses and also created new ones. As part of this, enhancements were made to the existing reporting layer built on top of the data warehouses. Successful completion of this phase enabled the company to analyze trends better.

Discuss the challenges and the outcome of the company's decisions.

RW–10126 **652403**

M.B.A. (IB) DEGREE EXAMINATION, APRIL 2015

Fourth Semester

MULTINATIONAL FINANCIAL MANAGEMENT

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What is 'country risk'?
2. What is back-to-back or parallel loan?
3. What is transfer pricing?
4. What is a netting centre?
5. What is a benchmark rate?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Explain the distinguishing features of multinational finance.

Or

(b) Mention the features of the fixed parity system of exchange rate. What were the causes behind its collapse?

7. (a) Describe any five norms laid down by RBI for ECBs to access funds from abroad.

Or

(b) Why does cost of capital for MNCs differ from that for domestic firms?

8. (a) What makes the APV capital budgeting framework useful for analyzing foreign capital expenditures?

Or

(b) Explain the approaches to political risk management.

9. (a) Explain the usage of netting to reduce overall transaction costs.

Or

(b) What is SWIFT and how does it work?

10. (a) Why do firms engage in international M & As?

Or

(b) Describe the role and functions of any two global investment bankers.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. (a) In India, prices changed from Rs. 4,500 to Rs. 5,500 over a period of three years for the same basket of goods whereas they changed from \$100 to \$110 over the same period in the USA. What was initial exchange rate (S_0)? What is expected exchange rate after 3 years (S_3)? (5)

(b) Write short notes on any ONE of the following : (5)

(i) Any five factors that stimulate MNCs to opt for FDI,

(ii) Euro Commercial Paper.

RW–10127 **652404**

M.B.A. (IB) DEGREE EXAMINATION, APRIL 2015

Fourth Semester

IMPORT MANAGEMENT

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What are the functions of Board of Trade?

2. State the payment instruments for imports.

3. What is deemed export?

4. What is linear shipping?

5. Briefly state the role of authorised dealers for handling import documents.

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) "IEC number is a must for everyone who wants to be in the business of export – import in India". Discuss.

Or

(b) Highlight the significant provisions in the current foreign trade policy regarding imports.

7. (a) What are Trading Blocks? How do they affected world trade? What is the future of such blocks?

Or

(b) Discuss the factors usually considered by the importers for the selection of overseas suppliers.

8. (a) What is duty drawback? Describe the procedure for claiming duty drawback.

Or

(b) Discuss the role of Electronics Hardware Technology parks (EHTPs) and Software Technology parks (STPs) in the field of export-import.

9. (a) Describe the essential and optional services provided by clearing and forwarding agents in global trade. What is the basis for fixation of fee for their services?

Or

(b) Describe different types of Bill of Entry and what documents are to be enclosed along with it for seeking customs clearance of imports?

10. (a) What is exchange rate fluctuation risk? Discuss the various ways available to exporters and importers to cover it.

Or

(b) Describe the trend and composition of India's import. What changes have taken place regarding imports in India?

Part C (10 marks)

(Compulsory)

11. Give your comments on any THREE of the following statements.

    (a) Recent developments in international trade is the simplification of documentation.

    (b) Green channel facility is a special scheme allowed in certain cases for speedy clearance of imports.

    (c) Bill of entry is used for clearance of goods for warehousing.

    (d) Special Economic Zones (SEZs), EOUs, Free trade and warehousing zones are schemes where a host of special privileges are provided to units engaged in export of goods and services.

Fourth Semester

WTO : CONSTITUTION AND OPERATIONS

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Write short notes on "Singapore and Doha Rounds".

2. What is Quantitative Restrictions? Why it is imposed?

3. Why Agreement on pre-shipment Inspection is needed?

4. Differentiate GATT from GATS.

5. List down the Scope of TRIMs.

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) Neatly draw the structure of WTO and explain it in detail.

Or

(b) Explain about all the Rounds of WTO.

7. (a) Analyze the various Tariff Bindings.

Or

(b) Explain about "Export Subsidy".

8. (a) Discuss the Dispute Settlement Process for Dumping.

Or

(b) Write short notes on the following :

(i) Agreement on Rules of Origin

(ii) Agreement on Import Licensing Procedure.

9. (a) Synthesis the Articles of Agreement on TRIPS.

Or

(b) Discuss the Rules and Procedures for Dispute Settlement System.

10. (a) Analyze the implications of Electronic Commerce.

Or

(b) Explain about TRIMs Disputes and Committee on TRIMs.

Part C $(1 \times 10 = 10)$

Compulsory.

11. The WTO has one of the most impressive records in global economic governance, by promoting trade liberalization and economic development – Analyze.

Fourth Semester

ENTERPRISE RESOURCE PLANNING

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What are the advantages of ERP systems?

2. How CAD improves the competitiveness of a Company?

3. How does an ERP system reduce cycle time?

4. Why is end user training said to be critical for the success of the ERP implementation?

5. What is the impact of Internet and World Wide Web on the ERP products?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) What is data mining? Discuss the process and advantages of data mining.

Or

(b) What is Online Analytical Processing (OLAP)? Explain the connection between data warehouse and OLAP and also discuss the benefits of OLAP.

7. (a) What are the popular modules is an ERP system? How does the plant maintenance module help in achieving competitiveness?

Or

(b) What is Product Data Management (PDM) and how does it improve the competitiveness of a Company?

8. (a) Discuss the role and functions of Customer Relationship Management (CRM) and also explain its benefits.

Or

(b) Describe the quality costs of an organisation. Also, how ERP does contribute for the reduction of quality costs. Explain with examples.

9. (a) What is the purpose of gap analysis and how are the gaps fixed?

Or

(b) What are the different phases of the ERP implementation life cycle and explain the activities carried out in each phase?

10. (a) What is the future direction of the ERP market and how these trends will shape the future ERP products?

Or

(b) Why are ERP vendors trying faster implementation methodologies and also discuss which are the new markets and channels explored by the ERP vendors?

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Give your comments on any THREE of the following statements.

    (a) "ERP domains is shrinking or expanding".

    (b) ERP solutions have flawlessly displayed the integration of various business processes and eliminated the duplication of work across various functions.

    (c) There are various resources an ERP has to optimise.

    (d) Integrated Data Model is considered as the heart of ERP system.

Or

(b) Explain the methods to correct BOP disequilibrium.

9. (a) Explain the functions of IDA.

Or

(b) Explain the role played by IFC in world trade.

10. (a) Discuss the role of FDI in developing an economy.

Or

(b) Discuss the recent trends in international labor migration.

Part C (1 × 10 =10)

(Compulsory)

11. Case study :

China continues to attract record levels of investment from foreign multinationals. A country that attracted a negligible amount of foreign capital just 30 years ago was world's largest recipient of Foreign Direct Investment (FDI) in 2003 a title lost to us in 2004. Extensive infrastructure investment and an expanding real estate market continue to drive foreign investment, but the manufacturing industry still accounts for 70% of FDI. Service sectors like finance, Insurance, transportation and utilities are also quickly attracting investment. The structure with service, Research and Development and mergers and Acquisitions are under spotlight.

A survey by price water house coopers release has showed a large number of CEO's plan to invest in China in the next few years to win customers in the world's fastest growing economy, 55% of business leaders said they have planned to do business in China in 2009. Internationally 80% of FDI is obtained through Mergers and Acquisitions. While the figure is currently 10% in China, where FDI is mainly obtained through investment like the establishment of new properties according to ministry of commerce.

Opportunities sill arise from Chinese share reforms, as Beijing looks to offload some US $ 200 billion non-tradable state holdings without causing major market disruptions. Investment in R & D is another bright point. According to a survey by the global consultant company AT Kearney China will become the most attractive R & D location in the world in three years.

Low R & D costs, availability and quality of the local R & D work force and protection of Intellectual property are the three most important aspects in the evaluation of R & D investment locations.

Questions :

Why does China attract huge amount of FDI? Discuss the effect and impact of FDI in the Development of the Economy.

RW–10165 **652303**

M.B.A. (IB) DEGREE EXAMINATION, APRIL 2015

LEGAL ENVIRONMENT OF INTERNATIONAL BUSINESS

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What is the purpose of uniform law on international sale of goods?

2. What is a trade mark and a trade dress?

3. What is an arbitral award?

4. What is abatement and how is it related to assessable value?

5. Distinguish between 'duty drawback' and refund' under customs act.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Briefly explain the provisions relating to passing of risk in international sale of eontracts as per UNCITRAL.

Or

(b) Discuss the rules governing damages arising out of international sale contracts.

7. (a) Briefly explain the international patent application procedure under patent cooperation treaty.

Or

(b) Highlight the features of registration procedure for trade and merchandise marks.

8. (a) What are the requirements of a domestic arbitration agreement?

Or

(b) Briefly explain the process and procedures related to international arbitration.

9. (a) Explain the general procedure for export of goods under Excise Act.

Or

(b) Explain the periodic returns to be filed by registered dealers under central excise law.

Or

(b) Briefly explain the provisions relating to duty draw back and the procedure to claim the same.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Read the following case and answer the questions given below.

In September 1997, Rice Tec a small food technology company based in Texas, United States, was granted a patent by the US Patent office to call aromatic rice variety developed in USA Basmati. India challenged the

case, arguing that basmati is a unique aromatic rice grown in Northern India. and not a name Rice Tec would claim. In fact only inventions can be patented. Consequently, the US patent office accepted India's position, and Rice Tec had to drop 15 of the 20 claims that it had made. Of the remaining claims, Rice Tec managed to evolve three new varieties of rice for which it got a patent from United States Patent and Trademarks Office (USPTO) as India had not objected to these. The ruling had not handed over Rice Tec the basmati brand. Rather, it provides it a patent for superior three stains of basmati developed by cross-breeding a Pakistani basmati with a semi-dwarf American variety.

According to the WTO Agreement, Geographical indications like basmati can be legally protected and their misuse can be thus prevented. The unfortunately thing is that Government of India has not taken timely steps for protecting our Geographical indications and bio-diversity. Although a Geographical Indication of Goods Bill was introduced in Indian Parliament in 1999, even at the end of 2001 it had not become an Act.

Questions :

(a) Can any of the following viz, turmeric, neem and the name basmati be patented? Substantiate your answer.

(b) Evaluate the role played by Government of India in preventing the misuse of the name basmati.

E – BUSINESS MODELS

(CBCS – 2012 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Define EC and E - business.

2. What are RTGS and NEFT?

3. Describe the benefits of push technology.

4. What are the uses of smart cards?

5. List out any three problems in electronic data interchange.

Part B (5 × 10 = 50)

Answer **all** either (a) or (b) given in the questions.

6. (a) Explain the fundamental models of e-business in detail.

Or

(b) What are the major implementation issues in e-business? Explain.

7. (a) Describe the growth and impact of E-commerce in detail.

Or

(b) Investigate the prospects of E-banking in India.

8. (a) Explain the advertisement strategies for E-advertising.

Or

(b) What are online catalogues? Compare online catalogues with paper catalogues.

9. (a) Discuss the pros and cons of modern payment systems in detail.

Or

(b) What are the problem related to E-security in E-business? Explain the E-security initiatives in detail.

10. (a) Explain the application of EDI.

Or

(b) Discuss the role of EDI in business relationship.

Part C (10)

Compulsory.

11. Case

Fruit of the Loom (WWW -fruit . com) is known for its underwear clothing but also sells T-shirts, sweat shirts and boxer shorts. Unlike the under wear business, in which the company sells products directly to large

retailers such as wall mart, the active wear divisions , which manufacture blank T-shirts, uses several dozen distributors. The market is very competitive and complex. The distributors sell other products as well, including T-shirts made by fruit of the Loom's competitors. There fore, the relationship between active wear and its distributors are critical. To boost the relationship , fruit of the Loom decided to develop and maintain an individual web commerce site for each of their 40 key distributor on an extranet.

Each site includes a color electronic catalog, inventory level information, buyer's credit availability, and ordering forms. Both the shirt printers and the retailers enter the distributors sites to facilitate their own back-office operation of inventory and billing. The distributors are allowed to advertise and sell other vendors products on the web site. This way fruit of loom commits itself to supporting a system that benefits all channel members in a link that starts with its own site.

Fruit of the Loom hopes to gain favour with the distributors, many of whom do not have the time or money to build their web sites. The system also includes a model that automatically suggest fruit of the Loom's substitute products for products not in stock. Even though building and maintaining 40 sites incurs a cost, fruit of the Loom believes that also uses its experience to generate profit by setting up web sites for other companies.

Questions :

(a) Why does Fruit of the Loom allow their distributors to use the websites for selling competitors' products?

(b) Is the EC system bringing fruit of the Loom closer to its customers? Why or why not?

(c) Fruit of the loom did all the web development work-in-house. Is this a reasonable strategy? Why?
