DE–4067 **11**

DISTANCE EDUCATION

M.B.A. (S and PM) DEGREE EXAMINATION, MAY 2012.

First Semester

MANAGEMENT CONCEPTS

(2005 Onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain the relevance of Management to Transportion.

2. Discuss the nature and characteristics of control process.

3. Define communication. Discuss the various steps involved in the process of communication.

4. Explain the Maslow's theory of motivation.

5. Define the concept of Leadership. Mention some of the important qualities of a good leader.

6. Explain the process of M.B.O.

7. What is TQM? Explain the concept of TQM.

8. What is co-ordination? Discuss the essential characteristics of co-ordination.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. "Management is oldest of the arts and youngest of the Science"…Discuss.

10. Planning and Controlling are the twins of management. Explain the relationship between planning and controlling with suitable examples.

11. What are the advantages and disadvantages of M.B.O.?

12. Critically examine the various types and forms of communication.

13. "Co-ordination is related to productivity and performances". How this statement can be proved by your theories? Suggest possible ways to improve the co-ordination.

14. Define Leadership. Explain different styles of leadership based on authority.

15. How do you implement MBO in an organisation? Draw a flow chart. Explain why MBO did not take off in Indian business organisations.

DISTANCE EDUCATION

M.B.A. (S & PM) DEGREE EXAMINATION, MAY 2012.

First Semester

ORGANISATIONAL BEHAVIOUR

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Define organisational behaviour as a field of study and bring out its features.

2. What do you mean by systems and contingency approach of managing human behaviour?

3. Discuss briefly the foundations of individual behaviour.

4. What are the major factors which shape the personality of an individual?

5. What are the essential characteristics of a good communication system?

6. What do you mean by power? How is it different from authority and leadership?

7. How does organisational culture affect different aspect of organisational functioning?

8. What do you mean by organisational development? How does it differ from management development?

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All questions carry equal marks.

9. How does learning differ from motivation? Discuss the factors which affect learning?

10. What are methods of measurement of attitudes? How does attitude measurement help the management?

11. What do you mean by communication symbols? Discuss the relative merits and demerits of oral and written communication.

12. How is power important to organisations? What are the different basis of power?

13. What are the different approaches of measuring organizational effectiveness?

14. What do mean by organisational culture? How does it differ from organisational climate?

15. "Management is a change agent". Discuss Identify the roles of change agents in organisational change.

DE–4069 **13**

DISTANCE EDUCATION

M.B.A. (S and PM) DEGREE EXAMINATION, MAY 2012.

First Semester

MANAGERIAL ECONOMICS

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the chief characteristics of managerial economics?

2. Discuss, why does the demand curve slope downwards?

3. Explain "Short-run" and" Long-run" Costs.

4. What are the essentials for the success of a cost reduction programme?

5. What is meant by price discrimination? What are its objections?

6. "Profit is the reward for risk-bearing function of the entrepreneur" – Discuss.

7. Critically examine price as a weapon of competition.

8. What are the main constituents of a Country's Balance of Payments?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Discuss the role of managerial economists.

10. State and illustrate the Law of Demand and bring out its significance in business decision.

11. Discuss the various economies of scale.

12. Define a production function. Explain and illustrate isoquants and isocost curves.

13. What is profit forecasting? Describe the approaches to profit forecasting.

14. What is a business cycle? Analyse the different phases of business cycle.

15. What are the advantages and limitations of large scale production?

DE–4070 **14**

DISTANCE EDUCATION

M.B.A. (S & PM) DEGREE EXAMINATION,
MAY 2012.

First Semester

ECONOMICS OF SEA TRANSPORTATION

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Write short note on location of porks.

2. Explain impact of Tsunami on sea transportation.

3. Describe elasticity of demand for sea transportation.

4. Explain factors influencing capital cost of ship.

5. How are trades protected through foreign exchange and quota?

6. Explain the importance of the tanker market.

7. State the features of ship owning undertakings.

8. Briefly explain the components of balance of payments with particular reference to sea transportation.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Describe the factors influencing the demand for shipping services.

10. Briefly describe competition from with in the shipping industry and from other transport modes.

11. Write short note on

    (a) Shipping cost structure

    (b) Cargo handling and maintenance costs.

12. Explain the determination of tanker freight charges.

13. State the role of government to protect trade and shipping.

14. Briefly explain the factors influencing the balance of payments.

15. Describe the theories of exchange rates and its influence of trade and shipping.

DE–4071 **15**

DISTANCE EDUCATION

M.B.A. (S & PM) DEGREE EXAMINATION, MAY 2012.

First Semester

BUSINESS OF SHIPPING

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What are cubic capacity and tonnages? How are they calculated?
2. Describe the activities of a discharging port.
3. What is a letter of credit? What are its uses?
4. What are the roles of middlemen in cargo shipping?
5. What are the functions of TRANS CHART?
6. Differentiate demise charter from non-demise charter.
7. How do you engage crew?
8. What are Project carriers? What are its uses?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Describe the salient features of different kinds of ships for cargoes and trades.
10. Explain the nature and description of different types of ports.

11. Explain FOB, CIF and LOC in freight markets.

12. Compare the structure and roles of BIFFEX and INSA.

13. Analyze the causes for imbalance of trade.

14. Explain the scope and limitations of voyage and time charter.

15. Explain the significance of IMO convention and its impact.

DE–4072 **21**

DISTANCE EDUCATION

M.B.A. (S & PM) DEGREE EXAMINATION, MAY 2012.

Second Semester

FINANCIAL AND MANAGEMENT ACCOUNTING

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Define accounting. List out the objectives of accounting.

2. What are the differences between trading account and profit and loss account?

3. Explain the special features of common size statements.

4. Explain the profitability ratios and its significance.

5. What are the uses and limitations of fund flow statement?

6. What is a cash flow statement? How will you prepare a cash flow statement?

7. Explain the benefits and defects of zero base budgeting.

8. What is break-even point? What is its importance?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. The following are the ledger balances extracted from the books of Weifa.

	Rs.
Weifa's capital	50,000
Bank overdraft	8,400
Furniture	5,200
Business premises	40,000
Creditors	26,600
Opening stock	44,000
Debtors	36,000
Rent from tenants	2,000
Purchases	2,20,000
Commission allowed	4,400
Carriage on purchase	3,600
Sales	3,01,000
Return inwards	5,000
Discount (Cr)	800
Taxes and insurance	4,000
General expenses	8,000
Salaries	18,000
Provision for doubtful debts	1,000
Bad debts written off	1,600

Adjustments :

(a) Stock on hand on 31.12.2009 was estimated as Rs. 40,120

(b) Write off depreciation on business premises Rs. 600 and furniture Rs. 520

(c) Make a provision of 5% on debtors for bad and doubtful debts

(d) Allow interest on capital at 5% and carry forward Rs. 1,400 for unexpired insurance.

Prepare final accounts for the year ended 31.12.2009.

10. The following figures are extracted from the annual reports of company X.

	2005	2006	2007
Cost of materials	200	250	150
Labour cost	175	150	200
Other convention costs	175	140	150
Total manufacturing cost of goods sold	550	540	500
Sales revenue	950	1000	1200
Gross profit	400	460	700
Operating expenses	180	200	300
Profit	220	260	400

From the above, prepare common-size income statement for the purpose of comparison.

11. From the following particulars of X company calculate :

(a) Sales

(b) Debtors

(c) Closing stock

(d) Creditors.

Debtor's velocity – 3 months

Stock turnover ratio – 8

Creditors velocity – 2 months

Gross profit ratio – 25%

Gross profit for the year was Rs. 4,00,000. Closing stock was Rs. 10,000 more than the opening stock.

12. From the following balance sheets prepare fund flow statement :

	31st Dec			31st Dec	
Liabilities	2003	2004	Assets	2003	2004
	Rs.	Rs.		Rs.	Rs.
Share capital	3,00,000	4,00,000	Machinery	50,000	60,000
Creditors	1,00,000	70,000	Furniture	10,000	15,000
Profit and			Stock-in trade	85,000	1,05,000
loss a/c	15,000	30,000	Debtors	1,60,000	1,50,000
			Cash	1,10,000	1,70,000
	4,15,000	5,00,000		4,15,000	5,00,000

13. Calculate cash from operations from the following :

Profit made during the year Rs. 3,00,000 after considering the following items.

(a) Depreciation on fixed assets Rs. 20,000

(b) Transfer to general reserve Rs. 10,000

(c) Amortization of goodwill Rs. 10,000

(d) Profit on sale of land Rs. 7,000

The following is the position current assets and current liabilities.

	2003	2004
	Rs.	Rs.
Debtors	15,000	18,000
Creditors	20,000	10,000
Bills receivable	7,000	5,000
Prepaid expenses	10,000	7,000

14. The standard time and rate for unit component are given below :

Standard hours 20 per unit

Standard rate Rs. 5 per hour

Actual hours 20,500 hours

Actual rate per hour Rs. 4.80

Actual production 1,000 units.

Calculate :

(a) Labour cost variance

(b) Labour efficiency variance

(c) Labour rate variance.

15. What are the advantages and limitations of marginal costing techniques?

DE–4073 **22**

DISTANCE EDUCATION

M.B.A. (S & PM) DEGREE EXAMINATION, MAY 2012.

Second Semester

BUSINESS ENVIRONMENT

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What is the nature and scope of business environment?

2. What are the main objectives of economic reforms 1991, in India?

3. Discuss the concept of "social class" in India.

4. Explain the relevance of value and ethics in business.

5. State the basic objectives of regulating business.

6. Explain the salient features of technological environment.

7. Discuss the social responsibility of business towards shareholders and community.

8. Discuss the impact of political environment on business.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the components of business environment.

10. Critically analyse the entering of MNCs in less developed country.

11. Discuss the impact of growing middle class in India towards business.

12. Analyze the role of center and state relationship in improving business in India.

13. What are the socio-economic effects of technological change?

14. Discuss the various forms of capital flows in India.

15. State various measures for the prevention and settlement of unethical trade practices in India.

DE–4074 **23**

DISTANCE EDUCATION

M.B.A. (S & PM) DEGREE EXAMINATION, MAY 2012.

Second Semester

QUANTITATIVE METHODS

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Write a short notes on variables and functions.

2. Define slope. Why is the concept of slope important in economics?

3. Explain about duality in linear programming.

4. Brief any one method of simulation.

5. Discuss the problems of degeneracy which arise in a transportation problem.

6. A coin is tossed and a single 6-sided die is rolled. Find the probability of landing on the head side of the coin and rolling a 3 on the die.

7. What is decision making? Explain decision making under uncertainty.

8. What is linear programming? What are the conditions to be satisfied for the application of LPP?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Solve the following LP problem :

Maximize $Z = 60X_1 + 40X_2$

Subject to

$2X_1 + X_2 <= 60$

$X_1 <= 25$

$X_2 <= 35$

and $X_1, X_2 >= 0$

10. Solve the problem for minimum cost of transportation.

		Stores (Destination)						Surplus (supply)
		1	2	3	4	5	6	
	1	9	12	9	6	9	10	5
Ware houses (origins)	2	7	3	7	7	5	5	6
	3	6	5	9	11	3	11	2
	4	6	8	11	2	2	10	9
Requirement (Demand)		4	4	6	2	4	2	

11. A businessman has an option of selling a product in domestic market or in export market. The available relevant data are given below :

Items	For export market	For domestic market
Probability of selling	0.6	1.0
Probability of keeping delivery schedule	0.8	0.9
Probability of not meeting delivery schedule	Rs. 50,000	Rs. 10,000
Selling price	Rs. 9,00,000	Rs. 8,00,000
Cost of third party inspection	Rs. 30,000	Nil
Probability of collection of sales amount	0.9	0.9

If the product is not sold in export market, it can always be sold in domestic market. There are no other implications like interest and time.

Should the businessman go for selling the product in export market? Use decision tree. (Remember the amount actually collected will be the selling price minus the inspection cost at export market).

12. Explain the concept of break even analysis and discuss its usefulness in decision making.

13. A company manufacturing scooters produces about 100 scooters a day. Due to the availability of raw materials and other conditions, deviations occur. The production is described by the following probability distribution:

Production per day :	96	97	98	99	100	101	102	103	104
Probability :	.06	.08	.11	.15	.20	.15	.11	.08	.06

The finished scooters are transported in a boat which has space for only 100 scooters. Use simulation to identify the average number of empty space on the boat and the average number of scooters waiting in the factory.

14. Define probability. Bring out the advantages and disadvantages of the following:

(a) Joint probability

(b) Conditional probability

(c) Marginal probability.

15. What are the different types of costs? List out and discuss on the costs that are relevant for decisions making.

SECOND SEMESTER

FUNDAMENTALS OF E-COMMERCE

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — ($5 \times 8 = 40$ marks)

Answer any FIVE questions.

1. What is HTTP? Bring out its importance.

2. What is a Firewall? List down its significance.

3. Enumerate the advantages of Database Systems.

4. Explain the types of Network Topologies.

5. Define

   (a) TCP

   (b) HTML

6. What is meant by E-Reservation? Why is it required?

7. What are the hardware and software requirements for E-commerce?

8. Explain the issues related to EDI implementation.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Discuss the applications and benefits of E-Commerce.

10. Explain the Relational model in RDBMS.

11. Elucidate briefly the components of EDI.

12. Explain in detail about public and private key cryptography with examples.

13. Expand and explain

    (a) EANCOM

    (b) RSA Algorithm

14. Explain the relationship between Internet, Intranet and Extranet.

15. Explain the various types of internet based technological bandwidth issues.

Second Semester

SHIPPING LAWS AND MARINE INSURANCE

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Point out the differences between common carrier and private carrier.

2. Critically examine the Hague Rule.

3. Define marine insurance. Why do we need marine insurance?

4. What are salvage charges? Discuss it in detail.

5. Explain the characteristics of Bill of Lading.

6. State the differences between general average and particular average.

7. Discuss the duties of an agent.

8. What is freight lien? Discuss it in detail.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Describe the responsibilities and liabilities of carriers.

10. Elucidate the differences between Major Ports Act and Indian Ports Act.

11. Explain the different type of contracts for salvage assistance.

12. Discuss the principles of Marine Insurance.

13. Discuss the various clauses of Marine Insurance Policies.

14. What is claims record? Discuss the provisions relating to maintain it.

15. Write short note on:

    (a) GA Guarantee

    (b) P and I Insurance and

    (c) Subrogation.

DE–4077 **31**

DISTANCE EDUCATION

M.B.A. (S & PM) DEGREE EXAMINATION, MAY 2012.

Third Semester

FINANCIAL MANAGEMENT

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Discuss the fundamental principles of financial decision.

2. Explain various approaches for measurement of business return.

3. Discuss the qualities which a sound capital structure should possess.

4. Explain and state the circumstances which favour the use of debenture financing.

5. What is capital budgeting? Why is it significant for a firm?

6. How would you assess the working capital requirements for a seasonal industry?

7. State the important recommendations of chore committee.

8. What is a selective control of inventory? Why is it needed?

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. In what respect is the objectives of wealth maximisation superior to profit maximisation objective? Explain.

10. Give a critical approach of the traditional approach and the MM approach to the problem of capital structure.

11. Explain and illustrate the utility and preparation of cash budget as a tool of cash management.

12. Define the concept of "cost of capital". State how would you determine the weighted average cost of capital of a firm.

13. The management of NIBHU Ltd , has called for a statement showing the working capital needed to finance a level of activity of 3,00,000 units of output for the year. The cost structure for the company's product, for the above mentioned activity level, is detailed below :

	Cost per unit Rs.
Raw materials	20
Direct labour	5
Overheads	15
Total cost	40
Profit	10
Selling price	50

Pass trends indicate that raw materials are held in stock, on an average, for two months. Work-in-progress will approximate to half-a-month's production finished goods remain in ware house, on average, for a month. Suppliers of material extend a month's credit two months, credit is normally allowed to debtors. A minimum cash balance of Rs. 25,000 is expected total maintained.

The production pattern is assumed to be even during the year. Prepare the statement of working capital determination.

14. 'A' Ltd is capitalised with Rs. 10 lakhs divided into 10,000 shares of Rs. 100 each. The management desires to raise another Rs. 10 lakh to finance a major expansion programme. There are four possible financial plans.

(a) All equity shares

(b) Rs. 5 lakhs in equity shares and Rs. 5 lakhs in debentures carrying 5% interest

(c) All debentures carrying 6% interest shares and

(d) Rs. 5 lakhs in equity shares and Rs. 5 lakhs in preference carrying 5% dividend. The existing earnings before interest and tax amount to Rs. 1,20,000 per annum.

(i) You are required to calculate earnings per equity share under each of the above four financial plans.

(ii) Also calculate the earnings per equity shares if on account of expansion the level of EBIT is doubled.

15. X Ltd is considering the purchase of a new machine which will carry out operations performed by labour. A and B are alternative models. From the following information, you are required to prepare a profitability statement and workout the pay-back period in respect of each machine.

	Machine A Rs.	Machine B Rs.
Estimated life of machine (years)	5	6
Cost of machine	1,50,000	2,50,000
Cost of indirect materials	6,000	8,000
Estimated savings in scrap	10,000	15,000
Additional cost of maintenance	19,000	27,000
Estimated savings in direct wages		
Employees not required (number)	150	200
Wages per employee	600	600

Taxation is to be regarded as 50% of profit (ignore depreciation for calculation of tax). Which model would you recommend? State your reasons.

Third Semester

SERVICES MARKETING

(2005 onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the characteristics of service?

2. Explain the purpose of market positioning.

3. Explain the top-down approach of resource allocation.

4. What is geographic segmentation?

5. Differentiate product from service.

6. Explain any two methods of pricing service.

7. Explain physical evidence.

8. Why service quality has to be improved?

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Explain the classification of services.

10. Explain the process of positioning shipping service.

11. "The process of market segmentation is easier than positioning a service" — Discuss.

12. Make a marketing plan for a service.

13. Explain in detail about service locations and channels.

14. Explain the promotional strategies for service.

15. Explain the areas of focus to remain the customers in our service.

Third Semester

HUMAN RESOURCE MANAGEMENT

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the objectives of Human Resource Management?

2. What are the characteristics of Human Resource planning?

3. What do you mean by job specification?

4. Differentiate placement from Induction.

5. Explain the factors that influence the fixation of wage.

6. What are the advantages of declaring bonus to the employees?

7. Explain the need for employee motivation.

8. Explain about any two trade unions in India.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the functions of HRM.

10. Explain the Human Resource Planning process.

11. Explain the reasons for Demotion and Separation.

12. Explain about various tests conducted in the selection process.

13. Saroopa is an employee in a leading shipping company in India. Saroopa says, "Job evaluation system is an eye wash". Do you agree?

14. Explain the steps to be taken to prevent accident.

15. Discuss collective bargaining in detail.

Third Semester

LOGISTICS MANAGEMENT

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. Briefly explain the concept of Life cycle logistics.

2. State the operations of physical distribution system.

3. What are the functions of warehousing?

4. Classify the type of cost data needed in logistics costing.

5. List the various modes of transportation and describe their merits and demerits.

6. Explain the environmental factors affecting the logistics management.

7. Trace the future trends of level of multimodalism in India.

8. Give a brief account on 'transportation costing'.

PART B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

All question carry equal marks

9. Marketing and Distributions are Interdependent. Discuss in detail.

10. Explain any two types of intermodel transportation. How can intermodel transportation helps to create a land bridge?

11. State the main functions of an integrated logistics information system with a block diagram.

12. Write a note on distribution information system in logistics management.

13. Give a brief account on:

    (a) Interdependence

    (b) Interaction

14. Briefly explain the importance of logistics management Illustration.

15. Discuss the significance of 'Intermodel transportation'.

MANAGEMENT INFORMATION SYSTEM

(2005 onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

All questions carry equal marks.

1. What is meant by a system? Also discuss with its components.

2. How does operational efficiency help in making strategic decision?

3. Give a note on transaction processing.

4. Discuss the logical data elements of a database.

5. Elucidate the planning and development process of a database.

6. List and explain the different fact finding techniques.

7. Narrate the strategic system planning.

8. Summarize the effective use of information and decision support system.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

All questions carry equal marks.

9. Elaborate on the procedure of decision making with information support.

10. Give a neat description on decision support system.

11. Explain the concept of data base management system and its usage for business application.

12. Describe the importance of data flow diagram with suitable illustration.

13. Write notes on features of

    (a) System documentation (8)

    (b) System analysis and design. (7)

14. Compare and contrast BSP approach with CSF approach.

15. Give a detailed description on importance of computer hardware, software and telecom devices in human life.
