M.B.A. DEGREE EXAMINATION, NOVEMBER 2017.

First Semester

MANAGEMENT CONCEPTS

(CBCS 2016 onwards)

(Common for M.B.A. (CS)/B&I/G/LM/IB)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Write a note on Universality of Management.
2. Explain decision making process.
3. What is centralization ? Give an example.
4. Write a note on motivation
5. Explain Total quanlity management

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) Discuss the nature scope and functions of management in detail.

Or

(b) Discuss the concept of decision making. How does decision making process considered under condition of certainty and uncertainty?

7. (a) Point out the nature importance and planning process in detail.

Or

(b) Explain in detail about joint ventures and Strategic alliances with suitable examples.

8. (a) Briefly discuss in detail about general principles of staffing and its importance with live example.

Or

(b) Explain the concept of transformational leadership and its merits and de-merits in detail.

9. (a) Explain the concept of six sigma in detail with suitable example.

Or

(b) What is business process reengineering? List out its merits and de-merits in detail.

10. (a) Do you agree that six sigma is a controlling technique.

Or

(b) List out the sources of manpower recruitment. What sources will you prefer to recruit management personnel and why?

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Over the last few decades, the United States beer industry has been characterized by a very clear trend toward an increase in the concentration of the market. Today, some 80% of all beer consumed in the United States is produced by just three companies—Anheuser-Busch (which is now owned by InBev of Belgium), SAB-Miller, and Molson Coors—up from 57% of the market in 1980. Anheuser-Busch had almost 50% of the market in 2008, up from just 28.2% in 1980. SAB-Miller (formed in

2002 when South African Breweries merged with Miller Beer) had around 19% of the market, and Molson Coors (formed in 2005 when Canada's Molson merged with Coors) had 11% of the market.

Anheuser Busch, SAB-Miller, and Molson Coors dominate the mass market segment of the industry, where competition revolves around aggressive pricing, brand loyalty, distribution channels, and national advertising spending. In contrast, there is another segment in the industry, the premium beer segment, which is served by a large number of microbrewery and importers, the majority of which have a market share of less than 1%. The premium segment focuses on discerning buyers. Producers are engaged in the art of craft brewing. They build their brands around taste and cover higher product costs by charging much higher prices—roughly twice as much for a six pack as the mass market brewers. The microbrewery and importers have been gaining share and currently account for about 11% of the total market.

Over the last two decades, the industry has changed in a number of ways. First, consumption of beer in the United States has been gradually declining (even though consumption of premium beer has been increasing). Per capita consumption of beer peaked at 30 gallons in 1980 and fell to a low of 21.8 gallons in 2007. The decline in consumption was partly due to the growing popularity of substitutes, particularly wine and spirits. In 1994 Americans consumed 1.75 gallons of wine per capita By 2006, that at figure had risen 2.16 gallons. Consumption of spirits increased from 1.27 gallons per capita in 1994 to 1.34 gallons per capita over the same period.

Second, advertising spending has steadily increased, putting smaller brewers at a disadvantage. In 1975, the industry was spending $0.18 per case on advertising; by 2002 it was spending $0.40 per case. (These figures are in inflation adjusted for constant dollars.) Smaller mass-market brewers could not afford the expensive national

TV advertising campaigns required matching the spending of the largest firms in the industry, and they saw their market share shrink as a result.

Third, due to a combination of technological change in canning and distribution and increased advertising expenditures, the size that a mass-market brewer has to attain to reap all economies of scale—called the minimum efficient scale of production—has steadily increased. In 1970, the minimum efficient scale of production was estimated to be 8 million barrels of beer a year, suggesting that a market share of 6.4% was required to reap significant economies of scale. By the early 2000s, the minimum efficient scale had increased to 23 million barrels, implying that a market share of 13.06% was required to reap significant economies of scale.

By the early 2000s, only 24 mass-market brewers were left in the United States, down from 82 in 1970. Among the remaining mass-market brewers, Anheuser Busch is the most consistent performer due to its superior economies of scale. The company's ROIC has been high, fluctuating in the 17% to 23% range between 1996 and 2008, while net profits grew from $1.1 billion in 1996 to $2 billion in 2008. In contrast, both Coors and Miller, along with most other mass market brewers, have had mediocre financial performance at best. Coors and Miller merged With Molson and SAB respectively, in an attempt to gain economies of scale"?

Questions:

(a) Why has the United States brewing industry become more concentrated over the last two decades?

(b) Are there different strategic groups in the industry? What are they? Do you think the nature of competition varies between groups?

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

First Semester

BUSINESS EVNIRONMENT

(Common for M.B.A. (CS)/B and I/G/LM/IB)

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Section A (5 × 3 = 15)

Answer **all** the questions.

All questions carry equal marks.

1. Define ecological environment.
2. What is political maturity?
3. Define foreign collaboration.
4. Write short notes on clean technology.
5. What is environmental protection?

Section B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b).

6. (a) Describe the various components of external environment that influence the business policy of an organisation.

Or

(b) Explain the impact of socio-cultural factors on business.

7. (a) Explain how political environment affects business in India.

Or

(b) Why is political stability imperative to business development and growth? Elaborate.

8. (a) Describe the advantages and disadvantages of foreign capital in the industrial development of a country.

Or

(b) 'Economic environment has a significant impact on any business'. Explain.

9. (a) Discuss how the information technology is impacting Indian businesses.

Or

(b) How does cultural environment impact business?

10. (a) Explain the salient features of consumer protection act.

Or

(b) Explain the legal aspects of entering secondary markets.

Section C $(1 \times 10 = 10)$

Compulsory

11. Synco textile private limited operates an oil mill to produce edible oils and oil cake from oil seeds. On August 19, 1996 it purchased from Greaves cotton and Co., Ltd., three generator sets for Rs. 5,53,000 but they turned to be defective one of the engines had an undersized crankshaft. The rubber rings used in the three generating

sets were of inferior quality; as a result water had entered into the engines. Synco corresponded with Greaves for the replacement of the defective crankshafts, rubber rings and other parts. However, the communication did not yield any result.

Synco approached the Rajasthan state commission with a claim for a recovery of the three engines; Rs. 10,000 incurred towards the repairing of the gensets and Rs. 4 lakhs towards losses for equipment having been kept idle for five months. The state commission dismissed the case as purchase has been for a commercial purpose and thus in its judgement Synco was not a consumer within the meaning of consumer protection Act.

Synco took the case appeal to the national consumer council. Synco argued that the commission had been mistaken in its interpretation of commercial purpose. It should have distinguished between commercial purpose; commercial organisation and commercial activity. Synco argued that it was trading in edible oil and oil cake, it was not involved in the production of power or the manufacture of plant and machinery. It emphasised that the electricity produced by the generator sets was not meant for product purposes not commercial purpose.

Questions:

(a) What do you feel about the legal aspects in this case?

(b) In what way we use the Consumer Protection Act?

FINANCIAL AND MANAGEMENT ACCOUNTING

(Common for M.B.A. (CS)/B&I/G/LM/IB)

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Section A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Define Accounting.
2. What do you mean by Debt Turnover Ratio?
3. What is an Investment Activity?
4. What is the Payback Period Method?
5. What is Deferred Revenue?

Section B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

6. (a) Explain the Nature and Scope of Accounting.

Or

(b) Discuss the various Accounting Concepts and Conventions.

7. (a) What are the Types of Financial Statement Analysis? Explain.

Or

(b) Describe the Merits and Demerits of Ratio analysis.

8. (a) What are the Advantages and Limitations of Cash flow statement? Discuss.

Or

(b) Describe the Scope and Objectives of Fund Flow Statement.

9. (a) Explain the Features and Significance of Capital Budgeting.

Or

(b) What is Budget? Explain its Importance.

10. (a) Differentiate between Indian Accounting standards and International Financial Reporting standards.

Or

(b) How Borrowing Cost are recognized as per Ind AS 23? Explain.

Section C $(1 \times 10 = 10)$

Compulsory.

11. Equipment A has a cost of ₹ 75,000 and net cash flow of ₹ 20,000 per year for six years. A substitute equipment B would cost of ₹ 50,000 and generate net cash flow of ₹ 14,000 per year for six years. The required rate of return of both equipments is 11 per cent. Calculate the IRR and NPV for the equipments. Which equipment should be accepted any why?

ORGANIZATIONAL BEHAVIOUR

(Common for MBA (G) / IB / B&I (CS))

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Explain a few models of Organizational Behaviour.
2. What are the major factors that determine Individual behavior?
3. Define the term Group and Group dynamics.
4. Define Power and Authority.
5. Explain the importance of Organizational Climate.

Part B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b).

6. (a) Explain the different approaches to study the Organizational Behaviour.

Or

(b) What is Organizational Behaviour? What is its scope?

7. (a) What is an Informal group? What are the different types of Informal groups?

Or

(b) Define the term Stress. What are its sources?

8. (a) What are the sources of Power? Discuss how power is acquired?

Or

(b) What are the characteristics of Power?

9. (a) Define group Cohesiveness. What are the sources of Cohesiveness?

Or

(b) What are the consequences of Group cohesiveness?

10. (a) Discuss the nature of Organizational Development. What are the assumptions underlying in the Organizational development?

Or

(b) What are the reasons for resistance to change? What can the management do overcome such resistance.

Part C (1 × 10 = 10)

Compulsory.

11. CASE STUDY: A PROBLEM AT McDonald's

McDonald's Corporation, perhaps the premier hamburger retailer in the world for decades, now faces significant problems. Within the last 10 years, McDonald's share of fast food sales in the United States has slipped almost two percentage points. The drop has come despite in the company's increasing its number of restaurants by 50%, thereby leading the industry. Michael Quinlan, CEO at McDonald's is very disturbed and wants to introduce a new system in his restaurants. Quinlan is an astute manger, and he knows that many problems will arise before the system contributes all that it can to the success of the organization.

Questions:

(a) How should McDonald's try to regain its lost sales by applying the learning organization approach?

(b) List some advantages of adopting the learning organization approach?

MANAGERIAL ECONOMICS

(Common for MBA(G)/IB/B&I/LM)

(CBCS 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A $(5 \times 3 = 15)$

Answer **all** questions.

All questions carry equal marks.

1. What do you mean by Time value of money?
2. Explain the concept of Law of demand.
3. Write a short note on penetrative price.
4. Define National Income. Also explain the concept of National Income.
5. Explain the cost output relationship.

Part B $(5 \times 10 = 50)$

Answer **all** questions choosing either (a) or (b).

6. (a) What are the determinants of Demand?

Or

(b) What are the determinants of Supply?

7. (a) What are the different methods of Pricing?

Or

(b) Explain the concepts of risk and return relationships.

8. (a) Explain any two theories of Profit.

Or

(b) Write a short note on Balance of Payment.

9. (a) Discuss a different phases of business cycle. What are the effects during the expansion and recession?

Or

(b) Explain the method of Price determination under Monopolic competition.

10. (a) What you mean by Duopoly and Oligopoly?

Or

(b) Explain the concept of Cost volume Profit analysis.

Part C $(1 \times 10 = 10)$

Compulsory

11. Case study

The public distribution system in Tamil Nadu is unique since it is based on the size of the people and covers all families. The state government has adopted the Universal Public Distribution system as against the targeted Public Distribution system advocated by the government of India. Under the targets Public

Distribution system, the families living below the poverty line (BPL) are supplied essential commodities at much Lower prices than the families above the poverty line (APL).

But under the Universal Public Distribution system followed by the government of Tamil Nadu, no such distinction is made among the families and all families are supplied essential commodities at the same rates.

The essential commodities that are supplied under the public distribution system are rice, wheat, sugar, and kerosene Here, the details of rice supplied under the public distribution system since 3rd June 2006, its price and the scale of supply given below in the table.

Item	Price per kg	Scale of supply
Rice	Rs. 2 per kg	4 kg per adult and 2 kg child : minimum of 12 KG and maximum of 20 kg per month8/card. In Nilgiris District : minimum of 16 kg and maximum of 24 kg

Let us assume that the free market price of rice is Rs. 9 per kg. However, the Tamil Nadu Government decides to supply rice at Rs.2 per kg through its Public Distribution system.

Questions :

(a) What will be the policy affect on consumer and Producer Surplus?

(b) Describe the likely Economy Impact.

STRATEGIC MANAGEMENT

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Define Strategy.

2. Write a short note on ETOP analysis.

3. Describe core competencies.

4. What do you mean by portfolio analysis?

5. Describe ERP.

Part B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b).

6. (a) Explain the process of Strategic Management.

Or

(b) Explain about the different level of strategic planning.

7. (a) Explain the grand strategies.

Or

(b) Write a short note on

(i) Industry analysis

(ii) Strategy formulation.

8. (a) Explain the porter's Genetic Strategic model.

Or

(b) Explain the functional level strategies.

9. (a) Explain the steps in strategic implementation.

Or

(b) Explain the strategies adopted in different stages of the business in BCG matrix.

10. (a) Enumerate the need for strategic evaluation and control.

Or

(b) 'Internal evaluation and control measures affects the normal functioning of the organisation' – Discuss.

Part C $(10 \times 1 = 10)$

MANAGEMENT CONTROL AND INFORMATION SYSTEM

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Define Data.

2. Describe project centre.

3. Enlist the advantages of office automation.

4. Write a short note on system analysis and design.

5. What do you mean by service organisation?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

6. (a) Describe the nature of Management control.

Or

(b) Explain the classification of information system.

7. (a) Explain mechanism of transfer pricing.

Or

(b) Describe the process of Management control.

8. (a) Differentiate strategic decisions from tactical decisions.

Or

(b) 'Automation leads to effective implementation of new technologies by mapping the gaps' – Discuss.

9. (a) Explain Data flow diagrams with an example.

Or

(b) 'System study is vital and is the base for effective implementation of MIS' – Discuss.

10. (a) Explain different types of controls required for service organisation.

Or

(b) Why non-profit organisation requires Management control and information system?

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Design a MIS for your department and justify.

WORKING CAPITAL MANAGEMENT

(CBCS 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What do you mean by Gross working capital?

2. What is optimum cash level in an organisation?

3. What are bad debts? How do you recover them?

4. Identify the types of inventory.

5. List the sources of working capital.

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

All questions carry equal marks.

6. (a) What are the determinations of working capital?

Or

(b) What is the length of operating cycle? The cash cycle? Assume 365 days in a year.

			2016	2017
Sales	80	Inventory	9	12
Cost of goods sold	56	Accounts receivables	12	16
		Accounts payables	7	10

7. (a) Explain cash collection and disbursement methods.

Or

(b) Zeta requires Rs. 1.5 million in cash for its transactional needs. Zeta can sell its marketable securities which at present earn 16% interest annually. The conversion of the marketable securities in to cash entails a fixed cost of Rs. 500 per transaction. What is the optional size of conversion?

8. (a) What factors do you consider in formulating a credit policy?

Or

(b) A company sales are Rs. 100 million. The average collection period is 30 days. Variable cost to sales ratio is 0.75. Cost of capital is 14 per cent Bad debt ratio is 0.4. Tax rate is 30 percent. The company is planning to relax its collection effort. The sales are expected to go up by Rs. 10 million and increase collection period to 40 days. It raises bad debt ratio to 0.05. What is the effect of relaxing the collection effort on residual income?

9. (a) Explain the methods of monitoring and controlling inventories.

Or

(b) Modern enterprises required 90,000 units of a material annually. It costs Rs. 3 per unit. The cost per purchase order is Rs. 300. Inventory carrying cost is 20 per cent per year. Find EOQ. If supplier offers discounts as given under, what is optional order quantity.

Order quantity	Discount (%)
4500-5999	2
6000 and above	3

10. (a) Identify the recommendations of Tandon and chore committee and discuss their implications to management of working capital.

Or

(b) What are the merits and demerits of different sources of working capital?

Part C (1 × 10 = 10)

Case study : Compulsory question

11. The following information relates to XYZ company

	Rs.
Sales (at two months credit)	3,60,000
Materials consumed (two months credit)	9,00,000
Wages paid (monthly is arrear)	7,20,000
Manufacturing expenses outstanding at the end of the year (cash expenses paid one month is arrear)	80,000
Administrative expenses, paid as above	2,40,000
Sales expenses (paid quarterly in advance)	1,20,000

The company sells its products on gross profit of 25 per cent counting depreciation as part of the cost of production. It keeps one month's stock each of raw materials, and finished goods and a cash balance of Rs. 1,00,000. Assuming a 20% safety margin, calculate the requirements of working capital of the company on cash cost basis. Ignore work in process.

SECURITY ANALYSIS AND PORTFOLIO MANAGEMENT

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** the questions.

All questions carry equal marks.

1. Explain the benefits of DEMAT.
2. What are the limitations of fundamental analysis?
3. Explain efficient market hypothesis.
4. What is CAPM?
5. Explain portfolio types.

Part B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Distinguish between primary and secondary markets. What are the recent trends in primary and secondary market?

Or

(b) What is the risk? Explain the different types of risk. How do you reduce the risk.

7. (a) Explain how economic analysis can be performed.

Or

(b) Examine the importance of industry analysis in investment decisions.

8. (a) Explain the different types of charts used in technical analysis. Is technical analysis reliable?

Or

(b) Identify different measures in technical analysis.

9. (a) Explain in brief Markowitz and Sharpe models.

Or

(b) Explain the features of factor models. Explain in brief arbitrage pricing theory.

10. (a) Discuss different types of risk adjusted measures of portfolio performance.

Or

(b) Explain the methods of measuring returns and risk

Part C $(1 \times 10 = 10)$

Compulsory.

11. "A prudent investor was both fundamental and technical analysis" – Discuss by supporting with subject concepts.

FINANCIAL MARKETS AND INSTITUTIONS

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** the questions.

1. What do we mean by Non-banking finance companies (NBFC's)?

2. List out the objectives of SIDCs.

3. Write notes on IBRD.

4. What is credit rating? Describe its process.

5. Distinguish between primary, secondary and derivative markets.

Part B (5 × 10 = 50)

Answer **all** the questions.

6. (a) Explain in detail of stock holding corporation of India limited (SHCIL).

Or

(b) Describe the various types of risks encountered by commercial banks.

7. (a) Explain the working and progress of industrial reconstruction bank of India.

Or

(b) Describe the promotional and developmental role played by IFCI.

8. (a) Write notes on international monetary fund. Explain in detail about the function of Asian development bank.

Or

(b) Comment on any three international financial institution roles in India.

9. (a) Discuss the role of leading financial institutions in the promotion of venture capital in India.

Or

(b) Discuss in brief the life and non-life insurance organizations in India.

10. (a) "Money market instruments have helped the money market to become more organised then before". Explain with reference to role and working of Treasury bills and inter company deposit market in India.

Or

(b) SEBI and IRDA are two important regulatory agencies for capital markets and insurance segment, respectively in India. Discuss the measures taken by SEBI in the recent past for investor protection.

Part C $(1 \times 10 = 10)$

Compulsory.

11. Case Study:

How much is enough and is economic growth being sacrificed for the "comfort" of accumulating foreign exchange reserves? A sharply defined debate on these two questions facing the forex managers was kicked off here

on Friday by Reserve Bank of India Deputy Governor Shri. Yaga Venugopal Reddy, with opinion divided among economists on whether the central bank should continue to accumulate reserves or use them to stimulate growth.

Defining "comfort" in a variety of ways, Dr. Reddy zeroed in on "the stability of financial markets" and the assurance of external confidence as the driving elements defining the country's forex management. In a world of liberal flows and globalization of financial markets, it is no longer import cover that defines forex adequacy but the insurance against risk, the assurance of stability, the management of "lumpiness" in the demand and supply of currency, geopolitical and strategic factors and so on which define the "adequacy" of reserves, he asserted.

When the level of forex reserves crossed the $50 billion mark earlier this year, several economists criticized the RBI for continuing to stock forex and not casing up fast enough on capital account and trade liberalization. Use the money to stimulate growth said Professor Deepak Lal, estimating that India may have lost anything between 3 to 5 percentages points of growth during the second half of the 1990s with the policy of reserve build up.

In the face of such damning numbers, Dr. Reddy was not at all defensive. Yes, he conceded, there are political and institutional factors at play which prevent the RBI from being more pro-active in letting reserves be drawn down. After all, the RBI does not any longer look at only the import cover that reserves afford. More importantly, forex reserves are not maintained for the sake of the cash alone, though there is a precautionary motive in maintaining adequate reserves. Nor are they maintained to earn revenues, though there is some income that accrues from such reserves. But they are also maintained, and increasingly so, to impart stability to markets and boost investor confidence as well as general confidence in the sovereign.

Given the fact that Brazil saw its whopping $80 bn reserve dwindle down in days and several other countries have had to fight rearguard battles to defend their

currencies and reserves, an economy like India, with its political, institutional and infrastructural rigidities, can ill-afford to run the risk of letting reserves be whittled down by the play of speculative market forces in the forex market. Hence, a bit of considered management is a good option and Dr. Reddy seemed to receive the endorsement of most of his New Delhi audience as well as the many experienced policy makers who turned up to hear him.

All indications are that India will continue to liberalize the trade sector. We will continue to export more goods and services. True, we will also import more, but the exchange rate mechanism (and tariffs) will act as a restraining factor. All indicators point to a more liberal regime for foreign direct investment. So long as the rate of inflation is under control and there is an interest differential, private remittances will continue to flow into the country. Our corporate have shown a remarkable capacity to access foreign capital. It is a sign of their growing competitiveness and efficiency, and there is reason to believe that more companies will be able to raise both debt and equity abroad. That leaves tourism. Even with muddled policies and meddling governments, 2.3 million tourists arrive in India. If we can get our act together, this number can be easily raised to, first, 5 million and then to 10 million. Given these objective conditions, I believe that India's foreign exchange reserves will continue to grow.

Our reserves are "adequate" if they give us the confidence to leverage that strength. Our reserves will be useless if we continue to treat them as hoard and believe they will always be inadequate.

Questions :

(a) What are the sources of forex reserves in India?

(b) What are the motives behind holding 'adequate' forex reserves?

(c) What according to you can RBI do, with such large forex reserves?

(d) What is full convertibility of Rupee? Can we go for it now?

CONSUMER BEHAVIOUR

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Describe 'interpritivist' approach.
2. Define perception.
3. Who is an opinion leader?
4. Describe social class.
5. Describe new customer.

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) Explain the significance of behaviour of consumer in making marketing decisions.

Or

(b) Explain the bases of market segmentation.

7. (a) How personality affects purchase and consumption decision?

Or

(b) Explain any two learning theories relating to consumer behaviour.

8. (a) Explain the diffusion of innovation process.

Or

(b) How reference group affect purchase and consumption decision?

9. (a) Explain the influence of culture in preference of products.

Or

(b) 'Consumer protection is very limited in India comparing to developed nations' – Discuss.

10. (a) Explain any one comprehensive model of consumer decision making.

Or

(b) Why should non-project organisation understand consumer behaviour?

Part C $(1 \times 10 = 10)$

Compulsory.

11. 'The organisation should understand the level of learning and attitude of the consumers' – Discuss.

MARKETING COMMUNICATIONS

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. Enumerate the benefits of advertising.

2. State the objectives of advertising.

3. Distinguish between media plan and media strategy.

4. What are the major criticisms on advertising?

5. Explain the concept of publicity with an example.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Briefly describe the historical developments of marketing communications.

Or

(b) Make a critical review of growth of advertising and point out the future trends.

7. (a) Describe in detail advertising communication process.

Or

(b) Explain different types of advertising media and state their merits and demerits.

8. (a) Discuss the development of media strategy with the help of an example.

Or

(b) Which type of advertising budget is suitable to new and mature products?

9. (a) How is the effectiveness of an advertising campaign assessed?

Or

(b) Examine the role of advertising agency is the design and promotion of ads of a company.

10. (a) How do you create publicity for a new product? What are the benefits of publicity?

Or

(b) What do you mean by integrated marketing communication? With the help of case examples explain its use in industry?

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Case study :

Case : Domino's pizza's response to rumours on social media

Back in 2009, before Domino's Pizza ever had a social media presence, they found themselves launched into a viral attack when two employees in their Conover North Carolina. USA franchise uploaded a video to Youtube of themselves doing disgusting things to a sandwich before it went out on delivery. As you can imagine, the video

instantly went viral and Dominos Pizza was instantly launched into a full social media crisis unlike anything they could have ever imagined. A social media crisis will not go away on it's own. It will continue to build momentum, escalating to a point beyond control.

Even though Domino's didn't yet have a social media presence, they were quick to be notified about the crisis thanks to their loyal fans. Had they not been notified, who knows how long it might have taken for them to detect and react to the crisis. In many ways, their loyal fans saved them.

Once Dominos realized that the crisis was building momentum and increasing it's viral exposure, they quickly set up a Twitter account to respond and reassure customers that this was an isolated incident and that they were in the process of taking the necessary measures to correct it. Once they were set up with a Twitter account, they quickly posted an apology to their website, before their official statement was released. They then asked their Twitter followers to help them spread the word by retweeting the link. This helped to calm the storm until they were ready to release their official public statement.

The Company had their U.S president, Patrick Doyle personally issue the response video.

Questions :

What lessons are learnt from Domino's social media crisis plan and how will it help you understand Marketing Communications? Share your comments for the above case.

BUSINESS MARKETING

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Section A (5 × 3 = 15)

Answer **all** the questions.

1. List out the need of business marketing.

2. Distinguish between RFP and RFQ.

3. What are the usefulness of marketing research in understanding customers and competitors?

4. What are the reasons for new product failures?

5. What do you understand by channel width?

Section B (5 × 10 = 50)

Answer **all** the questions.

6. (a) Discuss the concept of marketing. How is marketing orientation relevant to business?

Or

(b) Explain the classification of business products and services.

7. (a) Briefly explain the factors that influence consumer behavior.

Or

(b) Describe the various stages in the buying decision process.

8. (a) Discuss the significance of segmentation, targeting and positioning for industrial products.

Or

(b) What do you understand by Marketing information systems (MIS)? Explain various elements of MIS in detail?

9. (a) List and explain the factors that affect the pricing strategy of the company.

Or

(b) What is business advertising? Discuss its objectives and problems in India

10. (a) Explain the various Channels of distribution.

Or

(b) Give brief notes on channel relevance and channel participants. Explain various issues in industrial distribution.

Section C $(1 \times 10 = 10)$

Compulsory

11. CONSUMER RESEARCH ON HORLICKS:

It's a brand that's been growing steadily over the years and increasing the audience that it addresses as well. The new ad campaign of the Rs. 600 crore Horlicks brand is just hitting national networks and the message is clear,

'many things to many people. Although Horlicks features in the top 10 of most consumer surveys this is one of its highest ratings so far. Says Simons J. Scarf, managing director, Smith Kline Beecham Consumer Healthcare (SBCH), "We are delighted at the rating that Horlicks has got in the ET survey. Were obviously aware of the power of Horlicks through our closeness to consumers, but it is always nice to get independent acknowledgement of the fact."

The flagship of SBCH, Horlicks has been showing consistent annual value growth of about 25 per cent in the last three years. And more is expected. Which is why SBCH is busy setting up a Rs. 250 crore dedicated Horlicks facility at Sonepat, Haryana.

Invented in 1873 by James Horlicks, the brand has been available in India for 70 years. From being a drink taken only during convalescence the brand has repositioned itself since the seventies as a 'great family nourished'. Explains Scarf, "We have nurtured the equity of Horlicks carefully over the years and this has resulted in a unique relationship between the brand and millions of consumers across India".

In fact, the company's consumer research shows that consumers over time and experience have developed an emotional bonding with the brand. That's something they find more powerful than a rational bonding, Vibrancy has been maintained despite its mature age by avoiding complacency. Most big brands with huge equities tend to fall to the temptation of sitting tight. And that in turn can result in a brand losing relevance

But Horlieks has taken a proactive stance. Explains R, Shyam Sundar, head of marketing — nutritional business, SBCH, "Our learning has been that if there is a big brand with a lot of equity and it does nothing new, someone else usually comes in and segments the market. If Instead, the market leader is the one to segment, he can gain the most". So before anyone else could, the

company stake out some new turf. Which is why Horlicks has come out with new products such as Junior Horlicks, Mother's Horlicks and Horlicks Biscuits? The idea here is to extend the core values to new formats and benefits.

And that in turn grows the market. Take biscuits. They've meant a different distribution and marketing technique-allowing access to the brand at a low price. And that gives the brand a means to get into smaller outlets — including the corner pan-bidi shop where it never could have been before. Even if products like Junior Horlicks cannibalize the mother brand, at least 80 percent of its users are new incremental consumers.

Questions

(a) Discuss the role of brand research in marketing.

(b) Discuss the objectives of brand research.

9. (a) Describe various training programs and methods for retail employees.

Or

(b) Discuss the role of IT in retailing.

10. (a) Describe in briefly about retail marketing mix and its strategy.

Or

(b) Describe the procedure to prepare a complete business plan in detail.

Section C (1 × 10 = 10)

Compulsory

11. **Wal-Mart's Strategies in China**

In 1962, Sam Walton (Walton) and his brother James Lawrence 'Bud" Walton opened the first Wal-Mart store in Rogers (Arkansas), USA. In the first year of its operations, the store registered sales of over $1 million.

Encouraged by the early success of Wal-Mart. Sam Walton expanded Wal-Mart's operations to Oklahoma and Missouri in 1968. In the following year, Wal-Mart, was incorporated as a company under the name Wal-Mart Stores Inc. In 1972, Wal-Mart was listed on the New York Stock Exchange. Wal-Mart continued to grow in the 1970s, benefiting from its highly automated distribution system, which reduced shipping costs and time, and its computerized inventory system, which speeded up the checkout and reordering of stocks.

By 1975, there were 125 Wal-Mart stores in operation with sales of $ 340.3 million and 7,500 employees. The famous 'Wal-Mart Cheer' was introduced by Walton in the same year to foster cooperation and team spirit among employees.

By 1980, Wal-Mart had 276 stores with annual sales of $ 1.4 billion and by 1984 the number of stores increased to 640 with annual sales of $ 4.5 billion and profits of over $ 200 million.In the 1980s, strong customer demand in small towns led to the rapid growth of Wal-Mart. The main reason for Wal-Mart's uccess in smaller towns was that it offered low prices and catered to the specific needs of small towns. It offered the kinds of products that customers most needed, and maintained business hours according to the customers' convenience.

Wal-Mart began the groundwork for its Chinese operations in 1994 when it sent a team of executives to China It started its actual operations in China in August 1996 at Shenzen with the opening of its first Super Centre and Sam's Club in partnership with shenzhm International Credit Investment Company. To maintain its practice of EDLP, Wal-Mart adopted a three pronged approach in China. First, it focused on increasing local procurement thus reducing procurement costs. Second, it maintained satisfactory supplier relationship during its initial years by paying suppliers within 3-7 days. Third it established modern commodity distribution centers and computerized its management to improve efficiency and reduce cost

Unlike Chinese companies, at Wal-Mart, associates found a high degree of transparency in relation to career growth. All new employees went through three months training at Shenzhen. Wal-Mart valued an individual's competence rather than personal connections when promoting an employee.

According to a report by People's Daily Online, Du Limin who started her career as an ordinary checkout person at Wal-Mart, became general manger of a Sam's Club in Shenzhen in just two years. In 2003, Wal-Mart figured among the 15 most popular foreign employers in China in a survey of university students conducted by China HR.com one of the leading online recruitment websites in China. Wal-Mart suppliers also underwent "standards

training." As per Wal-Mart standards, suppliers were not allowed to have a work-week of more than 40 hours. Wal-Mart also restricted overtime to three hours per day and emphasized that safety requirements were met and satisfactory accommodation was provided to the workers.

Wal-Mart's Chinese operations have had their share of problems. The company's supply chain operations were not as efficient as in its home market. In addition, there was stiff competition from both local Chinese retailers and from foreign retailers who had established their base in China. Thus, even after nine years of presence in China, Wal-Mart was still very small with just 48 stores. Its 2004 sales from the Chinese operations were $940 million which was around 2% of its international sales and a miniscule portion of its total sales of $256.3 billion...

Wal-Mart had long been criticized for its slow international expansion. Analysts pointed out that its nearest rival, Carrefour, had gained a lot of ground due to rapid expansion in international markets. The same applied to China as well. Experts pointed out that Carrefour had been successful in China because it had been able to study Chinese consumers through its venture in Taiwan, while Wal-Mart did not have any such experiential advantage. Also, Wal-Mart did not make use of its first mover advantage and expanded slowly in China.

Questions:

(a) Discuss the Entry strategies of Wal-Mart's in international markets

(b) Explain the Impact of competition, culture and unique environmental factors on the performance of a firm in the international market.

ORGANISATIONAL CULTURE AND DEVELOPMENT

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. What are the different types of organizational cultures?

2. What is organizational change and development?

3. What is action research?

4. What is team intervention?

5. What is meant by human behaviour in an organization?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) Explain various dimensions of organisational culture.

Or

(b) What type of organizational culture emphasizes change and growth? Discuss.

7. (a) Describe major components to successful organizational development.

Or

(b) Discuss the techniques of organizational diagnosis.

8. (a) Discuss the advantages of action research in Organizational Development.

Or

(b) Describe the role of descriptive research in Organizational Development.

9. (a) Describe about inter-group interventions with examples.

Or

(b) Briefly explain about types, techniques of OD intervention.

10. (a) Discuss any three kinds of organizational change.

Or

(b) Discuss the strategies for successful organizational change.

Part C $(1 \times 10 = 10)$

Compulsory.

11. Netscape's Work Culture.

On November 24, 1998, America Online (AOL) announced the acquisition of Netscape Communications (Netscape), a leading Internet browser company, for $10 billion in an all-stock transaction. With this acquisition. AOL got control over Netscape's three different businesses — Netcenter portal, Netscape browser software and a B28 e-commerce software development division.

According to the terms of the deal, Netscape's shareholders received a 0.45 share of AOL's common stock for each share they owned. The stock markets reacted positively and AOL's sharevalue rose by 5% just after the announcement. Once shareholders and regulatory authorities approved the deal. Netscape's CEO James Barksdale (Barksdale) was supposed to join AOL's board. Many analysts felt that this acquisition would help AOL get an edge over Microsoft, the software market leader, in the Web browser market. Steve Case, (Case) Chairman and CEO of AOL, remarked, 'By acquiring Netscape, we will he able to both broaden and deepen our relationships with business partners who need additional level of infrastructure support, and provide more value and convenience for the Internet consumers."

However, a certain section of analysts doubted whether AOL's management would accept Netscape's casual and independent culture. Moreover, they were worried that this deal may lead to a reduction in Netscape's workforce, the key strength of the company.

A former Netscape employee commented. 'People at Netscape were nervous about the implications of AOL buying us.' Allaying these fears, in an address to Netscape employees, Case said, 'Maybe you joined the company because it was a cool company. We are not changing any of that. We want to run this as an independent culture".

In spite of assurances by AOL CEO, it was reported that people at Netscape were asked to change the way they worked. In July 1999, Netscape employees were asked to leave if they did not like the new management.

By late 1999, most of the key employees, who had been associated with Netscape for many years, had left. Barksdale left to set up his own venture capital firm, taking along with him former CFO Peter Currie.

Marc Andreessen (Andreessen) stayed with AOL as Chief Technology Officer till September 1999, when he left to start his own company, Loud cloud. Mike Homer, who ran the Netcenter portal, left the company while he was on a sabbatical.

Questions :

(a) Write your remarks about implementation of AOL in Netscape.

(b) Explain the merits and demerits after the implementation of AOL in Netscape.

STRATEGIC HUMAN RESOURCE MANAGEMENT

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Write the objectives of Strategic Human Resource Management.

2. What is Strategic Workforce Planning?

3. What are the different components of Strategic Compensation?

4. What is the purpose of Performance Management System?

5. What is downsizing in an organization?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) Describe the role of human resource management in an organization's strategic plan.

Or

(b) Discuss the role of HR in strategic planning.

7. (a) Discuss the challenges of Strategic Human Resource System in India.

Or

(b) Discuss about recruitment and selection methods, advantages and disadvantages.

8. (a) Describe various types of compensation strategies in detail.

Or

(b) Briefly analyse the relationship between Employee Development and Organizational Development.

9. (a) Describe the importance of performance management in HRM.

Or

(b) Briefly explain about high performance HR practices with example.

10. (a) Explain the importance of human resource information system in an organization.

Or

(b) Describe the strategies for successful organizational downsizing.

Part C $(1 \times 10 = 10)$

Compulsory

11. The Downsizing Phenomenon Worldwide

In the 1980s, downsizing was mostly resorted to by weak companies facing high demand erosion for their products or facing severe competition from other companies. Due to these factors, these companies found it unviable to

maintain a huge workforce and hence downsized a large number of employees. Soon, downsizing came to be seen as a tool adopted by weak companies, and investors began selling stocks of such companies in anticipation of their decreased future profitability. However, by the 1990s, as even financially sound companies began downsizing, investors began considering the practice as a means to reduce costs, improve productivity and increase profitability. This new development went against conventional microeconomic thorny, according to which a weak firm laid off workers in anticipation of a slump in demand, and a strong firm hired more workers to increase production anticipating an increase in demand.

In the 1990s, most firms were downsizing in spite of an economic boom; labor costs were not rising in relation to productivity and the companies anticipated greater demand for their products. However, this phenomenon is not very difficult to understand.

During the early 1990s, organizations resorted to downsizing on account of various reasons: to eliminate duplication of work after mergers and acquisitions (M&As), to optimize resources and cut costs, and to increase productivity and efficiency by eliminating unnecessary intermediary channels.

Companies expected the productivity of employees remaining after downsizing to increase as they thought it would be easier to train and manage a smaller workforce.

However, according to Hickok, an industry analyst, downsizing resulted in vast cultural changes (mostly negative) in the organization instead of an increase in cost savings or productivity. Hickok observed the following changes in organizational culture after downsizing: power shift from middle management to top management/owners; shift in focus from the welfare if the individual employee to the welfare of the organization as

a whole; change in working relationships (from being familial to competitive); and change in employer-employee relationship (from being long-term and stable to being short-term and contingent).

Questions :

(a) What are the major techniques used for downsizing?

(b) State your suggestion on downsizing.

HUMAN RESOURCE DEVELOPMENT

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. List out the importance of HRD.

2. What are the objectives of performance appraisal?

3. What is HRD climate?

4. Write a note on career planning.

5. What are the outcomes of HRD?

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) Define HRD. Distinguish between traditional personnel management and HRD.

Or

(b) Discuss the various challenges faced by organisation and HRD professionals.

7. (a) What is Performance appraisal? How are Performance Management systems different from Appraisal systems? Briefly outline the problems which may affect Performance appraisal effectiveness.

Or

(b) What is interpersonal feedback? Explain its importance's.

8. (a) Define Organisation Development and discuss its operational goals. Explain various phases of OD, with suitable examples.

Or

(b) Define organisational effectiveness. How the role of effectiveness can be promoted by the organisation?

9. (a) Define the term 'training and development. Bring out the importance of training and development.

Or

(b) Describe the various types of training methods.

10. (a) "The role of HRD in formulating and implementing strategies is crucial". Elaborate.

Or

(b) Briefly discuss the human resources development experience in India.

Part C (1 × 10 = 10)

Compulsory.

11. Read the case and answer the questions given at the end.

The HRD programme was decided to be initiated in ABC Oil Corporation as a totally fresh and uncontaminated idea. To introduce HRD as a fresh idea was in itself an innovative idea, since the Corporation had well-established Human Resources Management policies and practices. Yet, the very idea was mooted as a concept, accepted as a principle, presented to the top management in the company represented by the Directors and got cleared for introduction as a necessary intervention, considering the growth and development plans of the organisation.

To start with, the road-show of the concept comprised a wide campaign to create extensive awareness that Human Resource Development, as an issue, was everybody's baby and that it needs to be properly nurtured and cared for. When the whole objective was explained to critical senior management groups, the concept received wide acceptance. After all, any new idea should be worth looking into!

The top and senior management groups in the Corporation, thus backed and accepted in principle, the process of undertaking a company-wide campaign for the new-look HRD programme. This, no doubt, implied, that the established policies will continue to be operated, but are liable to be tested for validity and modified for deficiency, wherever called for.

The awareness campaign was set in motion with great vigour and gusto. The initial campaign was concentrated on executives at all levels. This pre-supposed two things: top management commitment as a vanguard action and executive involvement as a lead group activity. Within a short time, conferences, seminars, workshops and training programmes were designed, drawn-up and delivered throughout the organisation to cover virtually every executive.

What was missed in the process was the large bulk of non-executives. Though there was a plan to cover the non-executives in the second leg of the campaign, the very fact that initial efforts were going only in the direction of executives created its own rustles and rumbles.

The HRD action groups, who were spearheading and controlling the HRD activities, naturally had to take notice of the message which had come too soon from the non-executive categories of employees, It was, therefore, only natural to recognise that without waiting for the second leg of the campaign, the need was to advance the campaign schedule and initiate the HRD awareness prqgramme for non-executives as well. After all, the milk has to be given gladly to the baby who started crying!

But the process of covering the large mass of non-executive employees was not an easy task. The number as well as the spread at numerous locations throughout the country made the task much more difficult. Yet, it was felt necessary to achieve coverage of maximum number of non-executive employees to a one-day 'HRD awareness programme'. The programme outline was centrally designed but the specific inputs were left to be decided by the divisional and unit functionaries. The programme design provided for executives as faculty, who would cover small non-executive groups in lecture and discussion sessions on the whole concept of new HRD programme that the Corporation was contemplating. When the executives speak to the non-executives on any projected company programme, needing involvement of non-executives, a pinch of salt is always present!

This was true for the initial awareness programmes organised for non-executives as well. When it became clear that the message was not really going down to the participants, naturally the question arose whether it was worthwhile going ahead with the rest of the programmes covering the large majority of non-executives.

The HRD group stepped in and rolled back their campaign at least temporarily to review whether everything is going to be okay or not. It was the general view that there is a "receptability block" operating in the communication channel between the executive faculty members and the non-executive participants. This has to be overcome if the programme is to give the maximum possible return.

It was one of the ideas to try out the next few programmes with faculty drawn from among the non-executives themselves, rather than the traditional executive faculty. Employees from the non-executive category with excellent communication, comprehension and influencing skills were identified and provided with a briefing as to what exactly is the inherent purpose of the awareness programme.

It was a revelation to find a sea-change in the receptability of participants. Although, the programme input was the same, the difference lay in the fact that earlier the executive faculty used to speak to the non-executive participants, whereas now it was the non-executives themselves functioning as faculty, speaking to their own colleagues in a language perceived as their own. We often tend to forget this and end up reaping a harvest much below our expectation. Therefore, it is worth considering: why settle for a lean harvest when you can afford to have the full harvest! It is small ideas that often bring big results.

Questions:

(a) What is the problem as you see it? Elaborate.

(b) List the lessons learnt. What is your recommendation in this situation?

(c) What kind of training programme would you suggest as a part of the campaign for HRD awareness programme for non- executives?

(d) Identify HRD interventions for overall growth of the organisation.

PERFORMANCE MANAGEMENT

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What are the criteria for effective performance appraisal?

2. What do you understand by balance core card?

3. Define 360° degree appraisal.

4. What are the bases for determining incentives?

5. What is meant by attitude survey?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Define performance evaluation. What are the different assessment systems that organisations can use for assessing the performance of their employees?

Or

(b) What are the essential features of performance management systems? And also outline new trends in performance management.

7. (a) What is performance competency? Explain the process of managing competency in an organisation.

Or

(b) Describe performance behaviour. How does in contribute to organization and people development?

8. (a) Define competency. What are the various data collection methods in map competency? Distinguish between the Core competency and job-specific competency.

Or

(b) What is performance appraisal? Distinguish between 360 degree appraisal and 540 degree appraisal.

9. (a) "Implementing a reward strategy is easier said than done" – Discuss major challenges that an organisation is likely to encounter while pursuing a reward-based performance management strategy.

Or

(b) What is the significance of reward in performance management? Can reward contribute for enhancing performance of employees?

10. (a) What are the good qualities of a good counsellor? Briefly explain the various coaching styles and also the process of counselling.

Or

(b) Explain the process monitoring with a suitable examples and why are review discussions are important.

Part C (1 × 10 = 10)

(Compulsory)

11. Samson Electronic Ltd is a public Limited company engaged in the business of manufacturing long distance giant antennas. This organization employs about 900 engineers across the country. All of them are highly qualified and knowledge driven. The reward system of Samson is considered best. This is the reward system has all virtues of an ideal system and comprises monetary, non monetary and indirect monetary reward system. In fact, 'Samson Champion' is a non-monetary reward that is given annually to the best performing engineer, and is regarded as one of the best recognitions in the country. Many organizations in electronics industry follow principles and practices of Samson's reward system. Recently on independent agency carried out a survey on thousand organisation covering wide range of human resource management practices and found Samson's reward system as number one. Rakesh Malhotra, CEO of the company one day thought about using these best practices of reward to institutionalize performance culture in the organizations. However he is not quite clear how to go about it and what actions are to be taken for this. Therefore, he decided to hire services of a reward expert to advise and also to oversee the implementations of performance management institutionalization using existing reward practice.

Question :

Discuss how, what and why a manager hired for this purpose must do to realize the task of capitalizing on reward system for institutionalization of performance.

1. What is TT in Foreign Exchange?

2. How does a forward contract work?

3. What is a fixed exchange rate system?

4. What is the meaning of economic exposure?

5. Point out any three objectives of FEMA 1999.

Part B (5 × 10 = 50)

Answer **all** the questions, choosing either (a) or (b)

6. (a) Elaborate the types of quotations in foreign exchange.

Or

(b) State the types of Foreign Exchange markets.

7. (a) Give an account on differences between REER and NEER.

Or

(b) How does the purchasing power parity work?

8. (a) What is the difference between Nostro and Vostro account?

Or

(b) Explain the impact of Monetary Policy on exchange rates?

9. (a) Enumerate the economic consequences of exchange rate changes.

Or

(b) Give an account on Foreign Currency options in detail.

10. (a) List out the objectives and features of FEMA.

Or

(b) Explain the Foreign Exchange reserves in India and also explain its composition.

Part C (1× 10 = 10)

Compulsory

11. What do you mean by Foreign Exchange Market? Discuss in detail, the working of Indian Foreign Exchange Market.

Third Semester

International Business

INTERNATIONAL ECONOMICS

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. State any three scopes of International Economics.
2. What are the factors determining the gains from International Trade?
3. Explain the significance of Balance of trade.
4. What are the objectives of WTO?
5. What are the objectives of World Bank?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

6. (a) Explain the significance of International Economics.

Or

(b) Why is Comparative advantage theory is considered better than Absolute advantage theory?

7. (a) What trade blocs is India part of? Explain its role.

Or

(b) What are the barriers for International Trade?

8. (a) Elaborate the factors determining exchange rate.

Or

(b) How does the purchasing power parity work?

9. (a) What are the functions of World Bank?

Or

(b) State the functions of World Trade Organisation.

10. (a) Enumerate the factors determining FDI.

Or

(b) What are the causes for labour migration?

Part C $(1 \times 10 = 10)$

Compulsory.

11. State the competitive advantages and disadvantages that services exports from India confront, and make necessary suggestions to boost services exports.

LEGAL ENVIRONMENT OF INTERNATIONAL BUSINESS

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What do you understand rights of Unpaid seller?

2. What is Trade mark?

3. What is Export / Import license?

4. What do you mean Central excise?

5. What do you understand Customs duty?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

6. (a) State the Obligations of Buyer.

Or

(b) What are the provisions of passing of risk in International Sale Contract?

7. (a) What are the rights of Patentee?

Or

(b) What are the uses of Trade and Merchandise Marks Registration?

8. (a) Give an account on advantages and disadvantages of Arbitration.

Or

(b) State the objectives of Foreign Trade (Development and Regulation) Act.

9. (a) Explain the classification of Excisable goods.

Or

(b) What are the records required for the clearance of goods under Central Excise?

10. (a) Explain the duties of Customs Authority.

Or

(b) Explain the appraising procedures of Imported Goods.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. The Arbitration and Conciliation Act, 1996 has ensured minimal judicial intervention in arbitration proceedings — Comment on this.

GLOBAL MARKETING

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What do you mean Consumer Behaviour?

2. What is Product Standardisation?

3. What is Dumping?

4. Write a short note op Trade fair.

5. Point out any three Indirect Channels of distribution.

Part B (5 × 10 = 50)

Answer **all** questions choosing either (a) or (b).

6. (a) What are the internal Environments of Marketing?

Or

(b) What are the steps in the Decision making process?

7. (a) Enumerate the elements of Product strategies.

Or

(b) What is Market Segmentation? And explain how is it used in Target marketing?

8. (a) What are the different types of Pricing strategies?

Or

(b) Give a detailed account on anti-dumping measures.

9. (a) Give an account on Methods of Publicity and its Impact.

Or

(b) How do you identify the effectiveness of Media advertising?

10. (a) What are the advantages and disadvantages of Direct distribution?

Or

(b) What is channel Conflict? And explain its decisions in distribution.

Part C $(1 \times 10 = 10)$

Compulsory.

11. "Distribution channels are the link between producers and customers" Comment and

(a) Discuss the various types of intermediaries associated with both Direct and Indirect Methods.

(b) What are the factors that need to be considered before taking a decision as to whether to go for Direct or Indirect Exports?

CUSTOMS HOUSE AGENTS LICENSING REGULATIONS

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Section A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. What is duty drawback?
2. Explain about ICES.
3. What Re-importation?
4. Who is Authorized dealer?
5. Briefly state about Rebate provisions.

Section B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) Discuss the important features of CHALR 1984.

Or

(b) Explain value for assessment and Currency Conversion.

7. (a) Discuss the role of Information Technology in the promotion of customs and central excise e-commerce.

Or

(b) What are the duties and obligations of Customs House Agents?

8. (a) Why prohibitions are imposed on certain Imports and Exports? Discuss the items under the latest list of prohibition.

Or

(b) Discuss the various Export promotion schemes available under central sector scheme.

9. (a) Elucidate the salient features of Foreign Trade (Development and Regulations) Act, 1992.

Or

(b) What are the concessions and exemptions in service tax for exports?

10. (a) Explain the role and functions of Customs and Freight Forwarding Expert software.

Or

(b) Discuss the role and importance of FEMA, 1999 in relation to authorized dealers.

Section C $(1 \times 10 = 10)$

(Compulsory question)

11. "Goods and Service Tax (GST) is one of the few major tax reforms initiated by the government of India in the recent times". GST is going to benefit in the Indian industries traders, consumers and the economy as a whole. – Do you agree the statement? Justify your answer with suitable arguments.

International Business

GLOBAL BUSINESS INFORMATION SYSTEM

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. What is an information system? What is the fundamental role of IS in business?

2. What are the difference between system software and application software?

3. What is Image processing?

4. What is E- Advertising?

5. Describe the characteristics of Decision Support Systems (DSS).

Part B (5 × 10 = 50)

Answer **all** questions.

6. (a) What are the components of Information system?

Or

(b) "Discuss the Development, Implementation and Maintenance of MIS for MNCs.

7. (a) What are the several computer hardware development that you expect to happen in the next 10 years? How will these affect the business use of computers?

Or

(b) What is DBMS? Explain its importance in global Business.

8. (a) Write an essay about Electronic meeting system.

Or

(b) How do local area network and wide area network differ? Discuss their advantages and limitations.

9. (a) Discuss the role and application of Information system for Global business functions.

Or

(b) Explain the application of IT in E-Advertising.

10. (a) What do you mean by Transaction processing system? Discuss the features and components of a transaction processing system.

Or

(b) Write an essay about the Information system security.

Part C $(1 \times 10 = 10)$

Compulsory.

11. Southern Bank Limited operates in three southern states of India. Its principal functions include operating customers' saving, current, and fixed accounts. It advances loans to individuals and organizations in the

form of secured medium-term loans to business organizations, loans to individuals for buying consumer durables, and overdraft facilities to selected organizations. Besides, it has invested certain funds in Government Securities. The operations of the bank are conducted through three regional offices and 110 branches. The bank presently has manual information systems. It now wants to convert these systems into well-integrated computer-based information systems. For this purpose, the bank wants to identify its subsystems.

Question :

Suppose that you are required to advise the bank on the matter. How will you advise the bank? You can make your assumptions about the functioning of banking system.

First Semester

Logistics Management

PRINCIPLES OF LOGISTICS

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. How important is logistics to the national economy?
2. What is fourth-party logistics?
3. Why should a company develop a formal logistics strategy?
4. What are the objectives of logistical integration?
5. What is global logistics? What are the advantages of international logistics?

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

6. (a) Explain the relationships between logistics and other functional areas such as manufacturing marketing and finance.

Or

(b) Discuss the role of logistics in a customer value delivery chain.

7. (a) Compare and contrast domestic and global logistics operations.

Or

(b) Describe the functions of a warehouses in the supply chain of a company.

8. (a) Explain the term "SCM" and the reasons why it has received so much importance today.

Or

(b) Describe the key components of strategic supply chain management.

9. (a) Describe the macro dimensions of logistics.

Or

(b) Discuss the logistics systems modelling and its application in SCM.

10. (a) Describe the role of supply chain in e-business and B2B practices.

Or

(b) Discuss the role of government in global logistics.

Part C $(1 \times 10 = 10)$

Compulsory.

11. Make a list of logistics activities and participants in global supply chains. What major trends do you see in world trade and in the significance of global logistics?

RW–808

Sub. Code

M.B.A. (L & M) DEGREE EXAMINATION, NOVEMBER 2017

First Semester

QUANTITATIVE METHODS

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

All questions carry equal marks.

1. How linear programming is useful for decision making?
2. What are the properties of Binomial distribution?
3. Explain the basic concepts of Queuing theory.
4. What are the criteria for decision?
5. Explain the terms marginal cost and marginal revenue.

Part B (5 × 10 = 50)

Answer **all** questions, choosing either (a) or (b).

All questions carry equal marks.

6. (a) A cement factory manager is considering the best way to transport cement from three manufacturing centres P,Q,R to deposit A,B,C,D and E The weekly productions and demands along transportation costs per tonne are given below:

	A	B	C	D	E	Tonnes
P	4	1	3	4	4	60
Q	2	3	2	2	3	35
R	3	5	2	4	4	40
	22	45	20	18	20	135

What should be the distribution programme?

Or

(b) Solve the following problem by under graphical method

Maximize: $Z = 15X_1 + 10X_2$

Subject to constraints

$$4X_1 + 6X_2 <= 360$$
$$3X_1 + 0X_2 <= 180$$
$$0X_1 + 5X_2 <= 200$$
$$X_1, X_2 >= 0$$

7. (a) A sample of 3 items is selected at random from a box containing 12 items of which 3 are defective. Find the possible number of defective combinations of the said selected items along with probability of a defective combination.

Or

(b) Suppose that a manufactured product has 2 defects per unit of product inspected. Using Poisson distribution, calculate the probabilities of finding a product without any defect, 3 defects and 4 defects.(Given $e^{-2} = 0.135$)

8. (a) Explain the simulation method of queuing models.

Or

(b) At one-man book binding centre, customers arrive according to Poisson distribution with mean arrival rate of 4 per hour and the book binding time is exponentially distributed with an average of 12 minutes. Find out the following: The average number of customers in the book binding centre and the average number of customers waiting for book binding. The percentage of time arrival can walk in straight without having to wait. The percentage of customers who have to wait before getting into the book binder's table.

9. (a) Solve the game with the following pay-off matrix.

Player Y strategies

Player X Strategies	I	II	III	IV	V
1	9	12	7	14	26
2	25	35	20	28	30
3	7	6	–8	3	2
4	8	11	13	–2	1

Or

(b) Consider the following two machines and six jobs-flow shop scheduling problem

Jobs	1	2	3	4	5	6
Machine 1	4	10	14	8	18	16
Machine 2	6	12	10	12	6	8

(i) Find the sequence of the jobs which will minimize the makespan

(ii) Find the corresponding optimal makespan.

10. (a) From the following data obtain the regression equations:

X	6	2	10	4	8
Y	9	11	5	8	7

Or

(b) From the following table calculate the co efficient of correlation by Karl Pearsons method:

A	6	2	10	4	8
B	9	11	?	8	7

Arithmetic mean of A and B series are 6 and 8 respectively.

Part C (1 × 10 = 10)

(Compulsory)

11.

Activity	Preceding Activity	Optimistic time (a) in weeks	Most likely time (m) in weeks	Pessimistic time (b) in weeks
A	–	2	4	12
B	–	10	12	26
C	A	8	9	10
D	A	10	15	20
E	A	7	7.5	11
F	B,C	9	9	9
G	D	3	3.5	7
H	E,F,G	5	5	5

Answer the following questions.

(a) Find probability of project completion in 32 weeks.

(b) Find probability of project completion in 27 weeks.

(c) Find project completion time for 95% probability.

(d) Find probability of not completing project in 30 weeks.

Logistics Management

STRATEGIC LOGISTICS MANAGEMENT

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Define Strategy.

2. Define the term, Environmental Scanning.

3. Write a short note on Role of HR in logistics management.

4. List any two advantages of Portfolio Analysis.

5. Write any four advantages of ERP.

Part B (5 × 10 = 50)

Answer **all** questions.

6. (a) Discuss the significance of Strategic Planning

Or

(b) Elaborate on various dimensions of strategic decisions.

7. (a) Illustrate the significances of SWOT analysis with respect to logistics management.

Or

(b) Discuss the need for Strategy Alternatives with respect to Logistics Management.

8. (a) Elucidate on applicability of Porter's Model with respect to Logistics Management.

Or

(b) Write a note on Functional level Strategies in Finance.

9. (a) Explain the significances of Shell's Directional Policy Matrix.

Or

(b) Discuss the Behavioral Issues involved in implantation of new strategy.

10. (a) Narrate the importance of Balance Score Card approach.

Or

(b) Explain Operational Control with two examples with respect to strategic logistic management.

Part C $(1 \times 10 = 10)$

Compulsory

11. Study the Case below and answer the Question(s).

You aspire to become an entrepreneur for trading of Mobile Phones and Smart Television.

Discuss various aspects of environmental scanning and suggest an ideal Strategic Logistic model for trading of mobile phones and smart television.

RW–810

Sub. Code

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Third Semester

Logistic Management

LOGISTICS MANAGEMENT AND INFORMATION SYSTEM

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. What is information system design?

2. Write a note on Expert system.

3. What are activity sub systems?

4. What is networking?

5. What is M-Commerce?

Part B (5 × 10 = 50)

Answer **all** questions.

6. (a) How would you ascertain quality and value of information? Explain.

Or

(b) Explain the characteristics and basic requirements of MIS in logistics sector.

7. (a) Discuss decision support system with suitable examples.

Or

(b) What is the relevance and importance of information technology in logistics sector?

8. (a) Explain Electronic bulletin boards with examples.

Or

(b) Explain the various communication networks and its importance.

9. (a) How would you use MIS for Finance? Explain.

Or

(b) "There is a growth in the requirement of ERP in the logistics sector" – Comment.

10. (a) What are digital networks? How can it be effectively used?

Or

(b) "E-Commerce bases are important for logistics sector" – Discuss.

Part C (1 × 10 = 10)

Compulsory. Read the case below and answer the questions.

11. The payment gateway of Amazon takes in the account the debit card or credit card information of the end user who would place an order for a product. Netscape Secure Commerce Server is a vibrant tool that is used by Amazon with the help of the secure socket layer in order to store the banking information. These data are not made accessible over internet thus paving way for high

confidentiality and protection of customer data. The company also provide customer an option of making a part amount of the payment online and rest through the telecommunications post order. Legal as well as privacy policies are being communicated to the users at this stage thus ensuring that the trust component of customers is being increased. Yet another important part of Amazon CRM is the integration of logistics systems with that of the customer contact information Customers could track the progress of the shipping through logging in to the Amazon website and entering a unique identity order number; this enhances the confidence amongst the customers by offering tangibility in the services. At any point of time the customers could be able to know the status of the product.

(a) Do you think MIS is effective in Amazon? Explain.

(b) What are the possible issues that can happen in payment gateways? How Amazon is able to overcome?

Logistics Management

INTEGRATED LOGISTICS MANAGEMENT

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Give the meaning of integrated logistics management.

2. What are the major characteristics of reliability?

3. Specify the meaning of contracting.

4. State the importance of logistics management planning.

5. What is configuration management?

Part B (5 × 10 = 50)

Answer **all** questions.

6. (a) Describe the system approach of logistics management.

Or

(b) Elucidate the system safety and human factors engineering in logistics system.

7. (a) Explain the components of FMECA with reference to logistics engineering.

Or

(b) Bringout the functional supportability characteristics of logistics engineering.

8. (a) Discuss the role of critical path analysis and learning curve in logistics acquisition decision.

Or

(b) Enumerate the development and measurement of performance based systems engineering in logistics.

9. (a) Write the manpower planning and training for logistics system.

Or

(b) Elucidate the contractual planning and execution in logistics management.

10. (a) What is the supportability analysis? What is its purpose and what is included? Explain.

Or

(b) Analyse the design interface of logistics elements and its relationship with logistics supportability.

Part C $(1 \times 10 = 10)$

(Compulsory).

11. Assume that you have been assigned the responsibility for the design and development of a new logistics system. Describe the some of the major task interfaces between the logistics system and each of the following:

    (a) System engineering

    (b) Reliability and maintainability

    (c) Configuration management

    (d) Packaging and storage

    (e) Contract management.

Logistics Management

Elective — DISTRIBUTION MANAGEMENT

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. State the need for physical distribution.

2. List the factors affecting distribution channels.

3. Specify some methods of transport security.

4. What is palletization?

5. What are the reasons for rising costs in transportation?

Part B (5 × 10 = 50)

Answer **all** questions.

6. (a) List and explain the marketing forces affecting distribution.

Or

(b) Relate the transportation function with other business functions.

7. (a) Draw and explain the structure and design of distribution channel.

Or

(b) Discuss in detail on the concept of channel members.

8. (a) Illustrate the various modes of transportation and methods of transport mode selection.

Or

(b) Analyse the trends of modern transport industry.

9. (a) Elucidate the order processing procedure of transportation.

Or

(b) Write the meaning, process and benefits of containerization.

10. (a) Describe the need of distribution control of explain the stages of control process.

Or

(b) Give a detailed notes on functions, structure and hierarchy of transport organizations.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Cookers India is a large manufacturer of pressure cookers in India and a leading exporter world wide. In the US market these cookers are sold through leading chain stores which have outlets across the country. The chain stores require the manufacturer to replenish inventories as soon as they are being exhausted so that the store does not keep excess inventory.

(a) Discuss the various options for the setup for distribution and sales, including the profile of the sale persons.

(b) What type of channel members and intermediaries required?

(c) What complexities will arise over this product distribution?

Logistic Management

Elective — RAIL ROAD AND AIR CARGO LOGISTICS

(CBCS – 2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. Highlight various features of Logistics transportation.
2. List some of the features and facilities offered by Indian Railways.
3. What are the factors influencing choice of Road logistics?
4. What are the reasons for the growth of air cargo?
5. List down the problems in interstate logistics by road.

Part B (5 × 10 = 50)

Answer **all** questions.

6. (a) Discuss the various dimensions of transportation service and their impact upon costs for a company.

Or

(b) What is the role of transportation in a supply chain? Why is this role so important in today's environment?

7. (a) Explain the difference between intramodal and intermodal competition in the railroad industry. Which form of competition is most beneficial to shippers? Why?

Or

(b) Discuss the major current issues facing the railroad industry.

8. (a) Explain about Rail Cargo movement in India and World Wide.

Or

(b) Describe the benefits and drawbacks of outsourcing fleets from others.

9. (a) Explain about Airway bills and its contents.

Or

(b) State the definition of dangerous goods and list the different classes of dangerous goods.

10. (a) Explain, using examples, the role of trucker bodies in cargo movement in India.

Or

(b) Explain loading procedure, trimming and loading distribution concepts.

Part C $(1 \times 10 = 10)$

(Compulsory)

11. Fuel prices have been very volatile during the last five years. What factors have contributed to this volatility? Why is it such a special challenge to supply chains? How can it be fixed?

Time : 3 Hours Maximum : 75 Marks

Part A (5 × 3 = 15)

Answer **all** questions.

1. What is ocean transportation?

2. What is piggybacking?

3. What is terminal stuffing?

4. What is cargo insurance?

5. What is octroi?

Part B (5 × 10 = 50)

Answer **all** questions.

6. (a) Trace the characteristics of shipping transport and its importance.

Or

(b) Discuss the functions of International Maritime Organisation.

7. (a) Explain the determinants of freight.

Or

(b) Explain the size and tracking of multi modal transport system.

8. (a) Elucidate the role of intermediaries in shipment of cargo.

Or

(b) What are the issues in loading and unloading in warehouses? Explain.

9. (a) Explain the procedure for marine insurance claims.

Or

(b) Explain the need for total logistics solutions and its importance.

10. (a) Enumerate and explain the documents required for export credit.

Or

(b) Trace the services of ECGC in export credit insurance.

Part C $(1 \times 10 = 10)$

Compulsory

11. "Proper documents are essential to minimize dispute in foreign trade". Discuss the validity of the agreement.

Part C $(1 \times 10 = 10)$

Case study : (Compulsory)

11. X,Y and Z, directors of a company were the major shareholders of the company. X was the chairman of the company. At a meeting of the Board of Directors, it was decided to increase the share capital. Y and Z did not have the money to take up additional shares and feared

that in consequence, X would corner all shares and become predominant in the company. So a general meeting was called and it was resolved that the present members alone should not benefit from-the prosperity of the company, but others also should share, and a special resolution was passed that the new shares may be offered to about a dozen persons who were not members of the company.

X rushed to the Court, complaining of oppression, saying that Y and Z wanted to throw him out as director and chairman of the company and they had passed a special resolution to bring about a change in the management.

(a) Define what amounts to oppression?

(b) Discuss fully the chances, if any, of X succeeding in the proceeding.

Competition and globalization of banking services are forcing banks to be productive and profitable. To retain High Net Worth individuals, banks should focus strongly on relationship management with customers. Innovative

Customer Relationship Management (CRM) strategies and cutting edge software can help, to a great extent, in achieving the desired results. Banks are well aware that their success is Predominantly dependent on the CRM strategies adopted by them. Service providers have recognized that good CRM bonds customers with the organisation for a longer term, resulting in increased revenues.

Given the context of the case, answer following questions.

(5)

(a) Explain the need and importance of Customer Relationship Management in banking organisation.

(5)

(b) Explain the different CRM strategies used by private commercial banks in India.

(Compulsory)

11. Read the following case and answer the questions.

You are the Head of Credit Risk of PQRZ Bank. You recently attended a conference, where you have learned that a few banks have exited ABC Company, due to lack lustre performance and rumours of internal problems. To your discomfort, you find that there is no reduction in

facilities in your bank; on the other hand, there was an increase in the recent past. The relationship team reports that although there are concerns, the company has taken the right steps to rectify the situation, which has been highlighted in the recent annual review.

However, within a few months ABC Company applies for bankruptcy resulting in credit losses. You feel that the credit risk monitoring is inadequate.

What steps would you suggest to improve the credit monitoring within the bank?
