DISTANCE EDUCATION

M.B.A. (TM) DEGREE EXAMINATION, MAY 2014.

First Semester

MANAGEMENT CONCEPTS

(Upto 2012–13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the Taylor's principles of scientific management?

2. What is planning? What are its benefits and drawbacks?

3. What is decision making? What are the characteristics of decision making?

4. Explain the basic principles of organisation.

5. How staff functions differ from line?

6. What are the importance of communication?

7. Explain the qualities of an effective control system.

8. Discuss the features of business process re-engineering.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Describe the scope and functions of management.

10. Enumerate the various components of planning.

11. Explain the differences between delegation of authority and decentralisation.

12. What is meant by motivation? Explain the process models of motivation.

13. What are the barriers in communication and how should they be tackled?

14. Explain clearly the essential steps in control process.

15. Write notes on the following :

    (a) Strategic alliances

    (b) Core competence

    (c) Total quality management.

DE–8627 **12**

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2014.

First Semester

ORGANISATIONAL BEHAVIOUR

(Upto 2012–13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What is organisational behaviour? Discuss the models of organisational behaviour in brief.

2. Describe locus of control, Machiavellianism and Type A or Type B as type of personality.

3. What are the group norms? Why do they develop?

4. What is power? What are power indicators? How does it differ from authority?

5. Define conflict. Discuss Pondy's model of conflict process in detail.

6. "Job stress can have physiological, psychological and behavioural effects". Explain.

7. How culture is learnt? In your answer, give example where ever relevant.

8. Write the meaning of organisational development. Discuss the characteristics and objectives of organisational development.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. What are the various sources of attitude formation? Which source is stronger in your own case? Discuss the various methods of attitude measurement.

10. Discuss the process of perception and explain internal and external factors that affect perception.

11. What are the causes for team failure? and how to make these team successful?

12. Write the meaning of organisational politics. Discuss the reasons for organisational politics.

13. Explain the structural factors and personal factors that contribute to conflicts.

14. Discuss the major ways by which organisational climate affects organisational performance and what are the determinants of organisational climate?

15. What is meant by organisational change? "Resistance to change is a normal part of the process of change". Discuss. What technique would you use in overcoming such resistance?

DE–8628 **13**

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2014.

First Semester

MANAGERIAL ECONOMICS

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Discuss the nature and scope of managerial economics.

2. Give short note on "Demand Analysis".

3. Explain the main tools of cost control. What are the areas of cost control?

4. Explain the causes for increasing returns and diminishing returns.

5. Explain the nature and managerial uses of production function.

6. What is meant by price discrimination? What are its objectives?

7. Explain the first and second order conditions of profit maximisation.

8. What is value-added? Explain the value added method of estimating National Income?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the concept of income elasticity and cross elasticity of demand. Explain the relationship between price elasticity, income elasticity and cross elasticity.

10. Explain how managerial economics is related to economics, mathematics and accounting.

11. What is utility? Explain the law of diminishing marginal utility.

12. Critically examine "Rent Theory of Profit" and "Dynamic Theory of profit".

13. What is Iso-Quant curves? Explain the production function through Iso-quant curves.

14. Explain the effects of profit maximisation as the objective of firms. What are the alternative objectives of business firm?

15. Explain the methods of measuring National Income.

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2014.

First Semester

FINANCIAL AND MANAGEMENT ACCOUNTING

(Upto 2012 – 2013)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What do you understand by accounting concepts? What are they?

2. Give the meaning of accounting standards. Write about the accounting standards for valuation of inventories and cash flow statement.

3. Journalise the following transactions :

		Rs.
2012 Jan. 2nd	Started business with cash	4,50,000
" 5th	Paid into bank	2,00,000
" 10th	Goods purchased for cash	2,00,000
" 15th	Sold goods to Ganesh	1,00,000

4. What are the limitation of Financial Statements?

5. Discuss the procedure for the preparation of cash flow statement.

6. What is a balance sheet? Explain its nature clearly.

7. What is Zero Base Budgeting? Discuss its advantages.

8. Write a detailed note on "Discounted Cash Flow" method of capital budgeting.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. State the various classification of errors. Explain with illustrations.

10. Write short notes on :

(a) Budget manual.

(b) Objectives of Budgetary Control.

(c) Master Budget.

11. "Ratio Analysis is a tool of management for measuring efficiency and guiding policies" – Discuss.

12. Prepare Fund Flow Statement from the given particulars :

Liabilities	31, March 2010 Rs.	31, March 2011 Rs.	Assets	31, March 2010 Rs.	31 March 2011 Rs.
Share capital	4,00,000	4,50,000	Cash	3,00,000	4,70,000
Trade creditors	1,00,000	2,30,000	Debtors	12,00,000	11,50,000
P & L a/c	23,00,000	25,00,000	Stock in trade	8,00,000	9,00,000
			Land	5,00,000	6,60,000
	28,00,000	31,80,000		28,00,000	31,80,000

13. Calculate :
    (a) Gross Profit Ratio.
    (b) Operating Ratio.
    (c) Operating Profit Ratio and
    (d) Net Profit Ratio.

	Rs.
Sales	21,000
Sales return	1,000
Cost of sales	16,400
Interest expenses (Not operating)	100
Income from investments	200
Administrative expenses	1,300
Selling expenses	700
Depreciation	200

14. Prepare trading and profit and loss account for the year ended 31, March 2011 from the given details :

	Rs.
Opening stock	50,000
Wages	20,000
Salaries	32,000
Rent	5,000
Purchase	2,95,000
Carriage Inward	10,000
Sales	4,00,000
Closing sales	1,55,000
Miscellaneous income	3,000
Insurance	10,000
Printing	3,000
Machinery (10% depreciation)	96,000
Salesmen commission	40,000
Carriage outward	22,000
Cash discount	4,000
Postage	11,500

	Rs.
Prepaid Insurance	1,000
General expenses	14,000
Furniture (5% depreciation)	64,000
Advertising	17,000
Bad debts	7,000
Provision for bad debts	4,000

15. The Alpha Ltd. is considering the purchase of a new machine. Two alternative machines (A and B) have been suggested, each having initial cost of Rs. 4,00,000 and requiring Rs. 20,000 as additional working capital at the end of the first year earnings after taxation are expected to be as follows :

	Cash inflows	
Year	Machine A	Machine B
1	40,000	1,20,000
2	1,20,000	1,60,000
3	1,60,000	2,00,000
4	2,40,000	1,20,000
5	1,60,000	80,000

The company has a target of return on capital of 10% and on this basis, you are required to compare the profitability of the machines and state which alternative you consider financially preferable?

Net present value of Re. 1 due in No. of years.

Year	Net present value @ 10%
1	0.91
2	0.83
3	0.75
4	0.68
5	0.62

M.B.A. (Tech-Mgt) DEGREE EXAMINATION, MAY 2014.

First Semester

PRINCIPLES OF TECHNOLOGY MANAGEMENT

(Upto 2012-2013)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What is technology management? State the importance of technology management.

2. How technology forecasting is useful for the business?

3. Explain the fuzzy multi-criteria decision making method.

4. What are the implications of WTO provisions on technology transfer?

5. Which are called as Intellectual property? List down the advantages of Intellectual Property Rights.

6. Briefly explain about organisational redesign and re-engineering.

7. State the advantages and limitations of industrial research and development (R & D).

8. How technology audit is carried out? Illustrate.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. "Technology Management is essential to develop good manufacturing system and market". Explain.

10. Explain the various technology forecasting methods.

11. Explain about the knowledge management techniques for technology management.

12. How an alternate technology is choosed? Explain the methods involved in it.

13. How an organisation is getting the benefits due to intellectual property rights with technology?

14. Explain the process involved in product development from scientific breakthrough to marketable product.

15. Explain the following concepts.

    (a) Acquired technology

    (b) Collaboration

    (c) Technological integration.

DE–8631 **21**

DISTANCE EDUCATION

M.B.A. (Tech. Mgt.) DEGREE EXAMINATION, MAY 2014.

Second Semester

QUANTITATIVE METHODS

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Distinguish between transportation problem and Transhipment problem.

2. Write a linear programming model of the assignment problem.

3. Explain Saddle point in Game theory.

4. Define simulation. Mention its advantages.

5. What are the basic elements in queuing system?

6. What are the uses of P/V Ratio?

7. Explain the concept and types of probability.

8. Explain the steps involved in decision making.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. How does integer programming differ from the linear programming?

10. Discuss dominance with reference to Game theory.

11. What are the reasons for Replacement?

12. Using dual simplex method, solve the LPP.

Minimize : $z = 2x_1 + x_2$

Subject to constraints :

$$3x_1 + x_2 \geq 3$$
$$4x_1 + 3x_2 \geq 6$$
$$x_1 + 2x_2 \geq 3$$
$$\text{and } x_1, x_2 \geq 0$$

13. A company is spending Rs. 1,000 on transportation of its units from three plants to four different centres. The supply and demand of units with unit cost of transportation are given below. What can be the maximum savings by optimal scheduling?

	Distribution Centres				
	D_1	D_2	D_3	D_4	Availabilities
P_1	19	30	50	12	7
P_2	70	30	40	60	10
P_3	40	10	60	20	18
Requirements	5	8	7	15	

14. A class consists of 40 students out of which the number of girl student is 10. If the class 2 girls and 6 boys are rank holders. In the previous examinations. If a student is selected at random from the class and is found to be the rank holders. What is the probability that the student selected is a girl?

15. Solve the following game whose payoff matrix is given below.

		Player B			
		B_1	B_2	B_3	B_4
Player A	A_1	5	–10	9	0
	A_2	6	7	8	1
	A_3	8	7	15	2
	A_4	3	4	–1	4

Second Semester

BUSINESS ENVIRONMENT

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Why should the environment be scanned? What purpose would it serve?

2. How will you justify the role of Government control on business units?

3. Describe the recent trends in India's foreign direct investment.

4. Examine the nature of the problem of population in India and the effects of population growth on Indian economic development.

5. What is an EXIM bank? What are its functions?

6. State the functions of WTO.

7. Discuss the status of environmental protection in India.

8. Critically evaluate the importance and functions of world bank.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Has LPG contributed to growth? Substantiate.

10. Distinguish between absolute and relative poverty line in the Indian context. What are the causes of poverty in India and evaluate the various poverty eradication programmes?

11. Discuss the instruments of quantitative credit controls along with their limitations.

12. What is meant by foreign exchange? Comment on the policy of the Government in relation to foreign exchange.

13. What is privatisation? Explain the different forms of privatization.

14. Explain the role of Government in business environment.

15. Analyse the impact of liberalisation measures adopted by Government since 1991 on imports and exports.

BUSINESS RESEARCH

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the different types of research? Explain.

2. Explain the significance of research in social sciences.

3. List and briefly explain the methods of primary data collection.

4. Enumerate the different methods of sampling.

5. How is data organised? What should be done to organize the given data?

6. Write a brief note on "Regression Analysis".

7. What do you mean by Test of Hypothesis? Explain.

8. Describe, in brief the layout of a research report covering all relevant points.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Explain in detail the procedures involved in the formulation of research problem.

10. State the importance of sampling and explain its various methods.

11. How do you construct a questionnaire to collect the feedback about a product? Illustrate.

12. Explain the various scaling techniques.

13. What is meant by central tendency? Describe the various methods of measuring it and point out the usefulness of each method.

14. What is interpretation? Give guidelines for valid interpretation.

15. What are the essential features of a good research report? Explain.

Second Semester

GLOBAL BUSINESS AND MNCs

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the elements of International Business Environment?

2. Explain the various features of International Trade.

3. Briefly explain about 'Letter of credit' and explain its types.

4. What are the procedures for availing credit insurance? List down the documents to be submitted.

5. "FDI is useful in strengthening the capital mobolisation" – Comment.

6. Differentiate strategic acquisition from strategic merger.

7. Explain about European Union and its importance in economic co-operation in European Region.

8. What is IMF? Explain its contribution to global business.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. State the importance of International Business and list down the factors influencing international business.

10. List out the documents to be enclosed at the time of exporting the goods to other countries.

11. Explain the features of multinational corporation and their role in economic development of the home country.

12. Critically evaluate the factors influencing Foreign Direct Investment (FDI).

13. Evaluate the role and importance of World Trade Organisation (WTO) with reference to developing countries.

14. Explain the various Regional Trade Associations.

15. Explain the role, importance, functions of World Bank in the development of Global Business.

Second Semester

MANAGEMENT OF INNOVATION AND R & D

(Upto 2012-13)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What is innovation and list down the advantages of innovation in an organisation?

2. What are the various sources of innovation?

3. Briefly explain the Michael Lee Scritchfield's 4P's of creativity.

4. What are the innovative strategies followed by Apple and Intel?

5. What do you understand about "Failure Tolerance"? What are the reasons for failures?

6. How will you get the patent for your invention?

7. Briefly explain about Reverse Engineering. How it is useful for companies?

8. What is Global Innovation Index? How it is constructed?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. State the importance of research and development in technological innovation and economic development.

10. Explain about Jay Doblin's Ten types of innovation.

11. Explain the following with suitable examples.

    (a) Out of box thinking

    (b) Patents

    (c) Briinnovation.

12. Explain the various theories associated with creativity.

13. "Top most companies success are mainly because of their innovative techniques and features of their products". Explain.

14. Discuss the importance of intellectual property rights and how it is helping the organisation to protect their innovations?

15. What are the various schemes and Government support for R and D infrastructure in motivating the researchers?

DE–8636 **31**

DISTANCE EDUCATION

M.B.A. (TM) DEGREE EXAMINATION, MAY 2014.

Third Semester

RE-ENGINEERING AND FLEXI SYSTEMS

Time : Three hours Maximum : 100 marks

SECTION A — ($5 \times 8 = 40$ marks)

Answer any FIVE questions.

1. What is business process reengineering and its importance?

2. What is flexi system? State the significance of flexibility in modern engineering.

3. Briefly explain the various steps involved in the implementation of Business Process Reengineering.

4. Why BPR approval is necessary in an organisation?

5. Write a short note on the following

   (a) Reengineering success

   (b) Reengineering revolution.

6. What are the types of functional flexi systems?

7. How Business Process Reengineering (BPR) is differ from value engineering?

8. Write a short note on flexibility in mergers and acquisitions.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the nature and advantages of BPR.

10. Explain the features and superiority of flexible systems.

11. (a) Write a short note on BPR role in information technology.

    (b) Explain BPR cycle.

12. Explain the BPR process in change management.

13. What are the features of Reengineering Revolution? What are the differences between BPR and Total Quality Management?

14. "In an organization the human resources flexibility is core relate with organizational flexibility" – Explain.

15. Enumerate the components of flexi systems.

ENERGY AND ENVIRONMENTAL TECHNOLOGY MANAGEMENT

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. State the importance of energy.

2. Write short notes on :

   (a) Environment as a system; and

   (b) Carbon footprint of energy.

3. (a) What are the features of fuel cell system?

   (b) What is meant by green power? List down its advantages.

4. Explain the advantages of portable generators.

5. Write short notes :

   (a) Solar trackers and

   (b) Ocean energy.

6. Briefly explain the importance of the artificial photosynthesis.

7. What is Carbon Credit? List down the features of carbon credit.

8. "Energy policy is essential for energy nation" – Comment.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain about the different forms of energy.

10. Describe the significance of environment and the role of technology management.

11. Explain the advantages of solar power energy in India.

12. "Nano Technology is a powerful tool for energy efficiency" – Explain.

13. Enumerate the green energy technologies available in India.

14. What are the various impact of energy on economy and environment?

15. Explain the major need for national energy policy and its influencing factors.

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2014.

Third Semester

STRATEGIC TECHNOLOGY MANAGEMENT

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Define 'Vision' and distinguish it from mission.

2. What is the role of technology strategist in business?

3. State the difference between financial and non financial analysis.

4. Write a note on environmental scanning techniques.

5. Explain Porter's framework of competitive strategies.

6. Explain the stages involved in 'Project Life Cycle'.

7. How will you formulate a good strategy? Explain.

8. State and explain different types of operational control.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. State the relationship between a company's strategy and its technology.

10. Describe various methods used for organisational appraisal.

11. Write a note on the following :
    (a) Tows
    (b) Benchmarking
    (c) Technological environment.

12. Explain the concept of PESTEL. How is it related to a business? Give example.

13. Describe various corporate strategies in practice.

14. State and explain the factors to be considered while choosing a strategy.

15. Discuss various dimensions of Corporate Governance.

IT FOR TECHNOLOGY MANAGEMENT

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the merits and demerits of information Technology?

2. Explain any five application softwares related to business.

3. What do you understand by Biosensors? State the nexus between biosensors and electronics.

4. What is cartography? State the benefits of cartography in GIS.

5. Define cybernetics. How is it useful to management?

6. State the meaning and significance of automation.

7. Define cloud computing. Explain various types of cloud computing.

8. Explain the concept of lab–on–a chip.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the modern development trends in information technology.

10. State the relationship of information technology with other technologies.

11. Enumerate the advantages and disadvantages of using web services in bio informatics.

12. Describe the spatial Analysis with GIS and web mapping.

13. Write a note on the following:

    (a) ANN

    (b) PLC

    (c) SCADA.

14. Discuss the meaning and significance of artificial intelligence in business.

15. What is the role of information Technology in Railways? Explain.

BUSINESS LAWS

Time : Three hours Maximum : 100 marks

SECTION A — ($5 \times 8 = 40$ marks)

Answer any FIVE questions.

1. Who is a minor? What is the legal position of a minor?

2. State the features of a contract of indemnity.

3. Distinguish a cheque from a bill of exchange.

4. What are the fundamental principles of life insurance?

5. Define partnership deed. State its contents.

6. List down the different types of companies.

7. What are the rights of a common carrier?

8. What are the requisites of a valid tender?

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. All contracts are agreements. But all agreements are not contracts – Explain.

10. Describe the rights and duties of an agent.

11. Explain different types of partners.

12. State the procedure involved in the incorporation of a company.

13. Explain the nature of contract of sale. Bring out the differences between sale and agreement to sell.

14. Define bailment. Enumerate the essential features of bailment.

15. Explain different modes of winding up of a company.

DE–8641 **36**

Third Semester

TECHNOLOGY POLICY, ETHICS AND IPR MANAGEMENT

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. State the objectives of Government of India's S&T policy.

2. Write a note on Green Technology.

3. What is the role of Higher Educational Institutions (HEIs) in Technology development?

4. Explain the virtues of science and technology.

5. What is the relation between environmental ethics and industrial policy?

6. Bring out the linkages between Technology and IPR.

7. What are the functions of World Social Forum?

8. What is copyright? State the advantages of obtaining copyright.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. State the importance and advantages of science and technology on industry and society.

10. Describe the role of Government initiated scientific programmes in technical upliftment in India.

11. What are the challenges in agricultural sector in India? How could nanotechnology address these challenges?

12. Describe the benefits of scientific research to a society.

13. Discuss salient features of the following international treaties on IPR :

    (a) Paris convention

    (b) Patent cooperation treaty

    (c) TRIPS agreement.

14. Briefly explain the procedure for Distinctiveness, Uniformity and Stability (DUS) test for new plants.

15. Write a note on establishment functions and powers of National Biodiversity Authority.

DE–8642 **41**

M.B.A. (Tech. Mgt) DEGREE EXAMINATION, MAY 2014

Fourth Semester

MANUFACTURING, MAINTENANCE AND WASTE MANAGEMENT

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. How will you design a manufacturing process? What are the factors to be considered at the time of designing the process?

2. State the importance and functions of control systems in manufacturing automation.

3. Briefly explain the need and importance of CAM and CAD.

4. What do you meant by total productive maintenance? List down its components.

5. Explain the different methods of training imparted on training of maintenance personnel.

6. What is Zero Waste System (ZWS)? Explain the components of ZWS.

7. 'Disposal of waste is a complicated issue for industries' – Explain.

8. Explain the organic and inorganic process involved in storing and handling of waste.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Explain the various functions of manufacturing management.

10. Discuss the types and trends in manufacturing systems.

11. Analyse the importance and components of team production and agile manufacturing.

12. Explain the various types of maintenance system and maintenance plan.

13. Evaluate the role of systems and IT in machine operations, maintenance and documentation.
