M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2013.

First Semester

MANAGEMENT CONCEPTS

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Discuss the nature and importance of management.

2. Briefly discuss the main elements of Taylor's scientific management.

3. What is meant by planning premises? Explain.

4. Write the meaning of delegation. Why managers do not delegate?

5. Give a brief note on "Ouchi's Z theory" of motivation.

6. What are the problems of communication? And how should they be tackled?

7. Describe the factors which make co-ordination necessary?

8. How to conduct Bench Marking exercise in a business organisation?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. "Management is what manager does" – Elucidate.

10. Enumerate the different types of plans.

11. Distinguish between line and staff authority and trace the reasons for conflict between the line and staff executives.

12. What is meant by leadership? Discuss the various types of leadership.

13. "Money cannot motivate all people under all circumstances" – Give your view point.

14. What are the different standards that may be prescribed to enforce control? Explain.

15. Write short notes on :

    (a) Key Principles of BRP.

    (b) Core competence – advantages.

    (c) Concept of strategic allience.

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2013.

First Semester

ORGANISATIONAL BEHAVIOUR

(2011 Academic Year Onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the elements of OB? Explain in brief.

2. What are the different stages in development of personality?

3. Distinguish groups from Teams.

4. Explain group norms and group think.

5. What are the types of conflict?

6. Differentiate efficiency from effectiveness. What is organisational effectiveness?

7. What are the sources inducing organisational change?

8. What are the characters of learning Organisations?

PART B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Explain in detail the nature and dimensions of altitude.

10. Explain in detail the factors influencing perceptual process.

11. How are teams formed? Explain cohesiveness.

12. What are the different types of power? Explain its sources and characters.

13. What are the strategies to encourage constructive conflict and to discourage / resolve destructive conflict?

14. Elucidate the OCTAPACE model of organisational culture.

15. Explain OD. Discuss its classification in detail.

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2013.

First Semester

MANAGERIAL ECONOMICS

(2011 Academic Year Onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Give a note on the following

   (a) Incremental reasoning and

   (b) Opportunity cost

   Explain their applicability on managerial decision making.

2. What are the various determinants of demand?

3. What is shift in demand curve? Brief it with illustrative diagram.

4. Differentiate cost control and cost reduction.

5. What are the characteristics of perfect competition?

6. What are the factors influencing capital budgeting?

7. What are the factors causing inflation?

8. Explain the phases of business cycle.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. "Economic theory has applicability in business decision making" – Discuss.

10. Explain the various types of elasticity of demand with its applicability in decision making.

11. What is economic of scale? Explain the factors influencing economic of scale.

12. What are the various methods of pricing new product? How government intervention influences pricing?

13. Explain the concepts of national income. What are the various approaches to measure national income?

14. Explain the monetary measures of RBI to control inflation.

15. Cost data of XYZ company are as follows:

    Selling price per unit – Rs. 10

    Variable cost per unit – Rs. 6

    Fixed cost – Rs. 1,00,000.

    (a) Calculate break even sales

    (b) Calculate PV ratio

    (c) What is the desired sales to earn a profit of Rs. 50,000

    (d) What will be the break even sales if the selling price is Rs. 8 per unit.

    (e) What is the desired sales to earn a desired profit of Rs. 50,000 at Rs. 8 per unit.

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2013.

First Semester

FINANCIAL AND MANAGEMENT ACCOUNTING

(2011 Academic Year Onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain clearly the significance of business entity concept and accrual concept.

2. What are financial statements? What are its uses?

3. There are three companies manufacturing paper. Following data are available. Which is the best performer as per your assessment and why? Given Rs. in lakhs

Company	Net sales	Operating cost	Operating assets
A Ltd.	300	255	125
B Ltd.	1,500	1,200	750
C Ltd.	1,400	1,050	1,250

4. Brief the various techniques of management accounting.

5. What are the uses and limitations of fund flow statement.

6. What is budgetary control system? What are its advantages?

7. What do you mean by discounting techniques? Explain any two discounting techniques used in evaluation of capital expenditure.

8. What is ARR method? What are its merits and demerits?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the conventions of accounting with its significance.

10. From the following trial balance of Kumar prepare trading and profit and loss account for the year ended 30th June 2010 and a balance sheet as on date.

Trial balance as on 30th June 2010.

	Dr. Rs.	Cr. Rs.
Kumar's Capital		71,000
Cash on hand and at Bank	3,900	
Purchases and sales	41,000	98,800
Returns	600	500
Productive wages	10,500	
Power and fuel	4,000	
Salary and wages	15,000	
Carriage outward	3,200	
Carriage inward	2,000	
Stock (1.7.2009)	5,800	

	Dr. Rs.	Cr. Rs.
Building	40,000	
Plant and Machinery	20,000	
Furniture	7,500	
Debtors and creditors	14,500	6,300
General expenses	3,000	
Insurance	600	
Drawings	5,000	
	1,76,600	1,76,600

Adjustments :

(a) Stock on 30th June 2010 was valued at Rs. 7,000.

(b) Building, Machinery and furniture are to be depreciated by Rs. 2,000, Rs. 3,000 and Rs. 1,500 respectively.

(c) Salaries and advertisement bill on outstanding to the extent of Rs. 500 and Rs. 1,000 respectively.

(d) Prepaid insurance amounted to Rs. 170.

(e) Goods purchased worth Rs. 5,000 were received and included in closing stock but were not entered in purchases book.

(f) Charge 5% interest on drawings.

11. From the following information prepare a summarised balance sheet as on March 31.

(a) Working capital Rs. 1,20,000

(b) Reserve and surplus Rs. 80,000

(c) Bank overdraft Rs. 20,000

(d) Assets (fixed) to proprietary ratio 0.75.

(e) Current ratio 2.5

(f) Liquidity ratio 1.5

12. Following data relates two projects A and B. The cost of capital of the firm is 10%.

Year	Project A	Project B	Pr. factors at 10%
0	–20,000	–15,000	
1	4,200	4,200	0.909
2	4,800	4,500	0.826
3	7,000	4,000	0.751
4	8,000	5,000	0.683
5	2,000	1,000	0.621

Calculate :

(a) Payback period.

(b) Net present value.

(c) Profitability index for both the projects.

Which project the firm should select?

13. Differentiate cash flow and fund flow statement. What are the advantages of cash flow statement?

14. Explain the various functional budgets with relative advantages.

15. "Management Accounting is the best tool for the management to achieve higher profits and efficient operations". Discuss.

DE–6492 **15**

DISTANCE EDUCATION

M.B.A.(Technology Management) DEGREE EXAMINATION, MAY 2013.

First Semester

PRINCIPLES OF TECHNOLOGY MANAGEMENT

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Why we need innovative ideas? Also explain how to apply in industry with suitable situations?

2. Explain about the Delphi methodology.

3. Describe in detail about the analytic hierarchy methods in management.

4. Explain the various processes and activities of bargaining.

5. Define Re-engineering and explain it in detail.

6. How the organizations affects from inefficient R and D cells? Give suitable examples.

7. What is meant by absorption strategies? And explain in details.

8. Explain in detail about simulation with suitable example.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Explain in detail about the legal science and technology policy in India.

10. Explain the procedure by which alteration of articles of association be made.

11. Describe in detail about various methods in decision making.

12. Discuss is detail about an economic of IPR.

13. How to develop the product from breakthrough to marketable product? Explain in detail.

14. How auditors of a limited company – appointed and removed?

15. Discuss in detail about system dynamics and planned obsolescence.

DE–6493 **21**

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2013.

Second Semester

QUANTITATIVE METHODS

(2011 academic year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. State the Linear and Non-linear functions.

2. Explain the basic assumptions of linear programming problem.

3. Solve the following LPP by Graphic method :

   Maximize $z = 5x_1 + 4x_2$

   Subject to the constraints :

   $2x_1 - 4x_2 \le 1$

   $2x_1 + 4x_2 \ge 3$

   $x_1, x_2 \ge 0.$

4. Determine an initial basic feasible solution to the following transportation problem using the North-West corner Rule.

	D_1	D_2	D_3	D_4	
O_1	6	4	1	5	14
O_2	8	9	2	7	16
O_3	4	3	6	2	5
	6	10	15	4	35

5. Ashok can solve 90 percent of the problems given in the book 'Quantitative methods' and Balan can solve 70 percent. What is the probability that at least one of them will solve a problem selected at random?

6. What is simulation? Describe the simulation process.

7. At a service centre, customers arrive at the rate of 10 per hour and are served at the rate of 15 per hour. Their arrival follows Poisson distribution and service in exponentially distributed. Find the average length and average waiting time in the system.

8. If you make a unit of product and it is sold, you gain ₹. 5; if you make a unit of product and its is not sold, you lose ₹. 3. Suppose the probability distribution of the number of units demanded is as follows:

Number of units demanded	0	1	2	3	4	5	Or above
Probability	0.20	0.20	0.25	0.30	0.05	0	–

How many units should you make?

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain any 5 techniques of operations research used to solve quantitative problems.

10. Solve the following LP using simplex method.

Maximize $z = 3x_1 + 2x_2$

Subject to the constraints :

$$2x_1 + x_2 \leq 10$$
$$x_1 + 3x_2 \leq 6$$
$$x_1, x_2 \geq 0.$$

11. Enumerate the transportation algorithm and state the conversion of unbalanced problem to balanced problem.

12. Three jobs A, B and C are to be assigned to 3 machines X, Y and Z. The processing costs (₹.) are as given in the matrix shown below. Find the allocator which will minimise the overall processing cost.

$$\begin{array}{cc} & \text{Machines} \\ \text{Jobs} & \begin{array}{ccc} X & Y & Z \end{array} \\ \begin{array}{c} A \\ B \\ C \end{array} & \begin{pmatrix} 19 & 28 & 31 \\ 11 & 17 & 16 \\ 12 & 15 & 13 \end{pmatrix} \end{array}$$

13. Describe the features and applications of binomial distribution in business field.

14. A confectioner sells confectionery items. Past data of demand per week in hundred kilograms with frequency is given below :

Demand per week	0	5	10	15	20	25
Frequency	2	11	8	21	5	3

Using the following sequence of random numbers, generate the demand for the next 10 weeks. Also find out the average demand per week.

35, 52, 90, 13, 23, 73, 34, 57, 35, 83, 94, 56, 67, 66, 60, 72.

15. How is pay-off table constructed? Explain it with suitable example.

Second Semester

BUSINESS ENVIRONMENT

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. State the fundamental issues captured in PESTLE.

2. Explain the role of Government in business.

3. Discuss the impact of inflation on economy.

4. Describe the role of central bank in economic development of a country.

5. List out the features of societal structure.

6. Mention the legal aspects of entering primary capital market.

7. Explain the legal procedure for the incorporation of a company.

8. Bring out the role of WTO in global economic development.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the factors that influence the internal environment of business.

10. Discuss the government policy and growth of SSI in India.

11. Describe the impact of gross domestic product on business.

12. Enumerate the impact of monetary deficit and fiscal deficit on the growth of India.

13. Describe the main provisions of the Patents Act, 1970.

14. Bring out the measures of protection and improvement of environment under the Environmental Protection Act, 1986.

15. What is meant by globalisation? Explain its merits and demerits.

Second Semester

BUSINESS RESEARCH

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What do you mean by research? Explain its significance in modern times.

2. Explain the meaning of research design. What are the basic principles of experimental designs?

3. What do you mean by "sample design"? What points should be taken in to consideration by a researcher in developing a sample design for a research project?

4. Discuss the merits and demerits of the observation method of collecting data. Illustrate your answer with suitable examples.

5. Write a note on :

   (a) Coding

   (b) Cross tabulation.

6. What do you mean by scaling? Discuss its various types in brief.

7. What is ANOVA? State the basic principles of ANOVA.

8. State the different ways of collecting primary data.

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Explain the various types of reach in detail.

10. What is a hypothesis? Discuss the basic concepts concerning in testing hypotheses.

11. Discuss the various types of probability and non probability sampling techniques in detail.

12. What are the different types of questionnaire? Explain each of them with their respective merits and demerits.

13. What are the points to be kept in mind while writing interpretation?

14. What points will you keep in mind while preparing a research report? Explain the contents of a research report.

15. Write short notes on :

(a) Editing.

(b) Pilot study.

(c) Advantages of telephone interview.

Second Semester

GLOBAL BUSINESS AND MNCs

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the factors influencing international business?

2. Explain the various methods of foreign direct investment in India.

3. Explain the services of export credit and Guarantee corporation in Expest credit insurance.

4. State the role of MNC's in technology transfer.

5. What do you mean by strategic alliance?

6. Give a brief account of SAPTA.

7. Discuss the role of world bank in Global business.

8. Give a brief account on international development association.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Discuss the legislative measures governing international business environment.

10. Explain the procedure to be followed for the export goods. What are the document to be enclosed?

11. Highlight the merits and demerits of MNC's by its growth.

12. Explain the various restrictive clauses in the foreign collaboration.

13. State how dispute is settled under WTO.

14. Discuss about the environmental aspects in international trade.

15. Explain the role of IMF and its contribution to our domestic business.

DE–6497 **25**

DISTANCE EDUCATION

M.B.A. (Technology Management) DEGREE EXAMINATION, MAY 2013.

Second Semester

MANAGEMENT OF INNOVATION AND R & D

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Define Proto type. Explain the steps in developing the Proto type?

2. Explain the role of R & D in Economic Development.

3. Write down the failures of innovation.

4. Distinguish between Invention and Innovation.

5. What is technology S Curve theory?

6. List out and describe the highlighted features of Face book and Twitter.

7. Distinguish Process Vs Product innovation.

8. What are the two types of efficiency index? Explain in detail.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. "R & D the backbone of technology innovation" — Justify this statement with examples.

10. Explain the Techniques of transforming creativity into invention and invention into innovation. Also explain the sources of innovation.

11. Discuss brainstorming theory — also explain Ed DeBono's six thinking hats.

12. Elaborately discuss on "organizational climate for creativity and innovation".

13. How decision support systems are helpful in R & D? Elucidate.

14. Discuss in detail intellectual property rights and laws regarding protection of innovations from imitations.

15. Explain the role of DST, DBT and CSIR in Global innovation.

Third Semester

RE- ENGINEERING AND FLEXI SYSTEMS

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Define BPR. Fundamental Rethinking is fundamental of BPR – Justify.

2. Explain the role of information technology in BPR.

3. Explain BPR process chart in detail.

4. List out and explain the principles of BPR.

5. Distinguish BPR Vs CQI.

6. Explain the steps in simplifying systems.

7. Write short notes on MBWA.

8. Distinguish between mergers and acquisitions with suitable examples.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the journey of reengineering in detail.

10. Explain in detail the implementation of BPR and its principles.

11. Write short notes on :

    (a) Human Resource Flexibility

    (b) Marketing Flexibility

    (c) Information system Flexibility.

12. Discuss the success of reengineering and its criticism in detail.

13. Elaborate flexibility in strategic alliances with suitable examples.

14. How do you appraise the processes for process reengineering?

15. Discuss in detail about strategic flexibility with suitable example.

Third Semester

ENERGY AND ENVIRONMENTAL TECHNOLOGY MANAGEMENT

(2011 Accademic Year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain in detail about Renewable energy.

2. What are the different types of environment?

3. Give a brief account on Wind Turbines with neat diagram.

4. Write short notes on Bio-Fuel and Biomass gasifier.

5. Discuss about

   (a) Solar Trackers

   (b) Cellulosic Ethanol

6. Explain in detail about an environment impact with suitable example.

7. Compare the energy policy for firms and households.

8. Evaluate the present day technology trends of per capital energy consumption in India with examples.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the features of major resources of energy in India with suitable example.

10. Describe in detail about the functions of "global warming" and how its affect our environment?

11. Discuss in detail about the energy efficiency in nanotechnology.

12. Describe in detail about the artificial photosynthesis.

13. Illustrate impact of manufacturing technology and product design reduces the energy consumption.

14. Explain in detail about the factors influencing energy policy.

15. Write in detail about portable generators and how it's work with suitable example.

Third Semester

STRATEGIC TECHNOLOGY MANAGEMENT

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What is meant by strategic execution?

2. Define – VMOST.

3. List out the various internal environment.

4. What is meant by Value Chain Analysis?

5. Write short note on : PESTEL.

6. Define – Strategic Trinity.

7. What is meant by Portfolio Analysis?

8. What is meant by Corporate Governance?

SECTION B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Explain the role of Technical Strategist.

10. Define the Strategic Control Process.

11. Discuss the various organisational capabilities in Various Technology and Functional Areas.

12. Explain the Environmental Scanning Techniques.

13. Describe the concept of synergy and its relevance.

14. Explain the Project Life Cycle analysis.

15. Define the techniques of strategic evaluation.

Third Semester

IT FOR TECHNOLOGY MANAGEMENT

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Explain any five features of Information Technology.

2. Write any five applications of simulations in technology management .

3. Discuss Web mapping.

4. Explain the significance of technology Management Automation.

5. Discuss the role of Artificial Intelligence in technology management.

6. Discuss the importance of Nano technology.

7. Write the significance of cyberneutics.

8. Write any five roles of Information technology in retail sector.

PART B — ($4 \times 15 = 60$ marks)

Answer any FOUR questions.

9. Brief the nexus between the Information Technology and other technologies.

10. Explain the various methodology and applications of Bio-metric detections through bio-sensors.

11. Elucidate the role of E-Governance in Government bodies.

12. Explain the architecture of Artificial Neural Networks.

13. Write a short note on:

    (a) Automated video surveillance.

    (b) Automated highway systems.

14. Explain the steps to construct an IT enabled CNC machine process.

15. Discuss the architecture of cloud computing.

Third Semester

BUSINESS LAWS

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

SECTION A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. What are the classifications of contract?

2. State the provisions for a valid acceptance.

3. Differentiate conditions and Warranty.

4. What is meant by Bailment?

5. What are the provisions and Transfer and Title by non-owner?

6. Write a note on procedure for five Insurance Claim".

7. Can minor be a partner in a firm? Explain.

8. List out the different types and Company Meetings.

SECTION B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Explain the features of Quasi Contract.

10. Describe the Contractual Capacity to enter into contract.

11. Bring out the rights and responsibilities of an Agent.

12. Discuss the rights of an unpaid seller.

13. Contribute the provisions of Negotiable Instrument Act.

14. Discuss the rights and duties of partner in the Partnership Firms.

15. Explain the Doctrine of Indoor Management in the Indian Companies Act- 1956.

Third Semester

TECHNOLOGY POLICY, ETHICS AND IPR MANAGEMENT

(2011 Academic year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Briefly explain the objectives of Green Technology.

2. Elucidate the role of Internet in framing the technology policy.

3. What is genetic screening?

4. List out the principles of RFID.

5. Elaborate the HEIs and its Technology Development.

6. State the comparison of Basic research and Applied research.

7. How the technology protect the Trade secrets?

8. Critically examine the intellectual property rights.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Discuss the Government Budgetary Allocation for S & T under R & D.

10. State the objectives of water Technology Mission 2010 – 2020.

11. Mention the types of IPR.

12. Enumerate the recent issues in TRIPS agreement on technology and IPR.

13. Discuss the major provisions of the Patents Act 1970.

14. Bring out the benefits and drawbacks of Cloning.

15. Explain the role of civil society in environmental governance.

DE–6504 **41**

DISTANCE EDUCATION

M.B.A.(Technology Management) DEGREE EXAMINATION, MAY 2013.

Fourth Semester

MANUFACTURING, MAINTENANCE AND WASTE MANAGEMENT

(2011 Academic Year onwards)

Time : Three hours Maximum : 100 marks

PART A — (5 × 8 = 40 marks)

Answer any FIVE questions.

1. Narrate the components of control systems.
2. Describe the role of Roboties and its applications in the area of manufacturing systems.
3. Explain the factors that should be considered in the choice of Group Technology.
4. Mention the features of breakdown maintenance.
5. Bring out the drawbacks of plant shut downs.
6. "Nothing is a waste until it is wasted" – Discuss.
7. State the requisites of zero waste system.
8. Evaluate the various methods of Transporting strategy.

PART B — (4 × 15 = 60 marks)

Answer any FOUR questions.

9. Discuss the functions of manufacturing management in detail
10. Why flexible manufacturing systems are preferred?

11. Discuss the types of maintenance systems.

12. Is it necessary to control operation and why?

13. Explain the problems faced in disposal of waste.

14. Discuss the system operation and documentation maintained under maintenance.

15. Administering the Hazardous Solid waste in an Industry is liable – Discuss.
