M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

MANAGEMENT PRACTICES

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define Management.

2. What do you mean by ethics?

3. What do you understand by planning?

4. Define strategy.

5. What is organizational structure?

6. Define global organizing.

7. Define motivation.

8. What do you mean by communication?

9. What do you understand by productivity?

10. Define TQM.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Discuss the characteristics of management.

Or

(b) Write a short note on external environment.

12. (a) Explain the importance of planning.

Or

(b) How do you formulate strategy?

13. (a) Discus the nature of organizing.

Or

(b) Write a short note on organizational culture.

14. (a) Explain the importance of motivation.

Or

(b) Discuss the advantages of group decision making.

15. (a) Write the characteristics of controlling.

Or

(b) What are the functions of operations management?

Part C $(3 \times 10 = 30)$

Answer **all** questions.

16. (a) Explain the evolution of management thought.

Or

(b) Describe about the basis of global management.

17. (a) Discuss the various process involved in planning.

Or

(b) Write in detail about the techniques of decision making.

18. (a) Explain the Maslow's need hierarchy theory of motivation.

Or

(b) Briefly discuss the process of communication.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

ORGANISATIONAL BEHAVIOUR

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is external environment?

2. What are the theories of management?

3. What is organization error?

4. List the implications of emotional intelligence on managers.

5. What are the impact of stress management?

6. Define team decision.

7. What is organizational development?

8. List about the ethical issues in organizational behavior?

9. What is homogeneity and heterogeneity?

10. What is cultural diversity?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Describe the challenges and opportunities of management functions.

Or

(b) Write short note on management functions.

12. (a) Explain in detail about organizational error.

Or

(b) Write short notes on emotional intelligence.

13. (a) Discuss various stages of team effectiveness.

Or

(b) Explain in detail about stress management.

14. (a) Explain organizational politics.

Or

(b) Discuss about the organizational behavior.

15. (a) Discuss about the cultural diversity.

Or

(b) Explain in detail about managing diversity.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain about the importance of managerial implications.

Or

(b) Explain in detail about the attitudes and their relations.

17. (a) Explain detail about organizational development.

Or

(b) Describe about the organizational culture and the types of culture.

18. (a) Explain in detail about heterogeneity of national culture.

Or

(b) Briefly explain about the organizational behavior responses to global and cultural diversity.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

EXECUTIVE COMMUNICATION

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What are the types of communication?

2. List out the parts of business letter.

3. What do you mean by formal report?

4. Write the importance of posture.

5. Define written communication.

6. What do you mean by minutes?

7. What is an appendix?

8. How is debate different from discussion?

9. Define the term USP.

10. What is conference?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) What is communication? Explain the significance of communication for management.

Or

(b) Discuss about the media barriers to communication.

12. (a) Explain in detail about the norms for business letters.

Or

(b) Write a brief note on Customer complaint letters.

13. (a) Explain the meaning and nature of a report.

Or

(b) Describe the features of technical report.

14. (a) Discuss the importance of non verbal communication.

Or

(b) Explain the use of charts, diagrams and tables.

15. (a) How will you write an agenda?

Or

(b) Explain the procedure of regulating speech.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Distinguish in detail the importance of leader's communication in an organization.

Or

(b) Discuss in detail about the communication model and the process.

17. (a) Explain the importance of effective communication in detail.

Or

(b) Explain the merits and demerits verbal and non-verbal communication.

18. (a) Discuss the various types of group member roles.

Or

(b) Explain the methods of decision making.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

FINANCIAL AND MANAGEMENT ACCOUNTING

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is financial accounting?

2. What is ledger?

3. What is book-keeping?

4. What is depreciation?

5. Define management accounting.

6. What is meant by comparative income statement?

7. What is meant by flexible budget?

8. Explain cash from operations.

9. What is sales budget?

10. What is marginal costing?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) What are the benefits of trial balance?

Or

(b) Journalise the following transactions.

Jan. 1, Ram Started business with Rs. 50,000

Jan. 3, Purchased goods from Rao Rs. 1,00,000

Jan. 4, Cash sales Rs. 150

Jan. 5, purchased pen, pencil Rs. 500

Jan. 7 paid Samy on account Rs. 2,000.

12. (a) What are the merit of ratio analysis?

Or

(b) Calculate the trend percentages from the following figures of X Ltd. taking 2009-10 as the base year.

(Rupees in Lakhs)

Year	Sales	Stock	Profit before tax
2009-10	1880	700	320
2010-11	2430	780	410
2011-12	2550	800	458
2012-13	3500	940	520
2013-14	3700	1150	610

13. (a) Calculate cash from operations : Net profit for 2015 Rs. 25,000, Depreciation Rs. 1,000. Prepare expenses 1.1.2015 Rs. 2,000, Prepaid expenses 31.12.2012 Rs. 1,200, Outstanding salary Rs. 500.

Or

(b) Explain the sources of working capital.

14. (a) Distinguish between cost control and cost reduction.

Or

(b) From the following particulars relating to job of manufacturer ascertain the total cost of job.

	Rs.
Direct materials	800
Direct Wages	400
Direct expenses	80

Work over heads are 35% on prime cost and office over head is 15% on work cost.

15. (a) Explain the merits of zero base budgeting.

Or

(b) You are given

Margin of safety Rs. 15,000. Which represents 30% of sales p.v. ratio of 30% calculate.

(i) Sales (ii) Break even sale (iii) Fixed cost (iv) Profit.

Part C $(3 \times 10 = 30)$

Answer **all** questions.

16. (a) Explain the accounting conventions.

Or

(b) What are the objectives of preparing final accounts?

17. (a) From the following particulars prepare a statement showing a properties find as 31.12.2008.
Current ratio - 2 : 1
Acid ratio - 1 : 1
Fixed assets proprietary funds 0.75 : 1
Working capital Rs. 60,000
Reserve and Surplus Rs. 40,000
Bank O/ID Rs. 10,000.

Or

(b) ABC Ltd. has prepared the budget for the production of 1 lakh units of the only commodity manufactured by it for a costing period as under.

		Rs. in lakhs.
(i)	Raw material	2.52
(ii)	Direct labour	0.75
(iii)	Direct expenses	0.10
(iv)	Works O/H (60% fixed)	2.25
(v)	Administrative O/H (80% fixed)	0.40
(vi)	Selling O/H (50% fixed)	0.02

The actual production during the period was only Rs. 60,000 units. Calculate the revised budgeted cost per unit.

18. (a) What are the difficulties faced in installing a costing system?

Or

(b) The record of a company show the following :

Period	Sales (Rs.)	Profit (Rs.)
I	2,00,000	10,000
II	3,40,000	21,000

Find out (i) P/v ratio (ii) B.E.P (iii) profit when sales are Rs. 1,00,000 (iv) sales required to earn Rs. 30,000.

CP–8350

Sub. Code
15

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

STATISTICAL METHODS

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A $(10 \times 2 = 20)$

Answer **all** questions.

1. When the price is \$50, \$60 iphones of a particular brand are available and when the price is \$80, 140 iphones of the same type are available in the market. Find the supply function.

2. Differentiate $y = x^{-3/2} + 5x^2 - 2$ with respect to x.

3. Find coefficient of variance of a distribution if S.D. is 25.6 and mean is 42.8.

4. Define positive and negative correlation with examples.

5. The probability that aircraft A will be performing a usual function is 5 years time is ¼ while the probability that aircraft B will still be operating usefully at the end of the same period is 1/3 what is the probability that neither will be operating?

6. An airline company can make a profit of \$5,000 per day in a aircraft with a probability of 0.4 have a loss of \$1000 per day in a aircraft. What is its expected profit?

7. Write down the two limitations of the simple aggregative index.

8. What are the components of time series?

9. Briefly explain Type I and Type II errors.

10. Briefly explain level of significance.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) The total cost C of making x unit of product is $C = 50 + 3x + \sqrt{x}$.

(i) Find the marginal cost at output of 100 unit.

(ii) What was the marginal cost of the 101st unit?

Or

(b) The production manager of a company plans to include 180 sq.cm of actual printed matter in each page of a book under production. Each page should have 2.5 cm margin along the top and bottom and 2 cm wide margin along to sides. What are most economical dimension of each printed page?

12. (a) Compute the Quartile Deviation for the following data

X	10–20	20–30	30–40	40–50	50–60	60–70	70–80
F	5	12	19	10	9	6	3

Or

(b) Find the Standard deviation of the following:

Age :	20–25	25–30	30–35	35–40	40–45	45–50
No. of persons :	170	110	80	45	40	35

13. (a) A problem is given to three candidates A, Band C. The probabilities that these problem is solved by these candidates independently are 1/2, 1/3 and 1/4. What is the probability that the problem will be solved?

Or

(b) Three percent of a given lot of manufactured parts are defective. What is the probability that in a sample of four items none will be defective?

14. (a) From the following data construct an index for 1995 taking 1994 as base by the average of relatives method using Geometric Mean for averaged relatives.

Commodity	Price in 1994 (Rs.)	Price in 1995 (Rs.)
A	50	70
B	40	60
C	80	90
D	110	120
E	20	20

Or

(b) Briefly explain Factor reversal test.

15. (a) The average breaking strength of a steel rods is specified to be 18.5 thousand pounds. To test this a sample of 14 rods was tested. The mean and standard deviation obtained were 17.85 and 1.955 respectively. Is the result of the experiment significant?

Or

(b) The following table gives the number of aircraft accidents that occurred during the various days of the week. Test whether the accidents are uniformly distributed over the week.

Days	Mon	Tue	Wed	Thu	Fri	Sat
No. of accidents	14	18	12	11	15	14

Part C $(3 \times 10 = 30)$

Answer **all** questions.

16. (a) Find the correlation coefficient between industrial production and export using the following data:

Production (X)	55	56	58	59	60	60	62
Export (Y)	35	38	37	39	44	43	44

Or

(b) Heights of fathers and sons are given in centimeters:

X : Height of father	150	152	155	157	160	161	164	166
Y : Height of son	154	156	158	159	160	162	161	164

Find the two lines of regression and calculate the expected average height of the son when the height of the father is 154 cm.

17. (a) In a certain factory turning razar blades there is a small chance of 1/500 for any blade to defective. The blades are in packets of 10. Use poison distribution to calculate the approximate number of packets containing

(i) No defective

(ii) One defective

(iii) 2 defective blades respectively in a consignment of 10,000 packets.

Or

(b) The weekly wages of 1000 workmen are normally distributed around a mean of Rs. 70 with a S.D. of Rs. 5. Estimate the number of workers whose weekly wages will be

(i) between Rs. 69 and Rs. 72

(ii) less than Rs. 69

(iii) more than Rs. 72.

18. (a) Calculate from the following data the Fisher's Ideal index and show how it satisfies the Time Reversal test and Factor Reversal test.

	Price		Quantity	
Item	1997	1998	1997	1998
A	8	20	50	60
B	2	6	15	10
C	1	2	20	25
D	2	5	10	8
E	1	5	40	30

Or

(b) The following table gives the classification of 100 workers according to sex and nature of work. Test whether the nature of work is independent of the sex of the worker.

	Stable	Unstable	Total
Males	40	20	60
Females	10	30	40
	50	50	100

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

AIRPORT ECONOMICS

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is the meaning of autonomous Airport?

2. List out the categories of Airport.

3. What are air navigation charges?

4. How is runway capacity determined?

5. What do you mean by economies of scale?

6. Define 'Airport charges'.

7. What are the objectives of slot trading?

8. What do you mean by airport franchise?

9. What is meant by Rate of return regulation?

10. What is the meaning of privatisation of airport?

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) How are airports categorised?

Or

(b) List out the inputs and outputs of airports.

12. (a) What are the constituencies of airport infrastructure?

Or

(b) Draw a flow chart of a terminal building passenger flow.

13. (a) What are the performance measures of airport?

Or

(b) List out the factors that determine airport price.

14. (a) Describe the factors affecting airport capacity.

Or

(b) What are the economic principles underlying slot trade?

15. (a) What are the principles of airport regulation?

Or

(b) State the reasons for privatising airports.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Bring out the role of aviation industry in the economic development of a country.

Or

(b) Enumerate the factors that influence customer satisfaction of an airport.

17. (a) What are the causes fro delay in airport? Explain its consequences.

Or

(b) Explain the various forms of airport regulatory mechanism.

18. (a) Argue for and against airport privatisation.

Or

(b) Critically examine the emerging trends in airport business activity.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

HUMAN RESOURCE MANAGEMENT

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define human resource.

2. What are the objectives of HR planning?

3. What do you mean by job analysis?

4. Define recruitment.

5. Define training and development.

6. What are the needs of man power?

7. What are the types of incentive?

8. Define employee benefits.

9. What do you mean by industrial relation?

10. Define stress.

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Write short note on role of human resource management.

Or

(b) Explain the importance of manpower planning.

12. (a) Write short note on job description.

Or

(b) Discuss the recruitment through internet.

13. (a) What are the types of training?

Or

(b) Explain about the purpose and types of promotions.

14. (a) Discuss the factors influencing remuneration.

Or

(b) Write a short note on compensation plan.

15. (a) Explain about industrial disputes.

Or

(b) Write a short note on trade union.

Part C (3 × 10 = 30)

Answer all **three** questions.

16. (a) Explain in detail about the functions of personnel management.

Or

(b) Briefly discuss about the functions of HR manager.

17. (a) Explain in detail about methods of job analysis.

Or

(b) Discuss briefly about the methods of recruitment.

18. (a) Explain in detail about employee compensation.

Or

(b) Describe the merits and limitations of incentive payments.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

BUSINESS RESEARCH METHODS

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What are the types of research?

2. Define sampling design.

3. Name the types of hypothesis.

4. What do you mean by measurement?

5. What is primary data?

6. What do you mean by data analysis?

7. What is test of significance?

8. What do you mean by sign test?

9. Name the types of report.

10. What do you mean by executive summary?

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) What are the problems in faced by researcher in social research?

Or

(b) Write a short note on probability sample.

12. (a) Discuss the features of good research design.

Or

(b) Explain the tests of sound measurement.

13. (a) What are the types of data?

Or

(b) How do you analyse data?

14. (a) Write the importance of T-test.

Or

(b) Write a short note on ANOVA.

15. (a) Discuss the significance of report writing.

Or

(b) Write a short note on oral presentation.

Part C $(3 \times 10 = 30)$

Answer **all** questions.

16. (a) Explain in detail about the steps in research process.

Or

(b) Briefly discuss the types of sample design.

17. (a) How do you formulate research design? Explain with suitable illustration.

Or

(b) Explain in detail about the techniques of measurement.

18. (a) Discuss the steps involved in report writing.

Or

(b) Explain the norms for using tables, charts and diagrams.

23

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

QUANTITATIVE TECHNIQUES

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Enumerate various components of linear programming problem.

2. List out various types of Decision model.

3. Discuss about the applications of transportation problems in Quantitative Techniques.

4. What is saddle point?

5. Why sequencing various jobs is necessary for operational effectiveness?

6. Discuss about sequencing '*n*' jobs to '2' machines.

7. Briefly discuss about P.E.R.T.

8. Write a short note on C.P.M.

9. Confer on waiting line system.

10. What is queuing model?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Discuss about various Decision models elaborately.

Or

(b) Define the duality and write the dual problem to the LPP

Minimize : $Z = 4X_1 - 5X_2 + 2X_3$

Subject to : $X_1 + 10X_2 - 5X_3 \leq 80$

$50X_1 + 2X_3 \leq 10$

$X_1 + X_2 + X_3 \geq 8$

$X_1, X_2, X_3 \geq 0.$

12. (a) Explain in detail on how to derive optimal solutions by NWCM, LCM, and VAM.

Or

(b) What are the assigmnents which shall minimize the cost?

		Machines			
		W	X	Y	Z
Jobs	A	18	24	28	32
	B	8	13	17	18
	C	10	15	19	22

13. (a) Illustrate the steps to analyze 'n' jobs in '2' machines in detail.

Or

(b) Suppose we have five jobs, each of which has to be processed on two machines A and B in the order AB. Processing times are given in the following table :

Job	Machine – 1	Machine – 2
1	3	6
2	7	2
3	8	8
4	9	4
5	5	10

Determine an order in which these jobs should be processed so as to minimize the total processing time.

14. (a) Illustrate the conditions and steps to solve C.P.M. with suitable example.

Or

(b) Illustrate the conditions and steps to solve P.E.R.T. with suitable example.

15. (a) Discuss how policy has to be framed in relation to equipments that deteriorate gradually.

Or

(b) Explain various types of queuing models with appropriate diagram.

Part C $(3 \times 10 = 30)$

Answer **all** questions.

16. (a) Use graphical method to solve the following problem :

Maximize : $Z = 10X_1 + 15X_2$

Subject to Constraints : $2X_1 + X_2 \leq 26$

$$2X_1 + 4X_2 \leq 56$$
$$-X_1 + X_2 \leq 5$$
$$X_1, X_2 \geq 0.$$

Or

(b) A transport company has two types of trucks, Type X and Type Y. Type X has a refrigerated capacity of 40 m^3 and a non-refrigerated capacity of 20 m^3 while Type Y has the same overall volume with equal sections for refrigerated and non-refrigerated stock. A grocer needs to hire trucks for the transport of 4,000 m^3 of refrigerated stock and 3,000 m^3 of non-refrigerated stock. The cost per kilometer of a Type X is \$40, and \$30 for Type Y. How many trucks of each type should the grocer rent to achieve the minimum total cost?

17. (a) Critically analyze a method to sequence 'n' jobs in 'm' machines effectively.

Or

(b) The company has to process five items on three machines : *A, B* and *C*. Processing times are given in the following table :

Item	A	B	C
1	6	4	4
2	9	5	9
3	11	3	8
4	8	2	6
5	7	6	3

Find the sequence that minimizes the total elapsed time.

18. (a) Write an essay on Replacement theory.

Or

(b) Explain various waiting line models in detail.

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

PRINCIPLES OF AVIATION MANAGEMENT

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define the terms 'aviation' and 'aircraft'.

2. What is meant by span of control?

3. Distinguish between joint venture and strategic alliance.

4. State the meaning of airport terminal.

5. What is the aim of aviation regulation?

6. What are non-aeronautical charges?

7. What do you mean by General aviation?

8. What is the meaning of fractional ownership?

9. What are the components of National Airspace system?

10. What do you mean by airport slot?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Explain the three divisions of aviation.

Or

(b) Enumerate the principles of airline organisation.

12. (a) What are the consequences of mergers and alliances among airlines?

Or

(b) Enumerate the functional management activities in airports.

13. (a) What are the principles of good regulatory practices?

Or

(b) Explain the need for airport safety and protection.

14. (a) What are the advantages of business aviation?

Or

(b) What are the features of personal transportation?

15. (a) Explain the functions of air space management.

Or

(b) Explain the forms of privatising airports.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Describe the structure and significance of aviation industry.

Or

(b) Describe the organisational chart of airline firm.

17. (a) What are the terminals of airport? List out their functions.

Or

(b) Describe the air side configures of an airport.

18. (a) Explain the airport regulatory practices adopted in India.

Or

(b) Describe the phrases of flight and the process of controlling traffic in each phrase.

CP–8356

M.B.A. DEGREE EXAMINATION, NOVEMBER 2017

Airline and Airport Management

AIR CARRIER OPERATIONS

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is an air carrier?
2. Define clearway.
3. What is meant by law of torts?
4. What is load manifest?
5. Define V1 and V2.
6. What is meant by sterile cockpit rules?
7. What is observer seat?
8. What is meant by WAT? Who prepares it?
9. Mention three types of maintenance manual retrieval System.
10. Expand the following :
    (a) LAHSO
    (b) CASE
    (c) ARTS
    (d) CFR.

Part B

$(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Explain the different types of operations performed by air carriers.

Or

(b) Briefly explain about Inoperable instruments and equipments.

12. (a) Explain the organisational structure of air carrier with a diagram.

Or

(b) Describe people express exemption 3585.

13. (a) What are the four types of operating manuals? Briefly explain.

Or

(b) Write briefly about the flight dispatcher and his/her functions under Part 121.

14. (a) What are the management positions under FAR Part 135? Briefly explain.

Or

(b) Explain the operations specifications for an air carrier.

15. (a) What are Airworthiness requirements? Briefly explain.

Or

(b) Distinguish between dispatcher release document and flight release document.

Part C

(3 × 10 = 30)

Answer **all** questions.

16. (a) What are the tests the FAA uses in determining if an individual or company is acting as a common carrier?

Or

(b) Explain briefly about airplane security programme.

17. (a) Describe the airworthiness standards imposed by FAA on transport category aircrafts.

Or

(b) What are the instruments and equipments should be operational for take off?

18. (a) What is alcohol prevention programme? Explain in detail.

Or

(b) Explain the required management position under FAR Part 121.

Airline and Airport Management

AIRLINE AND AIRPORT MARKETING

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is the meaning of PESTE analysis?

2. State the meaning of product life cycle.

3. What do you mean by airline market segmentation?

4. Who is a low cost leader?

5. Name the inflight services offered by airlines.

6. What do you mean by brand equity?

7. What is meant by focus strategy?

8. Who is a package assembler?

9. What are commercial services in airport?

10. State the meaning of airport value chain.

Part B

$(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Explain the bases for airline market segmentation.

Or

(b) What are the advantages of forming airline alliances?

12. (a) Explain the types of focus strategies adopted by airlines.

Or

(b) How do airlines build brand image among customers?

13. (a) Explain the differentiation strategies adopted by airlines in their service.

Or

(b) Who are stake holders in airports? Explain their role in airport marketing.

14. (a) What are the conditions adopted by airlines to fix discount fare for air travel.

Or

(b) List out the non-aviation business in airports.

15. (a) What are the strategies adopted by airports to improve their market share?

Or

(b) Explain the concepts of point to point and multi point alliances among airports.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain Michael Porter's competitive forces and its application to airline industry.

Or

(b) Explain the components of customer relationship marketing strategy.

17. (a) Discuss the different types of pricing policies adopted by airlines.

Or

(b) What are the sources of revenues to airports? Explain how airports enhance their revenue.

18. (a) Explain the key drivers impacting on the size of airport's catchment area.

Or

(b) London airport is the best in class airport – Comment.

Airline and Airport Management

PRINCIPLES OF LOGISTICS MANAGEMENT

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define logistics management.

2. What do you mean by customer service?

3. Name the types of warehouse.

4. What do you mean by costing?

5. What is containerization?

6. Define distribution channel.

7. What do you understand by global logistics?

8. Define strategic logistics.

9. What is activity based costing?

10. What do you mean by logistics organization?

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Discuss the objectives of logistics management.

Or

(b) Write a short note on customer service.

12. (a) Discuss the functions of warehouse.

Or

(b) What are the principles of material storage?

13. (a) Explain about infrastructure of transport.

Or

(b) Write a short note on logistics outsourcing.

14. (a) Explain the process of automatic material handling.

Or

(b) Discuss about strategic logistics planning.

15. (a) Explain the performance levels of logistics.

Or

(b) Discuss logistics as a team work.

Part C $(3 \times 10 = 30)$

Answer **all** questions.

16. (a) Discuss in detail about material storage system.

Or

(b) Briefly explain the reasons for carrying inventories.

17. (a) Describe the design and characteristics of logistics information.

Or

(b) Give a brief account on third party logistics services contract.

18. (a) Briefly discuss reverse logistics as a competitive tool.

Or

(b) Explain the competitive framework of strategic logistics.

Airline and Airport Management

AVIATION AND AIRPORT SECURITY

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define hijacking.

2. What is meant by "Airway routes"?

3. State the importance of C.C.T.V.

4. What is baggage tag? Explain.

5. Define "Runway incursion".

6. What is meant by "Black September"?

7. Describe about various airport categories.

8. Briefly explain about F.B.I.

9. What do you mean by the term deregulations?

10. Define voiceprint identification.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) What is a cockpit door? Explain briefly.

Or

(b) Explain I.C.A.O.

12. (a) Who is a Sky Marshall? Explain briefly about the Sky Marshall program.

Or

(b) Describe Palestinian Liberation Organization.

13. (a) Explain Taggants in detail.

Or

(b) Describe about the trace detection technology today.

14. (a) Explain about passive millimeter and active millimeter wave imaging.

Or

(b) Differentiate blast containment and blast management.

15. (a) Discuss briefly about Microwave Holographic Imaging.

Or

(b) Explain door frame metal detectors and hand-held metal detector.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Briefly explain the consequences of 9/11 operations to the aviation industry.

Or

(b) What is counter terrorism? Explain three counter terrorist units in detail.

17. (a) Explain about initial public response in relation to security.

Or

(b) What is a metal detector? Explain the procedure of selecting a metal detector.

18. (a) What do you mean by the term "Air piracy"? What are the measures taken to prevent air privacy?

Or

(b) Discuss the Modus Operandi of Osama Bin Laden in Middle East.

Airline and Airport Management

STRATEGIC AIRPORT PLANNING

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What are the aim and scope of airport planning?

2. List out the uncertainities faced in airport planning.

3. What are the corporate vision of airport management?

4. What are the sources of airport revenues?

5. Describe the planning process.

6. What is scenario writing?

7. What are the components of airport?

8. What is Airport Beacon?

9. List out the different types of terminal design with neat sketch.

10. What are the objectives of Air traffic control?

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Explain stakeholders goals and objectives.

Or

(b) Describe the Institutional changes in the aviation sector.

12. (a) Distinguish between General Aviation and Military Aviation.

Or

(b) Explain the airline decisions that relate to future airport planning.

13. (a) Narrate the national planning concerns towards strategic airport planning.

Or

(b) Explain Airport System Design.

14. (a) Enumerate the duties of Airport Manager.

Or

(b) Describe the Navigational Aids used in Airfield.

15. (a) Explain the components of the airport terminal.

Or

(b) Describe the Airspace classes in detail.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Detail out the development of Airport Planning process.

Or

(b) Explain the environmental concerns of aviation industry that have global impact.

17. (a) Narrate the National Government Roles in airport planning.

Or

(b) Explain Airfield Lighting with neat sketch.

18. (a) Explain Airport system planning process in detail.

Or

(b) Enumerate the economic, political, and social roles of airports.

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define "Dangerous goods".

2. Define elasticity.

3. What is "Time Charter"?

4. What are "Diplomatic Mails"?

5. Define "Customer's Clearance".

6. What is "Chargeable Weight"?

7. Define S.L.I.

8. Who is a "Freight Forwarder"

9. What is "Prepaid Shipment"?

10. What is "Bill of Entry"?

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Explain the significance of air transport in logistics.

Or

(b) Explain the Military created by air transport in logistics.

12. (a) Explain route scheduling.

Or

(b) What factors determine selection of an freighter aircraft?

13. (a) What are the key products that are generally shipped overnight?

Or

(b) Explain 'A' 'B' 'C' categories of Diplomatic mails.

14. (a) Differentiate between H.A.W.B and M.A.W.B.

Or

(b) Explain the contents of a certificate of Insurance.

15. (a) Explain important considerations of packing.

Or

(b) What are the special services offered by air freight forwarder?

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Discuss the scope and significance of air cargo consolidation.

Or

(b) Discuss in detail "Airline Safety scoring".

17. (a) Compare and Contrast different modes of Cargo Logistics.

Or

(b) Discuss in detail aircraft loading procedure.

18. (a) Discuss the formation and functions of I.C.A.O.

Or

(b) Explain the major documents required for air cargo logistics.

FUTURE AVIATION SYSTEMS

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. What is synthesis?

2. Write the types of cargo.

3. What is crew culture?

4. How the airports are classified based on the revenue generated?

5. List out the data needed for Air traffic managers.

6. What are the objectives of Air traffic control?

7. What is free flight?

8. What is FANS?

9. What are the indirect benefits from future ATM systems?

10. Define ergonomics.

Part B (5 × 5 = 25)

Answer **all** questions.

11. (a) Describe the role of airports in the world.

Or

(b) Explain gate to gate concept.

12. (a) Explain cockpit automation features and limitations.

Or

(b) Describe the cultural factors in the cockpit.

13. (a) Narrate the nature of traffic flow management.

Or

(b) Explain the human factors in ATC with respect to various changes.

14. (a) Describe the benefits of future air traffic management system.

Or

(b) Explain the short comings and limitations of the conventional ATC system.

15. (a) Explain the various impact related towards Aircraft interior design.

Or

(b) Narrate the Ergonomics principles.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) Explain synthesis, top level synthesis and subsystem synthesis.

Or

(b) Narrate the future Air Traffic Management system.

17. (a) Explain cockpit display objectives and the laws for cockpit instrument display design.

Or

(b) Narrate the Grid theory for understanding different behavioural styles of leadership.

18. (a) Explain the basic training issues in Air Traffic flow management.

Or

(b) Explain the FANS committee.

TRAVEL AND TOURISM MANAGEMENT

(2016 onwards)

Time : 3 Hours Maximum : 75 Marks

Part A (10 × 2 = 20)

Answer **all** questions.

1. Define whole sale travel agency.

2. What is meant by FOREX?

3. Define IATA Accreditation.

4. Explain MICE.

5. What are the types of itinerary?

6. What is a special interest tour?

7. Explain tourism trends.

8. Define IRACTE.

9. What are the types in costing?

10. Define sales distribution system in tourism.

Part B $(5 \times 5 = 25)$

Answer **all** questions.

11. (a) Explain the emergence of Thomas Cook company in modern travel trade.

Or

(b) How to maintain a retail travel agency?

12. (a) How to get IATA accreditation for a travel agency?

Or

(b) Explain the need and purpose of having travel insurance.

13. (a) What are the components and planning in group tour?

Or

(b) Explain the various forms of itinerary planning and development.

14. (a) Discuss the role of TAAI.

Or

(b) Explain the role and functions of UFTAA.

15. (a) Write a brief note on sales distribution system in tourism sector.

Or

(b) Explain ancillary services in tourism.

Part C (3 × 10 = 30)

Answer **all** questions.

16. (a) How to develop a travel agency with your own interest, by using IATA accreditations?

Or

(b) Elucidate the linkage and integration of travel agency with principles service providers.

17. (a) Discuss the do's and don'ts of itinerary preparation.

Or

(b) Create a group tour plan and discuss the problems faced by you.

18. (a) Explain the following :

(i) IHRA

(ii) ITDC

(iii) DOT.

Or

(b) Give a brief note on various problems faced by the transportation sector in tourism.
